

GTN Limited results for the half year ended 31 December 2025

Sydney, 26 February 2026 - GTN Limited (ASX: GTN) (Company or GTN), one of the largest broadcast media advertising platforms by audience reach in Australia, Brazil, Canada and the United Kingdom today announced its half year results for period ended 31 December 2025.

In line with GTN's stated objective of maximising cash returns for shareholders, the first half of FY26 reflected a reset of the GTN cost base and market positioning in response to ongoing challenging market conditions. During the period management has renegotiated significant affiliate arrangements, exited the aviation operations, continued to pursue operational cost efficiencies and launched several new revenue generating initiatives.

During the period, GTN returned \$43.9 million (23 cents per share) to shareholders via a return of capital (paid August 2025¹). This provided shareholders with a source of liquidity with the introduction of modest net leverage. With a continued focus on cash management, liquidity remains robust with cash on hand increasing to \$28.1 million at 31 December 2025, up from \$21.1 million at 30 June 2025. This outcome was largely driven by \$16.5 million of net operating cash flow – an improvement from (\$2.8 million) in the prior corresponding period reflecting the business's focus on cash.

Due to GTN's strong balance sheet position, with net debt² of ~\$7 million as at 31 December 2025 the Board has declared an interim dividend of \$0.01 per share (unfranked). Consistent with our disciplined approach to capital management, the Board intends to pursue further returns to shareholders, subject to the Company's ongoing capital requirements and maintaining a prudent balance sheet.

GTN experienced significant market pressures, particularly in the first quarter, with revenue of \$82.5 million and Adjusted EBITDA³ of \$5.8 million down 15% and 53% respectively, on the prior corresponding period.

During the period, the Company recognised a non-cash impairment charge of \$41.5 million in relation to two of its Cash Generating Units (**CGU's**), Australia and United Kingdom, reflecting a revision to near term financial forecasts and unanticipated macro-economic conditions in those markets.

Consistent with the priorities outlined in the FY25 investor presentation, management continues to progress its cost reset and market repositioning objectives targeting delivery in H226. Key developments include:

¹ The capital return was funded through drawing down the \$35 million bank facility negotiated in March 2025 and available cash balances

² Excludes impact of capital leases

³ Adjusted EBITDA is EBITDA adjusted to include the non-cash interest income arising from the Southern Cross Austereo Affiliate Contract and excluding transaction costs, foreign exchange gains/losses, gains and losses on asset disposing, gains on lease forgiveness and losses on refinancing

1) ~\$12-\$17 million cost-out initiatives, ~\$5 million capital proceeds benefit.

2) Market Repositioning to Support Revenue Growth

- a. New Go to Market initiatives with a focus on underserved direct clients.
- b. Focus on opportunities to utilise unsold inventory to optimise margin and deliver value to new client markets.
- c. Exploring opportunities with media agencies, through partnerships, to provide access to new clients.

The Company is focused on three strategic priorities in service of delivering cash returns to shareholders:

1. Strengthening core affiliate partnerships while ensuring value delivery for GTN, its clients and the partner;
2. Continuing to deliver a compelling, value creating proposition to advertising partners as the market needs evolve; and
3. Actively managing costs including through the use of emerging technologies, including AI.

With strong Board-shareholder alignment, the recent appointment of Vic Lorusso as GTN CEO and the experienced country leadership teams, management is well-positioned to capitalise on opportunities and deliver improved shareholder value.
