Cautionary statement

This presentation contains only a brief overview of Regis Resources Limited and its associated entities (“Regis or RRL”) and their respective activities and operations. The contents of this presentation, including matters relating to the geology of Regis’ projects, may rely on various assumptions and subjective interpretations which it is not possible to detail in this presentation and which have not been subject to any independent verification.

This presentation contains a number of forward-looking statements that are subject to risk factors associated with gold exploration, mining and production businesses. It is believed that the forward looking statements in this presentation are reasonable based on information available as at the date of this presentation but known and unknown risks and uncertainties, and factors outside of Regis’ control, may cause the actual results, performance and achievements of Regis to differ materially from those expressed or implied in this presentation. These risk factors include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation. Readers are cautioned not to place undue reliance on forward looking statements. No representation or warranty, express or implied is made as to the accuracy, currency or completeness of the information in this presentation, nor the future performance of Regis. Except as required by applicable law or regulations, Regis does not undertake to publicly update or review any forward-looking statements, whether as a result of new information or future events. Current and potential investors and shareholders should seek independent advice before making any investment decision in regard to Regis or its activities.

Mineral Resources, Ore Reserves and Exploration Results are extracted from the Mineral Resource and Ore Reserve Statement released to the ASX on 20 May 2025 (the Relevant ASX Announcements).

In each case, appropriate Competent Person’s consents were obtained for the release of that information in the Relevant ASX Announcements, and those consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Relevant ASX Announcements and in each case the Production Targets, forecast financial information and estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning that information in the Relevant ASX Announcements, continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original ASX announcement.

This presentation uses mineral reserves and mineral resources classification terms that comply with reporting standards in Australia. These standards differ significantly from the requirements of the United States Securities and Exchange Commission that are applicable to domestic United States reporting companies and, therefore, are not comparable.

Past performance and pro-forma financial information given in this document, including in relation to upgrades to resources and reserves, is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance, nor of Regis’ views on the Company’s future financial performance or condition. Investors should note that past performance of Regis, including the historical trading prices of its shares, cannot be relied upon as an indicator of and provides no guidance as to Regis’ future performance, including the future trading price of its shares. The historical information included in this presentation is, or is based on, information that has previously been released to the market.

As noted above, an investment in Regis shares is subject to known and unknown risks, some of which are beyond the control of Regis. Regis does not guarantee any particular rate of return or the performance of the Company, nor does it guarantee the repayment of capital from Regis or any particular tax treatment.

The distribution of this presentation (including an electronic copy) outside of Australia (including the United States) may be restricted by law and any such restrictions should be observed. Any non-compliance with these restrictions may contravene applicable securities laws.

Cash and Bullion¹ Movements 6 Months to 31 December 2025

Another period of strong gold sales and gold prices drive record operating cash flows and record cash and bullion balance.

Cash & Bullion Movement for the Half-Year Ended 31 December 2025

Note: Errors of summation may occur due to rounding.

1. Gold on hand at 31 December 2025 of 9,505oz valued at a spot gold price of A\$6,437/oz.

2. "Operations" cash flows on this chart differ to the \$639M statutory "Cash flows from operating activities" on the Consolidated Statement of Cash Flows in the audited financial report. The statutory amounts include Corporate & Interest, McPhillamys (shown separately above), and exclude bullion on hand at market value movements and AASB 16 Finance Lease payments (the latter of which is shown in "Cash flows from financing activities" on the statutory Consolidated Statement of Cash Flows in the audited financial report).

Consistency in Cash and Bullion Build

Solid fundamentals continue to deliver into record gold prices.

1. Includes \$20M non-recurring tax refund.
2. Cash and bullion build before \$300m debt repayment.

Movements of the Income Statement

Strong results highlight Regis' profitability.

Note: Errors of summation may occur due to rounding.
1. Includes McPhillamys costs expensed through the profit and loss.

- Gold sales revenue at spot was up 40% on record gold prices, partially offset by 16koz less ounces sold versus H1 FY25.
- H1 FY26 achieved gold price was A\$5,968/oz (Hi FY25: A\$3,932/oz).
- Finance costs are down with no more drawn debt.
- Tax expense has increased with significantly higher net profit before tax, noting a return to tax payments in March 2026.

Capital Management Policy – Returning Capital to Shareholders

\$0.15/share

Fully-franked **\$114M** dividend declared
for 1H FY26

~\$700m

Total Fully Franked dividends paid
since 2013

- Strong operating performance, combined with favourable gold market conditions, support the establishment of a new formal Capital Management Policy¹
- Policy provides a clear structure for returning capital to shareholders, whilst also prudently allocating capital to existing operations, maintaining a strong balance sheet, and funding continued growth
- Regis expects to pay fully-franked ordinary dividends, on a semi-annual basis, having regard to its prevailing cash and bullion balances, business cash flows, available franking credits, and capital allocation priorities.
- Ordinary dividend payments are expected to represent between 25% and 50% of the Group Cash Increase² over the preceding half financial year.

1. See ASX Announcement “Regis Dividend Policy”, 19 February 2026

2. Group Cash Increase is the increase in the Company’s cash and gold bullion balance over the relevant period after adding back any dividends paid along with adjustment for any current income tax payable liability.

FY26 Guidance Unchanged

 FY26 guidance demonstrates a continued focus on delivering profitable ounces and building cash balance.

Notes

The above data has been rounded, and errors of summation may occur due to rounding.

1. Ore Reserves are reported separately for open pits, underground and stockpiles.

2. Cut-off grades vary according to oxidation and lithology domains. Listed cut-offs are the weighted average of these various cut-off grades for that project classification.

3. Regis owns 70% of the King John project - part of the DSO operations. Only 70% of Regis share has been included in the above table.

4. Tropicana reported Reserves and Resources in ASX Release "Mineral Resource and Ore Reserve Update at Tropicana" dated 20 February 2025, reported as nearest 1,000,000 tonnes, 0.1 g/t gold grade and 1,000,000 ounces.
