### Review and Results of Operations

#### *Safety*

The 12-month moving average lost time injury frequency rate (LTIFR) was 0.34 at the end of the half-year. The LTIFR continues to be well below the WA gold industry average published by the WA Department of Mines, Industry Regulation and Safety.

#### *Environment*

No reportable environmental non-compliance or significant incidents have been reported in the half-year ended 31 December 2025.

Further information is available in the Company's sustainability report, which is available at [www.regisresources.com](http://www.regisresources.com).

#### *Results*

Consolidated net profit after tax for the half-year was \$322,752,000 (2024 half-year profit: \$88,446,000).

Operating results for the Duketon and Tropicana (Regis 30% share) Gold Projects for the half-year ended 31 December 2025 were as follows:

	Unit	2025			2024		
		Duketon Gold Project	Tropicana Gold Project (30%)	Total December 2025	Duketon Gold Project	Tropicana Gold Project (30%)	Total December 2024

All-in Sustaining Cost <sup>1</sup>	A\$/oz	2,990	2,536	2,850	2,659	1,958	2,403

#### *Duketon Gold Project Operations*

The Duketon Gold Project achieved half-year production of 115,986 ounces of gold at an all-in sustaining cost ("AISC") of \$2,990 per ounce (2024 half-year: 115,776 ounces of gold produced at an all-in sustaining cost of \$2,659 per ounce).

<sup>1</sup> All-in sustaining cost ("AISC") per ounce is calculated as cash cost per ounce, plus royalties, amounts capitalised for production stripping costs, sustaining capital and corporate costs, divided by gold ounces produced. Net realisable value adjustments to inventories are not included in AISC above.

The AISC measure is included to assist investors to better understand the performance of the business, is a non-IFRS measure, and where included in this report, has not been subject to review by the Group's auditor.

## Directors' Report (Continued)

Duketon Operations gold production was consistent with the previous corresponding period with higher throughput at a marginally lower grade.

AISC for the 2026 first half was \$2,990 per ounce compared to the previous corresponding period of \$2,659 per ounce primarily from higher proportion of lower grade stockpile feed.

### *Tropicana Gold Project Operations*

The Tropicana Gold Project is 30% owned by Regis and is operated by joint venture partner AngloGold Ashanti Australia Limited (70%).

The Tropicana Gold Project achieved half-year production of 70,931 ounces of gold (at 30%) at an all-in sustaining cost of \$2,536 per ounce.

The increase in AISC compared to \$1,958 per ounce in the previous corresponding period was mainly driven by lower head grades and recovery rates, with total tonnes milled in line with the half-year ended 31 December 2024.

### *Corporate*

#### **Gold Sales**

During the half-year ended 31 December 2025, the Company sold 182,327 ounces of gold at an average price of \$5,968 per ounce (2024 half-year: 197,690 ounces at an average price of \$3,932 per ounce).

#### **Dividend Paid and Declared**

As a result of the strong economic performance in the financial year ended 30 June 2025, the Directors paid a fully franked final dividend of 5 cents per share, totalling \$37.9M. The final dividend payment occurred on 6 October 2025.

Interim dividends declared by the Company to members since the half-year ended 31 December 2025 were (2024 half-year: Nil):

	Cents per share	Franked	Total amount '\$'000	Date of Payment
Ordinary shares	15.0c	100%	113,588	8 April 2026

### *Development*

#### **Garden Well Main Underground**

The development approved project (new underground mine) was announced to the market on 6 May 2024<sup>2</sup>. The current Garden Well Main mining inventory comprises 36% Indicated Mineral Resources, 24% Inferred Mineral Resources, and 41% Exploration Target<sup>3</sup>, or as yet unclassified material, for 3.2Mt at 2.8g/t Au for 295koz contained gold at a 2.2g/t cut-off grade. The project started infrastructure development on 1 July 2024 and achieved first stope production ore in Q1 FY26 as planned. Commercial production is still planned to commence in H2 FY26 and is forecasting underground ore mining rates of up to ~900 ktpa. Garden Well Main has a steady state annualised gold Production Target<sup>4</sup> of 60koz to 70koz from FY27.

#### **Rosemont Stage 3 Underground**

The development approved project (new underground mine) was announced to the market on 6 May 2024<sup>2</sup>. The Rosemont Stage 3 underground development is based on a mining inventory that comprises 30% Indicated Mineral Resources, 39% Inferred Mineral Resources

<sup>2</sup> ASX release “Development Approval For Two Underground Mines and Underground Reserves Increase” dated 6 May 2024 and clarified in ASX announcement titled “Clarification – Regis’ Underground Growth Projects” dated 10 May 2024.

<sup>3</sup> Exploration Target at Garden Well is extracted from ASX release “Mineral Resource and Ore Reserve Statement” dated 20 June 2023. The Garden Well Exploration Target is estimated to contain between 9Mt and 18Mt at a grade ranging between 2.3 g/t Au and 2.9 g/t Au across the deposit. The Exploration Target area includes the known Garden Well underground mineral system as well as potential down plunge depth extensions and open areas along strike, both North and South, with a 1,000m vertical extent from +350m RL to -650m RL.

<sup>4</sup> Relevant Proportions Underpinning the Production Target Regis has developed a steady state annualised gold Production Target of between 100koz and 120koz from FY27 from its two new Duketon underground mines, Garden Well Main and Rosemont Stage 3. This Production Target includes 33% Indicated Mineral Resources, 31% Inferred Mineral Resources and 36% Exploration Target. Material Assumptions: The material assumptions on which the Production Target is based are provided below. • The marginal break-even gold price for the Garden Well Main and Rosemont Stage 3 underground mines is \$2,600/oz. • Inferred Mineral Resource and Exploration Target material within all mining shapes have been included in the Production Target with conversion factors at both underground mines • Financial modelling based on internal cost and metallurgical recovery estimates are in-line with those applied to the mineral inventory estimate Cautionary Statement concerning the proportion of Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources. Further exploration work will not necessarily convert them to Indicated Mineral Resources or realise the Production Target itself. Cautionary Statement concerning the Proportion of Exploration Target Of Regis’ Production Target, 36% comprises an Exploration Target. The potential quantity and grade of this Exploration Target are conceptual in nature, and there is no certainty that further exploration work will result in the determination of Mineral Resources or that the Production Target itself will be realised. Competent Persons have prepared the mineral inventories and Exploration Targets underpinning the Production Target in accordance with the requirements of the JORC Code 2012.

## Directors' Report (Continued)

and 31% Exploration Target<sup>5</sup>, or as yet unclassified material, for 1.7 Mt at 2.8 g/t Au for 157koz contained Au at 2.3g/t Au cut-off grade. The pre-production infrastructure development started on 1 July 2024 and achieved first stope production ore in Q1 FY26 as planned. Commercial production is still planned to commence in H2 FY26 and is forecasting underground ore mining rates are up to ~600 ktpa. Rosemont Stage 3 is expected to deliver a steady state annualised gold Production Target<sup>4</sup> of 40koz to 50koz from FY27.

### Buckingham – Wellington Open Pit

A review has taken place within the historical Buckingham and Wellington pits situated at Duketon North, which has resulted in an increase in the Buckingham-Wellington Probable Ore Reserves by 123Koz to 251Koz<sup>6</sup>. The updated mine plan for Buckingham-Wellington extends the mine life of the Duketon North Operations, maintains continuity, delivers incremental production and cashflow. The mine life is expected to deliver 223koz of recovered gold over 6 years, with all ounces coming from Probable Ore Reserves of 8.8Mt at 0.89g/t for 251koz (at a 0.38g/t cut-off grade) with an average AISC of \$3,524/oz. First ore is scheduled for Q4 FY26, with pre-stripping activities having already started as at 31 December 2025.

### Tropicana – Havana Underground

The Havana underground project was approved in August 2024. Development of the Havana portal and decline commenced in the third quarter of 2024. Commercial production remains on track for early in the 2027 calendar year.

### Exploration

The Bi-Annual exploration update released to the ASX on 9 December 2025 further highlighted the size and potential of the Company's assets. During the half-year ended 31 December 2025, Regis drilled a total of 142,551 metres across Duketon and Tropicana (100%) as shown below:

Type	Duketon	Tropicana
	Metres	Metres
RC	57,194	-
Diamond	47,292	38,065
<b>Total</b>	<b>104,486</b>	<b>38,065</b>

Significant exploration projects advanced during the half-year ended 31 December 2025 are outlined as follows.

### Garden Well Main Underground

Drilling beneath the Garden Well open pit has progressively expanded the understanding of down-plunge and along-strike continuity and has strengthened confidence in the structural and stratigraphic controls on gold distribution. Continued exploration activities and improving geological knowledge are discovering mineralised extensions down-plunge of the current underground Mineral Resource, which, if confirmed, will increase mine life and enhance value. The 1km-long exploration decline extending from Garden Well South to the Garden Well Main Zone continues to provide ideal access to test and realise the potential of other areas within the Exploration Target area.

### Rosemont Underground

The orebodies at Rosemont are hosted in a steeply dipping north-trending quartz-dolerite unit intruding into a mafic-ultramafic sequence. Drilling activities have continued to explore multiple high-grade shoots which extend around existing underground infrastructure and along strike to the south.

Current Rosemont underground mining areas include (from the north to the south) Rosemont Main, Rosemont Central and Rosemont South. Rosemont Stage 3 is a new underground area which has extended the Rosemont South production area down-dip and down-plunge.

Infill drilling of Rosemont South and Stage 3 continues to be completed from both surface and underground locations. Surface diamond drilling is also continuing to test the potential down-dip and down-plunge extensions to the mineralisation, further expanding the potential underground production areas.

### Ben Hur

The Ben Hur deposit is defined by mineralisation over a strike length of nearly 2km located 40km south of Rosemont and hosted in the same sub-vertical east dipping quartz dolerite. Drilling beneath Ben Hur has identified high-grade mineralisation with visible gold consistently seen on a sheared contact of the quartz-dolerite.

<sup>5</sup> Exploration Target at Rosemont is extracted from ASX release "Development Approval For Two Underground Mines and Underground Reserves Increase" dated 6 May 2024 and clarified in ASX announcement titled "Clarification – Regis' Underground Growth Projects" dated 10 May 2024. The Rosemont Exploration Target is estimated to contain between 0.6Mt to 0.8Mt at a grade ranging between 2g/t to 3g/t across the deposit. The Exploration Target area includes the known Rosemont underground mineral system as well as potential down plunge depth extensions and open areas along strike.

<sup>6</sup> ASX release titled "Organic Growth Extends Life at Duketon North Operations" dated 13 November 2025.

## Directors' Report (Continued)

Drilling during the period continues to support the Exploration Target at Ben Hur<sup>7</sup>. This deposit is estimated to contain between 4.0Mt and 6.0Mt at a grade ranging between 2.2 g/t Au and 2.8 g/t Au for a possible range of between 300koz and 550koz<sup>8</sup> across the identified zone and includes potential down plunge extensions of the current open pit mineralisation with a 500m vertical extent from 400m RL to -100m RL.

### Duketon Regional Exploration

Regional exploration continued to test conceptual targets and identify new gold anomalies as well as collecting baseline geological, geochemical, and geophysical data. This data has facilitated the prioritisation of ongoing exploration in the most prospective trends within the Duketon Belt. An area between Rosemont and Baneygo continues to return promising drilling results in a setting which is geologically similar to the existing orebodies on the trend. In addition, new targets south of Garden Well has returned strong mineralisation at Beamish South.

## TROPICANA

Exploration in and around the mine continues to define substantial extensions to mineralisation. The current period has focused on infill and extensional drilling at Boston Shaker and Tropicana underground mines and at the Havana underground mine as it progresses into a third production area.

### Boston Shaker Underground

Drilling at Boston Shaker over the last six months has focused on the conversion of inferred resources to indicated resources and extending mineralisation in unclassified areas. Significant potential exists for confirming the extensions to mineralisation down-plunge of existing resource areas. To test this potential a series of deep diamond holes were drilled, with results demonstrating significant depth extensions.

### Tropicana Underground

Drilling from an underground platform targeting the higher-grade down-dip extents of the Tropicana mineralisation continued during the period, demonstrating the significant areas of mineralisation. Infill drilling was also completed to convert resources from inferred to indicated category.

### Tropicana Regional Exploration

The regional exploration programme continues to explore the tenement portfolio, with the primary aim to discover satellite resources which can be trucked to the Tropicana Gold Mine (Tropicana).

### McPhillamys Gold Project (MGP)

As announced on 7 November 2024, Regis commenced formal legal proceedings in the Federal Court in respect of the former Federal Minister for Environment and Water, the Hon. Tanya Plibersek MP's declaration of protection over part of the approved McPhillamys Gold Project. The judicial review of the Section 10 declaration under the *Aboriginal and Torres Strait Islander Heritage Protection Act 1984 (Cth)* was heard by the Federal Court from 10 to 12 December 2025, and judgment is currently reserved.

## Events After Balance Date

On 18 February 2026, the Directors proposed an interim dividend on ordinary shares in respect of the 2026 half year. Refer to Note 7.

Other than the above matter, there have been no events subsequent to balance date that would significantly affect the amounts reported in the consolidated financial statements as at and for the half-year ended 31 December 2025.

## Auditor's Independence Declaration

The auditor's independence declaration as required under Section 307C of the Corporations Act 2001 is set out on the following page and forms part of the Directors' Report for the half-year ended 31 December 2025.

### Rounding

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (unless otherwise stated) under the option available to the company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. The Company is an entity to which the legislative instrument applies.

Signed in accordance with a resolution of the directors.

Mr James Mactier, Non-Executive Chairman  
 Perth, 18 February 2026

<sup>7</sup> ASX release titled "Underground Exploration Target Established at Ben Hur" dated 21 November 2024.

<sup>8</sup> The potential quantity and grade of the Exploration Target is conceptual in nature and therefore is an approximation. There has been insufficient exploration to estimate a Mineral Resource, and it is uncertain if further exploration will result in the estimation of a Mineral Resource. The Exploration Target has been prepared and reported in accordance with JORC Code 2012.

# Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Regis Resources Limited

I declare that, to the best of my knowledge and belief, in relation to the review of Regis Resources Limited for the half-year ended 31 December 2025 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the review; and
- ii. no contraventions of any applicable code of professional conduct in relation to the review.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the half-year ended 31 December 2025

### 1. Corporate Information

The interim condensed consolidated financial statements of Regis Resources Limited and its subsidiaries (collectively referred to as the "Group") for the six months ended 31 December 2025 were authorised for issue in accordance with a resolution of the directors on 18 February 2026.

Regis Resources Limited (the "Company") is a for profit company, limited by shares, incorporated and domiciled in Australia whose shares are publicly traded. The Group's principal activities are the exploration for, and production of, gold.

### 2. Basis of Preparation and Accounting Policies

#### Basis of preparation

The interim condensed consolidated financial statements for the half-year ended 31 December 2025 have been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 30 June 2025 which are available upon request from the Company's registered office or at [www.regisresources.com](http://www.regisresources.com).

#### Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 30 June 2025.

### 3. Operating Segment Information

The Group's two reporting segments comprise Duketon and Tropicana. These segments are unchanged from those reported at 30 June 2025.

#### Segment profit/(loss)

The following table presents revenue and profit information for reportable segments for the half-years ended 31 December 2025 and 2024 respectively.

### 12. Contingencies

South32 Limited (ASX: S32) ("South32") commenced proceedings against IGO Ltd (ASX:IGO) ("IGO") in the Supreme Court of Western Australia ("Supreme Court Proceedings")<sup>1</sup>. South32 is seeking a court declaration in relation to the interpretation of the Agreement for the Sale of Assets and Mining Tenements dated 1 August 1997 (as subsequently amended, assigned or novated) (the Royalty Agreement). Regis understands that South32 alleges that properly interpreted, it is owed royalty payments under the Royalty Agreement at the rate of 1.5% of gross revenue from 100% of production from the Tropicana Gold Project and is also seeking interest and costs. IGO, being the current counterparty to the Royalty Agreement, announced that it disputes the allegations and intends to strongly defend the claim. The hearing on this matter was held in December 2025 with the Judge reserving her decision.

Regis was formally joined as a party to the Supreme Court Proceedings by IGO on 24 July 2024<sup>2</sup>. Under the Asset Sale Agreement for the 30% interest in the Tropicana Gold Project between Regis, a wholly owned subsidiary of Regis (AFB Resources Pty Ltd) and IGO, Regis assumed liability for the royalty to the extent it may apply to any of the Tropicana Gold Project after its acquisition (Transferred Royalty). Also, under the Asset Sale Agreement Regis agreed to indemnify IGO for liability arising in relation to the Transferred Royalty on the terms of the Asset Sale Agreement. The hearing for this matter will be held after the decision on the matter between South 32 and IGO is delivered.

Regis' view at the time of the acquisition was, and remains, that no amount is due under the Royalty Agreement in respect of current operations at the Tropicana Gold Project, and Regis intends to take appropriate action to protect its position.

### 13. Subsequent Events

On 18 February 2026, the Directors proposed an interim dividend on ordinary shares in respect of the 2026 half year. Refer to Note 7.

Other than the above matter, there have been no events subsequent to balance date that would significantly affect the amounts reported in the consolidated financial statements as at and for the half-year ended 31 December 2025.

<sup>1</sup> ASX announcement titled "Tropicana Gold Mine Royalty Claim" dated 1 February 2024.

<sup>2</sup> ASX announcement titled "Update - Tropicana Gold Mine Royalty Claim" dated 21 June 2024.

## DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Regis Resources Limited, I state that:

In the opinion of the directors:

(a) The financial statements and notes of Regis Resources Limited for the half-year ended 31 December 2025 are in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and

(b) There are reasonable grounds to believe that the Company and Group will be able to pay its debts as and when they become due and payable.

On behalf of the board

Mr James Mactier  
Non-Executive Chairman  
Perth, 18 February 2026

# Independent Auditor's Review Report

To the shareholders of Regis Resources Limited

## Conclusion

We have reviewed the accompanying ***Interim Financial Report*** of Regis Resources Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Regis Resources Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the ***Group's*** financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The ***Interim Financial Report*** comprises:

- Consolidated balance sheet as at 31 December 2025
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flow for the half-year ended on that date
- Notes 1 to 13 comprising material accounting policies and other explanatory information
- The Directors' Declaration.

The ***Group*** comprises Regis Resources Limited (the Company) and the entities it controlled at the half year's end or from time to time during the half-year.

## Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of annual financial reports of public interest entities in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

## Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
