

2 February 2026

RESIGNATION OF DIRECTOR

Deep Yellow Ltd (**Deep Yellow** or **Company**) (**ASX: DYL**) announces that Ms Gillian Swaby has decided to resign as an Executive Director of the Company, effective today. Ms Swaby will remain with the Company on a consulting basis until the end of February 2026.

Ms Swaby joined Deep Yellow in 2005, initially as a Non-executive Director before taking on the role of Executive Director in 2016. During her time with Deep Yellow Ms Swaby played a key role in securing and advancing the Company's flagship uranium development opportunities, Tumas and Mulga Rock.

Commenting on Ms Swaby's decision to resign, Deep Yellow Non-Executive Chair Chris Salisbury said: *"I would like to thank Gill for her 20 years of service to Deep Yellow, during which time she has made a profound, positive impact on the Company and helped to position Deep Yellow as a leading ASX-listed uranium stock. On behalf of the Board, I wish Gill all the best for the future."*

Deep Yellow also wishes to confirm that, as previously announced, Greg Field has today commenced in his role as Managing Director and CEO.

CHRIS SALISBURY
Non-Executive Chair
Deep Yellow Limited

This ASX announcement was authorised for release by Mr Chris Salisbury, Chair, for and on behalf of the Board of Deep Yellow Limited.

About Deep Yellow Limited

Deep Yellow Limited is successfully progressing a dual-pillar growth strategy to establish a globally diversified, Tier-1 uranium company to produce 10+ Mlb pa.

The Company's portfolio contains the largest uranium resource base of any ASX-listed company, and its projects provide geographic and development diversity. Deep Yellow is the only ASX company with two advanced projects – flagship Tumas, Namibia and Mulga Rock, Western Australia, both located in Tier-1 uranium jurisdictions.

Deep Yellow is well-positioned for further growth through development of its highly prospective exploration portfolio – Alligator River, Northern Territory and Omahola, Namibia with ongoing M&A focused on high-quality assets should opportunities arise that best fit the Company's strategy.

Led by a best-in-class team, who are proven uranium mine builders and operators, the Company is advancing its growth strategy at a time when the need for nuclear energy is becoming the only viable option in the mid-to-long term to provide baseload power supply and achieve zero emission targets. Importantly, Deep Yellow is on track to becoming a reliable and long-term uranium producer, able to provide production optionality, security of supply and geographic diversity.
