

February Corporate Update

Robust. Grade. Margin. Upside.

Important Information and Disclaimer

ASX: RXL

Important - you must read the following before continuing

The following notices and disclaimers apply to this presentation and you are therefore advised to read this carefully before reading or making any other use of this presentation or any information contained in this presentation. This presentation has been authorised for release to the Australian Securities Exchange ("ASX") by the Board of directors of Rox ("Board").

This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in such jurisdiction.

Summary information

This presentation contains general and background information about Rox's activities current at the date of this presentation (unless otherwise indicated). The information in this presentation is in summary form and does not purport to be complete nor does it contain all the information in relation to Rox. It should be read in conjunction with Rox's other periodic and continuous disclosure announcements lodged with the ASX at www.asx.com.au. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this presentation.

Not an Offer

This presentation is for information purposes only. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction.

Financial information

All financial information in this presentation is in Australian dollars unless otherwise stated.

Non-IFRS Financial Measures

The Company uses certain financial measures to assess how the Project is projected to perform. These financial measures, such as net present value (NPV) and internal rate of return (IRR) (collectively referred to as Non-IFRS Financial Measures) are not recognised under International Financial Reporting Standards (IFRS).

The Company considers the Non-IFRS Financial Measures provide useful information about the estimated financial forecasts derived from the DFS, however, they should not be considered in isolation or as a substitute for measures of performance or cash flow prepared in accordance with IFRS.

Since the financial forecasts and economic discussion in this announcement are not based on IFRS, they do not have standardised definitions and the way these measures have been derived may not be comparable to similarly titled measures used by other companies. Investors should therefore not place undue reliance on these Non-IFRS Financial Measures.

Not investment advice

This presentation does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include, amongst others, the risk of adverse or unanticipated market, financial or political developments.

Important Information and Disclaimer

ASX: RXL

Important - you must read the following before continuing

No Liability

To the maximum extent permitted by law, Rox and its related bodies corporate and affiliates, and the respective officers, directors, partners, employees, agents and advisers of Rox and its related bodies corporate and affiliates: (i) disclaim all responsibility and liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) for any loss, expense, damage or cost arising from this presentation or reliance on anything contained in or omitted from it or otherwise arising in connection with this presentation; (ii) disclaim any obligations or undertaking to release any updates or revision to the information in this presentation to reflect any change in expectations or assumption; and (iii) do not make any representation or warranty, express or implied, as to the accuracy, reliability, completeness of the information in this presentation or that this presentation contains all material information about Rox or that a prospective investor or purchaser may require in evaluating a possible investment in Rox or acquisition of shares in Rox, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement.

No party other than Rox has authorised or caused the issue of this presentation, or takes any responsibility for, or makes any statements, representations or undertakings in this presentation.

Forward-Looking Statements

This presentation may include forward-looking statements. Forward-looking statements include, but are not limited to, statements preceded by words such as "planned", "expected", "projected", "estimated", "may", "scheduled", "intends", "anticipates", "believes", "potential", "could", "likely", "nominal", "conceptual", "propose", "will", "forecast", "estimate", and similar expressions. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Rox. Neither the Company, its officers nor any other person gives any warranty, representation, assurance or guarantee that the events or other matters expressed or implied in this presentation (including the forward-looking statements) will actually occur. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, recipients are cautioned not to place reliance on forward-looking statements.

Any forward-looking statement in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Rox does not undertake any obligation to update or revise any information or any of the forward-looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward-looking statement is based.

Production Target

The Production Target (and forecast financial information derived from the Production Target) referred to in this announcement is underpinned by Indicated Mineral Resources of approximately 80% and Inferred Mineral Resources of approximately 20% over the DFS mine period. The first four years of the Production Target is underpinned by approximately 89% Indicated Mineral Resources with 11% classified as Inferred Mineral Resources. The total Life of Mine Production Target includes 20% Inferred Resources ounces, 5% Indicated Resource ounces outside of Reserve and the remaining 75% is underpinned by Probable Ore Reserves. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself (or the forecast financial information) will be realised.

Competent Person Statements

Exploration Results

The information in this report that relates to Exploration Results is based on information compiled and reviewed by Andrew Shaw-Stuart a Competent Person who is a Fellow Member of the Australian Institute of Geoscientists (AIG), Exploration Manager at Rox Resources and holds performance rights and shares in the Company. Mr Shaw-Stuart has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Shaw-Stuart consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

Mineral Resource Statements

The statement of estimates of Mineral Resources for the Youanmi Gold Project in this presentation was reported by Rox in accordance with ASX Listing Rule 5.8 and the JORC Code (2012 edition) in the announcement "Underground Resource Increased to 2.1Moz" released to the ASX on 21 July 2025, and for which the consent of the Competent Person Mr Steve Le Brun was obtained. A copy of that announcement is available at www.asx.com.au. Mr Le Brun is the Principal Resource Geologist for the Company and holds performance rights and shares in the Company. Rox confirms it is not aware of any new information or data that materially affects the Mineral Resources estimates information included in that market announcement and that all material assumptions and technical parameters underpinning the Mineral Resources estimates in that announcement continue to apply and have not materially changed. Rox confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from that market announcement.

Competent Person Statements

Metallurgical Results

The information in this presentation that relates to metallurgical results is based on information compiled and reviewed by Mr Michael Davis a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy and a Metallurgist and Director of MineScope Services Pty Ltd. Mr Davis has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Davis consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Ore Reserve Estimate

The statement of estimates of Ore Reserves for the Youanmi Gold Project in this presentation was reported by Rox in accordance with ASX Listing Rule 5.9 and the JORC Code (2012 edition) in the announcement "Youanmi Gold Project Definitive Feasibility Study" released to the ASX on 13 November 2025, and for which the consent of the Competent Person Mr Daniel Marchesi was obtained. A copy of that announcement is available at www.asx.com.au. Mr Marchesi is the General Manager - Studies for the Company and holds performance rights and shares in the Company. Rox confirms it is not aware of any new information or data that materially affects the Ore Reserves estimates information included in that market announcement and that all material assumptions and technical parameters underpinning the Ore Reserves estimates in that announcement continue to apply and have not materially changed. Rox confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from that market announcement.

Definitive-Feasibility Study

The information in this presentation that relates to the Production Target and Definitive Feasibility Study for the Youanmi Gold Project was reported by Rox in accordance with ASX Listing Rules and the JORC Code (2012 edition) in the announcement "Youanmi Gold Project Definitive Feasibility Study" released to the ASX on 13 November 2025, and for which the consent of the Competent Person Mr Daniel Marchesi was obtained. A copy of that announcement is available at www.asx.com.au. Mr Marchesi is the General Manager - Studies for the Company and holds performance rights and shares in the Company. Rox confirms it is not aware of any new information or data that materially affects the information included in that market announcement and that all material assumptions and technical parameters underpinning the production target, and the related forecast financial information derived from the production target in that market announcement continue to apply and have not materially changed. Rox confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from that market announcement.

Flagship - Youanmi Gold Project

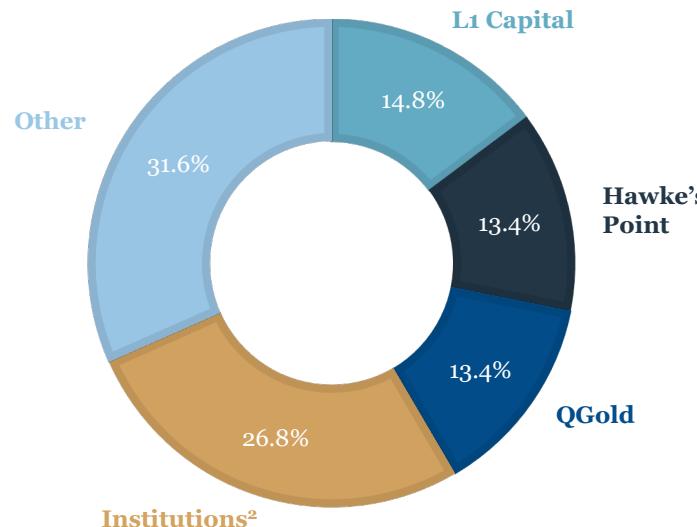

ASX: RXL

- Located in the central Youanmi Greenstone Belt, within the Southern Cross Province of the Archaean Yilgarn Craton
- Situated in Western Australia – globally recognised as Australia's premier gold province
- Planned initial + 7 year mine life averaging ~117koz per annum with significant growth potential
- Strong production history with 667koz at 5.42g/t from open pit and underground mining

Capital structure (30 January 2026)

Shares on Issue	1,388m
Share Price	A\$0.56

Canaccord Genuity

DFS Highlights – Youanmi Gold Project

ASX: RXL

Low Cost & High Margin

- Low AISC of A\$1,978/oz resulting in a high margin
- Free cash flow of approx. A\$2.3 billion pre-tax at gold price of A\$5,200/oz
- Free cash flow of approx. A\$3.7 billion pre-tax at spot gold price of A\$7,000/oz
- Pre-production capital of A\$383 million
- Project resilient to gold price decreases

Project Funding Well Advanced

- A\$218 million equity completed ~40% of the ~A\$450 million funding requirement
- Debt process has been running parallel to study work and permitting
 - Strong appetite from leading lenders
 - Terms and conditions positive
 - Expectation for binding term sheets Q1 CY2026

Average 117koz pa Production Profile

- Production profile of ~117 koz pa – 817 koz gold doré
- Produced over the 7-year initial Life Of Mine
- Plant metallurgical recovery of 90.8%
- 1,000 ktpa Plant capacity and 900 ktpa initial Mine Plan
 - Expectation to grow production rates and mine life with further drilling
- Mill to have planned stockpile of 190 kt at ~3.3g/t Au prior to commissioning

Compelling NPV and IRR

- NPV₈ A\$1.4 billion and IRR 69% (pre-tax), A\$1.0 billion and IRR 55% (post-tax) at the base case of A\$5,200/oz
- NPV₈ A\$2.4 billion and IRR 102% (pre-tax), A\$1.7 billion and IRR 81% (post-tax) at a spot gold price of A\$7,000/oz

High-Grade Reserve and Resource

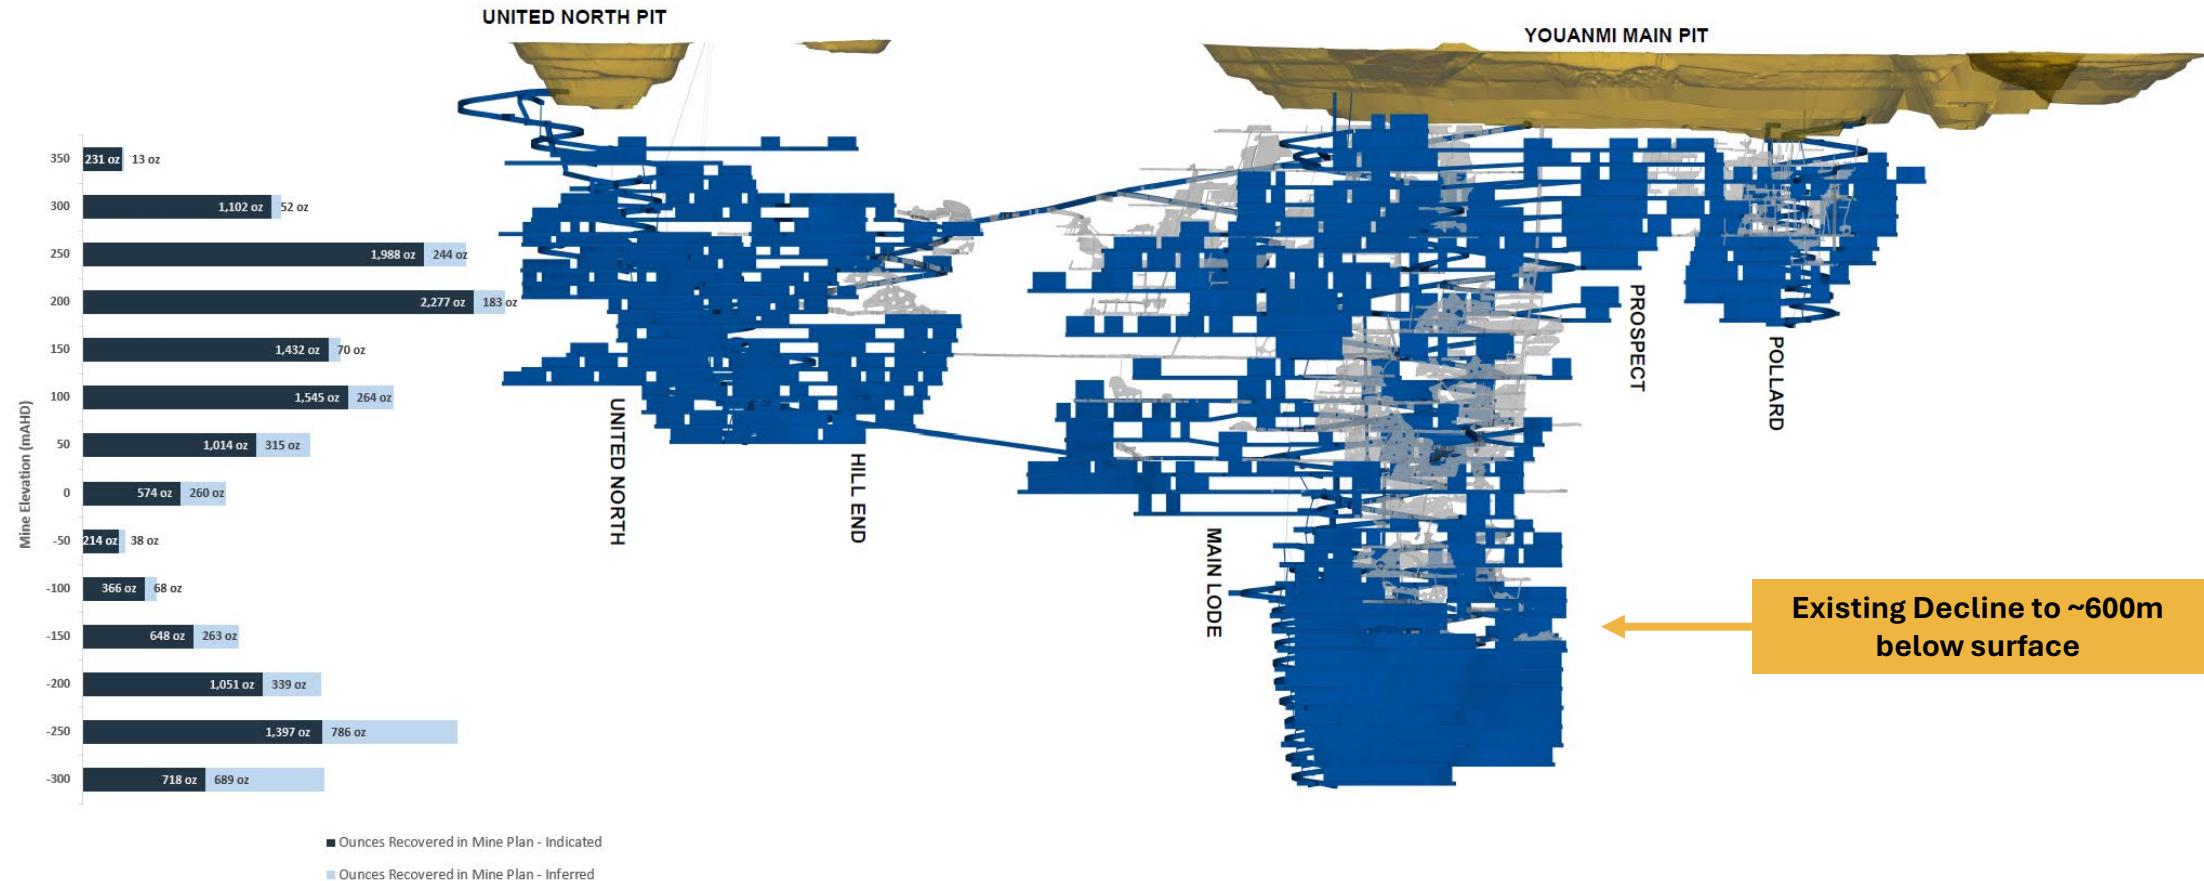

- Probable Ore Reserve Estimate of 4.4 Mt @ 4.8 g/t Au for 674 koz
- Mine plan of 5.7 Mt @ 4.9 g/t Au for 900 koz
- Mineral Resource of 12.1 Mt @ 5.6 g/t Au for 2,170 koz

High-Grade Ore Reserve

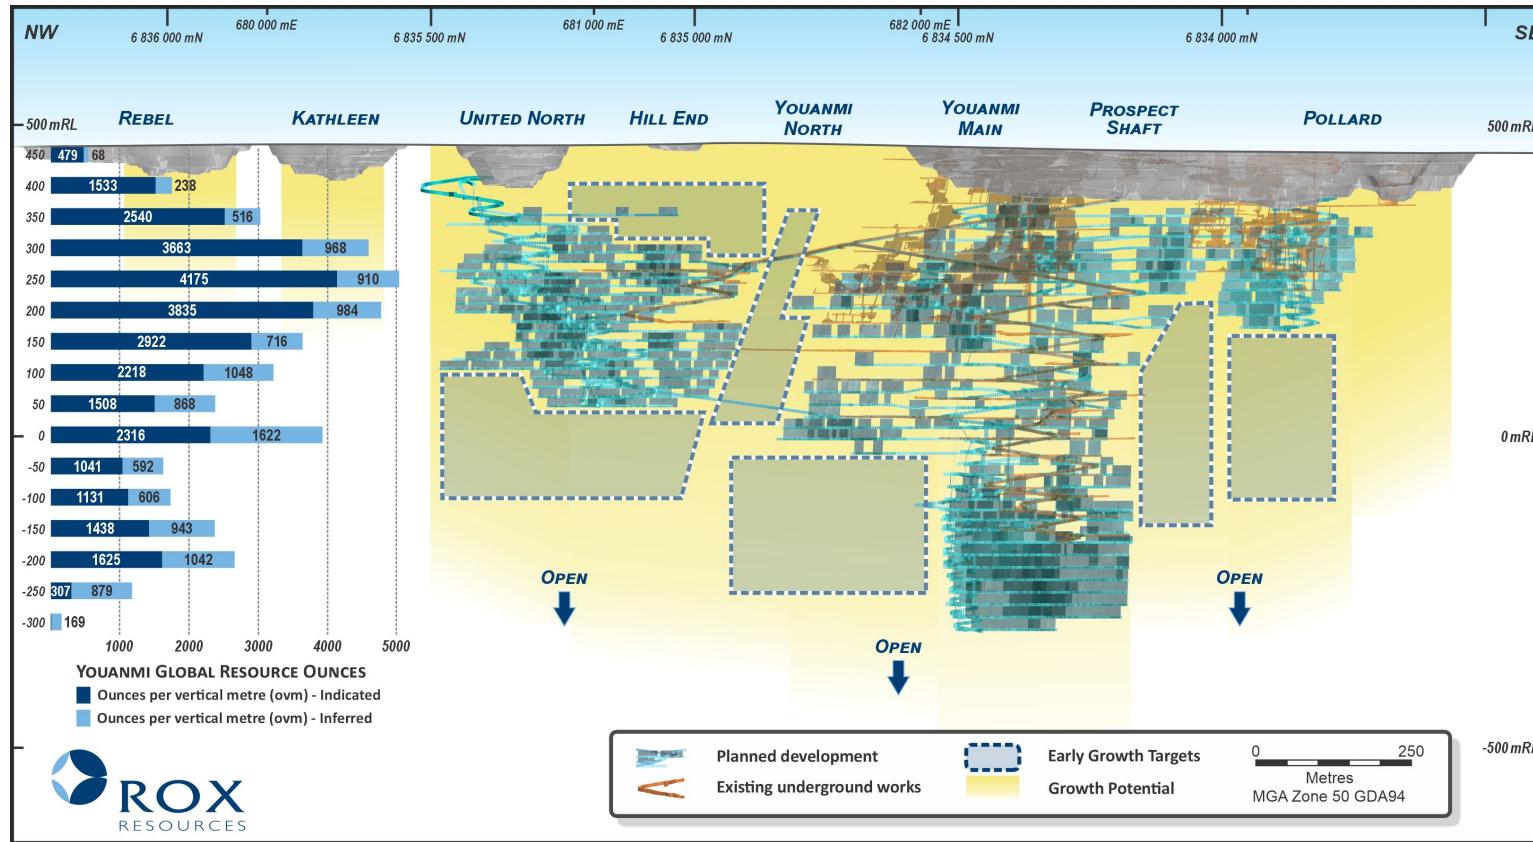

ASX: RXL

Ore Reserve	Tonnes (Mt)	Grade (g/t Au)	Contained Ounces (koz)
Proved Underground Ore Reserve	-	-	-
Probable Underground Ore Reserve	4.4	4.8	674
Total Underground Ore Reserve	4.4	4.8	674

Mine Plan Growth Opportunities

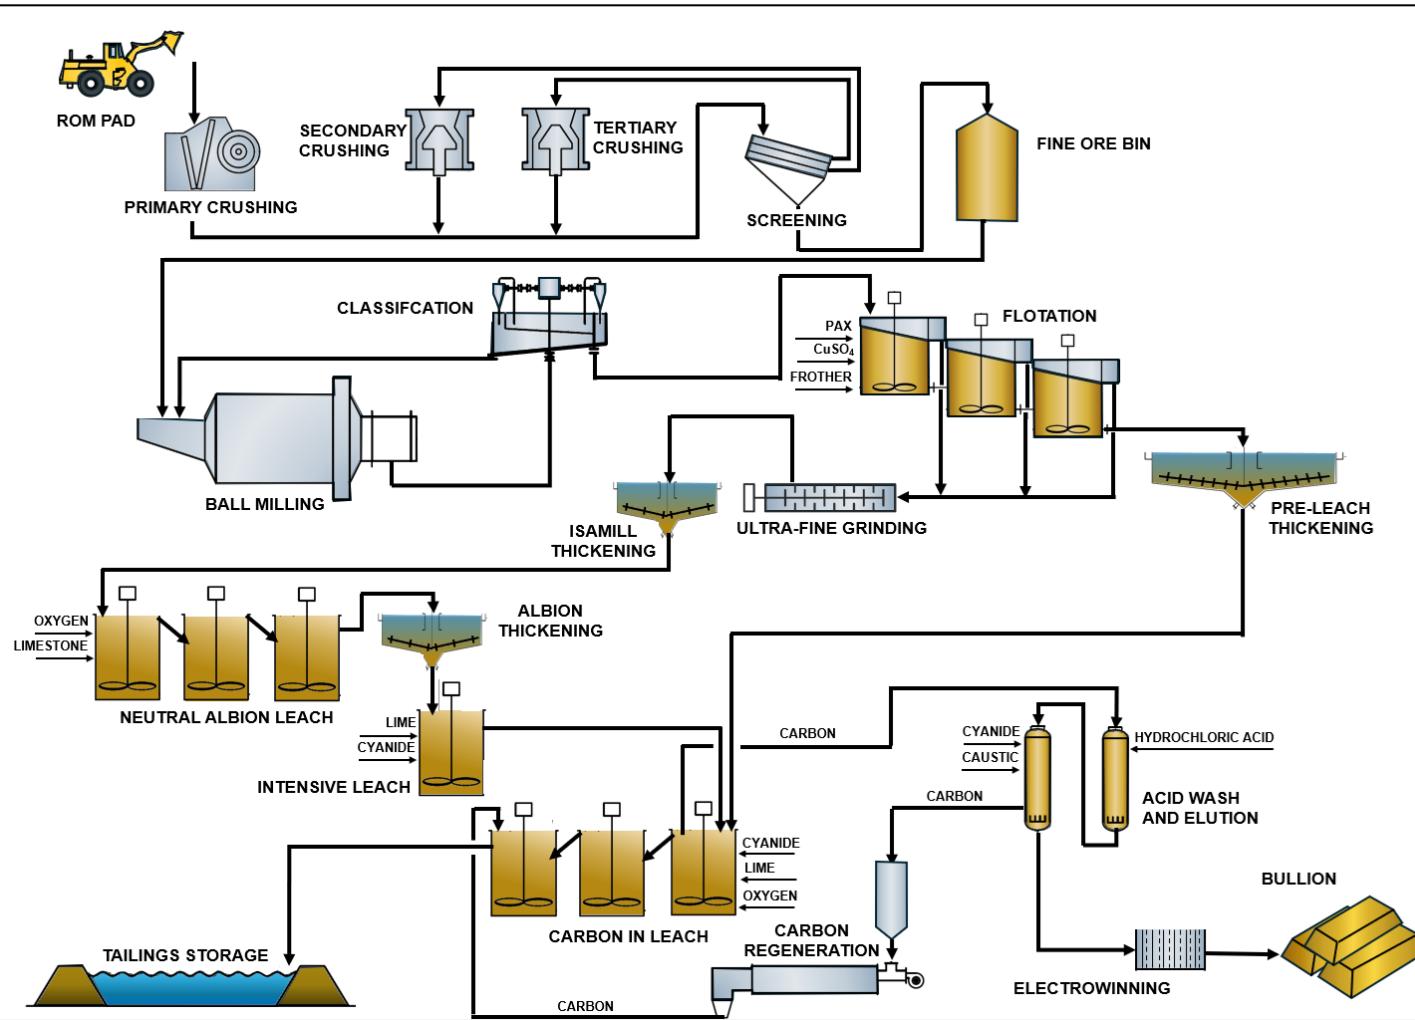

ASX: RXL

- Opportunities to unlock more potential in the Mine Plan with further planned drilling along strike and down dip
- Top 300 metres of the Resource has greater than 4,000 ounces per vertical metre
- Significant opportunity to increase mining production rate and extend the life of mine
- **Base mine plan is the starting point**

Category	Cut-off	Indicated				Inferred			Total		
	Grade (g/t)	Tonnes (Mt)	Au Grade (g/t)	Au Metal (Koz)	Tonnes (Mt)	Au Grade (g/t)	Au Metal (Koz)	Tonnes (Mt)	Au Grade (g/t)	Au Metal (Koz)	
Open Pit	0.5	0.7	2.0	48	0.5	1.3	22	1.2	1.7	70	
Underground	2.5	7.2	6.4	1,499	3.6	5.2	602	10.9	6.0	2,101	
Total		7.9	6.0	1,546	4.1	4.7	623	12.1	5.6	2,170	

Simple flowsheet to produce gold doré averaging 117koz per annum – recoveries estimated at 90.8%, with extra plant capacity

Understood Metallurgy, Simple Flowsheet

92% of gold associated with sulphides, 60% of gold classified as free milling

Sulphide combination of Pyrite and Arsenopyrite

- Gold associated with pyrite mostly recovered with Ultrafine Grind
- Gold on boundaries of Arsenopyrite, partial oxidation required

Comminution (BWi)

- 16 kwh/t, only slightly abrasive, typical 3 stage crush, ball mill to P_{80} 75 μm

Flotation

- Average 91.6% total gold recovery to concentrate
- Mass pull only ~9% (of the feed, this is the amount to concentrate)

Albion Oxidation – the concentrate

- IsaMill ultrafine grind to P_{80} 12 μm
- Recovery of gold from Albion Oxidation of 94.0%

Cyanide Leach

- Conventional leach to recover the gold from the flotation tails and the oxidised concentrate to deliver 90.8% overall recovery

Gold bars poured onsite

Significant steps forward on pathway to production

- Significant infrastructure – 111 room camp operational
 - Next phase camp expansion underway
- Pumping more than 75% complete in Main Pit
- United North exploration decline established, Byrnecut fully mobilised
 - Provide UG Drill Platforms for H1 CY 2026
- Pollard exploration decline expected in H1 CY2026
- Major clearing permit obtained
- Underground Mining Approvals obtained
- Office installation completed
- EPC Tenders for Mill under review
- Commenced ordering long lead mill items
- Approvals for plant and infrastructure lodged

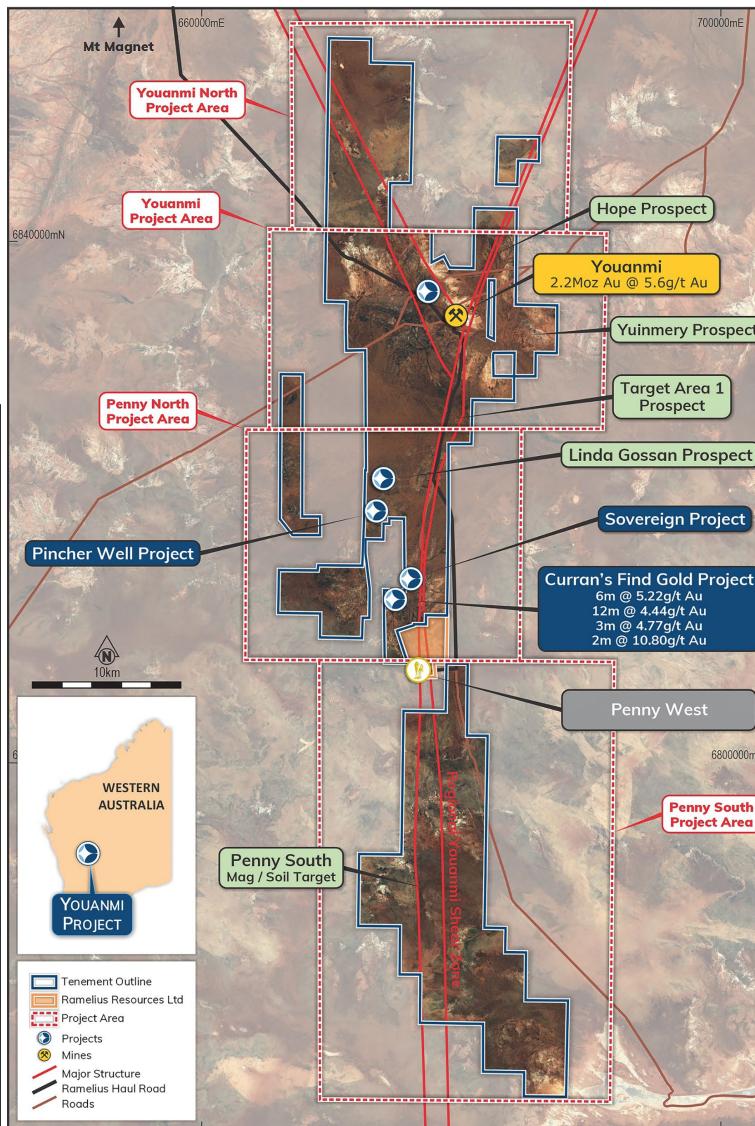

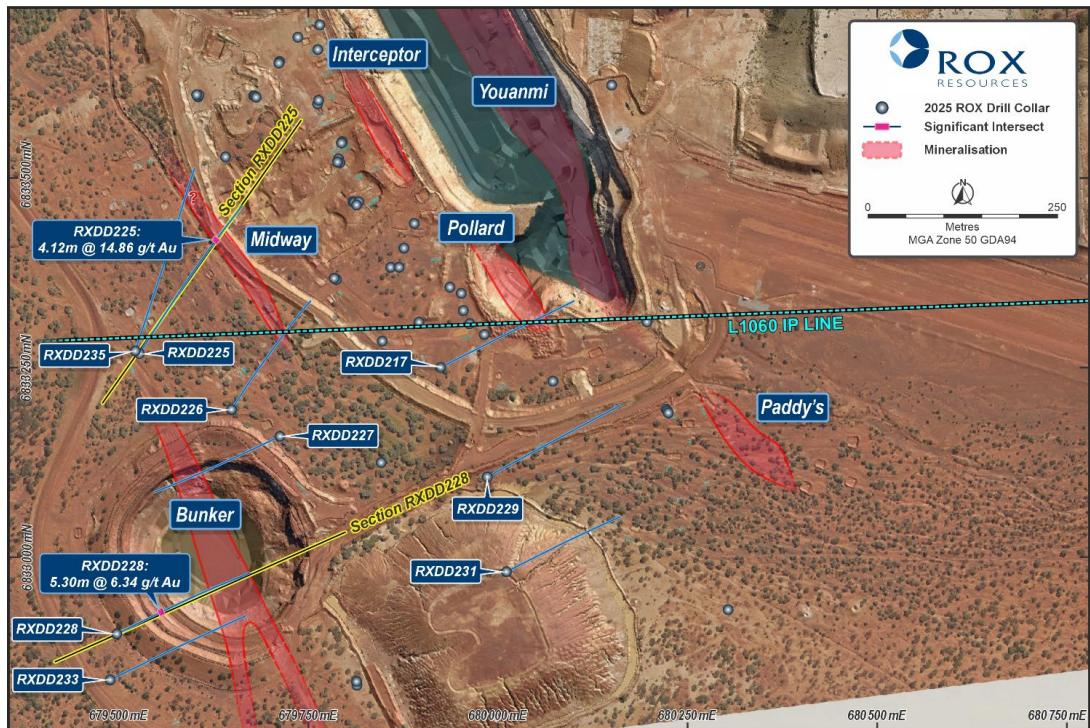

Exploration Potential >60km strike on Youanmi Shear Zone

ASX: RXL

- Very little drilling outside the existing mine areas of Youanmi and Penny West
- Recent Aeromagnetic survey data processed and target generation underway
- Further work planned regionally to commence in early CY 2026
- In-fill drilling for initial mining areas to commence Q1 CY 2026
- Successful Exploration Incentive Scheme (EIS) co-funding application for southern end of Youanmi

Recent results¹

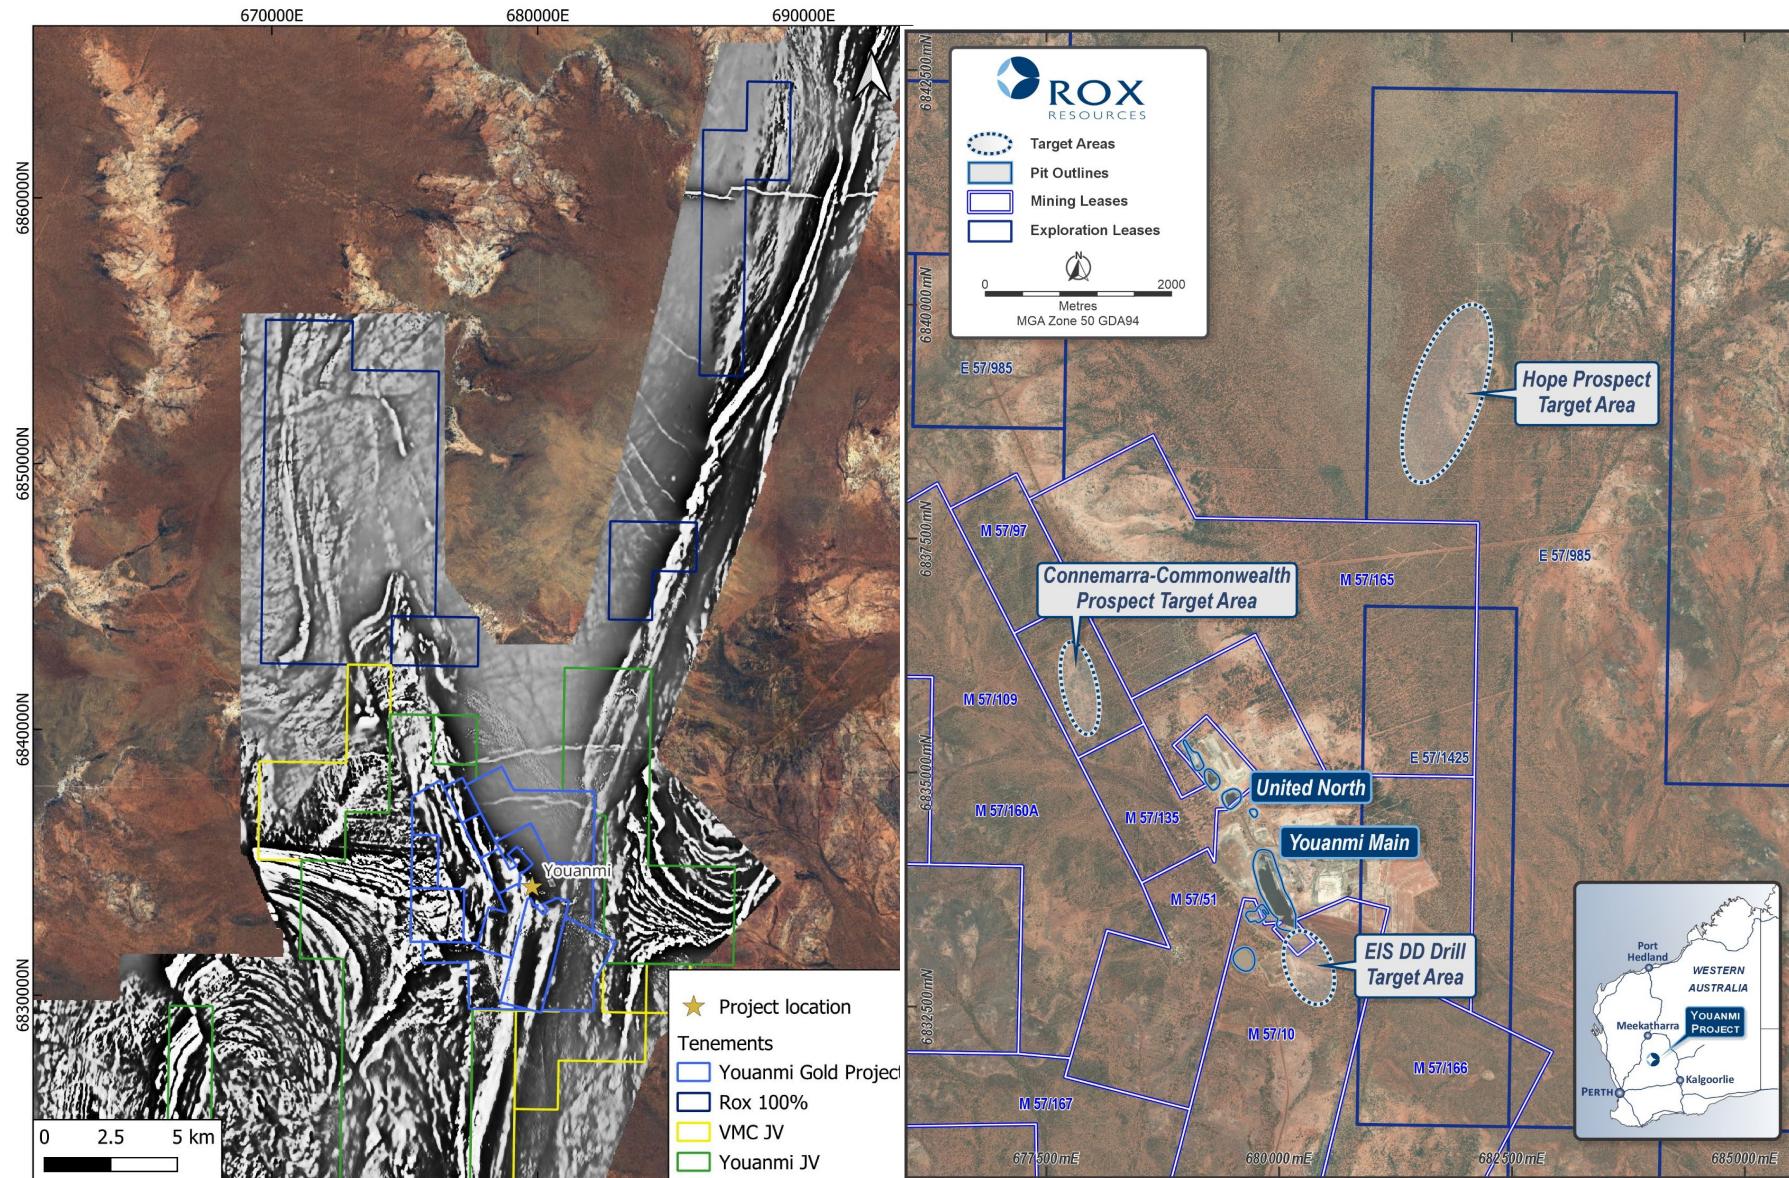

- Significant gold mineralisation intersected between the Bunker pit and Paddy's lodes:
 - RXDD217 6.00m @ 2.32g/t Au from 165.0m
 - RXDD217 0.69m @ 6.81g/t Au from 229.2m
- High-grade assay results adjacent to the Youanmi and Bunker pits including:
 - RXDD228 5.30m @ 6.34g/t Au from 84.2m (Bunker)
 - RXDD225 4.12m @ 14.86g/t Au from 330.9m (Midway)

Drilling and Exploration Plan

ASX: RXL

- Aeromagnetic survey interpretation and targeting commenced for follow up drill testing in H2 CY2026
- H1 CY 2026 Drill Programs to focus on:
 - Infill drilling upper levels of mine plan
 - Surface initially then Underground
 - Connemarra - Commonwealth
 - Previous small-scale high-grade mine
 - Hope Prospect
 - North along the main shear, potential high-grade target
 - South of Youanmi main(EIS)
 - Between the main shear and Pollard

Vision to deliver sustainable and superior value for our shareholders, employees and communities

Continue Early Works

- Continue with phase 2 – 4 camp construction (240 rooms plus new dry mess)
- Advance United North exploration decline development
- Complete dewatering of Youanmi Main Pit
- Surface drilling to commence in Q1 CY 2026

Continue with Regulatory Approvals

- Continue necessary approvals documentation with the appropriate regulatory authorities to allow for commencement of construction and operations activities
 - MDCP lodged mid-December
 - Works Approval Lodged end of January

Progress Detailed Processing Plant Engineering

- Detailed engineering on the processing plant to enable earthworks and construction activities well advanced
- Order long lead mill items as required (underway, ISAMill™ committed)
- Issue EPC contract for Mill Construction

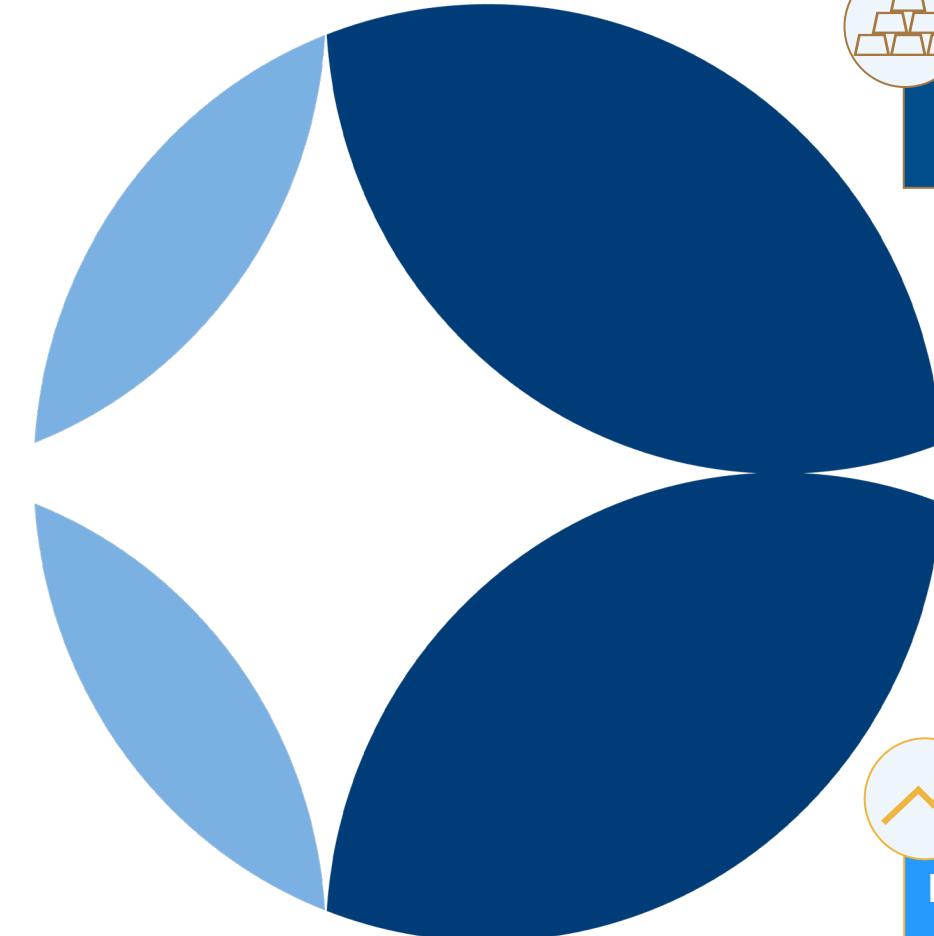

Proceed to Final Investment Decision

- Debt process has been running in parallel with study, expected binding term sheets in Q1 CY 2026
- Proceed to a Financial Investment Decision (FID) to fund the project into construction and operation

Investment Highlights

ASX: RXL

High-Grade Resource

- High-Grade Ore Reserve declared 674koz @ 4.8 g/t
- Initial Mine Plan of 900koz @ 4.9 g/t
- Mineral Resource of 2.2Moz @ 5.6 g/t

Resource Growth to increase scale

- Mineral Resource open down dip and along strike
- Drilling planned in early CY2026 from underground
- Potential to increase production rate and mine life

Compelling DFS Financials

- NPV₈ A\$1.4 billion and IRR 69% (pre-tax), A\$1.0 billion and IRR 55% (post-tax) at the base case of A\$5,200/oz
- NPV₈ A\$2.4 billion and IRR 102% (pre-tax), A\$1.7 billion and IRR 81% (post-tax) at a spot gold price of A\$7,000/oz

Re-rate potential

- Strong re-rate potential as the Youanmi Gold Project moves through Permitting, Funding and Construction
- Equity funding complete, Debt process well advanced

Other	51
Total Sustaining Capital	172

Note:

1. C1 cash cost and AISC are calculated based on gold produced. C1 cash cost includes mining, processing, administration, and accounting adjustments for stockpile movements, and is calculated based on gold produced post construction and commissioning. All-In Sustaining Cost (AISC) per ounce payable includes C1 cash cost, royalties and sustaining capital calculated based on gold produced post construction and commissioning. It does not include corporate cost, exploration cost and non-sustaining capital.
2. Contingency has not been applied to underground mining costs as these have come from direct pricing schedules based on a detailed mine design.
