Chair's letter

Dear Insignia Financial Shareholder,

On behalf of the Insignia Financial Board, I am pleased to present you with this Scheme Booklet, which contains information in relation to the proposed acquisition of Insignia Financial by Daintree BidCo Pty Limited (ACN 686 668 619) (**Daintree BidCo**), an entity established by CC Capital Partners LLC (**CC Capital**) and its affiliates.

On 22 July 2025, Insignia Financial entered into a Scheme Implementation Deed with Daintree BidCo which provides for Daintree BidCo to acquire all of the issued shares in Insignia Financial at a price of \$4.80 per share by way of a scheme of arrangement under Part 5.1 of the Corporations Act (**Scheme**). For the reasons described below, the Insignia Financial Board unanimously recommends that Insignia Financial Shareholders vote in favour of the Scheme in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.¹

The Scheme is the outcome of a comprehensive process which commenced in December 2024 as a result of the receipt of the Initial Proposal to acquire all of the shares in Insignia Financial by way of scheme of arrangement for \$4.00 cash per Insignia Financial Share. This instigated competing unsolicited, non-binding indicative proposals from CC Capital, Bain Capital and Brookfield Capital Partners. Between CC Capital, Bain Capital and Brookfield Capital Partners, eight non-binding indicative proposals were

received in total, with the Scheme representing the highest binding offer price. The Scheme Consideration of \$4.80 cash per share represents a 20% premium to the Initial Proposal of \$4.00 per share and values Insignia Financial, on an enterprise value, at approximately \$3.8 billion².

Independent Expert's opinion

The Independent Expert, Kroll Australia Pty Ltd, has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal. The full report of the Independent Expert is set out in Annexure A.

Scheme Consideration

If the Scheme is implemented, Insignia Financial Shareholders will receive \$4.80 in cash for each Insignia Financial Share held at the Record Date (**Scheme Consideration**). The Scheme Consideration implies an enterprise value of approximately \$3.8 billion³ and represents a significant premium of:

- 56.9% to the closing price of \$3.06 per Insignia Financial Share on the Last Undisturbed Trading Day;⁴
- 49.8% to the 30-day volume weighted average price of \$3.20 per Insignia Financial Share up to and including the Last Undisturbed Trading Day;⁵
- 69.9% to the 90-day volume weighted average price of \$2.82 per Insignia Financial Share up to and including the Last Undisturbed Trading Day;⁶ and

1 You should note when considering this recommendation that, as set out in Section 9, Mr Scott Hartley (CEO and Executive Director) holds 804,485 IFL Performance Rights. Subject to ASX granting any necessary waivers, the Insignia Financial Board has resolved to approve the vesting of a total of 8,340,897 unvested IFL Performance Rights on the Scheme becoming Effective, including 25,174 of Mr Hartley's IFL Performance Rights which will be settled in cash for the Scheme Consideration (being an amount of \$120,835) on or by the Implementation Date. The remainder of Mr Hartley's IFL Performance Rights (being 779,311 IFL Performance Rights) will also vest and be settled in cash for the Scheme Consideration (being an amount of \$3,740,693, plus interest) on the Scheme becoming Effective, however, this sum will not be paid to Mr Hartley until the end of the minimum regulatory deferral period (in tranches from 30 June 2027 to 30 June 2030). The aggregate value of IFL Performance Rights held by Mr Hartley based on the Scheme Consideration is \$3,861,528, plus interest in respect of the deferred portion over the deferral period. See further sections 5.5.7 and 9.1.

2 Calculated on the basis that as at the Last Practicable Date, the fully diluted share capital of Insignia Financial is 678,482,777 comprising 670,726,143 Insignia Financial Shares and 12,414,870 IFL Performance Rights on issue, less 4,658,236 treasury shares, and net debt of \$528.7 million as at the Last Practicable Date.

4 Undisturbed share price is based on Insignia Financial's closing share price on the Last Undisturbed Trading Day.

5 30-day volume weighted average price per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 31 October 2024 to 11 December 2024 (inclusive).

6 90-day volume weighted average price per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 8 August 2024 to 11 December 2024 (inclusive).

The Insignia Financial Board considers that the Scheme is in the best interests of Insignia Financial Shareholders”

Chair's letter *continued*

- 82.0% to the 180-day volume weighted average price of \$2.64 per Insignia Financial Share up to and including the Last Undisturbed Trading Day.⁷

The Scheme Consideration of \$4.80 also falls within the valuation range of \$4.49 to \$5.08 per Insignia Financial Share, as determined by the Independent Expert.

Scheme of arrangement

The Scheme can only proceed if, among other conditions, it is approved by the Requisite Majority of Insignia Financial Shareholders being:

- at least 75% of the total number of votes cast on the Scheme Resolution at the Scheme Meeting; and
- a majority in number (i.e. more than 50% unless the Court orders otherwise) of Insignia Financial Shareholders present and voting at the Scheme Meeting,

and if it is subsequently approved by the Court at the Second Court Hearing.

Implementation of the Scheme is also conditional on, amongst other conditions, Daintree BidCo obtaining APRA and FIRB approval in respect of the Scheme and the satisfaction or, if applicable, waiver of certain Conditions Precedent (including there being no Material Adverse Change to Insignia Financial) (see section 4.5 for more information).

Unanimous Insignia Financial Board recommendation

The Insignia Financial Board has undertaken an extensive valuation and risk assessment of the Scheme, supported by its advisers. As a result of that assessment, the Insignia Financial Board considers that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders and the Insignia Financial Directors unanimously recommend that you vote in favour of the Scheme in the absence of a Superior Proposal and subject

to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.⁸ Subject to these qualifications, each Insignia Financial Director intends to vote all the Insignia Financial Shares held or controlled by them in favour of the Scheme.

In reaching their recommendation, the Insignia Financial Directors have assessed the Scheme having regard to the reasons to vote for, or against, the Scheme, as set out in this Scheme Booklet.

Advantages and disadvantages of the Scheme

The reasons you may wish to vote in favour of the Scheme include:

- the Insignia Financial Directors unanimously recommend that you vote in favour of the Scheme in the absence of a Superior Proposal, and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders;⁹
- the Independent Expert has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal;
- the Scheme Consideration of \$4.80 cash per share represents a significant premium to undisturbed share prices of Insignia Financial Shares;¹⁰
- the all cash consideration provides Insignia Financial Shareholders with certain and immediate value and you will no longer be exposed to the risks associated with an investment in Insignia Financial Shares;
- the Scheme Consideration of \$4.80 cash per share is the highest binding offer price received following a competitive process between CC Capital, Bain Capital and Brookfield Capital Partners;
- no Superior Proposal has emerged as at the date of this Scheme Booklet and, as at the date of this Scheme

⁷ 180-day volume weighted average price per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 2 April 2024 to 11 December 2024 (inclusive).

Booklet, the Insignia Financial Directors are not aware of any Superior Proposal that is likely to emerge;

- Insignia Financial's share price may fall if the Scheme is not approved and in the absence of a Superior Proposal;
- if the Scheme does not proceed, Insignia Financial Shareholders will continue to be exposed to risks specifically associated with the Insignia Financial Group's business and the Insignia Financial Board's strategy for the business, as well as other potentially adverse consequences and general market risks that may impact your investment; and
- no brokerage or stamp duty will be payable by you on the transfer of your Insignia Financial Shares.

The reasons you may not wish to vote for the Scheme include:

- you may disagree with the Independent Expert and the Insignia Financial Directors and believe that the Scheme is not fair and reasonable and in your best interests;
- you may consider that the Scheme Consideration is not acceptable having regard to your investment and/or does not reflect Insignia Financial's long-term potential and you may miss out on future potential upside;
- the tax consequences of transferring your Insignia Financial Shares pursuant to the Scheme may not be optimal for your financial position;
- you may consider that there is potential for a Superior Proposal to be made in the foreseeable future; and
- you may believe it is in your best interests to maintain your current investment and risk profile having regard to the investment profile of Insignia Financial and your investment objectives.

Further details on the Insignia Financial Directors' recommendation of the Scheme are set out in section 2 of this Scheme Booklet.

The Insignia Financial Board maintains a positive outlook for the long-term fundamentals and growth prospects of Insignia Financial as well as its future strategic direction, however equally recognises the risks associated with the implementation of that strategy and of the general market in which Insignia Financial operates.

The Insignia Financial Board believes that the Scheme offers a compelling opportunity for Insignia Financial Shareholders to immediately realise in cash the value of their investment.

1. Key information about the Scheme

What is the Scheme?

The Scheme is a scheme of arrangement between Insignia Financial and Scheme Participants. If the Scheme becomes Effective, Daintree BidCo will acquire all Insignia Financial Shares and Insignia Financial will become an indirectly wholly-owned subsidiary of Daintree TopCo, an entity owned by CC Investor, OneIM Investor, Carlyle Investor and their affiliates.

A “scheme of arrangement” is a statutory procedure that can be used to enable one company to acquire another company. It requires a vote in favour of the Scheme by a Requisite Majority of Insignia Financial Shareholders at a meeting of Insignia Financial Shareholders as well as Court approval.

If the Scheme proceeds and you are an Insignia Financial Shareholder on the Record Date you will receive \$4.80 per Insignia Financial Share in cash.

The resolution approving the Scheme must be passed by Insignia Financial Shareholders by the Requisite Majority, being:

- at least 75% of the total number of votes cast on the Scheme Resolution at the Scheme Meeting; and
- a majority in number (i.e. more than 50% unless the Court orders otherwise) of Insignia Financial Shareholders present and voting at the Scheme Meeting.

The Scheme is also subject to the satisfaction or waiver of the Conditions Precedent summarised in section 4.5 and set out in full in clause 3.1 of the Scheme Implementation Deed (a copy of which is set out in Annexure B), and approval by the Court.

The terms of the Scheme are set out in full in Annexure C.

What should I do?

You should read this Scheme Booklet carefully in its entirety and then vote by attending the Scheme Meeting or by appointing a proxy to vote on your behalf. Full details of who is eligible to vote and how to vote are set out on this page and in sections 4.7 and 4.8.

Answers to various frequently asked questions are set out in section 3. If you have any additional questions in relation to this Scheme Booklet or the Scheme, please consult your legal, financial, tax or other professional adviser or call the Shareholder Information Line on 1300 402 422 within Australia and + 61 1300 402 422 outside Australia between Monday and Friday from 9:00am to 5:00pm (Melbourne time) or visit events.miraqle.com/IFL-scheme.

What are the conditions to the Scheme?

The implementation of the Scheme is subject to several Conditions Precedent as set out in the Scheme Implementation Deed. Further details on the Conditions Precedent are set out in section 4.5.

As at the Last Practicable Date, Insignia Financial is not aware of any circumstances which would cause the Conditions Precedent that have not yet been satisfied or waived to not be satisfied. An update as to the status of the Conditions Precedent will be provided at the Scheme Meeting, or earlier if required.

How do I vote?

If you are registered on the Register at 10:00am on Saturday, 11 April 2026 as an Insignia Financial Shareholder, you will be entitled to vote on the resolution to approve the Scheme at the Scheme Meeting. Registrable transmission applications or transfers registered after this time will be disregarded in determining entitlements to vote at the Scheme Meeting.

If Insignia Financial Shares are jointly held, only 1 of the joint Insignia Financial Shareholders is entitled to vote. If more than 1 joint Insignia Financial Shareholder votes, only the vote of the Insignia Financial Shareholder whose name appears first on the Register will be counted.

What is the Insignia Financial Directors' recommendation?

The Insignia Financial Directors believe that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders and unanimously recommend that, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, Insignia Financial Shareholders vote in favour of the Scheme at the Scheme Meeting.¹¹

In reaching their recommendation, the Insignia Financial Directors have assessed the Scheme having regard to the reasons to vote for, or against, the Scheme, as set out in this Scheme Booklet.

The Insignia Financial Directors believe the offer represents a fair price and provides an opportunity for Insignia Financial Shareholders to realise certain value in cash in the near term which may not be achieved if the Scheme does not proceed.

Each of the Insignia Financial Directors intends to vote the Insignia Financial Shares that they own or control and will direct any Insignia Financial proxies placed at their discretion in favour of the Scheme in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.

¹¹ You should note when considering this recommendation that, as set out in Section 9, Mr Scott Hartley (CEO and Executive Director) holds 804,485 IFL Performance Rights. Subject to ASX granting any necessary waivers, the Insignia Financial Board has resolved to approve the vesting of a total of 8,340,897 unvested IFL Performance Rights on the Scheme becoming Effective, including 25,174 of Mr Hartley's IFL Performance Rights which will be settled in cash for the Scheme Consideration (being an amount of \$120,835) on or by the Implementation Date. The remainder of Mr Hartley's IFL Performance Rights (being 779,311 IFL Performance Rights) will also vest and be settled in cash for the Scheme Consideration (being an amount of \$3,740,693, plus interest) on the Scheme becoming Effective, however, this sum will not be paid to Mr Hartley until the end of the minimum regulatory deferral period (in tranches from 30 June 2027 to 30 June 2030). The aggregate value of IFL Performance Rights held by Mr Hartley based on the Scheme Consideration is \$3,861,528, plus interest in respect of the deferred portion over the deferral period. See further sections 5.5.7 and 9.1.

2. Matters relevant to your vote on the Scheme

The Scheme has a number of advantages and disadvantages that may affect Insignia Financial Shareholders in different ways depending on their individual circumstances. Those advantages and disadvantages are described in this section 2, a summary of which is set out below. Insignia Financial Shareholders should seek professional advice on their particular circumstances, as appropriate.

Section 2.1 describes some of the reasons why the Insignia Financial Board unanimously recommends that Insignia Financial Shareholders vote in favour of the Scheme in the absence of a Superior Proposal, and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.

Section 2.1 should be read in conjunction with section 2.2, which sets out potential reasons as to why Insignia Financial Shareholders may wish to vote against the Scheme.

Section 2.3 also sets out some additional considerations that may be relevant to your vote in respect of the Scheme. You should read this Scheme Booklet in full, including the Independent Expert's Report, before deciding how to vote at the Scheme Meeting.

While the Insignia Financial Directors acknowledge the potential reasons to vote against the Scheme, they believe the advantages of the Scheme significantly outweigh the disadvantages.

X	You may believe it is in your best interests to maintain your current investment and risk profile having regard to the investment profile of Insignia Financial and your investment objectives.

Reasons why you may not want to vote for the Scheme are discussed in more detail in section 2.2 of this Scheme Booklet.

2.1 Reasons why you may choose to vote in favour of the Scheme

2.1.1 The Insignia Financial Directors unanimously recommend that you vote in favour of the Scheme in the absence of a Superior Proposal, and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders¹⁴

The Insignia Financial Directors believe that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders and unanimously recommend that, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, Insignia Financial Shareholders vote in favour of the Scheme at the Scheme Meeting.

In reaching their recommendation, the Insignia Financial Directors have assessed the Scheme having regard to the reasons to vote for, or against, the Scheme, as set out in this Scheme Booklet.

The Insignia Financial Directors believe the offer represents an attractive price and provides an opportunity for Insignia Financial Shareholders to realise certain value in cash in the near term which may not be achieved in the near term, or at all if the Scheme does not proceed.

Each of the Insignia Financial Directors intends to vote the Insignia Financial Shares that they own or control and will direct any Insignia Financial proxies placed at their discretion, in favour of the Scheme in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.

The interests of the Insignia Financial Directors and the number and description of Insignia Financial Shares held by or on behalf of the Insignia Financial Directors are set out in section 9.1.

¹⁴ You should note when considering this recommendation that, as set out in Section 9, Mr Scott Hartley (CEO and Executive Director) holds 804,485 IFL Performance Rights. Subject to ASX granting any necessary waivers, the Insignia Financial Board has resolved to approve the vesting of a total of 8,340,897 unvested IFL Performance Rights on the Scheme becoming Effective, including 25,174 of Mr Hartley's IFL Performance Rights which will be settled in cash for the Scheme Consideration (being an amount of \$120,835) on or by the Implementation Date. See further sections 5.5.7 and 9.1.

2. Matters relevant to your vote on the Scheme *continued*

2.1.2 The Independent Expert has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal

The Independent Expert has analysed the Insignia Financial Group's business and, in light of this analysis, the Independent Expert has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal.

The Scheme Consideration of \$4.80 falls within the valuation range of \$4.49 to \$5.08 per Insignia Financial Share, as determined by the Independent Expert.

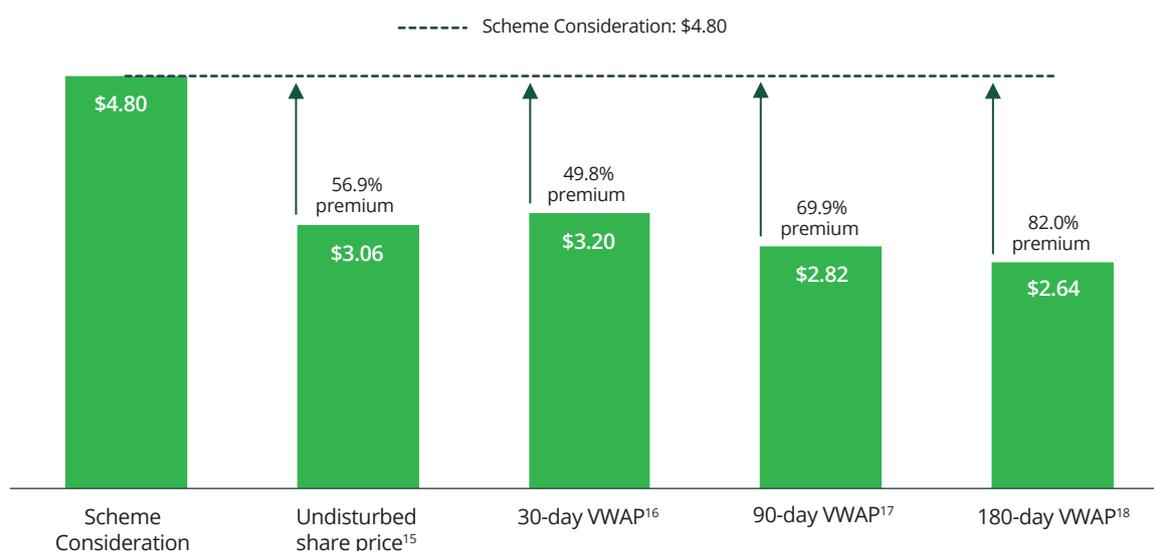

A copy of the Independent Expert's Report is set out in Annexure A. The Insignia Financial Directors encourage you to read the Independent Expert's Report in its entirety.

2.1.3 The Scheme Consideration of \$4.80 cash per share represents a significant premium to undisturbed share prices

The Scheme Consideration of \$4.80 cash per share payable to Insignia Financial Shareholders if the Scheme becomes Effective represents a significant premium of:

- 56.9% to Insignia Financial's closing share price of \$3.06 on the Last Undisturbed Trading Day;¹⁵
- 49.8% to the 30-day volume weighted average price of \$3.20 per Insignia Financial Share up to and including the Last Undisturbed Trading Day;¹⁶
- 69.9% to the 90-day volume weighted average price of \$2.82 per Insignia Financial Share up to and including the Last Undisturbed Trading Day;¹⁷ and
- 82.0% to the 180-day volume weighted average price of \$2.64 per Insignia Financial Share up to and including the Last Undisturbed Trading Day.¹⁸

Figure 1 – Scheme Consideration premium to undisturbed share prices

¹⁵ Undisturbed share price is based on Insignia Financial's closing share price on the Last Undisturbed Trading Day.

¹⁶ 30-day volume weighted average price (VWAP) per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 31 October 2024 to 11 December 2024 (inclusive).

¹⁷ 90-day volume weighted average price (VWAP) per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 8 August 2024 to 11 December 2024 (inclusive).

¹⁸ 180-day volume weighted average price (VWAP) per Insignia Financial Share is based on market value of Insignia Financial Shares traded on ASX divided by market volume traded on ASX, calculated from 2 April 2024 to 11 December 2024 (inclusive).

2.1.4 The all cash consideration provides Insignia Financial Shareholders with certain and immediate value and you will no longer be exposed to the risks associated with an investment in Insignia Financial Shares

If implemented, the Scheme Consideration of \$4.80 per Insignia Financial Share held on the Record Date provides the value and certainty of cash.

Specifically, if all conditions and approvals for the Scheme are satisfied or waived, as applicable, the Scheme Consideration will be provided to Insignia Financial Shareholders on the Implementation Date, which is expected to be paid on or about Tuesday, 28 April 2026.

In contrast, if the Scheme does not proceed, the amount which Insignia Financial Shareholders will be able to realise for their investment in Insignia Financial Shares (in terms of price and by way of any future dividends), will be uncertain.

Those uncertainties relate to the performance of the Insignia Financial Group's business from time to time, general economic conditions and movements in the securities markets. These risks are described in sections 7.2 and 7.3 of this Scheme Booklet.

In addition to the general business risks the Insignia Financial Group is exposed to, there are potentially other adverse consequences for the Insignia Financial Group if the Scheme does not proceed. More information about these risks is set out in section 7.5.

The Scheme removes these risks and uncertainty for Insignia Financial Shareholders and allows Insignia Financial Shareholders to exit their investment in Insignia Financial at a certain cash price of \$4.80 per share.

2.1.5 The Scheme Consideration of \$4.80 cash per share is the highest binding offer price received following a competitive process between CC Capital, Bain Capital and Brookfield Capital Partners

The Scheme is the outcome of a comprehensive and competitive process that was initiated following the receipt by Insignia Financial on 12 December 2024 of the Initial Proposal to acquire all of the shares in Insignia Financial by way of scheme of arrangement for \$4.00 cash per Insignia Financial Share. This instigated a competitive process with further unsolicited, non-binding indicative proposals being received from CC Capital, Bain Capital and Brookfield Capital Partners. Each of CC Capital, Bain Capital and Brookfield Capital Partners was provided with access to limited commercial due diligence information, with CC Capital and Bain Capital progressing to full due diligence. Between CC Capital, Bain Capital and Brookfield Capital Partners, eight non-binding indicative proposals were received in total (including a conditional, non-binding indicative proposal of \$5.00 per share received from CC Capital on 28 February 2025). The Scheme represents the highest binding offer price (noting CC Capital's \$5.00 offer was non-binding).

The Scheme Consideration of \$4.80 cash per share represents a 20% premium to the Initial Proposal of \$4.00 per share.

2.1.6 No Superior Proposal has emerged as at the date of this Scheme Booklet

As at the date of this Scheme Booklet, no Superior Proposal has emerged and the Insignia Financial Directors are not aware of any Superior Proposal that is likely to emerge. The Scheme Implementation Deed contains customary provisions which regulate the way in which Insignia Financial can respond to Competing Proposals, details of which are summarised in section 9.13.

The Insignia Financial Directors will notify Insignia Financial Shareholders if a Superior Proposal is received before the Scheme Meeting.

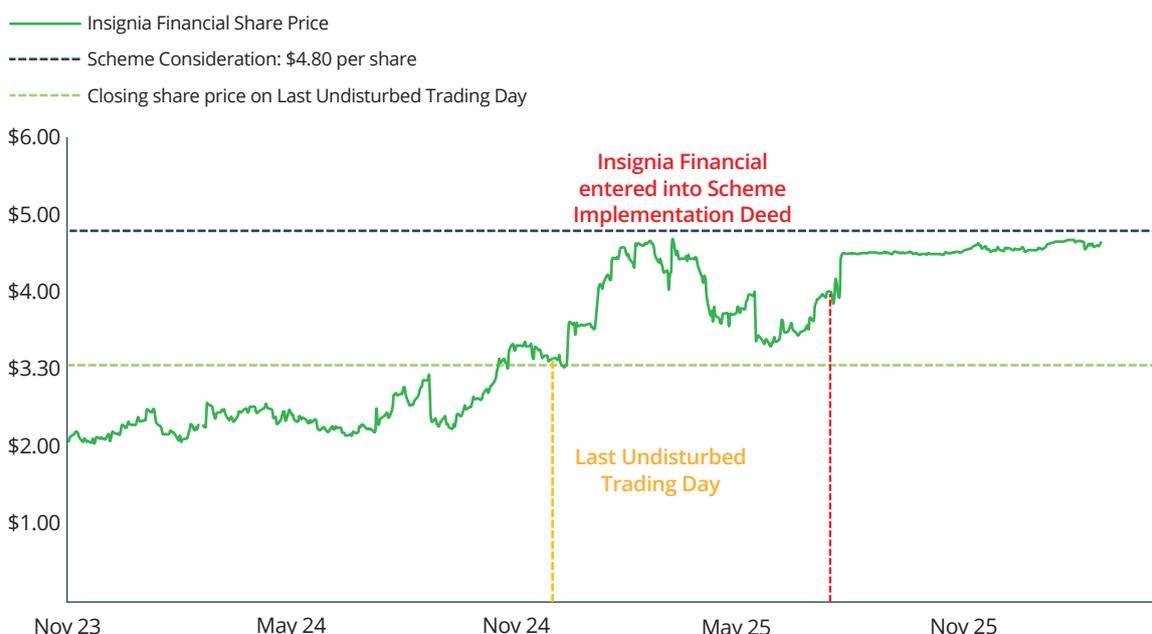

2. Matters relevant to your vote on the Scheme *continued*

2.1.7 Insignia Financial’s share price may fall if the Scheme is not approved and in the absence of a Superior Proposal

The Insignia Financial Directors are unable to predict the price at which the Insignia Financial Shares will trade in the future but consider that, if the Scheme is not approved and no Superior Proposal emerges, the Insignia Financial Share price may fall to below the level at which it has been trading since the Initial Proposal was announced on 13 December 2024. The Insignia Financial Directors also believe that if the Scheme is not approved and no Superior Proposal emerges, Insignia Financial Shares will remain subject to market volatility, including general movements in the stock market and the impact of general economic conditions (see section 7 of this Scheme Booklet for more details).

The chart below represents the closing price of Insignia Financial Shares over the last 24 months, which includes the positive price movement following the receipt of the Initial Proposal on 12 December 2024.

Figure 2 – Insignia Financial’s share price performance over the period from 1 November 2023 to the Last Practicable Date

Source: IRESS as at 19 February 2026

2.1.8 If the Scheme does not proceed, Insignia Financial Shareholders will continue to be exposed to risks specifically associated with the Insignia Financial Group’s business and the Insignia Financial Board’s strategy for the business, as well as other potentially adverse consequences and general market risks that may impact your investment

If the Scheme does not proceed, Insignia Financial Shareholders will continue to be exposed to those risks which are currently associated with an investment in the Insignia Financial Group. Refer to section 7 of this Scheme Booklet for a summary of those risks.

2.1.9 No brokerage or stamp duty will be payable by you on the transfer of your Insignia Financial Shares

You will not incur any brokerage or stamp duty on the transfer of your Insignia Financial Shares to Daintree BidCo under the terms of the Scheme.

2.2 Reasons why you may choose to vote against the Scheme

2.2.1 You may disagree with the Independent Expert and the Insignia Financial Directors and believe that the Scheme is not fair and reasonable and in your best interests

Despite the unanimous recommendation of the Insignia Financial Directors that you vote in favour of the Scheme and the Independent Expert's conclusion that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders in the absence of a Superior Proposal, you may disagree and believe that the Scheme is not fair and reasonable and in your best interests.

2.2.2 You may consider that the Scheme Consideration is not acceptable having regard to your investment and/or does not reflect Insignia Financial's long-term potential, and you may miss out on future potential upside.

You may consider that the Scheme Consideration is not appropriate having regard to the share price of Insignia Financial Shares at the time of your investment(s) in Insignia Financial.

In addition, if the Scheme is implemented, you will no longer retain an exposure to the Insignia Financial Group's business or participate in future potential upside through the Insignia Financial Group's market and business performance. You may consider that the risks identified in section 7 of this Scheme Booklet are unlikely to adversely impact Insignia Financial and, as such, the Scheme Consideration does not fully reflect the value of Insignia Financial Shares over the longer term.

See section 5.6 for information on Insignia Financial's historical financial performance.

2.2.3 The tax consequences of transferring your Insignia Financial Shares pursuant to the Scheme may not be optimal for your financial position

Implementation of the Scheme may have tax consequences for you and you may consider that those tax consequences of transferring your Insignia Financial Shares to Daintree BidCo pursuant to the Scheme are not attractive to you.

A general guide to the taxation implications of the Scheme is set out in section 8 of this Scheme Booklet. This guide is expressed in general terms, and you should seek professional advice regarding the tax consequences applicable to your circumstances.

2.2.4 You may consider that there is potential for a Superior Proposal to be made in the foreseeable future

You may believe that there is a possibility that a Superior Proposal could emerge in the foreseeable future.

However, for the reasons noted below, the Insignia Financial Directors consider that the possibility of a Superior Proposal emerging is low:

- Since the announcement of the Scheme on 22 July 2025 and up to the date of this Scheme Booklet, the Insignia Financial Directors have not received a Superior Proposal and they are not aware of any Superior Proposal that is likely to emerge; and
- The Scheme is a result of a comprehensive process with competing non-binding indicative proposals being received from CC Capital, Bain Capital and Brookfield Capital Partners. Between CC Capital, Bain Capital and Brookfield Capital Partners eight non-binding indicative proposals were received in total, with the Scheme Consideration representing the highest binding offer price received, and a 20% premium to the Initial Proposal.

As set out in section 9.13, under the Scheme Implementation Deed, Insignia Financial is bound by customary exclusivity obligations including in respect of Competing Proposals. Insignia Financial is also required to pay a break fee to Daintree BidCo in certain circumstances, including if a Competing Proposal is announced and completes within 12 months of the End Date. See section 2.3.4 for more details.

2.2.5 You may believe it is in your best interests to maintain your current investment and risk profile

You may wish to maintain an interest in Insignia Financial because you are seeking an investment in a publicly listed company with the specific characteristics of Insignia Financial,

2. Matters relevant to your vote on the Scheme *continued*

including it being an Australia-based financial services company, its strategy and potential growth profile.

You may also consider that, despite the risk factors relevant to the Insignia Financial Group's potential future operations (including those set out in section 7 of this Scheme Booklet) it would be difficult to identify and invest in alternative investments that have a similar investment profile to Insignia Financial and/or you may incur transaction costs in undertaking such an investment.

2.3 Other relevant considerations

2.3.1 The Scheme may be implemented even if you vote against it

You should be aware that even if you do not vote, or vote against the Scheme, the Scheme may still be implemented if it is approved by the Requisite Majority of Insignia Financial Shareholders and the Court. If this occurs, the Insignia Financial Shares you hold on the Record Date will be transferred to Daintree BidCo and you will receive \$4.80 cash per Insignia Financial Share even though you did not vote on, or voted against, the Scheme.

2.3.2 Costs

Insignia Financial has incurred significant costs in responding to the various proposals it has received and revisions of those proposals to the point that the Daintree BidCo Proposal is capable of being submitted to Insignia Financial Shareholders as the Scheme for their consideration. These costs include negotiations with Daintree BidCo, retention of advisers, provision of information to Daintree BidCo, facilitating Daintree BidCo's access to due diligence, engagement of the Independent Expert and preparation of this Scheme Booklet.

If the Scheme is implemented, these costs will effectively be met by Daintree TopCo as the ultimate controller of Insignia Financial following implementation of the Scheme. If the Scheme is not implemented and if no Superior Proposal emerges and becomes effective, Insignia Financial expects to incur total costs relating to the Scheme of approximately \$6.8 million (excluding GST and disbursements) which have been or will be paid by Insignia Financial in FY25 and FY26. Only in limited circumstances, where Daintree BidCo materially breaches the Scheme

Implementation Deed or fails to pay the Scheme Consideration, will Daintree BidCo be required to pay Insignia Financial the Reverse Break Fee of \$32.6 million which will contribute to the payment of these transaction costs. See section 9.13.6 for further information in relation to the Reverse Break Fee.

2.3.3 Conditions Precedent

The Scheme is subject to a number of Conditions Precedent, which are summarised in section 4.5. If these Conditions Precedent are not satisfied (or, if applicable, waived), the Scheme will not proceed, even if it is approved by the Requisite Majority of Insignia Financial Shareholders at the Scheme Meeting.

2.3.4 Break Fee

A Break Fee of \$32.6 million is payable by Insignia Financial to Daintree BidCo if:

3. Frequently Asked Questions

This Scheme Booklet contains detailed information regarding the Scheme. The following section provides summary answers to some questions you may have and will assist you to locate further, more detailed information in this Scheme Booklet.

The scheme at a glance

What are Insignia Financial Shareholders being asked to consider?

Insignia Financial Shareholders are being asked to consider and vote on the Scheme, for the acquisition by Daintree BidCo of Insignia Financial Shares.

The vote on the Scheme will occur at the Scheme Meeting. The terms of the Scheme are set out in full in Annexure C. See also section 4 for more details.

What is the Scheme?

The Scheme is a scheme of arrangement between Insignia Financial and Scheme Participants. If the Scheme becomes Effective, Daintree BidCo will acquire all Insignia Financial Shares and Insignia Financial will become an indirectly wholly-owned subsidiary of Daintree TopCo.

A “scheme of arrangement” is a statutory procedure that can be used to enable one company to acquire another company. It requires a vote in favour of the Scheme by a Requisite Majority of Insignia Financial Shareholders at a meeting of Insignia Financial Shareholders and Court approval.

The terms of the Scheme are set out in full in Annexure C. See also section 4 for more details.

What do the Insignia Financial Directors recommend?

The Insignia Financial Directors believe that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders and unanimously recommend that you vote in favour of the Scheme in the absence of a Superior Proposal, and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.¹⁹ The basis for this recommendation is set out in section 2.1.

Section 2.2 includes a summary of the possible reasons not to vote for the Scheme.

In considering whether to vote in favour of the Scheme, the Insignia Financial Directors encourage you to seek independent legal, financial, tax or other professional advice.

How do the Insignia Financial Directors intend to vote?

Each Insignia Financial Director who owns or controls Insignia Financial Shares intends to vote in favour of the Scheme in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.

The number of Insignia Financial Shares held or controlled by an Insignia Financial Director as at the Last Practicable Date is set out in section 9.1.

Why has the Scheme Booklet been made available?

This Scheme Booklet has been made available to you because you are shown on the Insignia Financial Register as holding Insignia Financial Shares. Insignia Financial Shareholders are being asked to vote on the Scheme, which if approved and if the conditions to the Scheme are satisfied or waived (where applicable), will result in Daintree BidCo acquiring all of the Insignia Financial Shares for the Scheme Consideration. If you have sold all of your Insignia Financial Shares, please disregard this Scheme Booklet.

This Scheme Booklet is intended to help you to decide how to vote on the resolution to approve the Scheme, which needs to be passed by the Requisite Majority at the Scheme Meeting to allow the Scheme to proceed.

See section 4 for more details.

¹⁹ You should note when considering this recommendation that, as set out in Section 9, Mr Scott Hartley (CEO and Executive Director) holds 804,485 IFL Performance Rights. Subject to ASX granting any necessary waivers, the Insignia Financial Board has resolved to approve the vesting of a total of 8,340,897 unvested IFL Performance Rights on the Scheme becoming Effective, including 25,174 of Mr Hartley's IFL Performance Rights which will be settled in cash for the Scheme Consideration (being an amount of \$120,835) on or by the Implementation Date. The remainder of Mr Hartley's IFL Performance Rights (being 779,311 IFL Performance Rights) will also vest and be settled in cash for the Scheme Consideration (being an amount of \$3,740,693, plus interest) on the Scheme becoming Effective, however, this sum will not be paid to Mr Hartley until the end of the minimum regulatory deferral period (in tranches from 30 June 2027 to 30 June 2030). The aggregate value of IFL Performance Rights held by Mr Hartley based on the Scheme Consideration is \$3,861,528, plus interest in respect of the deferred portion over the deferral period. See further sections 5.5.7 and 9.1.

3. Frequently Asked Questions *continued*

What is the Independent Expert's conclusion?

The Independent Expert has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal.

The Scheme Consideration of \$4.80 falls within the valuation range of \$4.49 to \$5.08 per Insignia Financial Share, as determined by the Independent Expert. The Independent Expert's Report is set out in full in Annexure A.

Are there conditions that need to be satisfied before the Scheme can proceed?

Implementation of the Scheme is subject to satisfaction or waiver (where applicable) of several Conditions Precedent contained in the Scheme Implementation Deed, set out in section 4.5.

As at the Last Practicable Date, the Insignia Financial Directors are not aware of any reason why any Condition Precedent will not be satisfied.

What are the reasons to vote in favour of the Scheme?

Reasons why you may consider voting in favour of the Scheme are set out in full in section 2.1.

What are the reasons not to vote in favour of the Scheme?

Reasons why you might consider not voting in favour of the Scheme are set out in full in section 2.2.

What are the prospects of receiving a Superior Proposal?

Since the Scheme was announced, no Superior Proposal has emerged. Given the time that has elapsed since the initial Daintree BidCo Proposal was announced on 6 January 2025, the Insignia Financial Directors' view is that a Superior Proposal is unlikely to emerge prior to the Scheme Meeting.

See section 2.2.4 for further details.

Can the Scheme Implementation Deed or the Scheme be terminated?

The Scheme Implementation Deed may be terminated in certain circumstances, details of which are summarised in section 9.13. If the Scheme Implementation Deed is terminated, the Scheme will not proceed.

Daintree BidCo must also pay to Insignia Financial the Reverse Break Fee (which is an amount equal to \$32.6 million) if certain events occur. These events (and other key terms of the Reverse Break Fee provisions in the Scheme Implementation Deed) are summarised in section 9.13.6.

What are the risks of an ongoing investment in Insignia Financial if the Scheme is not implemented?

There are a number of general risks, as well as risks specific to Insignia Financial and/or the industries in which it operates, which could materially adversely affect the future operating and financial performance of Insignia Financial, as well as the value of Insignia Financial and the potential for any future dividends to be declared and paid by Insignia Financial.

3. Frequently Asked Questions *continued*

What happens if the Scheme is not approved at the Scheme Meeting or is not approved by the Court?

If the Scheme is not approved by a Requisite Majority of Insignia Financial Shareholders at the Scheme Meeting or the Scheme is not approved by the Court:

- Insignia Financial will remain listed on ASX;
- the expected benefits of the Scheme will not be realised and the potential disadvantages and risks associated with the Scheme will not arise;
- you will retain your Insignia Financial Shares;
- Insignia Financial Shareholders will not receive the Scheme Consideration;
- Insignia Financial Shareholders will remain exposed to the risks of Insignia Financial, as discussed in section 7;
- the share price of Insignia Financial Shares on ASX may fall; and
- the Break Fee of \$32.6 million may be payable by Insignia Financial to Daintree BidCo in certain circumstances. However, the Break Fee will not be payable merely because the Scheme Resolution is not approved at the Scheme Meeting.

Before the Scheme Meeting, Insignia Financial estimates that it will have incurred or committed transaction costs of approximately \$35.3 million (excluding GST and disbursements) in relation to the Scheme. Of this, approximately \$6.8 million (excluding GST and disbursements) will be incurred regardless of whether or not the Scheme is implemented, excluding any break fee that may be payable to Daintree BidCo as described in section 9.13.6.

If the Scheme does not proceed, you will retain your Insignia Financial Shares. The Insignia Financial Directors intend to continue to operate Insignia Financial as a listed public company carrying on its current business under the leadership of the current senior management. Full details of the Insignia Financial Directors' intentions for the business if the Scheme does not proceed are included in section 5.9.

When will the result of the Scheme Meeting be known?

The results of the Scheme Meeting will be available shortly after the conclusion of the Scheme Meeting and will be announced to ASX once available.

How will the Scheme be implemented?

If the Scheme becomes Effective, no further action is required on the part of the Scheme Participants in order to implement the Scheme. Under the Scheme, Insignia Financial is given authority to effect a valid transfer of all Insignia Financial Shares to Daintree BidCo and to enter the name of Daintree BidCo in the Insignia Financial Share Registry as the holder of all Insignia Financial Shares.

Section 4 contains further details of the Scheme.

Have any major Insignia Financial Shareholders indicated their intentions with respect to the Scheme?

The Insignia Financial Board has not received any written statement of intention in respect of the Scheme from an Insignia Financial Shareholder.

What is Daintree BidCo's rationale for the proposed acquisition and what are Daintree BidCo's intentions for Insignia Financial if the Scheme proceeds?

If the Scheme is implemented, Daintree BidCo will become the holder of all Insignia Financial Shares and Insignia Financial will become an indirectly wholly-owned subsidiary of Daintree BidCo and its present intentions with respect to Insignia Financial include to:

- reconstitute the Insignia Financial Board; and
- continue to operate the business of the Insignia Financial Group substantially in its current form and support Insignia Financial and its management team to pursue strategies based on furthering its position as a leading financial services company.

The Scheme does not preclude you from selling your Insignia Financial Shares on market for cash, if you wish, provided you do so before close of trading in Insignia Financial Shares on ASX on the Effective Date (currently expected to be Friday, 17 April 2026), which is when trading in Insignia Financial Shares on ASX will end if the Scheme is Effective. However, there is no assurance that the Effective Date will occur on that date.

What happens if a Superior Proposal emerges?

If a Superior Proposal is received, this will be announced to ASX and the Insignia Financial Directors will carefully consider the proposal and advise you of their recommendation.

Insignia Financial Shareholders should note that Insignia Financial has agreed to certain exclusivity restrictions in favour of Daintree BidCo under the Scheme Implementation Deed, which apply to, among other things, certain Competing Proposals – these restrictions are summarised in section 9.13.4. Under the Scheme Implementation Deed, Insignia Financial must notify Daintree BidCo promptly after Insignia Financial is approached in relation to a Competing Proposal (see section 9.13.4 for more information) and, in certain circumstances, the matching right process in favour of Daintree BidCo summarised in section 9.13.4 will apply.

The Scheme must be approved by the Court in addition to being approved by a Requisite Majority of Insignia Financial Shareholders. If the Scheme is approved by a Requisite Majority of Insignia Financial Shareholders at the Scheme Meeting, Insignia Financial will apply to the Court for approval of the Scheme. The Court hearing is expected to be held on Thursday, 16 April 2026 (although this may change). Further details of the approval process are set out in section 4.4.

You are not required to do anything in relation to these implementation matters.

You should be aware that, if you are a Scheme Participant, you will be deemed to have warranted to Insignia Financial, and authorised Insignia Financial to warrant to Daintree BidCo on your behalf, that:

- all of your Insignia Financial Shares (including any rights and entitlements attaching to those shares) transferred to Daintree BidCo under the Scheme will, as at the time of transfer, be fully paid and free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and

As at 31 December 2025, the Wrap segment had funds under administration of approximately \$110 billion with net inflows during FY25 of \$2.1 billion³⁰ compared to net inflows of \$0.7 billion in the prior year. Customer segments include employers seeking a bespoke plan or employers looking to meet super obligations, customers under an employer plan or former employees that retain their super account, retail advised clients through advisers and clients obtained directly through digital channels.

5.2 Insignia Financial's Strategic Direction

In November 2024, Insignia Financial announced its vision and strategy to become Australia's leading and most efficient diversified wealth management company by 2030 by building on and using the breadth and expertise of the Insignia Financial Group's four business lines, Advice, Wrap, Master Trust and Asset Management to deliver innovative, quality outcomes for customers and earnings growth for shareholders.

An overview of the 2030 Vision and Strategy is set out in the diagram below and further details are also set out in Insignia Financial's announcement to ASX on 13 November 2024.

Figure 5 – Overview of 2030 Vision

Since Insignia Financial's announcement of its 2030 Vision and Strategy, the Insignia Financial Group has made progress on a number of key deliverables in its 2030 Vision and Strategy, including:

- The Insignia Financial Group is taking steps to simplify and transform the Master Trust business by streamlining the Master Trust offering, consolidating platforms and enhancing customer outcomes.

In February 2025, Insignia Financial entered an agreement with SS&C Administration Services (Australia) Pty Ltd (**SS&C**) under which SS&C has agreed to provide certain administration and technology services to the Master Trust business.

In July 2025, approximately 1,300 people within the administration, technology and digital teams that support the Master Trust business, along with associated technology, processes and premises were transitioned from the Insignia Financial Group to SS&C.

- The Insignia Financial Group has delivered initiatives to uplift its Wrap platform, including the launch of the MLC Retirement Boost retirement product on the MLC Expand platform and the launch of a new investment menu for its super, pension and investment wrap platform, Essential+., including Term Deposits and Exchange Traded Funds, complementing the existing suite of MLC managed funds and separately managed account model portfolios. The Insignia Financial Group has also entered a partnership with TAL Life Limited and Challenger Ltd to create a retirement centre-of-excellence (**Centre of Excellence**), and bring MLC Retirement Boost to scale. The Centre of Excellence will provide advisers with access to distribution specialists, digital advice pathways, and a suite of modelling tools to provide Australians with greater certainty and confidence in retirement.
- In September 2025, Insignia Financial announced that it was taking steps to modernise its digital infrastructure and deploy AI capabilities across many of its offerings, including its MLC superannuation member experience platforms, in order to enhance personalisation, efficiencies and service delivery for its customers.
- In October 2025, Insignia Financial relaunched the MLC brand with a new creative campaign and tagline focused on *A Lifetime in the Making*, in line with its strategy to reposition MLC as the Insignia Financial Group's go-forward consumer brand.
- During the six months to 31 December 2025, Insignia Financial's FUMA grew to \$342.0 billion, an increase of \$11.7 billion (+3.5%). The increase was driven by positive market movements of \$12.8 billion (+3.9%) and net inflows during the period of \$915 million, partly offset by pension payments to customers of \$2.1 billion.
- Wrap attracted net inflows of \$2.8 billion during the period, while the Multi-Asset capability in Asset Management attracted net inflows of \$1.5 billion. These were partly offset by net outflows of \$1.5 billion from Master Trust, and net outflows of \$1.8 billion from Asset Management Direct Capabilities, predominately from the institutional channel.

In addition to progressing the key deliverables referred to above in respect of the 2030 Vision and Strategy, the Insignia Financial Group continues to assess a range of organic and inorganic strategic initiatives across the business including considering the potential disposal of particular businesses that are not core to the future operations of Insignia Financial in light of the 2030 Vision and Strategy. Insignia Financial has received a confidential indicative, non-binding proposal from a third party to acquire certain of these businesses, which it is considering. As at the Last Practicable Date, Insignia Financial Group has not received any definitive or binding offers, and were a transaction to eventuate from the current engagement, it would not impact the value of the Scheme Consideration nor, in the view of the Insignia Financial Board, be considered material to the overall valuation of the Insignia Financial Group.

Awards under the former Employee Performance Rights Plan are assessed over 3 years based on service and relative total shareholder return measures.

5.5.3 Deferral Restricted Rights Plan

The Deferral Restricted Rights Plan is a separate plan designed to defer a portion of variable remuneration for specified senior employees in accordance with regulatory requirements, to create and deliver sustained shareholder value, and to strengthen the alignment between remuneration outcomes and long-term, risk-adjusted performance.

Awards are provided in the form of IFL Performance Rights, which are deferred for up to 5 years subject to continued risk and conduct measures.

5.5.4 Shadforth Performance Rights Plan

The Shadforth Performance Rights Plan is designed to encourage Shadforth's private wealth advisers and support staff to create and deliver sustained shareholder value, and to strengthen the alignment between remuneration outcomes and long-term, risk-adjusted performance.

Awards are provided in the form of IFL Performance Rights, which are assessed over 3 years based on service and compliance measures.

5.5.5 Shadforth Retirement Plan

The Shadforth Retirement Plan is designed to encourage Shadforth's key private client advisers to create and deliver sustained shareholder value and to reward key people when shareholders benefit.

Awards are provided in the form of IFL Performance Rights, which are assessed over 15 years based on service and compliance measures, with earlier vesting permitted in certain retirement circumstances.

5.5.6 No vote on the Scheme

The terms of the IFL Performance Rights do not give holders a right to vote on the Scheme in respect of their IFL Performance Rights. Accordingly, holders will not be able to vote on the Scheme in respect of their IFL Performance Rights.

5.5.7 Treatment of outstanding equity incentives if the Scheme becomes Effective

In accordance with the terms of the relevant equity incentive plans, the Insignia Financial Directors have resolved that, subject to the Scheme becoming Effective and ASX granting any necessary waivers:

- 5.5.7.1** all outstanding IFL Performance Rights under the Executive LTVR Plan, FY23 and FY24 Enterprise Leader LTVR Plan, FY23 and FY24 Shadforth Performance Rights Plan, and FY24 Deferral Restricted Rights Plan will vest, with the relevant performance measures attached to those IFL Performance Rights being waived, and be settled in cash, with the cash paid on or by the Implementation Date or, in the case of holders subject to regulatory deferral requirements, in accordance with those regulatory deferral requirements; and
- 5.5.7.2** all outstanding IFL Performance Rights under the FY25 Enterprise Leader LTVR Plan, FY25 Shadforth Performance Rights Plan, FY25 Shadforth Retirement Plan and FY25 Deferral Restricted Rights Plan either will roll into replacement awards or become rights to cash, which in each case may be subject to the same or equivalent vesting and other conditions to the current rights.

Accordingly, if the Scheme becomes Effective there will be no outstanding IFL Performance Rights by the Record Date, as required under the Scheme Implementation Deed.

5.5.8 Treatment of FY26 equity incentive plans

If the Scheme is not implemented, awards under the FY26 equity incentive plans may be made in the ordinary course. Further detail on the FY26 Executive LTVR Plan for the CEO and Executive Director is available in Insignia Financial's 2025 Notice of Annual General Meeting.

6.3 Daintree BidCo's intentions if the Scheme is implemented

6.3.1 Introduction

If the Scheme is Implemented, Daintree BidCo will acquire the full legal and beneficial title to all Insignia Financial Shares, making Insignia Financial a wholly owned subsidiary of Daintree BidCo. Daintree BidCo is ultimately wholly owned by Daintree TopCo. Daintree TopCo, the other Daintree Entities, CC Capital, OneIM and the Carlyle Investor have the same intentions as Daintree BidCo that are outlined in this section.

This section 6.3 sets out Daintree BidCo's current intentions in relation to:

- the continuation of the business of the Insignia Financial Group;
- any major changes to be made to the business of the Insignia Financial Group; and
- the future employment of the Insignia Financial Group's current employees,

in each case, in circumstances where the Scheme is implemented.

Daintree BidCo does not currently have full knowledge of all material information, facts and circumstances that are necessary to assess all of the operational, commercial, tax and financial implications of its current intentions. The statements set out in this section 6.3 are statements of current intentions only which have been formed on the basis of facts and information concerning the Insignia Financial Group and the general business environment which is known to Daintree BidCo at the time of preparing this Scheme Booklet.

Daintree BidCo expects that any changes to those intentions will only be made in the event that following the Scheme's implementation, new material information concerning the Insignia Financial Group becomes available or material circumstances concerning the Insignia Financial Group change, and the statements in this section 6.3 should be read in that context.

6.3.2 Rationale for the proposed Transaction

Daintree TopCo and Daintree BidCo view the Australian wealth management industry as an attractive investment opportunity given in particular, it is a large and growing addressable market and its macro and regulatory settings and potential for value creation.

Daintree BidCo's decision to acquire Insignia Financial is driven by strong alignment to the following key tenets of the investment philosophies of CC Capital, OneIM and Carlyle:

- **Long-term investment in a high quality business:** CC Capital, OneIM and Carlyle take a long-term approach to stewardship of their respective portfolio businesses. Daintree BidCo believes that the Insignia Financial Group is a high quality business and that long-term capital for the Insignia Financial Group is aligned to not only its transformation expected to occur whilst under Daintree BidCo's ownership but also its focus on delivering long-term positive customer and shareholder outcomes;

6. Information on Daintree BidCo *continued*

- Focus on customer outcomes: Strong customer outcomes are critical for the long-term sustainability of the Insignia Financial Group. Daintree BidCo intend to support Insignia Financial's management, including through providing enhanced financial resources and operational support, in the execution of the 2030 Vision and Strategy. A core pillar of the 2030 Vision and Strategy is the delivery of innovative, quality outcomes for customers. Daintree BidCo views improvement of customer and shareholder outcomes as joint and mutually reinforcing objectives - by acting in customers' best interests and improving outcomes for customers, its shareholders can be rewarded for their investment; and
- Partnering with an accomplished leadership team: Daintree BidCo is seeking to partner with Insignia Financial's existing highly-capable and experienced management team. Daintree BidCo is strongly supportive of Scott Hartley, Insignia Financial CEO, and the Insignia Financial management team.

6.3.3 Insignia Financial's removal from ASX

If the Scheme is implemented, Daintree BidCo will direct that Insignia Financial apply to ASX for Insignia Financial to be removed from the official list of ASX on, or immediately after, the Implementation Date.

6.3.4 Insignia Financial Board

In accordance with the Scheme Implementation Deed, the Insignia Financial Board will be reconstituted with effect on and from the Implementation Date. As at the Last Practicable Date, the directors of Insignia Financial after the Implementation Date have not been determined.

6.3.5 Changes to Insignia Financial status and constitution

If the Scheme is implemented, Daintree BidCo proposes to change the company status of Insignia Financial from a public company to a proprietary company limited by shares. Daintree BidCo also intends to replace Insignia Financial's constitution with a constitution appropriate for a proprietary company limited by shares.

6.3.6 Business, operations, and assets

Daintree BidCo's current intention is to continue to operate the business of the Insignia Financial Group substantially in its current form. Daintree BidCo's intention is to support Insignia Financial and its management team to pursue strategies based on furthering its position as a leading financial services company. In particular, Daintree BidCo supports the ongoing implementation of the 2030 Vision and Strategy and the initiatives outlined in that business strategy.

6.3.7 Employees

Daintree BidCo does not currently intend to change Insignia Financial's organisational structure and employee capabilities following implementation of the Scheme as Daintree BidCo is acutely aware that the nature of services provided by the Insignia Financial Group is fundamentally based on the industry experience and client knowledge of Insignia Financial Group employees.

6.4 Funding arrangements for Scheme Consideration

6.4.1 Maximum cash consideration

If the Scheme becomes Effective, Insignia Financial Shareholders will be entitled to receive, in cash, the Scheme Consideration for each Scheme Share held by them on the Record Date. Based on the number of Insignia Financial Shares and IFL Performance Rights on issue as at the Last Practicable Date, the maximum aggregate amount of cash payable as consideration by Daintree BidCo to Insignia Financial Shareholders on implementation of the Scheme will be approximately \$3.2 billion.

Daintree BidCo has executed the Deed Poll in favour of the Insignia Financial Shareholders under which, among other things, Daintree BidCo undertakes in favour of each Insignia Financial Shareholder to deposit, or procure the deposit, into an Australian dollar denominated Trust Account operated by Insignia Financial as trustee for the Insignia Financial Shareholders, by no later than the Business Day before the Implementation Date, an amount equal to the aggregate amount of the Scheme Consideration payable to all Insignia Financial Shareholders on the Record Date.

In addition to the Scheme Consideration, the Insignia Financial Group has outstanding borrowings pursuant to a multi-tranche syndicated facility agreement with a number of financial institutions. As at 31 December 2025, the amount outstanding under that facility was \$529.7 million. The syndicated facility agreement will be repaid in full on the implementation of the Scheme.

The Insignia Financial Group has also issued subordinated loan notes to National Australia Bank as part of the MLC acquisition in 2021. Those subordinated loan notes have an equity-linked additional return amount component that is payable on the maturity date, being 31 May 2026. As at 31 December 2025 the amount payable on maturity of the subordinated loan notes was \$254.4 million. Daintree BidCo intends to repay the subordinated loan notes on implementation of the Scheme.

As detailed below, Daintree BidCo intends to fund the Scheme Consideration and repay the outstanding Insignia Financial Group debt identified above through the Equity Funding, the Preferred Equity Funding, and the Debt Funding arrangements.

6.4.2 Equity Funding

Daintree BidCo has received separate equity commitment letters from:

- CC Investor, under which, CC Investor has committed to purchase or cause the purchase of equity securities of Daintree BidCo (or Daintree TopCo or one or more other direct or indirect parent companies of Daintree BidCo) with an aggregate cash purchase price of up to \$875,710,555 and if, under the terms of the Scheme Implementation Deed, the Reverse Break Fee becomes due and payable by Daintree BidCo, an amount up to \$20.864 million (**CC Investor Equity Commitment Letter**); and
- OneIM, under which, OneIM has committed to purchase or cause the purchase of equity securities of Daintree BidCo (or Daintree TopCo or one or more other direct or indirect parent companies of Daintree BidCo), which will be purchased by the OneIM Investor (an affiliate of OneIM), with an aggregate cash purchase price

of up to \$737,440,469, and if, under the terms of the Scheme Implementation Deed, the Reverse Break Fee becomes due and payable by Daintree BidCo, an amount up to \$11.736 million (**OneIM Equity Commitment Letter**),

(together, the **Equity Commitment Letters**, and such amounts to be funded under the Equity Commitment Letters, the **Equity Funding**).

It is expected that the subscription will take place at the level of Daintree TopCo and will take the form of the issue of ordinary shares.

The Equity Funding may only be used for the purpose of Daintree BidCo meeting its obligations to pay:

- the Scheme Consideration under the Scheme; or
- the Reverse Break Fee,

in each case, as, when and if, those obligations become due in accordance with the relevant documents.

The obligation on each investor to provide the Equity Funding for the purpose of Daintree BidCo paying the Scheme Consideration under the Scheme is conditional on the satisfaction or waiver (as applicable) of each of the Conditions Precedent set out in the Scheme Implementation Deed, the Scheme becoming Effective and concurrent funding of the other Equity Commitment Letter, the Preferred Equity Commitment Letter and the Debt Commitment Letter. The obligation on each investor to provide the applicable part of the Equity Funding for the purpose of Daintree BidCo paying the Reverse Break Fee is conditional on it becoming payable and being validly demanded in accordance with the Scheme Implementation Deed and the Scheme not becoming effective.

The investor's obligation to provide the Equity Funding will terminate automatically on the direct or indirect funding of the equity commitment, the valid termination of the Scheme Implementation Deed under circumstances where the Reverse Break Fee is not payable, the date that is three months after the valid termination of the Scheme Implementation Deed under circumstances where the Reverse Break Fee is payable (or

6. Information on Daintree BidCo *continued*

other date of resolution of any claim concerning payment of the Reverse Break Fee), the making of certain claims by Insignia Financial or its shareholders (other than claims to enforce the Equity Commitment Letters or under the Deed Poll), a judgement with respect to such a claim that includes an amount of damages with that judgement being satisfied or the termination of the other Equity Commitment Letter in accordance with its terms. As at the Last Practicable Date, Daintree BidCo is not aware of any reason why any of the conditions to the Equity Funding of the Scheme Consideration will not be satisfied and is not aware of any reason why the Equity Funding commitments will not be available for the purposes of acquiring the Scheme Shares as contemplated by the Scheme.

6.4.3 Preferred Equity Funding

Daintree TopCo, the Carlyle Investor, an affiliate of CC Capital and OneIM have entered a preferred equity commitment letter (**Preferred Equity Commitment Letter**), pursuant to which, the Carlyle Investor (on behalf of the Carlyle Funds), an affiliate of CC Capital and OneIM have agreed to subscribe for an aggregate of \$615 million of preferred equity (**Preference Shares**) in Daintree TopCo (**Preferred Equity Funding**).

The Carlyle Investor (on behalf of the Carlyle Funds) has committed to subscribe for \$461.25 million of this amount. The Carlyle Investor (on behalf of the Carlyle Funds) may also elect to subscribe for up to \$100 million in ordinary shares in Daintree TopCo. As at the Last Practicable Date, it is expected that the Carlyle Investor (on behalf of the Carlyle Funds) will subscribe for 5.2% of the ordinary shares in Daintree TopCo as noted above. An affiliate of CC Capital has committed to subscribe for \$46.125 million and OneIM has committed to subscribe for \$107.625 million of the aggregate amount of the Preferred Equity Funding, in each case, as underwriters with the ability to syndicate its commitments to one or more institutional investors. The subscription commitments incorporate a closing payment reduction to the subscription amounts for subscriptions made by investors other than an affiliate of CC Capital and OneIM and ticking fees if implementation of the Scheme is delayed for more than 270 days.

Subscription payments under the Preferred Equity Commitment Letter to subscribe for the Preference Shares are to be paid into an escrow account prior to the Implementation Date. The commitment to subscribe for the Preference Shares is subject to the satisfaction or waiver (as applicable) of certain conditions that generally align with the terms of the Debt Commitment Letter, and include:

- the Effective Date having occurred;
- execution of definitive documentation in respect of the Preferred Equity Funding, including customary closing deliverables such as a solvency certificate, good standing certificates, officers' incumbency and closing certificates, and legal opinions;
- the initial funding under the Debt Facilities has been made substantially concurrently with the funding under the Preferred Equity Funding and in amounts not exceeding those provided in the Debt Commitment Letter;
- no "certain funds event of default" (being events of default relating to capitalisation, security interests, asset sales or restricted payments, breach of corporate existence undertakings, breach of certain Scheme related covenants of the Scheme Implementation Deed, breach of certain money laundering, sanctions and anti-corruption laws, validity of loan documents no change of control, certain insolvency events and breach of covenants relating to incurrence of indebtedness, liens and fundamental corporate change) under the Debt Commitment Letter having occurred and is continuous on the closing date or would result from the issuance of the Preferred Shares or the application of proceeds of the Preferred Equity Funding;
- certain specified representations (being representations going to corporate existence, corporate authorisation, binding effects of loan agreements, ownership of property, solvency, third party consents, engagement in activities related to margin stock, registration under certain securities laws, perfection of security interests, compliance with certain Australian laws and compliance with certain laws) being true and correct in all material respects (or to

the extent a materiality test or qualifier applies, all respects) on the closing date;

- the payment of fees and expenses;
- concurrent funding under the Equity Funding commitments;
- a certificate from a director of Daintree BidCo confirming that implementation of the Scheme will occur after the issue of the Preferred Shares; and
- no breach by Daintree TopCo or Daintree BidCo of certain covenants in the Scheme Implementation Deed has occurred and is continuing.

As at the Last Practicable Date, Daintree BidCo is not aware of any reason why any of the conditions precedent will not be satisfied and is not aware of any reason why the Preferred Equity Funding will not be available for the purposes of acquiring the Scheme Shares as contemplated by the Scheme.

6.4.4 Debt Funding

Daintree BidCo has entered into a binding debt commitment letter (**Debt Commitment Letter**) with UBS AG, Australia Branch, Banco Santander, S.A., New York Branch, Deutsche Bank AG, New York and Sydney Branch, Deutsche Bank Securities Inc, Nomura Securities International, Inc. and Natixis, Singapore Branch (collectively, the **Initial Lenders**).

Under the Debt Commitment Letter, the Initial Lenders have severally, in agreed proportions, agreed to advance first lien senior secured credit facilities to Daintree BidCo, comprised of:

- a first lien senior secured term loan credit facility (**Term Loan Facility**) in an aggregate principal amount of up to \$1,930 million (which is expected to include an Australian dollar tranche of \$900 million and a US dollar tranche of \$1,030 million equivalent); and
- a first lien senior secured cash flow revolving credit facility (**Revolving Facility**) in an aggregate principal amount of up to \$275 million,

(together, the **Debt Facilities**, or the **Debt Funding**).

The proceeds under the Debt Facilities will be available to the Daintree BidCo for the purpose of financing the Transaction (including the refinancing of existing indebtedness of Insignia Financial) and working capital, capital expenditures, and other general corporate purposes.

The effectiveness of the Debt Facilities will be subject to the satisfaction or waiver of certain customary conditions precedent:

- execution of definitive documentation in respect of the Debt Funding, including customary closing deliverables such as constitutional documents, good standing certificates, officers' incumbency and closing certificates, and legal opinions;
- certain specified representations made by Daintree HoldCo, Daintree BidCo, and Daintree FinCo (being representations going to corporate existence, corporate authorisation, binding effects of loan agreements, ownership of property, solvency, third party consents, engagement in activities related to margin stock, registration under certain securities laws, perfection of security interests, compliance with certain Australian laws and compliance with certain laws) being true and correct in all material respects (or to the extent a materiality test or qualifier applies, all respects) as of the effectiveness of the Debt Facilities;
- certain material representations made by Insignia Financial in the Scheme Implementation Deed being true and correct in all material respects (or to the extent a materiality test or qualifier applies, all respects) as of the most recent date made under the Scheme Implementation Deed on or prior to effectiveness of the Debt Facilities, but only to the extent Daintree BidCo or any of its affiliates has the right to terminate the Scheme Implementation Deed as a result;
- all documents and instruments required to create and perfect the security for the Debt Facilities having been executed and delivered and, if applicable, be in proper form for filing in connection with the effectiveness of the Debt Facilities; and
- no breach of certain Scheme-related covenants having occurred and continuing at the time of effectiveness of the Debt Facilities.

6. Information on Daintree BidCo *continued*

The first draw down under the Debt Facilities will be subject to the satisfaction or waiver of certain conditions precedent, which are customary for “certain funding” facilities of this kind and include:

- the Effective Date and the effectiveness of the Debt Facilities having occurred;
- execution and delivery of a solvency certificate from an authorised senior financial officer of Daintree HoldCo and borrowing notices by Daintree BidCo;
- concurrent funding under the Equity Funding;
- the specified representations made by Daintree HoldCo, Daintree BidCo, and Daintree FinCo being true and correct in all material respects (or to the extent a materiality test or qualifier applies, all respects) immediately prior to 8:00am (Melbourne time) on the Second Court Date, on the date of issue of the initial borrowing notice under the Debt Facilities, and on the funding date;
- the payment of all fees and expenses payable to the Initial Lenders (and any other lenders in the syndicate) three Business Days prior to the scheduled funding date;
- no “certain funds event of default” (being events of default relating to capitalisation, security interests, asset sales or restricted payments, breach of corporate existence undertakings, breach of certain Scheme related covenants of the Scheme Implementation Deed, breach of certain money laundering, sanctions and anti-corruption laws, validity of loan documents, no change of control, certain insolvency events and breach of covenants relating to incurrence of indebtedness, liens and fundamental corporate changes) having occurred and continuing on the funding date or resulting from the consummation of any borrowing of Debt Facilities or the application of proceeds of the Debt Facilities;
- a certificate from a director of Daintree BidCo confirming that implementation of the Scheme will occur after the drawing of the first loan under the Debt Facilities in accordance with the Scheme Implementation Deed, this Scheme Booklet, the Scheme, and the Deed Poll; and
- the results of ASIC, PPSR, and insolvency searches of Daintree HoldCo, Daintree BidCo and Daintree FinCo not disclosing any “certain funds event of default” having occurred that is continuing.

It is expected that, prior to the Second Court Date, the Debt Commitment Letter will be superseded by a definitive long-form syndicated facility agreement and related financing documentation among the parties to the Debt Commitment Letter. The material terms and conditions of such financing documents are specified in the Debt Commitment Letter. The banking arrangements are expected to be syndicated by the introduction of additional financiers.

It is expected that the above mentioned conditions precedent will be satisfied prior to the Second Court Date (other than certain conditions which are intended to be satisfied concurrently with, or prior to, the first drawdown under the Debt Facilities on the Implementation Date).

If all of the conditions precedent are satisfied or waived, then subject to the provisions set out in the paragraph below and provided that it is not unlawful for the Initial Lenders to do so, the Initial Lenders must provide the funds for their portion of the Debt Funding. As at the Last Practicable Date, Daintree BidCo is not aware of any reason why any of the conditions precedent will not be satisfied, and is confident they will be satisfied, in time to allow payment in full of the aggregate Scheme Consideration for the Scheme Shares as and when due under the terms of the Scheme.

The availability of the Debt Facilities is subject to the correctness of the specified representations and the absence of the certain funds events of default. As at the Last Practicable Date, Daintree BidCo is not aware of any circumstance that would give rise to a right to the Initial Lenders to terminate the applicable facilities.

The representations and warranties to be given by Daintree BidCo in relation to the Debt Facilities (and the collateral actions required to be performed in connection with the effectiveness of the Debt Facilities) are customary for an acquisition financing facility of this nature. As at the Last Practicable Date, Daintree BidCo is not aware of any breach of a representation or warranty, or any circumstance that would lead to a breach of a representation or warranty. As at the Last Practicable Date, Daintree BidCo is not aware of any reason why the Debt Facilities will not be available to be drawn down for the purposes of acquiring the Scheme Shares as contemplated by the Scheme.

6.4.5 Reasonable basis

The Equity Funding, the Preferred Equity Funding and the Debt Funding outlined in this section 6.4 is sufficient to fund the Scheme Consideration and repay the outstanding Insignia Financial debt referred to in section 6.4.1.

Based on the arrangements outlined above, Daintree BidCo believes it has a reasonable basis for holding the view, and does hold the view, that it will be able to satisfy its obligations to fund the Scheme Consideration when due and payable under the terms of the Scheme.

6.5 No interests in Insignia Financial Shares

As at the Last Practicable Date, none of Daintree BidCo, Daintree TopCo, CC Capital, OneIM, Carlyle or any of their Associates have a Relevant Interest or Voting Power in any Insignia Financial Shares.

6.6 No dealing in Insignia Financial Shares in previous four months

None of Daintree BidCo, Daintree TopCo, CC Capital, OneIM, the Carlyle Investor or any of their Associates have provided or agreed to provide any consideration for any Insignia Financial Shares under any transaction, or agreement during the period of four months before the date of this Scheme Booklet, except for the Scheme Consideration which Daintree BidCo has agreed to provide under the Scheme Implementation Deed, the Scheme, and the Deed Poll.

6.7 No benefits to holders of Insignia Financial Shares

Except as set out in this Scheme Booklet, none of Daintree BidCo, Daintree TopCo, CC Capital, OneIM, the Carlyle Investor or any of their Associates have given or offered to give or agreed to give a benefit to another person that was likely to induce the other person, or an Associate of that person to:

- vote in favour of the Scheme; or
- dispose of Insignia Financial Shares, during the period of four months ending on the date of this Scheme Booklet and which was not offered to all other Insignia Financial Shareholders.

6.8 No benefits to Insignia Financial officers

None of Daintree BidCo, Daintree TopCo, CC Capital, OneIM, the Carlyle Investor or any of their Associates will be making payment or giving any benefit to any current officers of Insignia Financial as compensation or consideration for, or otherwise in connection with, their resignation, retirement or removal from their respective positions as officers of Insignia Financial if the Scheme is implemented.

6.9 No contracts or arrangements

There is no contract or agreement between Insignia Financial and any of Daintree BidCo, Daintree TopCo, CC Capital, OneIM, the Carlyle Investor or any of their Associates that is conditional on (or directly or indirectly depends on) the approval of the Scheme (other than the Scheme Implementation Deed).

6.10 No other material information

Except as set out in this Scheme Booklet, so far as the directors of Daintree BidCo are aware, there is no other information regarding Daintree BidCo or its intentions regarding Insignia Financial, that is material to the making of a decision by an Insignia Financial Shareholder in relation to the Scheme, being information that is within the knowledge of any director of Daintree BidCo, as at the date of this Scheme Booklet which has not been previously disclosed to Insignia Financial Shareholders.

7. Risk factors

7.1 Introduction

This section of the Scheme Booklet describes certain risks associated with the Scheme and Insignia Financial.

In considering the Scheme, you should be aware that there are a number of risk factors, general and specific, which could adversely affect the future operating and financial performance of the Insignia Financial Group and the value of Insignia Financial Shares. These risks will only continue to be relevant to Insignia Financial Shareholders if the Scheme does not proceed and Insignia Financial Shareholders retain their current investment in Insignia Financial. If the Scheme proceeds, Insignia Financial Shareholders will receive the Scheme Consideration, will cease to be Insignia Financial Shareholders and will no longer be exposed to the risks set out in this section.

The outline of risks in this section 7 is a summary only and should not be considered exhaustive.

Before deciding how to vote you should have a sufficient understanding of these matters and should consider whether continuing to hold Insignia Financial Shares is a suitable investment for you, having regard to your own investment objectives, financial circumstances and taxation position. If you do not understand any part of this Scheme Booklet or are in any doubt as to how to vote in relation to the Scheme, it is recommended that you consult your legal, financial, tax or other professional adviser before deciding how to vote.

The selection of risks has been based on an assessment of a combination of the probability of the risk occurring and impact of the risk if it did occur. The assessment is based on the knowledge of the Insignia Financial Directors as at the date of this Scheme Booklet, but there is no guarantee or assurance that the importance of different risks will not change, or other risks will not emerge. This Scheme Booklet does not take into account the investment objectives, financial situation or the particular needs or risk profiles of individual Insignia Financial Shareholders.

7.2 General investment risks

7.2.1 General economic and market risks

There are general risks associated with an investment in the share market. The price at which Insignia Financial Shares are quoted on ASX may increase or decrease due to a number of factors which are beyond Insignia Financial's ability to control or predict.

Some of the factors which may affect the price of Insignia Financial Shares include: fluctuations in the domestic and international market for listed stocks and changes in investor sentiment towards particular market sectors; general business, industry cycles and economic conditions in Australia and overseas (including interest rates, inflation rates, exchange rates), consumer confidence and demand, commodity and oil prices, changes to or in government fiscal, monetary or regulatory policies (including tariff policies), legislation or regulations (including policies); changes in legislative and regulatory regimes for corporations, taxation laws and foreign investment rules; inclusion in or removal from market indices; the nature of the Australian and global markets in which the Insignia Financial Group operates; global geo-political events and hostilities; and general operational and business risks.

These factors may also affect the overall performance of the Insignia Financial Group.

7.2.2 Capital availability

Economic conditions in Australia and overseas can impact on the availability of debt and equity funding that may be required to support the cash flow of a business. The development of the Insignia Financial Group's business may be affected by the availability of funding which would impact on its ability to establish business operations in the expected time frame and/or at its current levels.

7.2.3 Force majeure events

Events may occur within or outside Australia that could impact upon the global and Australian economies, the operations of the Insignia Financial Group and the price of Insignia Financial Shares. These events include but are not limited to acts of terrorism, an outbreak of international

hostilities, labour strikes, civil wars, natural disasters, pandemics and other outbreaks of disease or other man-made or natural events or occurrences that can have an adverse effect on the demand for the Insignia Financial Group's products and services and its ability to conduct business. The Insignia Financial Group has only a limited ability to insure against some of these risks.

7.2.4 Other risks

There may be other risks and uncertainties associated with the business and operations of the Insignia Financial Group that are currently not known which may also have an adverse impact on the Insignia Financial Group, and as such, the risks set out in this section 7 should not be taken as an exhaustive list of risks associated with the Insignia Financial Group.

7.3 Risks specific to Insignia Financial

There are a range of business-specific risks associated with your current investment in Insignia Financial Shares, as set out below.

This list is a summary only and should not be considered exhaustive.

7.3.1 Execution of 2030 Vision and Strategy

2030 Vision and Strategy

In November 2024, Insignia Financial announced its 2030 Vision and Strategy to become Australia's leading and most efficient diversified wealth management company by 2030 by using the breadth and expertise of its four business lines, Advice, Wrap, Master Trust and Asset Management, to deliver innovative, quality outcomes for customers and earnings growth for shareholders. There are a number of risks described in this section 7.3 of an operational, financial, compliance or regulatory nature, which if they materialised, would adversely impact Insignia Financial's ability to achieve its 2030 Vision and Strategy. In particular, the following risks would adversely impact Insignia Financial's ability to achieve its 2030 Vision and Strategy:

- **Cost control:** Being Australia's most efficient diversified wealth manager is a key element of the 2030 Vision and Strategy, and effectively managing its operating costs is critical

to Insignia Financial Group maintaining its financial health, competitiveness and operational efficiency on an ongoing basis. The Insignia Financial Group has in place a number of strategies to deliver this 2030 net cost reduction goal, which focus on Master Trust technology, operations, product, insurance and entity simplification, advice efficiency, AI utilisation, technology rationalisation and right sizing enablement and corporate functions.

There is no certainty that these initiatives will be successfully executed, or that these strategies, even if executed, will achieve the 2030 net cost reduction goal. Failure to effectively manage the cost base would reduce the Insignia Financial Group's profit margins and competitiveness, and also constrain strategic investment.

- **SS&C:** A key component of the 2030 Vision and Strategy is the transformation and simplification of Master Trust technology and operations, which Insignia Financial has engaged SS&C to implement in accordance with a Master Services Agreement. Implementation of such transformation is subject to inherent operational risk and is not guaranteed. If the Master Trust transformation and simplification is not implemented, that may have an adverse impact on Insignia Financial's ability to achieve its 2030 Vision and Strategy.
- **Competition:** There is substantial competition for the provision of financial services and products in the markets in which the Insignia Financial Group operates. A variety of market participants in specialised investment fund management, wealth management and advice compete vigorously for customer investments and the provision of wealth management services, and there is increasing commoditisation of financial services and products. These competitive market conditions may adversely impact the revenue margins, earnings and assets of the Insignia Financial Group which may in turn impact Insignia Financial Group's ability to achieve its 2030 Vision and Strategy.

7. Risk factors *continued*

There is no guarantee that execution of the 2030 Vision and Strategy will be successful, or that it will be implemented within the timelines currently proposed. A failure to implement all or part of the 2030 Vision and Strategy in accordance with the proposed timeframe may impact the Insignia Financial Group's financial position, performance and prospects.

There is also no guarantee that the 2030 Vision and Strategy will maximise shareholder value.

Key personnel

The implementation of the 2030 Vision and Strategy and the Insignia Financial Group's performance more generally is dependent on the talents and efforts of key personnel. The Insignia Financial Group's continued ability to compete effectively depends on its capacity to retain and motivate existing employees as well as attract new employees. The volume of regulatory change impacting the financial services industry continues to present a demand for specialist skills and increases the risk of inadequate human resources or competency to conduct business, including failure to retain talent, employee fatigue, poor organisational design and excessive reliance on key persons.

The loss of key employees could cause disruption to the execution of the 2030 Vision and Strategy and Insignia Financial Group's operations more generally in the short to medium term.

7.3.2 Decline in FUMA

The Insignia Financial Group derives a significant proportion of its revenue from fees and charges, and those fees and charges are calculated by reference to the level of FUMA. The level of FUMA will reflect (in addition to other factors such as the funds flowing into and out of FUMA) the investment performance of those funds and that investment performance will, in turn, be impacted by general market conditions. Accordingly, changes in domestic and/or global investment market conditions or poor investment performance of the products in which the Insignia Financial Group's customers invest (either as a result of or independent of the market conditions) could lead to a decline in FUMA. This could in turn adversely impact the amount that the Insignia Financial Group earns in fees and charges.

Deterioration in investment market conditions could also lead to reduced consumer interest and a decrease in the ability to attract new investors in the Insignia Financial Group's financial products and services. It is also possible that some funds could reduce in size or be terminated.

In addition, the Insignia Financial Group also provides investment services to certain of its controlled entities which are Responsible Superannuation Entities (RSEs). If the holder of an RSE licence terminates such arrangements (for example, if it determines doing so to be in the best interests of the fund of which it is the trustee), this would also result in the loss of fee income derived from the provision of these services — see also section 7.3.14.

7.3.3 Changing customer needs

The Insignia Financial Group is also exposed to the risk that it does not respond effectively to changing customer needs as a result of external factors (such as changes in general market conditions as set out in section 7.2.1 above), which could result in loss or missed opportunities.

7.3.4 Remediation

- **Historic remediation program:** the Insignia Financial Group's financial advisers provide advice to clients and may be exposed to claims for compensation and litigation if this advice is judged to be incorrect, inappropriate or inadequate. A claim against an Insignia Financial Group Member for inappropriate advice could have an adverse effect on the Insignia Financial Group's financial position and reputation, and on its future operations and revenues.

The Insignia Financial Group is also exposed to the risk of remediation arising from the failure of its superannuation products or services to meet regulatory standards, member expectations or fiduciary obligations. The Insignia Financial Group's current product remediation programs include remediation events acquired as part of historic acquisitions.

In July 2024, APRA agreed to accept a court enforceable undertaking (CEU) from one of the Insignia Financial Trustees (OnePath Custodians Pty Ltd) pledging to compensate

members affected by accrued default amount, “ADA breaches”. The CEU is publicly available on APRA’s website and provides further background. The Insignia Financial Group has established the CEU Program to deliver the commitments made under the CEU. Whilst the Insignia Financial Group has notified APRA it has completed these commitments, APRA is yet to close the CEU. Additional work required by OnePath Custodians Pty Ltd to close the CEU could have an adverse effect on the business and financial performance of the Insignia Financial Group

- **Potential future remediation:** As of 30 June 2025, the Insignia Financial Group has recognised provisions in respect of client remediation and related costs. Determining the amount of the provision, which represents management’s best estimate of the costs of settling the identified matters, requires the exercise of significant judgement. There is a risk that the assumptions made to support the level of the provision are incorrect, that the provision will not be sufficient to cover the actual expense and that financial performance will be adversely affected.

See also section 7.4.2 for further information.

7.3.5 SS&C service integration

In February 2025, Insignia Financial entered into a Master Services Agreement with SS&C to simplify and transform the Master Trust business and, in July 2025, Insignia Financial completed the transition of certain Master Trust technology and operations functions to SS&C. This included the transition of approximately 1,300 people within the administration, technology and digital teams that support the Master Trust business, along with associated processes and premises from Insignia Financial to SS&C. Insignia Financial is responsible for the payment of any statutory redundancy costs arising to the transferred employees in the event they are made redundant in the first three years of this transition process. It is not possible for Insignia Financial to reasonably quantify any such costs as at the Last Practicable Date.

In addition, a failure by SS&C to provide technology and operations functions in accordance with the Master Services Agreement could have a negative impact on the performance of the Insignia Financial Group.

7.3.6 Service providers

There is a risk that third party service providers to the Insignia Financial Group do not provide adequate services or are no longer willing to provide services required by the Insignia Financial Group which would, in turn, cause a significant failure in the Insignia Financial Group’s operations. Whilst the Insignia Financial Group has frameworks in place to effectively manage risks associated with service providers, there is no assurance that these risks will not materialise.

7.3.7 Litigation and potential claims

The Insignia Financial Group may from time to time be involved in legal, regulatory or other proceedings and disputes arising from its business and operations. The Insignia Financial Group may also be exposed to litigation in the future over claims, including by regulators or government agencies, which may affect its business. To the extent that these risks are not covered by the Insignia Financial Group’s insurance policies or other third party rights, litigation or the costs of responding to these legal actions or potential legal action may cause the Insignia Financial Group to incur significant costs, delays and other disruptions to its business and operations, which could have an adverse impact on the Insignia Financial Group’s financial position, performance, earnings and share price. In addition, regulatory actions and disputes with governmental authorities may result in fines, penalties and other administrative sanctions.

7.3.8 Cybersecurity

The Insignia Financial Group collects, processes and stores, through the ordinary course of its business, a wide range of confidential and personal data and information. The cyber threat environment continues to rapidly change with increasing sophistication and high-profile breaches occurring globally and within Australia. The Insignia Financial Group continues to uplift, simplify and separate its technology operating

7. Risk factors *continued*

environment (including supporting information security and cyber security), to protect information held by the Insignia Financial Group from internal or external compromise on systems causing business disruption, data and potential privacy breaches, customer dissatisfaction, regulatory breaches/fines and penalties and/or financial loss.

However, the measures the Insignia Financial Group takes to protect such information and data may be insufficient to prevent security breaches from arising, or other unauthorised access or disclosure of such information and data. Any data security breaches or the Insignia Financial Group's failure to protect private, personal, confidential or sensitive information could result in a significant disruption to the Insignia Financial Group's systems, cause reputational damage, loss of system integrity and breaches of the Insignia Financial Group's obligations under applicable laws, each of which may adversely impact the Insignia Financial Group's business, results from operations, profitability, reputation and prospects and could also result in fines and penalties for the Insignia Financial Group.

Security breaches may also involve unauthorised access to the Insignia Financial Group's networks, systems and databases and the deployment of malicious software designed to create system and service disruptions, exposing financial, proprietary, client and/or personal information. Any systemic failure or sustained disruption to the effective operation of the Insignia Financial Group's technology (e.g. through cyber-attacks) could severely damage the Insignia Financial Group's reputation and its ability to generate new business or retain existing business, directly impair the Insignia Financial Group's operations or require increased expenditure on technology or generally across the business. This could also result in a financial loss via ransom requests, investigation costs, remediation costs and restitution costs.

7.3.9 Information technology

The Insignia Financial Group, and the financial services industry in general, relies heavily on information technology to conduct an efficient and cost effective business. Therefore, any significant or sustained failure or inadequacy in the Insignia Financial Group's core technology systems or cyber security could have an adverse effect on its operations in the short term, which in turn could undermine longer term confidence and impact the Insignia Financial Group's future profitability and financial position. Third party risk management is of key importance for the Insignia Financial Group. The Insignia Financial Group requires adequate assurance over the conduct and controls that third parties have in place, for protection of information that is in custody of the third party. In addition, the Insignia Financial Group faces the risk, common with other industry participants, that further technology changes will be required which could result in an increase in costs.

7.3.10 Alternate technology

Equally, the Insignia Financial Group operates in a market which is impacted by rapid technological developments in software and infrastructure. The introduction of such new practices and technology (including for example AI technology) may have implications for the Insignia Financial Group's business model if Insignia Financial is not able to effectively respond to and utilise such developments.

7.3.11 Brands and reputation

The Insignia Financial Group's capacity to attract and retain employees, clients and FUMA and foster strong relationships with financial advisers depends to a certain extent upon the brands and reputation of its businesses. Matters which may give rise to adverse reputational consequences for the Insignia Financial Group include compliance issues, fraudulent behaviour, cyber and IT risks and adverse media publicity. A significant and prolonged decline in key brand value or adverse effects on group reputation could contribute to lower new business sales, reduced inflows of investment funds and assets, damage to client strategies and may impact adversely upon the Insignia Financial Group's future profitability and financial position.

7.3.12 Financing and liquidity

Realising the benefits of the 2030 Vision and Strategy will require investment in technology, product development, and simplification initiatives. There is a risk that the Insignia Financial Group will be unable to fund these initiatives due to business or market factors, and will therefore be unable to achieve the benefits of these initiatives. Insignia Financial may be required to raise capital from shareholders and/or increase levels of debt to fund initiatives, finance business operations and/or meet regulatory capital requirements.

Liquidity risk relates to the Insignia Financial Group having insufficient liquid assets to cover current liabilities and unforeseen expenses. While the Insignia Financial Group manages liquidity risk exposure by maintaining sufficient liquid assets and an ability to access a committed line of credit, and the liquidity requirements for licensed entities in the Insignia Financial Group are regularly reviewed and carefully monitored in accordance with those licence requirements, there is no assurance that this risk will not materialise. If liquidity risk arises, it may have an adverse effect on the Insignia Financial Group's future profitability and financial position.

There is also the risk of the failure of the Insignia Financial Group to maintain appropriate working capital and reserves to respond to unexpected adverse events.

7.3.13 Insurance policies

The Insignia Financial Group holds insurance policies, including for errors and omissions (professional indemnity) and directors and officers liability insurance, which the Insignia Financial Group regards as commensurate with industry standards, and adequate having regard to its business activities. These policies provide a degree of protection for the Insignia Financial Group's assets, liabilities, officers and employees. However, no assurance can be given that any insurance that the Insignia Financial Group currently maintains will:

- be available in the future on a commercially reasonable basis; or

- provide adequate cover against claims made against or by the Insignia Financial Group, noting that there are some risks that are uninsurable (e.g. nuclear, chemical or biological incidents, or certain regulatory fines and penalties) or risks where the insurance coverage may not be paid out in full (e.g. cyclone, earthquake, flood, fire).

The Insignia Financial Group also faces risks associated with the financial strength of its insurers to meet indemnity obligations when called upon which could have an adverse effect on earnings. If the Insignia Financial Group incurs uninsured losses or liabilities, its assets, profits and prospects may be adversely affected.

7.3.14 Licences

In order to provide the majority of its services in Australia, a number of the Insignia Financial Group's controlled entities are required to hold a number of licences, most notably Australian Financial Services Licence (AFSL) or Registrable Superannuation Entity (RSE) licences. If any of those entities fail to comply with the general obligations and conditions of their licences, this could result in the suspension or cancellation of the licence which enables it to operate key parts of its business. A breach or loss of licences, consents or permissions could have an adverse effect on business and financial performance of the Insignia Financial Group. AFSL and RSE licences also require the licence holder to maintain certain levels of capital. These capital requirements may change from time to time. Earnings dilution may occur where Insignia Financial is required to hold a higher capital base.

A holder of a RSE licence could also determine that it is not in the interests of the relevant fund of which it is the trustee to continue to obtain administration services from Insignia Financial Group (including for example if certain service standards are not met or as a result of a breach requiring compensation to the relevant fund), resulting in a loss of fees to the Insignia Financial Group.

7. Risk factors *continued*

In November 2022, APRA imposed certain additional conditions on the RSE licences held by the Insignia Financial Trustees and in response, a Rectification Action Plan was developed by the Insignia Financial Trustees to uplift the operational effectiveness of their governance, accountability and risk management frameworks and practices. Whilst the Insignia Financial Group has made significant progress in executing the Rectification Action Plan, there is no certainty that the activities will be completed in line with the target date of December 2026. Any extension to the timeframes for delivery of the Rectification Action Plan could have an adverse effect on the business and financial performance of the Insignia Financial Group.

7.3.15 Regulatory and legislative compliance and reform

The financial services sectors in which the Insignia Financial Group operates are subject to extensive legislation, regulation and supervision by a number of regulatory bodies in multiple jurisdictions (including with respect to anti-money laundering, counter-terrorism and sanctions). The regulatory regimes governing the Insignia Financial Group's business activities are complex and subject to change. The impact of future regulatory and legislative change on the Insignia Financial Group cannot be predicted. In addition, if the amount and complexity of new regulation increases (or if the quantum of fines and penalties for non-compliance with existing or new regulation increases), so too may the cost of compliance and the risk of non-compliance.

The Insignia Financial Group must maintain robust internal systems, processes and controls to ensure that the Insignia Financial Group and its employees and representatives comply with all relevant regulatory and legislative regimes. Failure to comply with any applicable regulation and laws in any relevant jurisdiction may result in fines and/or penalties, legal or regulatory sanctions or enforcement action.

7.3.16 Environmental, social and governance (ESG)

ESG risks can have an impact on the Insignia Financial Group's ability to deliver profitable, long-term outcomes for its customers, investors and the community. A sustainability risk is an uncertain environmental or social event or condition that, if it occurs, can cause a significant negative impact on the Insignia Financial Group. Insignia Financial considers ESG as a driver of several risk categories, including legal and regulatory risk, conduct risk, governance risk and investment risk. These can arise in connection with climate change, human capital management, modern slavery and diversity and inclusion, among others.

The Insignia Financial Group is exposed to potential ESG risks through its own operations as well as its superannuation, wrap and asset management activities.

ESG risks including climate change may impact on overall economic growth, unemployment and the wealth of customers and therefore may impact the level of Insignia Financial's FUMA, revenue and profitability.

7.4 Risks relating to the Scheme

7.4.1 Completion of the Scheme is subject to various Conditions Precedent

The implementation of the Scheme is subject to the satisfaction or waiver of various Conditions Precedent (which are summarised in section 4.5 of this Scheme Booklet). The Scheme will not proceed to the Second Court Date unless the Conditions Precedent are satisfied or waived (as applicable).

There can be no certainty, nor can Insignia Financial provide any assurance, that these conditions will be satisfied or waived (where applicable), or if satisfied or waived (where applicable), when that will occur. There are also a number of conditions which are outside the control of Insignia Financial, including, but not limited to, regulatory approvals and approval of the Scheme by the Requisite Majority of Insignia Financial Shareholders.

A failure to satisfy any of the relevant Conditions Precedent, or a delay in satisfying the relevant Conditions Precedent and implementing the Scheme, may adversely affect the market price of Insignia Financial Shares.

7.4.2 Non-participation in the future upside of Insignia Financial Group's business

If the Scheme is implemented, in addition to no longer being exposed to the risks associated with Insignia Financial's business, existing Insignia Financial shareholders will also not participate in the future potential upside associated with Insignia Financial's business. This would include for example the payment of any dividends by Insignia Financial in the future (noting that the payment of a dividend is to be determined by the Insignia Financial Board from time to time and there is no guarantee a dividend will be paid or if paid, paid at any historical level).

One other potential upside in which existing Insignia Financial Shareholders will not participate if the Scheme is implemented is sharing in the potential benefit associated with any contingent assets of the Insignia Financial Group. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of an entity.

Contingent assets of the Insignia Financial Group exist in relation to rights to proceeds from potential recovery actions under professional indemnity insurance claims that Insignia Financial Group is currently pursuing (but has not yet resolved), or may in the future pursue, against its insurers).

There is no certainty that any amount will be recovered in relation to these claims. The ultimate value that could be ascribed to these potential insurance recoveries and the time period in which recoveries (if any) may ultimately be achieved, are not able to be reasonably determined by Insignia Financial based on the information available to it as at the Last Practicable Date. If any amount is recovered, it will likely be paid after the Implementation Date.

7.4.3 Scheme Implementation Deed may be terminated

Each of Insignia Financial and Daintree BidCo has the right to terminate the Scheme Implementation Deed in certain circumstances as set out in sections 9.13.7 to 9.13.9 of this Scheme Booklet. Accordingly, there is no certainty that the Scheme Implementation Deed will not be terminated by either Insignia Financial or Daintree BidCo before the implementation of the Scheme.

If the Implementation Deed is terminated, there is no assurance that the Insignia Financial Board will be able to find a party willing to pay an equivalent or greater price for Insignia Financial Shares than the price to be paid pursuant to the terms of the Scheme Implementation Deed. This may adversely affect the future market price of Insignia Financial Shares.

7.5 Risks if the Scheme does not proceed

If the Scheme does not proceed and no other acceptable proposal is received, Insignia Financial will continue on a standalone basis and Insignia Financial Shareholders will retain their Insignia Financial Shares.

In these circumstances, Insignia Financial Shareholders will remain exposed to the normal risks inherent in the Insignia Financial Group's business as set out in sections 7.1 to 7.3 and the advantages of the Scheme described in the 'Reasons to vote in favour of the Scheme' in section 2.1 of this Scheme Booklet will not be realised.

In addition to the normal risks inherent in the Insignia Financial Group's business, should the Scheme not be implemented, it is expected that Insignia Financial Shareholders will also face exposure to the following risks.

7.5.1 Share price fall

There is a risk that Insignia Financial Shares may trade below their current market price as a result of the absence of the opportunity to obtain the premium which the Scheme represents for each Insignia Financial Share, as well as the impact of both the direct transaction costs and indirect costs described further below.

7. Risk factors *continued*

7.5.2 Transaction costs

If the Scheme is not implemented, Insignia Financial expects to pay an aggregate of approximately \$6.8 million (excluding GST and disbursements) in aggregate transaction costs in connection with the Scheme. See further information on these costs in section 9.7.

7.5.3 FUMA outflows

If the Scheme is not implemented, Insignia Financial's brand may be adversely affected, and customers may therefore have reduced confidence in the Insignia Financial Group's business and strategic direction. This may result in client redemptions and an outflow of funds from the Insignia Financial Group's products as customers look to alternative providers. This subsequently may impact the profitability of the Insignia Financial Group, affecting share price movements and dividend payments which can have an impact on future shareholder returns.

7.5.4 Indirect costs

In addition to direct transaction costs it has and will incur, Insignia Financial may have incurred potential opportunity costs in pursuing the Scheme or in not pursuing strategic initiatives which Insignia Financial could have developed to further the Insignia Financial Group's business and objectives, the distraction of Insignia Financial's management from conducting the Insignia Financial Group's business as usual and potential damage to the Insignia Financial Group's reputation associated with a failed transaction (and the implications of that damage to the Insignia Financial Group's business).

8. Tax implications of the Scheme

The following is a general description of the Australian tax consequences of the Scheme (assuming it becomes Effective) for Scheme Participants. It does not constitute tax advice and should not be relied upon as such.

The description is based upon the Australian law and administrative practice in effect at the Last Practicable Date but is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of an Insignia Financial Shareholder. Insignia Financial Shareholders should seek independent professional advice in relation to their particular circumstances.

The comments set out below are relevant only to those Insignia Financial Shareholders who hold their Insignia Financial Shares on capital account. This section does not address the Australian income tax consequences for Insignia Financial Shareholders who:

- hold their Insignia Financial Shares for the purposes of speculation or a business of dealing in securities (e.g. as trading stock);
- acquired their Insignia Financial Shares pursuant to an employee share, option or achievement rights plan;
- are financial institutions, insurance and/or life insurance companies, partnerships, superannuation funds, tax-exempt organisations, or temporary residents;
- are Australian residents who hold their Insignia Financial Shares as part of an enterprise carried on at or through a permanent establishment in a foreign country;
- change their tax residency status while holding Insignia Financial Shares;
- invest indirectly into Insignia Financial Shares through directed portfolio services, master funds or other portfolio administration services;
- are dealers in Insignia Financial Shares; or
- are subject to the taxation of financial arrangements rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in relation to gains and losses on their Insignia Financial Shares.

Insignia Financial Shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes) should take into account the tax consequences of the Scheme under the laws of their country of residence, as well as under Australian law.

This tax summary has been prepared on the assumption that Insignia Financial Shareholders will receive \$4.80 per Insignia Financial Share and nothing else for the disposal of each of their Insignia Financial Shares under the Scheme.

8.1 Australian resident Insignia Financial Shareholders

The following is a general summary of the Australian income tax implications expected to arise for certain Australian resident Insignia Financial Shareholders on implementation of the Scheme. As this summary is necessarily general in nature, Insignia Financial Shareholders should consult with a professional tax adviser regarding their particular circumstances.

8.1.1 CGT

The Scheme will result in the disposal by Insignia Financial Shareholders to Daintree BidCo of their Insignia Financial Shares. This change in the ownership of the Insignia Financial Shares will constitute a CGT event A1 for Australian CGT purposes.

The date of disposal of the Insignia Financial Shares for CGT purposes will be the Implementation Date.

8.1.2 Calculation of capital gain or capital loss

Insignia Financial Shareholders may make a capital gain on the disposal of Insignia Financial Shares to the extent that the capital proceeds from the disposal of the Insignia Financial Shares are more than the cost base of those Insignia Financial Shares. Conversely, Insignia Financial Shareholders may make a capital loss to the extent that the capital proceeds from the disposal are less than the reduced cost base of their Insignia Financial Shares.

8. Tax implications of the Scheme *continued*

- **Cost base**

The cost base of the Insignia Financial Shares generally includes the cost of acquisition and any incidental costs of acquisition, ownership and disposal that are not deductible to the Insignia Financial Shareholder. The reduced cost base of the Insignia Financial Shares is usually determined in a similar, but not identical, manner. Certain items of expenditure are not included in the reduced cost base.

- **Capital proceeds**

The capital proceeds received in respect of the disposal of each Insignia Financial Share should be the consideration received of \$4.80 per Insignia Financial Share.

8.1.3 CGT discount

Individuals, complying superannuation entities or trusts that have held their Insignia Financial Shares for at least 12 months prior to the date of disposal may be entitled to apply a discount to the amount of any net capital gain (after application of capital losses) from the disposal of Insignia Financial Shares by 50% for individuals and trustees or by 33.3% for complying superannuation entities. For trustees, the ultimate availability of the discount for beneficiaries of the trusts will depend on the particular beneficiary's entitlement to the discount.

Companies (including corporate beneficiaries of trusts) that hold Insignia Financial Shares are not eligible for the CGT discount.

8.1.4 Capital gains and capital losses

Capital gains (prior to any CGT discount) and capital losses of a taxpayer in a year of income are aggregated to determine whether there is a net capital gain. Any net capital gain is included in assessable income and is subject to income tax. Capital losses may not be deducted against other income for income tax purposes but may be carried forward to offset against future capital gains (subject to any specific loss recoupment rules).

8.1.5 Payment of dividends (if any)

In the event Insignia Financial Shareholders receive a dividend prior to the Scheme being implemented, these shareholders should include the amount of that dividend and the attached franking credits in their assessable income in the income year in which the dividend is paid. Insignia Financial Shareholders may be entitled to a tax offset equal to the franking credit attached to these dividends (subject to any applicable franking integrity rules that may apply).

Australian resident Insignia Financial Shareholders should seek independent professional taxation advice regarding the application of the franking integrity rules to their particular circumstances.

8.2 Non-resident Insignia Financial Shareholders

For an Insignia Financial Shareholder who:

- is not a resident of Australia for Australian tax purposes; and
- does not hold their Insignia Financial Shares in carrying on a business through a permanent establishment in Australia,

the disposal of Insignia Financial Shares will generally only result in Australian CGT implications if:

- that Insignia Financial Shareholder together with its Tax Associates directly hold 10% or more of the total Insignia Financial Shares on issue at the time of disposal or for any continuous 12-month period within the 2 year period preceding the disposal (referred to as a "non-portfolio interest"); and
- the market value of Insignia Financial's direct and indirect assets that are taxable Australian real property (as defined in the income tax legislation) exceeds the market value of its other assets that are not taxable Australian real property at the time of the Implementation Date (referred to as the "principal asset test"). Detailed calculations are necessary to determine the results of the "principal asset test".

If either element is absent, any capital gain made on the disposal of an Insignia Financial Shareholder's Insignia Financial Shares should not be subject to income tax in Australia (i.e. it should be disregarded for Australian income tax purposes).

If you hold a "non-portfolio" interest in Insignia Financial, you should obtain independent advice as to the tax implications of the sale of your Insignia Financial Shares, and whether any protection will be available under a relevant double tax treaty.

If a non-resident Insignia Financial Shareholder buys and sells shares in the ordinary course of business, or acquired the Insignia Financial Shares for resale at a profit, any gain could be taxed in Australia as ordinary income and not as a capital gain (subject to any relief available under a double tax treaty that Australia has concluded with the relevant Insignia Financial Shareholder's country of residence), in which case the applicability of Australian tax would not depend on non-portfolio and principal asset tests. Insignia Financial Shareholders should obtain independent tax advice in relation to their particular circumstances.

A non-resident Insignia Financial Shareholder who has previously been a resident of Australia and chose to disregard a capital gain or loss on ceasing to be a resident will be subject to Australian CGT consequences on disposal of the Insignia Financial Shares as set out in section 8.1.

If an Insignia Financial Shareholder is a non-resident of Australia, dividends they receive prior to the Scheme being implemented (if any) should not be subject to income tax in Australia and, to the extent that the dividend is franked, the franked portion should not be subject to Australian dividend withholding tax. Non-resident Insignia Financial Shareholders should consult with a professional tax adviser regarding their particular circumstances (including in the jurisdiction where they are a tax resident).

8.3 Foreign resident capital gains tax withholding

8.3.1 Overview

Under the foreign resident capital gains tax withholding (**FRCGW**) rules in Subdivision 14-D of Schedule 1 to the *Taxation Administration Act 1953* (Cth), Daintree BidCo may have the obligation to withhold an amount of up to 15% of the Scheme Consideration payable to an Insignia Financial Shareholder and pay such amount to the ATO, if (very broadly):

- both the "non-portfolio interest test" and the "principal asset test" set out in section 8.2 above are satisfied in relation to an Insignia Financial Shareholder's Insignia Financial Shares; and
- any of the following applies:
 - Daintree BidCo knows that the Insignia Financial Shareholder is a foreign resident for Australian tax purposes;
 - Daintree BidCo reasonably believes that the Insignia Financial Shareholder is a foreign resident for Australian tax purposes;
 - Daintree BidCo does not reasonably believe that the Insignia Financial Shareholder is a resident for Australian tax purposes and either:
 - the Insignia Financial Shareholder has an address outside Australia (according to any record in Daintree BidCo's possession, or that is kept or maintained on Daintree BidCo's behalf); or
 - Daintree BidCo is authorised to provide a financial benefit (e.g. payment of the Scheme Consideration) to a place outside Australia; or
 - the Insignia Financial Shareholder otherwise has a connection outside Australia of a kind specified in the tax regulations.

8. Tax implications of the Scheme *continued*

If Daintree BidCo determines or reasonably believes that it has an obligation to withhold and make the above payment, Daintree BidCo will (subject to the comments below in relation to relevant tax declarations and variations) withhold the applicable FRCGW amount from the Scheme Consideration payable to the relevant Insignia Financial Shareholder and pay that amount to the ATO. The Insignia Financial Shareholder will only receive the net proceeds and will be taken to receive the full Scheme Consideration for the purposes of the Scheme, such that Daintree BidCo will be discharged of any liability to pay that amount of the Scheme Consideration to the Insignia Financial Shareholder.

Depending on each Insignia Financial Shareholder's specific circumstances, an Insignia Financial Shareholder may be entitled to apply to the ATO, before the disposal of their Insignia Financial Shares, for the ATO to vary and reduce the rate of withholding below 15% of the Scheme Consideration (including to nil) (**Variation Notice**).

Non-resident Insignia Financial Shareholders should consult with a professional tax adviser regarding their particular circumstances.

8.3.2 Declaration for non-withholding of FRCGW

Daintree BidCo may request certain Scheme Participants to provide Daintree BidCo with either:

- a Variation Notice; or
- a completed declaration to the effect that, for a specified period (during which period the Scheme is implemented), either:
 - the Scheme Participant is an Australian resident for Australian tax purposes (**Australian Residency Declaration**); or
 - the Insignia Financial Shares held by the Scheme Participant do not satisfy the “non-portfolio interest test” (see above) and/or do not satisfy the “principal asset test” (see above) (**Non-Portfolio Interest Declaration**).

If Daintree BidCo requests an Insignia Financial Shareholder to provide a Variation Notice before Daintree BidCo acquires that Insignia Financial Shareholder's Insignia Financial Shares, and the Insignia Financial Shareholder provides a valid Variation Notice before that time, Daintree BidCo will withhold, under the FRCGW regime, the amount required to be withheld in accordance with the Variation Notice.

If Daintree BidCo requests an Insignia Financial Shareholder to provide a completed Australian Residency Declaration or Non-Portfolio Interest Declaration to Daintree BidCo before Daintree BidCo acquires that Insignia Financial Shareholder's Insignia Financial Shares, and the Insignia Financial Shareholder provides such a declaration, Daintree BidCo should not deduct any amount for FRCGW from the Scheme Consideration payable to the Insignia Financial Shareholder, unless Daintree BidCo knows or reasonably believes the declaration to be false, or the period specified in the declaration includes days later than 6 months after the day the declaration was made or the Implementation Date occurs on a day not covered by the declaration.

If Daintree BidCo does not request an Insignia Financial Shareholder to provide either a Variation Notice, an Australian Residency Declaration or a Non-Portfolio Interest Declaration in relation to an Insignia Financial Shareholder's Insignia Financial Shares, it is expected that Daintree BidCo will not withhold any amount for FRCGW from the Scheme Consideration payable to the Insignia Financial Shareholder.

If Daintree BidCo requests that an Insignia Financial Shareholder provides a Variation Notice, an Australian Residency Declaration or a Non-Portfolio Interest Declaration and the Insignia Financial Shareholder does not provide any of these before Daintree BidCo acquires an Insignia Financial Shareholder's Insignia Financial Shares, it is expected that Daintree BidCo will withhold the applicable FRCGW amount from the Scheme Consideration payable to the Insignia Financial Shareholder.

8.3.3 Credit for FRCGW tax

Any amount withheld from the Scheme Consideration for FRCGW is not a final tax. It is expected that an Insignia Financial Shareholder should be entitled to claim a credit in the Insignia Financial Shareholder's Australian income tax return, for the relevant income year, for any amount withheld for FRCGW and remitted by Daintree BidCo in respect of the Insignia Financial Shareholder's Insignia Financial Shares. To the extent the FRCGW tax exceeds an Insignia Financial Shareholder's final Australian tax liability for the disposal of an Insignia Financial Shareholder's Insignia Financial Shares, the Insignia Financial Shareholder should be entitled to a refund of the difference.

8.4 GST

Insignia Financial Shareholders should not be liable for GST in respect of a disposal of their Insignia Financial Shares under the Scheme.

If Insignia Financial Shareholders incur GST on acquisitions (such as on legal, financial or tax advice they acquire), to the extent that any of these acquisitions relate to the disposal of their Insignia Financial Shares, they may not be entitled to claim input tax credits or may only be entitled to claim reduced input tax credits in relation to any GST incurred on these acquisitions. Insignia Financial Shareholders should seek independent tax advice in relation to their individual circumstances.

8.5 Stamp duty

Insignia Financial Shareholders should not be liable for any stamp duty in any Australian state or territory in respect of the disposal of their Insignia Financial Shares. Under the terms of the Scheme Implementation Deed (refer to clause 18.2), Daintree BidCo must pay all stamp duty payable on the Scheme Implementation Deed and any transactions contemplated by the Scheme Implementation Deed.

9. Additional information

This section sets out additional statutory information, as well as some additional information that may be of interest to Insignia Financial Shareholders.

9.1 Marketable securities of Insignia Financial held by or controlled by Insignia Financial Directors

As at the Last Practicable Date, no marketable securities of Insignia Financial are held or controlled by Insignia Financial Directors and no Insignia Financial Directors are otherwise entitled to marketable securities other than as listed below, all of which are held beneficially:

Name	Insignia Financial Shares	IFL Performance Rights ³⁶	Value of holding in Insignia Financial Shares ³⁷	Value of holding in IFL Performance Rights

9.4 Benefits and agreements

9.4.1 Arrangements concerning Daintree TopCo

As outlined in section 6.2, it is proposed that on Implementation, the governance arrangements for Daintree TopCo will be constituted by a board of directors with up to 12 members, with one of those directors being the chief executive officer of Daintree TopCo group (which includes the Insignia Financial Group). It is proposed that Mr Scott Hartley will be appointed chief executive officer of Daintree TopCo group.

Following Implementation, Daintree TopCo proposes to establish an executive incentive plan for senior executives of Daintree TopCo group (including the Insignia Financial Group) that is likely to involve the award of a class of equity securities in the capital of Daintree TopCo group to eligible executives. As at the date of this Scheme Booklet, no decision has been made by Daintree TopCo as to the terms and conditions and features of such arrangements and no decision has been made as to which executives of the Insignia Financial Group may be offered awards or the nature of such awards.

9.4.2 Agreements connected with or conditional on the Scheme

Except as disclosed in this section 9:

- no Insignia Financial Director has any other interests in a contract entered into by Daintree BidCo or its Associates;
- there are no contracts or arrangements between an Insignia Financial Director and any person, including Daintree BidCo or its Associates, in connection with or conditional on the outcome of the Scheme; and
- no Insignia Financial Director has a material interest in relation to the Scheme other than in their capacity as an Insignia Financial Shareholder.

9.5 Deeds of indemnity, insurance and access and D&O Run-off Policy

Insignia Financial has entered into deeds of indemnity, insurance and access with the directors of Insignia Financial and its Related Bodies Corporate, on customary terms. Such deeds of indemnity, insurance and access include

terms that provide for Insignia Financial to indemnify each of its directors and the directors of its Related Bodies Corporate against any liability incurred by such persons in their capacity as a director of Insignia Financial or its Related Bodies Corporate.

Insignia Financial also pays insurance premiums for the benefit of the directors and officers of Insignia Financial and its Related Bodies Corporate. Under the Scheme Implementation Deed, Insignia Financial may enter into an arrangement to provide run-off insurance coverage for all current Insignia Financial Directors and officers and directors and officers of Related Bodies Corporate for a 7-year period from the Implementation Date.

9.6 Independent Expert

Kroll Australia Pty Ltd has prepared the Independent Expert's Report set out in Annexure A of this Scheme Booklet advising as to whether, in its opinion, the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders.

The Independent Expert has concluded that the Scheme is fair and reasonable and in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal.

9.7 Transaction costs

In aggregate, if the Scheme is implemented, Insignia Financial expects that it will incur approximately \$35.3 million (excluding GST and disbursements) in external transaction costs which relate to the Scheme. This includes advisory fees (including for Insignia Financial's financial, legal and tax advisers), the Independent Expert's fees, registry fees, printing and mailing costs and expenses associated with convening and holding the Scheme Meeting and the insurance premium that Insignia Financial expects to pay for entry into the directors' and officers' run-off insurance cover as set out in section 9.5 of this Scheme Booklet. Of this, approximately \$6.8 million (excluding GST and disbursements) will be incurred regardless of whether or not the Scheme is implemented, excluding any break fee that may be payable to Daintree BidCo as described in section 9.13.5.

9. Additional information *continued*

Whilst not considered a transaction cost, the subordinated loan notes issued to National Australia Bank have an equity-linked additional return amount that is payable on the maturity date. Prior to the receipt of the Initial Proposal, the equity-linked additional return amount was nil. The additional return amount is now locked at \$53.5 million, with share price movements after receipt of the Initial Proposal having increased the equity-linked value of this component of the subordinated loan notes. This amount will be incurred regardless of whether or not the Scheme is implemented.

9.8 Consents

9.10 Fees

Each of the persons named in section 9.8 of this Scheme Booklet as performing a function in a professional, advisory or other capacity in connection with the Scheme and the preparation of this Scheme Booklet, will be entitled to receive professional fees charged in accordance with their normal basis of charging.

Insignia Financial Shareholders who are nominees, trustees or custodians are encouraged to seek independent advice as to how they should proceed. 9.12 ASIC relief and ASX waivers

9.12.1 ASX waivers

Insignia Financial will apply for a waiver of ASX Listing Rule 6.23.3 to the extent necessary to permit the treatment of the IFL Performance Rights as set out in section 5.5.7 without Insignia Financial Shareholder approval, conditional on the Scheme becoming Effective.

9.12.2 ASIC relief

Regulation 5.1.01 of the Corporations Regulations requires that, unless ASIC allows otherwise, this Scheme Booklet must contain all matters set out in Part 3 of Schedule 8 of the Corporations Regulations. As some of these requirements are not applicable or appropriate in respect of the Scheme, Insignia Financial has applied to ASIC for relief in respect of these requirements.

Paragraph 8302(h) of Part 3 of Schedule 8 of the Corporations Regulations requires this Scheme Booklet to set out whether, within the knowledge of the Insignia Financial Directors, the financial position of the Insignia Financial Group has materially changed since the date of the last balance sheet laid before Insignia Financial in general meeting (being its financial statements for the financial year ended 30 June 2025) or sent to Insignia Financial Shareholders in accordance with section 314 or 317 of the Corporations Act, and, if so, full particulars of any change.

ASIC has granted Insignia Financial relief from this requirement so that this Scheme Booklet does not need to set out the matters in paragraph 8202(h) of Part 3 of Schedule 8 on the basis that:

- Insignia Financial has complied with Division 2 of Part 2M.3 of the Act in respect of the half-year ended 31 December 2025;
- the Scheme Booklet sets out whether, within the knowledge of the directors of Insignia Financial as at the Last Practicable Date, the financial position of Insignia Financial has materially changed since the half-year ended 31 December 2025, and if so, particulars of any change;
- Insignia Financial discloses in announcements to the market operated by ASX any material changes to its financial position that occur after the Last Practicable Date but prior to the Scheme being approved by the Court;
- the Scheme Booklet states that Insignia Financial will give a copy of the financial report for the financial half-year ended 31 December 2025 free of charge to any Insignia Financial Shareholder who requests a copy; and
- the Scheme Booklet lodged for registration with ASIC is substantially in the form given to ASIC on 23 February 2026, approved by the Court and registered with ASIC.

Paragraph 8302(d) of Part 3 of Schedule 8 of the Corporations Regulations requires the Scheme Booklet to disclose particulars of payments made or benefits given to a director, secretary or executive officer of Insignia Financial in relation to their retirement from office. ASIC has granted Insignia Financial relief from this requirement so that this Scheme Booklet is only required to disclose particulars of payments or benefits described above where those payments or benefits are made in connection with or are materially affected by the implementation of the Scheme.

9.13 Key terms of the Scheme Implementation Deed

9.13.1 Overview

On 22 July 2025, Insignia Financial and Daintree BidCo entered into the Scheme Implementation Deed, which governs the conduct of the Scheme.

A summary of the key terms of the Scheme Implementation Deed is set out below. A full copy of the Scheme Implementation Deed was released to ASX on 22 July 2025, and is set out at Annexure B.

9.13.2 Scheme Consideration and Permitted Dividend

The consideration for each Insignia Financial Share, as set out in the Scheme Implementation Deed, is a cash amount of \$4.80 per Insignia Financial Share.

If the Scheme becomes Effective after 22 July 2026, Insignia Financial may also determine and pay a Permitted Dividend on or prior to the Implementation Date, subject to certain conditions being met (including in respect of levels of profits, earnings and reserves). If Insignia Financial determines to pay a Permitted Dividend in the circumstances described above, the Permitted Dividend will be in the form of

9. Additional information *continued*

a cash dividend equal to the aggregate of 50% of Insignia Financial's UNPAT for each calendar month that has elapsed from (and including) 22 July 2026 to (and including) the date the Scheme Meeting is held (deemed to be no greater than 35 days), divided by the total number of Insignia Financial Shares.

Noting that the Effective Date is currently expected to be Friday, 17 April 2026, the Insignia Financial Board does not currently anticipate that it will determine and pay a Permitted Dividend. However to the extent that the Scheme becomes Effective after 22 July 2026 and Insignia Financial determines to pay a Permitted Dividend on or prior to the Implementation Date in the circumstances described above, Insignia Financial will make an appropriate announcement to the market on ASX as to this decision. Based on a Scheme Meeting date of Monday, 13 April 2026, any determination by Insignia Financial to pay a Permitted Dividend will occur after the Scheme Meeting.

9.13.3 Conditions Precedent and Material Adverse Change

Implementation of the Scheme is subject to the satisfaction or waiver (as applicable) of a number of Conditions Precedent which are summarised in section 4.5 of this Scheme Booklet.

This section provides further details on the Material Adverse Change condition.

The Material Adverse Change condition will be triggered if a Material Adverse Change occurs after the date of the Scheme Implementation Deed, being 22 July 2025, and before 8:00am on the Second Court Date.

A Material Adverse Change is defined in the Scheme Implementation Deed as:

- **(EBITDA)** an event, circumstance or matter which has had the effect of or results in, or would be reasonably likely to have the effect of or result in (either individually or when aggregated with other such events, matters or circumstances) a reduction in the Adjusted EBITDA of the Insignia Financial Group for the financial year ending 30 June 2026 of at least 15% relative to the agreed Reference EBITDA, other than as a result of certain excluded events, occurrences or matters including:

- any matter, event or circumstance required or expressly permitted by the Scheme Implementation Deed or the Scheme;
- any Disclosed deal costs or expenses relating to the Scheme Implementation Deed, the Scheme or a potential alternative transaction;
- any event, occurrence or matter which has been Disclosed;
- any event, occurrence or matter which occurs with the prior written consent of Daintree BidCo or in respect of which Daintree BidCo has not objected within 10 Business Days of consent being sought;
- any event, occurrence or matter within the actual knowledge of Daintree BidCo at the date of the Scheme Implementation Deed (and for the avoidance of doubt, mere knowledge of risk is not "knowledge");
- any event, occurrence or matter arising out of the exercise of change of control or unilateral termination rights in Disclosed contracts that are triggered by the Scheme; or
- certain global events, including but not limited to direct impacts on consolidated net income from a decrease in FUMA resulting from any change in the value of financial markets, any change in taxation, interest rates or inflation rates, changes in accounting standards, laws or regulations or war, terrorism or natural disasters.
- **(FUMA)** a reduction in the average of the Adjusted FUMA over certain three-month periods by at least 15% relative to an agreed Reference FUMA, other than as a result of any event, occurrence or matter:
 - which has been Disclosed;
 - which occurs with the prior written consent of Daintree BidCo or in respect of which Daintree BidCo has not objected within 10 Business Days of consent being sought; or
 - within the actual knowledge of Daintree BidCo at the date of the Scheme Implementation Deed and which would reasonably be expected to impact the Insignia Financial business or its sector(s) (and for the avoidance of doubt, mere knowledge of risk is not "knowledge");

- **(Regulatory Authority)** ASIC, APRA or any other Regulatory Authority terminates, revokes, varies or does not renew, imposes new conditions or undertakings (or notifies of an intention to do so), or commences any legal proceedings or investigations (that is not industry-wide and not routine surveillance) in respect of any material licences, permits or other regulatory approvals or authorisations (including AFSLs and RSE Licences) held by an Insignia Financial Group Member, that is reasonably likely to result in the Insignia Financial Group being unable to carry on its business in all material respects as it is carried out as at the date of the Scheme Implementation Deed;
- **(Proceedings and investigations)** the commencement of one or more new proceedings, formal investigations, prosecutions, arbitrations or litigation (in each case that have not been Disclosed) which give rise to or could reasonably be expected to give rise to a legal liability for the Insignia Financial Group (individually or in aggregate) in excess of \$125 million; or
- **(Customer remediations)** a Regulatory Authority orders one or more additional customer remediations (that have not been Disclosed) to be undertaken by an Insignia Financial Group Member which give rise to, or are reasonably expected to give rise to, a legal liability for the Insignia Financial Group (individually or in aggregate) exceeding \$125 million.

9.13.4 Exclusivity

The Scheme Implementation Deed contains the following exclusivity arrangements in favour of Daintree BidCo, operating from signing of the Scheme Implementation Deed until the earlier of termination of the Scheme Implementation Deed, the End Date or the Implementation Date.

- **No existing discussions:** Insignia Financial represented and warranted that as at the date of the Scheme Implementation Deed, its representatives were not in negotiations, discussions or other communications with any person other than Daintree BidCo in respect of any actual, proposed or potential Competing Proposal, and any due diligence access granted to any other person has been terminated and requested to return or destroy non-public information; Insignia Financial will enforce its rights (including any standstills) in this regard.
- **No shop:** During the Exclusivity Period, Insignia Financial and its representatives must not directly or indirectly solicit, invite, encourage or initiate any enquiries, negotiations or discussions, or communicate any intention to do any of those things with any other person in relation to, or that may be reasonably expected to lead to, a Competing Proposal.
- **No talk:** During the Exclusivity Period, Insignia Financial and its representatives must not negotiate or enter into, or participate in negotiations, discussions or other communications with any person regarding a Competing Proposal, even if that person's Competing Proposal was not directly or indirectly solicited, invited, encouraged or initiated or has been publicly announced, in each case subject to the fiduciary carve-out described below.
- **No due diligence:** During the Exclusivity Period, Insignia Financial and its representatives must not allow any person to undertake due diligence on the Insignia Financial Group, make available to any person non-public information about the Insignia Financial Group, or make available to any person the Insignia Financial Group's officers, employees or premises, in each case other than Daintree BidCo, in connection with the person formulating, developing or finalising a Competing Proposal, even if that person's Competing Proposal was not directly or indirectly solicited, invited, encouraged or initiated (subject to the fiduciary carve-out).
- **Equivalent obligations (application of fiduciary carve-out):** If Insignia Financial proposes to provide any non-public information to a third party in connection with a Competing Proposal under the fiduciary carve-out, it must first obtain a confidentiality agreement no less onerous than Bidder's (including standstill) and must promptly provide to Daintree BidCo any such non-public information not already provided to it.

9. Additional information *continued*

- **Notification obligations:** During the Exclusivity Period, Insignia Financial must promptly inform Daintree BidCo if it receives any Competing Proposal or is approached to engage in any activity prohibited by the exclusivity arrangements. The notification must disclose the price or implied value, conditions precedent, timetable, break fee, reverse break fee, other deal protection provisions and all other material terms of the Competing Proposal (including the identity of the proposer), together with copies of any non-public information furnished to that party and not previously provided to Daintree BidCo.
- **Matching right:** During the Exclusivity Period, Insignia Financial must not accept or enter into any arrangement giving effect to a Competing Proposal and must use its best endeavours to procure that no Insignia Financial Directors change their recommendation and voting intention, unless.
 - the Insignia Financial Board determines the Competing Proposal would be likely to be a Superior Proposal; and
 - Daintree BidCo has been provided with the material terms and conditions of the Competing Proposal, Insignia Financial has provided its reasons for that determination, and Daintree BidCo has not announced a matching or superior proposal to the terms of the Competing Proposal within 5 Business Days after receipt of that information.
- **Daintree BidCo counter proposal:** If Daintree BidCo proposes a matching or superior proposal to a Competing Proposal within the 5 Business Day period above (**Bidder Counterproposal**), and if the Insignia Financial Board determines that the Bidder Counterproposal would provide an equivalent or superior outcome for Insignia Financial Shareholders as a whole, Insignia Financial and Daintree BidCo must use their best endeavours to agree amendments to the Scheme Implementation Deed to implement the Bidder Counterproposal and Insignia Financial must use its best endeavours to procure the Insignia Financial Directors continue to recommend the Scheme to Insignia Financial Shareholders.

- **Variations to a rival proposal:** Any material modification to a Competing Proposal constitutes a new Competing Proposal, re-triggering the notification and matching right steps above.

The no talk and no due diligence exclusivity restraints above do not apply to the extent they restrict Insignia Financial or the Insignia Financial Board from taking or refusing to take any action with respect to a genuine written Competing Proposal (not solicited in breach of the no shop), provided that the Insignia Financial Board has determined, acting in good faith, after consultation with its external financial advisers and legal advisers, that the Competing Proposal is, or could reasonably become, a Superior Proposal and, after consultation with and receiving legal advice from its external legal advisers, that taking or refusing to take the action would be reasonably likely to breach the Insignia Financial Board's fiduciary or statutory obligations.

Insignia Financial may also continue to make normal presentations to, and respond to queries from brokers, portfolio investors, analysts and institutional lenders in the ordinary course, and may engage with its shareholders in relation to the Insignia Financial Group (provided such engagement does not relate to soliciting, inviting, encouraging or initiating a Competing Proposal and is not inconsistent with the Board's recommendation) and may make any disclosures required to satisfy its continuous disclosure obligations.

9.13.5 Break Fee

Insignia Financial has agreed to pay to Daintree BidCo a Break Fee of \$32.6 million if:

- **Competing Proposal:** On or before the End Date, a Competing Proposal is announced and within 12 months of the End Date, the third party who announced or made the Competing Proposal (or any of its Associates) completes or implements that Competing Proposal or acquires a Relevant Interest or Voting Power in more than 50% of the Insignia Financial Shares;

- **Change of recommendation:** During the Exclusivity Period, any Insignia Financial Director:
 - fails to make or publicly makes and then publicly withdraws, adversely changes or qualifies their recommendation or voting intention, or otherwise makes a public statement that they no longer support the Scheme; or
 - publicly recommends, supports or endorses a Competing Proposal,

except where the Independent Expert concludes that the Scheme is not fair and reasonable and in the best interests of Insignia Financial Shareholders (other than where that conclusion is due wholly or partly to the existence, announcement or publication of a Competing Proposal); or

- **Termination:** Daintree BidCo validly terminates the Scheme Implementation Deed for a material breach by Insignia Financial or a Condition Precedent not being satisfied or waived (as applicable) by the End Date as a result of a breach or a deliberate act or omission by Insignia Financial.

A Break Fee is not payable if the Scheme becomes Effective and any Break Fee already paid would need to be refunded.

The maximum liability of Insignia Financial to Daintree BidCo in connection with the Scheme Implementation Deed is the Break Fee and the payment by Insignia Financial of the Break Fee represents the sole, maximum and absolute amount of any liability of Insignia Financial in connection with the Scheme Implementation Deed.

9.13.6 Reverse Break Fee

Daintree BidCo has agreed to pay to Insignia Financial a Reverse Break Fee of \$32.6 million if:

- Insignia Financial validly terminates the Scheme Implementation Deed for a material breach by Daintree BidCo; or
- Daintree BidCo fails to pay the Scheme Consideration in accordance with the Scheme Implementation Deed, the Scheme and the Deed Poll.

A Reverse Break Fee is not payable if the Scheme becomes Effective and any Reverse Break Fee already paid would need to be refunded.

The maximum liability of Daintree BidCo in connection with the Scheme Implementation Deed is the Reverse Break Fee and the payment by Daintree BidCo of the Reverse Break Fee represents the sole, maximum and absolute amount of any liability of Daintree BidCo in connection with the Scheme Implementation Deed.

9.13.7 Termination by Daintree BidCo

Daintree BidCo may terminate the Scheme Implementation Deed at any time prior to 8:00am on the Second Court Date if any Insignia Financial Director:

- withdraws, adversely changes or qualifies their recommendation or voting intention, or makes a public statement indicating that the Insignia Financial Director no longer supports the Scheme; or
- publicly recommends, supports or endorses a Competing Proposal.

9.13.8 Termination by Insignia Financial

Insignia Financial may terminate the Scheme Implementation Deed if:

- the Insignia Financial Board or a majority of the Insignia Financial Board has changed, withdrawn or modified its recommendation and, if required, the Break Fee has been paid; or
- at any time prior to 8:00am on the Second Court Date, the Insignia Financial Board determines a Competing Proposal that was not solicited, invited, encouraged or initiated in breach of the no shop is a Superior Proposal, after complying with the notification, matching right and counterproposal process, and Daintree BidCo has not announced a matching or superior proposal within the 5 Business Day matching period.

9. Additional information *continued*

9.13.9 Termination by either party

Either party may terminate the Scheme Implementation Deed if:

- there is a material breach of the Scheme Implementation Deed (including any representation or warranty not being true and correct) by the other, taken in the context of the Scheme as a whole, provided that where the breach is capable of cure there is a 5 Business Day cure period;
- a Condition Precedent is not satisfied by the End Date and the parties fail to agree any alternative means or methods for proceeding with the Scheme or to extend the relevant time for satisfaction of the Condition Precedent or the End Date; or
- agreed in writing between Insignia Financial and Daintree BidCo.

9.14 Other information material to the making of a decision in relation to the Scheme

Except as set out in this Scheme Booklet, so far as the Insignia Financial Directors are aware, there is no other information material to the making of a decision in relation to the Scheme, being information that is within the knowledge of any Insignia Financial Director or any director of a Related Body Corporate of Insignia Financial which has not previously been disclosed to Insignia Financial Shareholders.

9.15 Lodgement of this Scheme Booklet

This Scheme Booklet was given to ASIC on 9 February 2026 as required by section 411(2) (b) of the Corporations Act. Insignia Financial has asked ASIC to provide a statement, in accordance with section 411(17)(b) of the Corporations Act, that ASIC has no objection to the Scheme. If ASIC provides that statement, it will be produced to the Court on the Second Court Date.

A copy of this Booklet has also been lodged with ASX.

None of ASIC, ASX nor any of their officers takes any responsibility for the content of this Scheme Booklet.

9.16 No unacceptable circumstances

The Insignia Financial Directors believe that the Scheme does not involve any circumstances in relation to the affairs of Insignia Financial that could reasonably be characterised as constituting “unacceptable circumstances” for the purposes of section 657A of the Corporations Act.

9.17 Supplementary information

Insignia Financial will issue a supplementary document to this Scheme Booklet if it becomes aware, between the date of lodgement of this Scheme Booklet for registration by ASIC and the Effective Date:

Dear Directors

Part One – Independent Expert’s Report

1 Introduction

On 22 July 2025, Insignia Financial Ltd (**Insignia Financial** or the **Company**) announced that it had entered into a Scheme Implementation Deed (**SID**) with Daintree Bidco Pty Limited (**Daintree Bidco**), an entity established by CC Capital Partners, LLC (**CC Capital**) and its affiliates¹. Under the SID, it is proposed that Daintree BidCo will acquire 100% of the issued ordinary shares in Insignia Financial (**Insignia Financial Shares**) by way of a scheme of arrangement (**Scheme**) (**Transaction**). Under the Scheme, the shareholders of Insignia Financial (**Insignia Financial Shareholders**) will receive \$4.80 per Insignia Financial Share in cash consideration from Daintree Bidco (**Scheme Consideration**).

Under the SID, if the Scheme has not become effective by 22 July 2026, Insignia Financial is permitted to pay a special cash dividend to Insignia Financial Shareholders, calculated as 50% of Underlying Net Profit after Tax for each calendar month from (and including) 22 July 2026 to (and including) the date of the Scheme Meeting², conditional on the Scheme becoming effective and other conditions as set out in the SID (**Special Dividend**). Any Special Dividend paid will not reduce the Scheme Consideration. The board of Insignia Financial (**Insignia Financial Board**) will consider whether to declare any such Special Dividend closer to the time of the Scheme Meeting, but prior to implementation of the Scheme. Dividends will otherwise remain paused.

Insignia Financial is an Australian wealth manager providing financial advice, superannuation, wrap platform and asset management services to members and investors, financial advisers and corporate employees. Headquartered in Melbourne, Victoria, Insignia Financial had approximately \$342.0 billion in funds under management and/or administration (**FUMA**) as at 31 December 2025. Insignia Financial is listed on the Australian Securities Exchange (**ASX**) and, as at market close on 11 December 2024, the last trading day prior to media speculation surrounding a non-binding proposal from Bain Capital, LP (**Bain**

¹ CC Capital’s affiliates also include entities affiliated with One Investment Management Group UK Ltd and Carlyle Group, Inc.

² The Scheme is subject to approval by Insignia Financial Shareholders at a meeting (the **Scheme Meeting**).

Capital) on 12 December 2024 to acquire all Insignia Financial Shares for \$4.00 cash per share, the **(Bain Capital Proposal)**, Insignia Financial had a market capitalisation of \$2.1 billion.³

CC Capital is a New York based private investment firm founded in 2016, focused on investing in businesses with compelling customer value propositions and sustainable competitive advantages that drive long term performance. CC Capital was founded, and is controlled, by Mr Chinh Chu.

The Scheme is subject to the satisfaction of a number of conditions precedent. Regulatory conditions precedent not yet satisfied as at the date of this report include approval by the Australian Prudential Regulation Authority (**APRA**) and the Foreign Investment Review Board (**FIRB**). Further details in relation to the Scheme and the conditions precedent are set out in Section 5 of this report.

The Scheme is subject to approval by Insignia Financial Shareholders at the Scheme Meeting expected to be held virtually at 10:00am (Australian Eastern Daylight Time (**AEDT**)) on Monday, 13 April 2026. Insignia Financial Shareholders registered at 10:00am (AEDT) on Saturday, 11 April 2026 will be entitled to vote on the resolution to approve the Scheme (**Scheme Resolution**). For the Scheme to proceed, the Scheme Resolution must be approved by at least 75% of the total number of votes cast by eligible Insignia Financial Shareholders (in person, or by proxy, attorney, or corporate representative) and by more than 50% of all eligible Insignia Financial Shareholders present and voting (in person, or by proxy, attorney, or in the case of a body corporate which is an Insignia Financial Shareholders, by corporate representative) at the Scheme Meeting.

To assist Insignia Financial Shareholders in assessing the Scheme and informing their vote, the directors of Insignia Financial (**Insignia Financial Directors**) have appointed Kroll Australia Pty Ltd (**Kroll**) to prepare an independent expert’s report setting out whether, in our opinion, the Scheme is in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal. This report will be included in the scheme booklet issued by Insignia Financial in respect of the Scheme (**Scheme Booklet**).

Further information regarding Kroll, as it pertains to the preparation of this report, is set out in Appendix 1 to this report.

Kroll’s Financial Services Guide is contained in Part Two of this report.

2 Scope of report

The transaction is to be implemented by way of a scheme of arrangement under Part 5.1 of the Corporations Act 2001 (Cth) (**Corporations Act**) and requires approval of Insignia Financial Shareholders.

There is no statutory requirement for an independent expert’s report to be commissioned for Insignia Financial Shareholders, however, it is a condition precedent of the Scheme that the independent expert issues a report which concludes that the Scheme is in the best interests of Insignia Financial Shareholders and does not change their conclusion or withdraw their report before 8:00am on the Second Court Date⁴.

In undertaking our work, we have referred to guidance provided by ASIC in its Regulatory Guides in particular, Regulatory Guide 111 ‘Content of expert reports’ (**RG 111**) which outlines the principles and matters which it expects a person preparing an independent expert’s report to consider and Regulatory Guide 112 ‘Independence of experts’ (**RG 112**).

Further details of the relevant technical requirements and the basis of assessment in forming our opinion are set out in Section 6 of this report.

³ Calculated as the closing price of Insignia Financial Shares on 11 December 2024 of \$3.06 multiplied by 672,046,509 fully diluted Insignia Financial Shares outstanding, comprised of 670,726,143 ordinary shares, 2,013,473 performance rights and 99,612 deferred shares, less 792,719 treasury shares on issue as at 11 December 2024.

⁴ Expected to be Thursday, 16 April 2026, the first day of hearing of an application made to the Court for an order pursuant to sections 411(4)(b) and 411(6) of the Corporations Act approving the Scheme.

3 Opinion

3.1 Background

Insignia Financial is a diversified Australian wealth manager that operates across the advice, investment platforms, superannuation and asset management segments of the wealth management sector.

The Australian wealth management sector is one of the largest and most mature globally, underpinned by the compulsory superannuation system, high household wealth, and strong demand for financial advice, retirement products and investment platforms. However, it has undergone substantial structural change over the past decade, particularly following the Future of Financial Advice (**FoFA**) reforms in 2012, and the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry 2017 to 2019 (**Royal Commission**).

In the period following the Royal Commission, Australian retail banks accelerated their exit from wealth management. This created an opportunity for Insignia Financial (then IOOF Holdings Ltd (**IOOF**)) to acquire scale across its advice and wealth platforms businesses. During this period, Insignia Financial completed two significant acquisitions, including that of ANZ’s OnePath Pensions & Investments business (**OnePath P&I**) and, subsequently, MLC Wealth Management Limited (**MLC Wealth**), collectively establishing Insignia Financial as one of Australia’s largest integrated wealth managers.⁵

However, the anticipated scale benefits proved difficult to realise in the short to medium term. The Company inherited multiple legacy platforms, brands and systems from ANZ Group Holdings Limited (**ANZ**) and National Australia Bank Limited (**NAB**) (through the OnePath P&I and MLC Wealth acquisitions), alongside its pre-existing infrastructure. Integration and separation activities, including the separation of the OnePath P&I business from ANZ, the separation of MLC systems from NAB, consolidation of legacy wrap platforms, and rationalisation of overlapping superannuation offerings, were complex multi-year programs. These activities resulted in elevated transformation and separation costs, operational complexity, and adviser and member disruption.

These activities also coincided with ongoing regulatory scrutiny and the implementation of substantial, multi-year remediation programs arising from issues identified through the Royal Commission.

Earnings and market sentiment during this period were adversely affected by significant remediation, integration, separation and transformation activity, and there was uncertainty regarding the timing and achievability of improved operating and financial performance. These events contributed to a prolonged period of decline in Insignia Financial’s share price, which had been as high as \$11.81 on 18 October 2017, prior to the Royal Commission, to a low of \$1.99 on 20 October 2023.

In November 2024, Insignia Financial announced its Vision 2030 strategy, which outlined a pathway to further portfolio simplification, platform consolidation, improved adviser productivity and sustainable long-term growth. Shortly thereafter, a competitive bidding process commenced following receipt of the Bain Capital Proposal, prompting competing bids from two additional parties and, in total, eight non-binding indicative proposals were received between December 2024 and March 2025. The Scheme Consideration of \$4.80 cash per share represented a 20.0% premium to the Bain Capital Proposal, and a 56.9% premium to Insignia Financial’s last closing price prior to the Bain Capital Proposal. Notwithstanding the progress that has been made in addressing Insignia Financial’s legacy issues, the Company continues to face a number of challenges. These include its near-term growth profile, execution risk associated with its Vision 2030 strategy, and residual risks relating to remediation activity.

In respect of its growth profile, Insignia Financial operates in a highly competitive Australian wealth management market characterised by long-term structural fee compression, competitive pricing and ongoing product migration. Net revenue margins across all operating segments remain under pressure. The Company’s largest segment, Master Trust, continues to experience sustained net outflows. Asset Management has also recorded net outflows for periods of 2025. While the Wrap segment is generating net inflows, these are currently at a scale and margin insufficient to offset declines in other segments. Although Wrap represents a higher growth segment, it operates at lower net revenue margins than Master Trust and faces competitive pressure from larger, faster-growing platform providers.

⁵ IFL ASX Announcement, “Acquisition of MLC and Results Announcement”, 31 August 2020.

Annexure A – Independent Expert’s Report *continued*

In parallel, Insignia Financial continues to undertake significant transformation and simplification initiatives, which require ongoing reinvestment and carry meaningful execution risk. These initiatives contribute to uncertainty regarding the timing, quantum and sustainability of forecast earnings improvements. In addition, although remediation activity appears to be approaching completion, it presents an ongoing risk.

It is in this context that Kroll has assessed the Scheme.

3.2 Summary of opinion

In our opinion, the Scheme is in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal.

In arriving at this opinion, we have assessed whether the Scheme is:

- **fair**, by comparing the Scheme Consideration to our assessed value of an Insignia Financial Share on a controlling interest basis. This approach is in accordance with the guidance set out in RG 111; and
- **reasonable**, by assessing the implications of the Scheme for Insignia Financial Shareholders, the alternatives to the Scheme that are available to Insignia Financial, and the consequences for Insignia Financial Shareholders of not approving the Scheme Resolution.

We have assessed the Scheme to be fair and reasonable. Consequently, consistent with RG 111, we have concluded that the Scheme is in the best interests of Insignia Financial Shareholders, in the absence of a superior proposal.

We have assessed the value of an Insignia Financial Share on a controlling interest basis to be in the range of \$4.49 to \$5.08. As the Scheme Consideration of \$4.80 falls within our assessed value range for an Insignia Financial Share, the Scheme is fair.

In forming our view as to the value of Insignia Financial Shares, we have considered a range of factors including the Company’s scale and nature of its earnings base, the strength of its brands, the diversification of its operating segments, together with the impact of net flow and margin pressures, remediation and reinvestment requirements, and execution risks associated with the delivery of its multi-year strategic transformation program.

Our analysis of the fairness of the Scheme is detailed further in Section 3.3 of this report.

In accordance with RG 111, an offer is reasonable if it is fair. As we have assessed the Scheme to be fair, it is also reasonable. Regardless of this requirement, there are a number of factors that are relevant to an assessment of the reasonableness of the Scheme, including:

- the Scheme Consideration represents a significant premium to the trading prices of Insignia Financial Shares up until close on 11 December 2024, the last trading day prior to media speculation regarding the Bain Capital Proposal (**undisturbed trading prices**);
- the Scheme Consideration is in cash and provides certainty of the pre-tax amount that Insignia Financial Shareholders will receive;
- Insignia Financial Shareholders will not participate in any future increases in the value of Insignia Financial, however, they will also no longer be exposed to the risks facing the business;
- in the event that the Scheme is not approved or any other conditions precedent prevent the Scheme from being implemented, Insignia Financial will continue to operate in its current form and the price of Insignia Financial Shares is likely to fall; and
- no superior proposal has emerged since the announcement of the SID.

Other matters which Insignia Financial Shareholders should consider in assessing the Scheme include:

- Insignia Financial will incur transaction costs if the Scheme does not proceed;
- the outstanding conditions precedent which, if not satisfied, (or, if applicable, waived) will result in the Scheme not being implemented; and
- the tax implications of the Scheme.

Our analysis of the reasonableness of the Scheme is detailed further in Section 3.4 of this report.

The decision to approve the Scheme Resolution is a matter for individual Insignia Financial Shareholders based on their views as to value, expectations about future market conditions and their particular circumstances, including investment strategy and portfolio, risk profile and tax position. If in doubt, Insignia Financial Shareholders should consult their own professional adviser regarding the action they should take in relation to the Scheme.

3.3 Assessment of fairness

3.3.1 Valuation of Insignia Financial

Kroll has assessed the value of the equity of Insignia Financial to be in the range of \$3,049.1 million to \$3,444.1 million, which is equivalent to a value per Insignia Financial Share of \$4.49 to \$5.08 on a fully diluted basis. Our range of assessed values reflects 100% ownership of Insignia Financial and, therefore, incorporates a control premium. As our valuation includes a control premium, our range of assessed values per share exceeds the price at which we expect Insignia Financial Shares would trade on the ASX in the absence of the Scheme.

The value of Insignia Financial’s equity has been determined by estimating the fair value of Insignia Financial operating business, together with an allowance for provisions, investments in associates, non-operating assets/(liabilities) (net) and net adjusted debt (including lease liabilities).

The valuation of Insignia Financial is summarised as follows.

Insignia Financial Valuation Summary (\$ millions)

	Section Reference	Valuation Range

Note 1: Maintainable earnings before interest, taxes, depreciation and amortisation (EBITDA) differs from Insignia Financial’s reported EBITDA. Refer to Section 9.3.2 of this report for details.

In assessing the value range of Insignia Financial’s operating business on a 100% basis, Kroll has adopted a market approach as the primary valuation methodology utilising multiples of EBITDA. In selecting an appropriate EBITDA multiple for Insignia Financial (on a 100% control basis), Kroll has had regard to the multiples implied by relevant Australian and international wealth management transactions, as well as the trading multiples of listed comparable companies operating as diversified wealth managers, or platform, advice and asset management specialists. Our assessed value per Insignia Financial Share has been cross-checked against broker target prices (refer to Section 9.8 of this report).

Our assessed value range of \$4.49 to \$5.08 per Insignia Financial Share reflects a significant premium over the closing price of Insignia Financial Shares as at market close on 11 December 2024, the last trading day prior to media speculation surrounding the Bain Capital Proposal, of between 46.9% and 65.9%. It also represents a premium to the one-month volume weighted average price (VWAP) prior to the media speculation in the range of 42.2% and 60.6%, as well as significant premiums to VWAPs calculated over the 12-month period preceding the media speculation (refer to Section 3.4.1 of this report). These premiums

Annexure A – Independent Expert’s Report *continued*

are considerably higher than the premiums that are typically observed in completed transactions, which are broadly in the range of 25% to 40% depending on the individual circumstances,⁶ and likely reflects:

- that our valuation of Insignia Financial includes a control premium, rather than a valuation of a minority interest;
- the competitive bidding process following indicative, non-binding proposal Bain Capital on 12 December 2024 to acquire all Insignia Financial Shares for \$4.00 cash per share. This prompted competing bids from two additional parties and in total eight non-binding indicative proposals were received between December 2024 and March 2025. The Scheme Consideration of \$4.80 cash per share represented a 20.0% premium to the Bain Capital Proposal;
- the period prior to media speculation surrounding the Bain Capital Proposal was characterised by significant remediation, integration, separation and transformation activity, which adversely affected statutory earnings and market sentiment towards Insignia Financial. Trading during this period likely reflected these factors as well as the uncertainty regarding the timing and extent of earnings normalisation as these programs progressed;
- while the market recognised the need for a turnaround, uncertainty persisted around the timing, quantum and deliverability of improvements until Insignia Financial presented its Vision 2030 strategy at its November 2024 Investor Day. The clearer roadmap and targets provided investors with a more tangible basis to assess prospective benefits and future opportunity;
- the Scheme provides the acquirer with the ability to direct, prioritise and potentially accelerate the execution of Vision 2030. This includes control over investment decisions, operating model design, and the delivery of targeted cost and efficiency initiatives. To the extent that the acquirer believes it can execute the transformation more effectively, more quickly, or with greater certainty than Insignia Financial in its current form, this provides a rational basis for the payment of a control premium above prevailing market prices.

In forming our view as to the value of Insignia Financial’s operating business we have considered a series of factors, which include:

- Insignia Financial is a diversified Australian wealth management company with operations spanning master trust and superannuation administration, platform (wrap) administration, financial advice and asset management;
- it benefits from established and recognisable brands, including MLC, and material scale in the Master Trust segment, which represents the largest contributor to earnings and provides a recurring style revenue base linked to FUMA and market performance. It also has platform capability through the Wrap segment, which exhibits higher structural growth and benefits from strong net inflows, providing exposure to more scalable platform economics. The Company benefits from wealth management sector tailwinds including the compulsory superannuation system, high household wealth, and increasing demand for financial advice, retirement products and investment platforms;
- despite these tailwinds, the sector is highly competitive. The Company’s near-term growth profile in FUMA is modest. Master Trust has experienced sustained net outflows over an extended period and remains sensitive to market performance and pension payment dynamics in order to grow FUMA. Asset Management has also recorded net outflows, while Wrap has generated net inflows but at a scale and margin insufficient to offset declines in other segments. As a result, overall earnings growth remains constrained in the near term;
- the market is characterised by fee transparency, pricing pressure and sustained reinvestment requirements. Net revenue margins across all segments have been affected by competitive pricing, product migration and long-term structural fee compression. The Wrap segment, while having higher growth, operates at lower margins than Master Trust and has faced significant competitive pressure from larger, faster-growing specialist platform providers;

The calculations exclude negative premiums and premiums over 250%. Data includes publicly traded and privately owned companies where at least one of the parties is a United States entity. Includes all sector and industry classifications.

- the multi-segment operating model increases organisational complexity relative to more focused peers. Financial advice remains more labour and compliance intensive, and no longer functions as a distribution channel for net flows into other parts of the business following the introduction of the 'best interests' duty. This results in materially different integration and distribution between segments when compared to international peers. The Company also carries corporate overheads associated with its scale and operating breadth;
- the Company has been burdened for several years by legacy remediation programs, historical operational issues and the need to integrate and transform acquired businesses that were relatively significant in scale. While remediation activity appears to be nearing completion, Insignia Financial continues to undertake significant transformation initiatives as part of the Vision 2030 strategy, requiring ongoing reinvestment. These initiatives introduce considerable execution risk and contribute to uncertainty around the timing and sustainability of forecast earnings improvements. In addition, as technology, regulatory and customer expectations continue to evolve across the sector, ongoing reinvestment in systems, digital capability and customer experience is likely to represent a recurring requirement rather than a one-off phase of expenditure;
- heightened regulatory scrutiny surrounding superannuation, platforms and advice, and the legacy impact of remediation continue to influence market perceptions of Insignia Financial; and
- available tax losses, however, recognising that the ability to use the losses is uncertain and a potential acquirer is unlikely to attribute significant value to them.

3.3.2 Assessment of fairness

A comparison of our assessed value of an Insignia Financial Share, on a control basis, to the Scheme Consideration is illustrated as follows.

Fairness Assessment

Source: Kroll analysis.

According to RG 111, the Scheme should be considered fair if the consideration offered to Insignia Financial Shareholders is equal to or greater than our assessed value of an Insignia Financial Share.

As the Scheme Consideration falls within our range of values for an Insignia Financial Share, the Scheme is fair. We consider the low end of the valuation range represents the relevant threshold for fairness. As such, any price above the low end of the range is fair and it is irrelevant where in the range the Scheme Consideration falls.

3.4 The Scheme is reasonable

In accordance with RG 111, an offer is reasonable if it is fair. **As we have assessed the Scheme to be fair, it is also reasonable.** However, irrespective of the requirement to conclude the Scheme is reasonable, we have also considered a range of other factors that are relevant to an assessment of the reasonableness of the Scheme.

Annexure A – Independent Expert’s Report *continued*

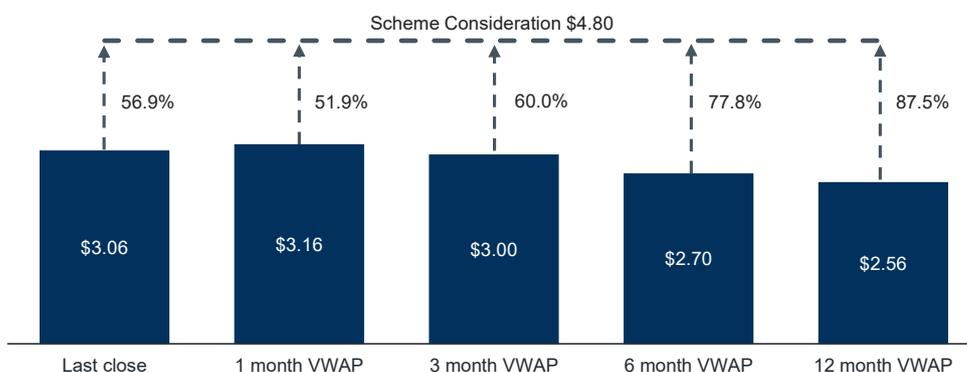

3.4.1 The Scheme Consideration represents a significant premium to the undisturbed trading prices of Insignia Financial Shares

The Scheme Consideration of \$4.80 in cash per Insignia Financial Share represents a significant premium to Insignia Financial’s closing share price and VWAP calculated over a range of periods up until 11 December 2024, the last trading day prior to media speculation surrounding the Bain Capital Proposal.

The following chart presents the premium of the Scheme Consideration relative to the Insignia Financial share price trading benchmarks.

Premium of Scheme Consideration over Undisturbed Insignia Financial Share Prices

Source: S&P Capital IQ; Kroll analysis.

Note 1: The premiums illustrated above have been calculated based on Insignia Financial’s closing share price and VWAP up until close on 11 December 2024, the last trading day prior to media speculation surrounding the Bain Capital Proposal.

The Scheme Consideration represents significant premiums to the trading price of Insignia Financial Shares during periods of up to 12 months prior to the 12 December media speculation that are substantially greater than the range of premiums typically observed in transactions. As discussed in Section 3.3.1 of this report, observations from transaction evidence indicate that control premiums are broadly in the range of 25% to 40% for completed transactions depending on the individual circumstances.⁷

In respect to the premium paid over the undisturbed trading price, we note:

- the premium is an outcome of a competitive bidding process between three potential acquirers that resulted in a total of eight non-binding indicative proposals to acquire Insignia Financial and a substantial increase from the original offer (refer to Section 5.1 of this report for further details);
- the higher premiums over longer periods reflect Insignia Financial’s increasing share price over the period, commensurate with improving operating and underlying financial performance (as demonstrated in its FY24 results), communication of its Vision 2030 strategy, as well as increases in the broader share market;
- the period prior to media speculation surrounding the Bain Capital Proposal was characterised by significant remediation, integration, separation and transformation activity, which adversely affected statutory earnings and market sentiment towards Insignia Financial. Trading during this period likely reflected these factors as well as the uncertainty regarding the timing and extent of earnings normalisation as these programs progressed; and

- uncertainty persisted around the timing, quantum and deliverability of improvements until Insignia Financial presented its Vision 2030 strategy at its November 2024 Investor Day. The clearer roadmap and targets provided investors with a more tangible basis to assess prospective benefits and future opportunity, which was reflected in the uplift in share price between the Investor Day (13 November 2024) and the subsequent media speculation (12 December 2024).

3.4.2 Certainty of value

The Scheme offers Insignia Financial Shareholders an opportunity to exit their investment in Insignia Financial at a cash value that is certain and which, as noted above, incorporates a significant premium to Insignia Financial’s undisturbed trading prices. Whilst trading of Insignia Financial Shares is sufficient to give Insignia Financial Shareholders confidence that they would be able to exit their investment at a time of their choosing, there is no certainty as to the price at which Insignia Financial Shareholders would realise their investment at that time, particularly given the risks associated with this business as set out in Section 3.3.1 of this report and Section 7.3 of the Scheme Booklet, including:

- Insignia Financial’s ability to execute its Vision 2030 strategy may affect future earnings outcomes, including the achievement of cost, efficiency and margin initiatives, and requires capital investment;
- changes in economic conditions and equity market levels may affect FUMA, net flows and fee revenue and therefore financial performance. These factors are largely external to, and not within the direct control of, Insignia Financial’s management. As a result, actual outcomes may vary materially from guidance or market forecasts;
- the Australian wealth management sector is highly competitive, with ongoing pricing pressure and product migration dynamics that can affect net revenue margins, particularly across platform and administration businesses; and
- potential future remediation, or class actions and potential claims.

Furthermore, any future on-market sale by Insignia Financial Shareholders would likely incur brokerage costs, which are avoided if the Scheme is implemented.

3.4.3 By exiting their investment, Insignia Financial Shareholders will not participate in any future growth in the value of Insignia Financial

By exiting their investment, Insignia Financial Shareholders will not participate in any future growth in the value of Insignia Financial, over and above that already reflected in the Scheme Consideration. In this regard, as Kroll’s valuation of Insignia Financial overlaps with the Scheme Consideration, it is likely that the Scheme Consideration already attributes substantial value to the initiatives under the Vision 2030 strategic plan.

3.4.4 Insignia Financial’s share price will likely fall in the absence of the Scheme

The current share price of Insignia Financial reflects the terms of the Scheme and, therefore, includes a substantial control premium. As such, in the absence of the Scheme, a superior proposal or speculation concerning a superior proposal, the Insignia Financial Share price is likely to fall to levels consistent with Insignia Financial’s undisturbed trading prices (up until 11 December 2024), with an allowance for:

- subsequent announcements in relation to company specific developments or financial performance which the market may assess as value enhancing or diminishing. In this respect, we note that Insignia Financial’s operating and financial performance has been broadly consistent with market expectations over the period. Kroll is also not aware of any single company-specific event since 11 December 2024 that would, of itself, be expected to materially change value (for example, any major acquisition or divestment, a significant earnings restatement). Relative to broker consensus EBITDA forecasts as at 11 December 2024, current broker consensus EBITDA forecasts for FY26 and FY27 are 1.6% lower and 3.9% higher, respectively;
- any industry developments (e.g. concerning competitor activity, industry trends, regulatory changes). In this regard, Kroll is not aware of any significant industry developments since 11 December 2024. We note that from 11 December until 19 February 2026, the share price decline in key comparable company, AMP Limited (**AMP**) was 12.5%, mainly as a result of company specific developments (notably the FY25 results release) as well as broader equity market price growth;

Annexure A – Independent Expert’s Report *continued*

- trends in broader equity markets. In this regard, from 11 December until 19 February 2026, the S&P/ASX 200 Index (**ASX 200**) has increased by 9.1%, and the S&P / ASX 200 Financials Index has increased by 14.5%; and
- a number of funds, who may have been motivated by potential value arbitrage opportunities, have purchased Insignia Financial Shares since the announcement of the Scheme. If the Scheme does not proceed, these investors may seek to exit their investment, which could depress the price of Insignia Financial Shares in the near to medium term.

3.4.5 Likelihood of a superior proposal

Since the announcement of the SID on 22 July 2025 no alternative bidder has emerged. Whilst the opportunity for a superior proposal remains, currently we consider the likelihood of a superior proposal to be impacted by the following:

- as stated previously, the premium is an outcome of a competitive bidding process between three potential acquirers that resulted in a total of eight non-binding indicative proposals to acquire Insignia Financial (refer to Section 5.1 of this report for further details). We note that on 7 March 2025, Insignia Financial received a revised proposal from Bain Capital for \$5.00 cash, following which it informed the Company that it was unable to proceed to making a binding offer due to the macroeconomic uncertainty caused by volatility in global capital markets at the time. Bain Capital has not since returned with an offer for the Company;
- the Scheme Consideration represents a significant premium to Insignia Financial's undisturbed trading prices over the last 12 months, which ranges from 56.9% to 87.5% depending on the period of analysis (refer to Section 3.4.1 of this report). This is likely to limit the range of potential acquirers, given the need for a competing bid to exceed this offer price;
- it is open for Insignia Financial Shareholders to vote against the Scheme in the hope that the Insignia Financial Board will be able to extract a higher offer from CC Capital. However, the Scheme is a consequence of a period of due diligence and negotiations between the Insignia Financial Board and CC Capital. In this respect, we note that on 7 March 2025 Insignia Financial received a revised proposal from CC Capital for \$5.00 cash, which was subsequently revised to \$4.80 following the due diligence process. The Insignia Financial Board is supporting the Scheme in its current form (in the absence of a superior proposal). It is therefore unlikely that Insignia Financial would be able to obtain a higher offer from CC Capital; and
- the Scheme Implementation Deed contains customary exclusivity provisions on Insignia Financial that apply during the Exclusivity Period. In certain circumstances, Insignia Financial may be required to pay a break fee of \$32.6 million (inclusive of any applicable GST) to Daintree Bidco. Although these provisions may be influential, we do not consider that they would prevent a superior proposal being made.

3.4.6 Other considerations

In forming our opinion, we have also considered a number of other factors. Whilst we do not necessarily consider these factors to impact our assessment of the reasonableness of the Scheme, we have addressed them as follows.

One-off transaction costs

If the Scheme is implemented, transaction costs will be borne by CC Capital and its affiliates as the ultimate controller of Insignia Financial following implementation of the Scheme. If the Scheme is not implemented and if no Superior Proposal emerges and becomes effective, Insignia Financial expects to pay approximately \$6.8 million (excluding GST and disbursements) in transaction costs, being costs that have already been incurred or will be incurred even if the Scheme is not implemented.

The Scheme is subject to the satisfaction of a number of conditions

There are a number of conditions which, if not satisfied, will result in the Scheme not being implemented, including approval from the Foreign Investment Review Board (**FIRB**) and the Australian Prudential Regulation Authority (**APRA**). If any conditions precedent prevent the Scheme from being implemented, Insignia Financial Shareholders will continue to hold their existing Insignia Financial Shares. As at the date

of the Scheme Booklet, the Insignia Financial Board is not aware of any reason why any condition precedent will not be satisfied or waived (if capable of waiver).

Taxation implications for Insignia Financial Shareholders

A summary of the general Australian tax consequences (including capital gains tax (**CGT**), GST and stamp duty) for certain Insignia Financial Shareholders in relation to the Scheme that hold their Insignia Financial Shares on capital account for Australian income tax purposes are outlined in Section 8 of the Scheme Booklet. The summary does not apply to all Insignia Financial Shareholders

Section 8.1 of the Scheme Booklet considers the Australian tax implications of the Scheme. In particular, Section 8.1.1 of the Scheme Booklet indicates that the disposal of Insignia Financial Shares to Daintree BidCo under the Scheme should constitute a capital gains tax event for Australian resident Insignia Financial Shareholders. This means that Australian resident Insignia Financial Shareholders will need to determine whether a capital gain or capital loss arises in respect of their disposal of Insignia Financial Shares.

Section 8.2 of the Scheme Booklet considers the tax implications of the Scheme for non-resident Insignia Financial Shareholders.

We note that Insignia Financial Shareholders should consider their individual taxation circumstances and review Section 8 of the Scheme Booklet for further information where it applies to their circumstances. Insignia Financial Shareholders should obtain their own independent professional advice on the tax consequences of disposing of their Insignia Financial Shares under the Scheme.

3.4.7 Consequences if the Scheme does not proceed

In the event that the Scheme is not approved or any conditions precedent prevent the Scheme from being implemented:

- Insignia Financial Shareholders will not receive the Scheme Consideration and will retain their Insignia Financial Shares;
- Insignia Financial will continue to operate in its current form and remain listed on the ASX and execute on its strategic plan;
- Insignia Financial Shareholders will continue to be exposed to the risks and opportunities associated with an investment in Insignia Financial as set out in Section 3.4.2 of this report;
- the Insignia Financial share price is likely to fall. The current price of Insignia Financial Shares reflects the terms of the Scheme (including the benefit of the Scheme Consideration offered by CC Capital) and includes a significant control premium. As such, in the absence of the Scheme, a superior proposal or speculation concerning a superior proposal, the Insignia Financial Share price is likely to fall (refer to Section 3.4.4 of this report);
- Insignia Financial expects to pay transaction costs of approximately \$6.8 million (excluding GST and disbursements) in connection with the Scheme; and
- in certain circumstances, Insignia Financial may be required to pay a break fee of \$32.6 million (inclusive of any applicable GST) to Daintree BidCo. However, this break fee is not payable simply because the Scheme is not approved by the requisite majorities of Insignia Financial Shareholders.

4 Other matters

Our report has also been prepared in accordance with the relevant provisions of the Corporations Act and other applicable Australian regulatory requirements and has been prepared solely for the purpose of assisting Insignia Financial Shareholders in considering whether to vote in favour of the Scheme. We do not assume any responsibility or liability to any other party as a result of reliance on this report for any other purpose.

This report constitutes general financial product advice and has been prepared without taking into consideration the individual circumstances of Insignia Financial Shareholders. This advice, therefore, does not consider the financial situation, objectives or needs of individual Insignia Financial Shareholders.

Annexure A – Independent Expert’s Report *continued*

The decision of Insignia Financial Shareholders as to whether or not to vote in favour of the Scheme Resolution at the Scheme Meeting is a matter for individual Insignia Financial Shareholders who should, therefore, consider the appropriateness of our opinion to their specific circumstances. As an individual’s decision to vote for or against the resolutions may be influenced by their particular circumstances, we recommend that individual Insignia Financial Shareholders, including residents of foreign jurisdictions, seek their own independent professional advice.

Our opinion is based solely on information available as at the date of this report. This information, and our limitations and reliance on information section, are set out in Appendix 2. We have not undertaken to update our report for events or circumstances arising after the date of this report other than those of a material nature which would impact upon our opinion.

References to financial years have been abbreviated to ‘FY’ and references to half years have been abbreviated to ‘H’. For Insignia Financial, the financial year is the 12 months to 30 June and half years are the six months to 31 December. All currencies are Australian dollars unless otherwise specified.

Kroll has prepared a Financial Services Guide as required by the Corporations Act. The Financial Services Guide is included at the end of this report.

The above opinion should be considered in conjunction with, and not independently of, the information set out in the remainder of this report, including the appendices.

5 The Scheme

5.1 The Scheme

The Scheme follows a comprehensive process commencing with the receipt of the Initial Bain Capital Proposal, which prompted competing unsolicited, non-binding indicative proposals from CC Capital, Bain Capital and Brookfield Capital Partners. In total, eight non-binding indicative proposals were received as follows:

- on 13 December 2024, Insignia Financial confirmed that, after market close on 12 December 2024, it had received the Initial Bain Capital Proposal to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.00 cash per Insignia Financial Share (adjusted for any dividends paid or payable). On 18 December 2024, the Board of Insignia Financial rejected the proposal on the grounds that it did not represent fair value and was not in the best interests of Insignia Financial Shareholders;
- on 3 January 2025, Insignia Financial received a proposal from CC Capital to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.30 cash per Insignia Financial Share (adjusted for any dividends paid or payable), or an alternative to roll into unlisted stub equity;
- on 11 January 2025, Insignia Financial received a revised proposal from Bain Capital to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.30 cash per Insignia Financial Share (adjusted for any dividends paid or payable);
- on 17 January 2025, Insignia Financial received a revised proposal from CC Capital to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.60 cash per Insignia Financial Share (adjusted for any dividends paid or payable);
- on 23 January 2025, Insignia Financial announced that it had received a revised proposal from Bain Capital to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.60 cash per Insignia Financial Share (adjusted for any dividends paid or payable);
- on 5 February 2025, Insignia Financial announced that it had received a proposal from Brookfield Capital Partners to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$4.60 cash per Insignia Financial Share (adjusted for any dividends paid or payable), or the potential alternative to acquire scrip in Brookfield Capital Partners’ unlisted bid vehicle; and
- on 7 March 2025, Insignia Financial announced that it had received revised proposals from each of Bain Capital and CC Capital to acquire all Insignia Financial Shares by way of a scheme of arrangement for \$5.00 cash per Insignia Financial Share (adjusted for any dividends paid or payable). Following receipt of these proposals, the Board of Insignia Financial entered into an Exclusivity Deed with each of the parties to further progress their respective proposals, which included access to confirmatory due diligence. On 14 May 2025, Insignia Financial advised that Bain was no longer proceeding with making a binding offer due to the macro uncertainty caused by the volatility in global capital markets.

On 22 July 2025, Insignia Financial announced that it had entered into a SID with Daintree Bidco, an entity established by CC Capital and its affiliates for the acquisition of all issued Insignia Financial Shares by way of a scheme of arrangement. Daintree BidCo Pty Ltd (**Daintree BidCo**) is an indirect wholly-owned subsidiary of Daintree TopCo Pty Ltd (**Daintree TopCo**). It is expected that Daintree TopCo will be owned by Daintree Group Partners LP, Carlyle Global Credit Investment Management, L.L.C and One Investment Holdings III (UK) Ltd. Under the Scheme, Insignia Financial Shareholders who hold Insignia Financial Shares as at 5:00pm on Tuesday, 21 April 2026, being the record date for determining entitlement to receive the Scheme Consideration (**Record Date**), will receive \$4.80 per share in cash consideration.

Under the SID, if the Scheme has not become effective by 22 July 2026, Insignia Financial is permitted to pay a Special Dividend to Insignia Financial Shareholders, calculated as 50% of Underlying Net Profit after Tax for each calendar month from (and including) 22 July 2026 to (and including) the date of the Scheme Meeting, conditional on the Scheme becoming effective and other conditions as set out in the SID. Any Special Dividend paid will not reduce the Scheme Consideration. The Insignia Financial Board will consider whether to declare any such Special Dividend closer to the time of the Scheme Meeting, but prior to implementation of the Scheme. Dividends will otherwise remain paused.

Annexure A – Independent Expert’s Report *continued*

The Transaction is subject to a number of conditions precedent which are summarised in Section 5.2 of this report.

The Insignia Financial Directors unanimously recommend that Insignia Financial Shareholders vote in favour of the Transaction in the absence of a superior proposal, and subject to the independent expert concluding (and continuing to conclude) that the Scheme is in the best interests of Insignia Financial Shareholders.

5.2 Conditions precedent

The Scheme is subject to the satisfaction of a number of other conditions precedent, including:

- the approval or clearance by regulators including APRA, the FIRB, the Australian Competition and Consumer Commission (**ACCC**), and the Financial Conduct Authority (**FCA**);
- receipt of all necessary approvals, confirmations and consents by the Australian Securities and Investments Commission (**ASIC**) and ASX to implement the Scheme;
- the Independent Expert concluding in the independent expert’s report (and continuing to conclude) that the Scheme is in the best interests of Insignia Financial Shareholders;
- Insignia Financial Shareholders approving the Scheme;
- the Court approving the Scheme;
- Insignia Financial ensuring that there are no outstanding Insignia Financial Performance Rights; and
- certain other customary conditions, including no Insignia Financial Prescribed Event and no Material Adverse Change occurring (each as defined in the SID).

Regulatory conditions precedent not yet satisfied as at the date of this report include FIRB approval and APRA approval.

The conditions precedent to the Scheme are described in Section 4.5 of the Scheme Booklet (including their status as at the Last Practicable Date) and are set out in full in clause 3.1 of the SID.

5.3 Exclusivity provisions

The SID contains customary exclusivity provisions on Insignia Financial, including ‘no shop’, ‘no talk’ and ‘no due diligence’ (‘no talk’ and ‘no due diligence’ are subject to a fiduciary exception), ‘notification’ obligations, and a matching right regime that applied to any superior proposal received by Insignia Financial during the period from signing of the SID until the earlier of termination of the SID, the End Date or the Implementation Date.⁸

In certain circumstances, Insignia Financial may be required to pay a break fee of \$32.6 million (inclusive of any applicable GST) to Daintree Bidco (**Break Fee**), or a reverse break fee of \$32.6 million (inclusive of any applicable GST) would be payable to Insignia Financial (**Reverse Break Fee**).

Refer to Section 9.13.5 of the Scheme Booklet for further information in relation to the Break Fee, or Section 9.13.6 of the Scheme Booklet for further information in relation to the Reverse Break Fee.

5.4 Transaction costs

If the Scheme is implemented, Insignia Financial expects to pay transaction costs of approximately \$35.3 million (excluding GST and disbursements) relating to the Scheme. These costs will be borne by CC Capital as the ultimate controller of Insignia Financial following implementation of the Scheme.

If the Scheme is not implemented and if no Superior Proposal emerges and becomes effective, Insignia Financial expects to pay approximately \$6.8 million (excluding GST and disbursements) in transaction costs, being costs that have already been incurred or will be incurred even if the Scheme is not implemented. These costs will be paid by Insignia Financial in FY25 and FY26.

⁸ The Implementation Date is expected to be Tuesday, 28 April 2026.

6 Scope of the report

6.1 Purpose

The Scheme is to be implemented by way of a scheme of arrangement under Part 5.1 of the Corporations Act and requires approval by Insignia Financial Shareholders. Section 412(1) of the Corporations Act requires, among other requirements, that an explanatory statement issued by a company in relation to a proposed members’ scheme of arrangement includes information that is material to the making of a decision by a member as to whether or not to agree to the scheme resolution.

Schedule 8, clauses 8303 and 8306 of the Corporations Regulations 2001 states that a scheme company must commission an independent expert’s report when:

- the other party to the scheme holds at least 30% of the voting shares of the scheme company; or
- the other party to the scheme and the scheme company have common directors.

While there is no statutory requirement for an independent expert’s report to be commissioned for Insignia Financial Shareholders in relation to the Scheme, it is a condition precedent of the Scheme that an Independent Expert concludes (and continues to conclude) that the Scheme is in the best interests of Insignia Financial Shareholders.

6.2 Basis of assessment

In making our assessment we have referred to guidance provided by ASIC in its Regulatory Guides, in particular, RG 111, which outlines the principles and matters that ASIC expects a person preparing an independent expert’s report to consider, and RG 112, which sets out the independence requirements for experts who prepare independent expert’s reports.

RG 111 distinguishes between the analysis required for control transactions and other transactions. RG 111.18 states that where a scheme of arrangement is used as an alternative to a takeover bid to give effect to a control transaction, the form of analysis undertaken by the expert should be substantially the same as for a takeover bid. That form of analysis considers whether the transaction is ‘fair and reasonable’ and, as such, incorporates issues as to value. In relation to control transactions, RG 111.10 to 111.12 states:

- ‘fair and reasonable’ is not regarded as a compound phrase;
- an offer is ‘fair’ if the value of the offer price or consideration is equal to or greater than the value of the securities subject to the offer;
- the comparison should be made assuming 100% ownership of the target and irrespective of whether the consideration is scrip or cash;
- the expert should not consider the percentage holding of the bidder or its associates in the target when making this comparison; and
- an offer is ‘reasonable’ if it is ‘fair’. An offer might be ‘reasonable’ if, despite being ‘not fair’, the expert believes that there are sufficient reasons for securityholders to accept the offer in the absence of any higher bid before the close of the offer.

RG 111.13 sets out the factors an expert might consider in assessing whether an offer is reasonable:

- the bidder’s pre-existing voting power in securities in the target;
- other significant securityholding blocks in the target;
- the liquidity of the market in the target’s securities;
- taxation losses, cash flow or other benefits through achieving 100% ownership of the target;
- any special value of the target to the bidder, such as particular technology, etc;
- the likely market price if the offer is unsuccessful; and
- the value to an alternative bidder and likelihood of an alternative offer being made.

Annexure A – Independent Expert’s Report *continued*

RG 111.20 states that if an expert would conclude that a proposal was ‘fair and reasonable’ if it was in the form of a takeover bid, it will also be able to conclude that the scheme is ‘in the best interests’ of members of the company.

RG 111.21 states that if an expert would conclude that a proposal was ‘not fair but reasonable’ if it was in the form of a takeover bid, it is still open to the expert to also conclude that the scheme is ‘in the best interests’ of the members of the company.

RG 111.11 provides that an offer is ‘fair’ if the value of the consideration is equal to or greater than the value of the securities that are the subject of the offer. This comparison should be made assuming 100% ownership of the target and irrespective of whether the consideration is scrip or cash and without regard to the percentage holding of the bidder or its associates in the target entity. That is, RG 111.11 provides that the value of the target should be assessed as if the bidder was acquiring 100% of the issued equity in the target (i.e. on a controlling interest basis). In addition, any special value of the target to a particular bidder (e.g. synergies that are not available to other bidders) should not be taken into account under the comparison.

Accordingly, when assessing the full underlying value of Insignia Financial, we have considered those synergies and benefits which would be available to more than one potential acquirer (or a pool of potential acquirers) of Insignia Financial.

7 Industry

7.1 Australian Wealth Management Sector overview

Australia has one of the largest and most mature wealth management sectors globally, underpinned by the compulsory superannuation system, high household wealth, an ageing population and strong demand for financial advice, retirement products and investment platforms. Total household financial assets exceeded \$8.3 trillion as at 30 June 2025, with superannuation assets accounting for approximately \$4.3 trillion of this figure.⁹

Due to the size of its capital pool, the superannuation system is a pillar of the Australian wealth management sector. Superannuation in Australia is the fastest growing of the seven largest pension markets in the world, with the superannuation sector growing at a compound annual growth rate (CAGR) of 8.1% per annum.¹⁰ This positions Australia as the fourth-largest pension system globally on an asset-base basis.¹¹ With the superannuation sector forecast to grow to more than \$6.1 trillion by 2035, it is set to become the second largest, surpassing both the Canadian and United Kingdom (UK) markets.¹²

‘Wealth Management’ in this context is a broad term encompassing the intermediation activities that enable individuals to save, invest, insure, and draw down their wealth over time, to meet personal financial goals and objectives.¹³ The industry incorporates the following broad segments:

- **Financial advice**, including financial planning, investment advisory, retirement planning, insurance advice, and tax strategy;
- **Investment platforms** (including wraps and investor directed portfolio services (IDPS), provide infrastructure for consolidated reporting, trading, custody and access to managed funds, listed securities, and managed accounts;
- **Superannuation and Master Trusts**, allow individuals to accumulate and decumulate retirement savings under trust structures;

- **Asset management**, provides investment products and services across several asset classes; and
- **Supporting administration and infrastructure**, includes custodians, registries, member administrators, brokers, research providers and insurers.

Insignia Financial operates across the advice, investment platforms, superannuation and asset management segments of the wealth management industry. While interconnected, each segment is characterised by distinct regulatory frameworks, competition dynamics, and structural trends.

The competitive landscape varies by segment and can be broadly characterised as the following:

- a fragmented advice market;
- specialist independent platforms (e.g. HUB24 Limited (**HUB24**), Netwealth Group Ltd (**Netwealth**));
- diversified incumbents (e.g. Insignia Financial, AMP, Colonial First State Investments Ltd (**Colonial First State**));
- large industry superannuation funds with scale and not-for-profit status; and
- domestic and global asset managers across multiple product lines.

Each of these segments is discussed in the following sections.

7.2 Industry segments and operating structure

7.2.1 Financial advice

The Australian financial advice segment has undergone significant structural change over the past decade following the FOFA reforms in 2012 and the Royal Commission of 2017 to 2019. Amongst numerous changes, these events have driven:

- stronger enforcement of the Best Interests Duty¹⁴ and conflict management obligations;
- removal of most forms of product-linked commissions; and
- higher professional, education and ethical standards for advisers.

In the wake of the Royal Commission, regulatory reforms were designed to improve advice quality but have also contributed to rising delivery costs, creating a widening affordability gap. In 2019, the proportion of Australians receiving professional financial advice was 13.9%, which declined to just 10.1% by 2022.¹⁵ As trust in the segment returns, demand for advice continues to grow alongside an ageing population that faces complex decisions around retirement planning, investment advice, property and real estate advice, tax planning, and inheritance and estate planning. In 2025, approximately 10.4% of Australians had an adviser and 2.7 million Australians were seeking advice.¹⁶

In practise, comprehensive financial advice remains a relationship intensive, labour heavy business model. Initial discovery, strategy design, documentation (including Statements of Advice (**SoAs**) and Records of Advice (**RoAs**), implementation and review, can span several months, particularly where manual processes and legacy systems are used. This contributes to high delivery costs, with median advice fees of \$4,668 in 2025 (which are primarily up-front costs in the post- Royal Commission environment) and an “advice gap” where many consumers who would benefit from financial advice are unable or unwilling to pay for it.¹⁶

¹⁴ Under Section 961B of the Corporations Act, a provider must act in the best interests of the client in relation to financial advice provided. The ‘best interests’ duty and related obligations are designed to ensure that retail clients receive advice that meets their objectives, financial situation and needs, and that a financial adviser acts in the best interests of clients at all times when providing their advice.

Advisers and licensee structures

Structural changes post-Royal Commission, including new professional standards and education uplifts, have contributed to a material reduction in the number of registered advisers as indicated in the following chart.

Adviser Population by Licensee Ownership and Affiliation

Source: Adviser Ratings data; Kroll analysis.

Note 1: Numbers in brackets indicate the number of advisers in the privately owned category.

The contraction of Australia’s financial advice workforce has stabilised, representing a turning point after the profession lost over 12,000 advisers between 2018 and 2022. Advisers who have remained in the profession are now benefitting from rising client-to-adviser ratios, improving profitability, and technological innovations that are improving efficiency.

Post-Royal Commission, vertically integrated models in which advisers were financially incentivised to recommend in-house products have been dismantled. Advice licensees associated with large diversified financial institutions are now required to operate at arm’s length from other businesses and to demonstrate product agnostic, ‘best interests’ advice. As a result, there has been:

- a shift in adviser flows toward independent and non-aligned licensees, with privately-owned licensees dominating the landscape at approximately 77.9% in 2024, compared to only 45.7% in 2018;¹⁷
- consolidation of smaller dealer groups into larger licensees that can absorb rising compliance and technology costs, as evidenced by the growth in Private (11-100 advisers) and Private (100+ advisers) categories; and
- heightened key person risks, as client-to-adviser ratios increase and client relationships are highly portable.

The historical perspective shows the institutional retreat within the segment, with diversified financial institutions (including Insignia Financial) seeing their adviser representation shrink from a high of 20.8% in 2019 to 4.3% in 2024, while bank-aligned advisers have divested, falling from 17.7% in 2018 to just 1.3% in 2024. The significant drop in advisers in the Diversified segment (10.3%) came with the acquisition of AMP licensees by Entireti Limited, while Insignia Financial separated certain licensees into Rhombus Advisory Pty Ltd (**Rhombus Advisory**).

Regulatory reform

The regulatory settings for personal financial advice are in a period of transition following the Australian Government’s response to the Quality of Advice Review (**QAR**). The reform program, Delivering Better Financial Outcomes (**DBFO**), is being implemented in stages and is intended to improve access to affordable advice while maintaining core consumer protections.¹⁸ Tranche 1 of the DBFO is now law, with

¹⁷ 2025 Australian Financial Advice Landscape, Adviser Ratings.

¹⁸ ASIC, Delivering Better Financial Outcomes (DBFO) package, 2025.

reforms focused on removing rules that add cost and complexity without a commensurate consumer benefit, including simplifying rules for deducting adviser fees from superannuation, streamlining ongoing fee consent and renewal requirements, and clarifying aspects of the conflicted remuneration regime. Tranche 2 of reforms, currently under consultation, aims to expand the channels through which advice can be provided and to reduce documentation requirements.¹⁹

Regulatory change and the potential for further tightening of obligations is one of the most significant risks facing the financial advice industry. The DBFO reforms are unfolding against a backdrop of high-profile advice and distribution failures involving managed investment schemes and superannuation rollovers (including the collapse of the Shield and First Guardian funds), which have led to significant consumer losses and heightened scrutiny of licensee oversight and ‘best interests’ compliance.²⁰ In this environment, future reforms, such as the DBFO which aims to release some regulatory overburden, are likely to be shaped by a strong regulatory focus on preventing misconduct, rather than improving access to affordable advice.

Digital and scaled advice

In response to adviser shortages, rising costs and unmet demand, there is growing interest in digital and scale advice solutions, including rules-based tools (e.g. calculators, risk profilers), robo-advice engines that generate advice under pre-defined parameters, and hybrid models where digital advice is supplemented by a human adviser.²¹

7.2.2 Investment platforms

Investment platforms (including wrap accounts and investor directed portfolio services (**IDPS**)) provide advisers and clients with consolidated administration, trading, reporting and custody across a broad menu of investment options. Platforms typically offer:

- access to managed funds, listed securities, cash management and term deposits;
- model portfolios and managed accounts;
- consolidated performance, tax and fee reporting; and
- integration with adviser practice systems and client portals.

Platforms earn revenue primarily from asset-based and administration fees, transaction charges, and net interest margins on client cash balances.

Competitive landscape

Specialist independent platforms, such as those offered by HUB24 and Netwealth, have captured a significant share of net flows in recent years, benefitting from modern technology stacks, rapid enhancement cycles, and strong adviser satisfaction. Their ability to quickly add investment options, support sophisticated managed account engines, and integrate with adviser workflows, has been an important differentiator relative to legacy platforms undergoing consolidation and simplification.

Wrap Market Share by AUM – Market view¹

Note 1: Market view includes badges marketed to investors.

Flows to platforms have grown significantly in recent years. In FY24, competitive flows²² to HUB24 grew to \$6.3 billion, replacing AustralianSuper, Australia’s largest superannuation fund by net assets, as the leading fund in terms of competitive flows, with AustralianSuper attracting \$5.1 billion of competitive flows in FY24. The four next fastest growing platforms in FY24 by competitive flows was Netwealth (\$3.5 billion), Macquarie Super (\$2.1 billion), UniSuper (\$2.0 billion), and AMP North (\$1.3 billion).²³

Platforms associated with larger diversified groups, including Insignia Financial, AMP and Colonial First State, have recently focused on simplifying legacy architecture, migrating books to contemporary platforms and improving adviser experiences, while managing heightened regulatory and remediation obligations post-Royal Commission, resulting in lower or negative growth.

Growth in managed accounts

Managed accounts have become one of the fastest-growing structures on platforms. They encompass Separately Managed Accounts (**SMAs**), Managed Discretionary Accounts (**MDAs**), and Individually Managed Accounts (**IMAs**).

Australia’s managed account market totalled approximately \$286 billion as at 30 June 2025, comprised of \$195 billion (68%) in SMAs, \$69 billion (24%) in MDAs, and \$23 billion (8%) in IMAs. This is an increase of approximately \$206 billion from approximately \$80 billion in 2019, representing a CAGR of approximately 26.1%. During 2024, approximately 50% of new advised money was being placed into SMAs.²⁴

Key benefits of managed accounts include operational efficiency (centralised portfolio changes, automated rebalancing, tax optimisation), consistent implementation of models across client bases, improved transparency and reporting for clients, and strong integration with advice workflows and platform technology. Managed accounts have become an important channel for generating flows into internal and external asset managers.

²² Competitive flows represent net flows less merger-related flows and natural flows. Natural flows reflect the net of contributions and benefit payments. Competitive flows capture the net of roll-in and roll-out activity, and hence reflects member switching between funds.

²³ APRA, Annual Fund-level Superannuation Statistics Jun-24, released 30 January 2025. Competitive flows calculated as net rollovers excluding successor fund transfers.

Platform economics

Platform economics are characterised by:

- high upfront capital costs to develop and implement the platform, with relatively low marginal costs per user once scale is achieved;
- rising fixed costs associated with compliance, cyber resilience and regulatory reporting;
- pricing and fee competition including:
 - ongoing fee compression as platforms reach scale and reduce unit costs;
 - the use of tiered ‘rate cards’, with discounted pricing offered to larger or more price-sensitive licensees; and
 - the importance of price points to adviser practice economics, noting that any margin savings achieved at the platform level are often retained within the advice practice rather than passed through to end clients.

Adviser satisfaction is a key driver of flows onto a platform, as advisers typically concentrate activity on a small number of preferred providers. Satisfaction is influenced by factors such as service quality and issue resolution, the reliability and speed of the platform, ease of use and integration with advice and practice management systems, the quality of reporting and managed account capability, and the strength of member and client facing digital experiences. Ongoing investment in technology and operating model improvements is therefore central to maintaining adviser satisfaction and attracting flows.

7.2.3 Superannuation

Superannuation system and competitive segments

Australia’s compulsory superannuation system is the primary driver of retirement savings. Under Australian Government legislation, employers must contribute at least 12% of an eligible worker’s earnings to their superannuation fund (the **Superannuation Guarantee**), up to a certain limit called the quarterly maximum super contribution base. In Australia, superannuation is a tax-effective investment and will often be one of the largest assets Australian retirees have outside their home.²⁵

Superannuation assets are primarily spread across:

- industry funds (not for profit and often tied to specific employment sectors);
- self-managed super funds (**SMSFs**);
- retail master trusts and platforms (typically operated by wealth management groups);
- public sector funds; and
- corporate / other funds.

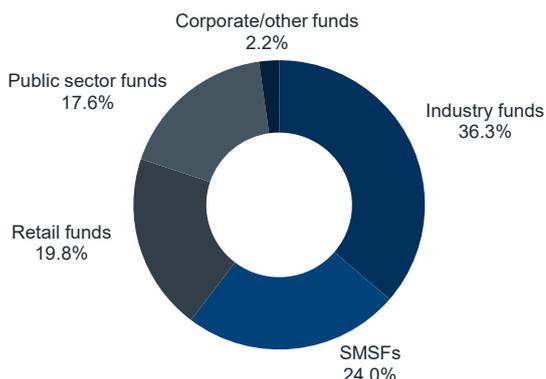

²⁵ AustralianSuper, Australia’s Superannuation System.

Annexure A – Independent Expert’s Report *continued*

A breakdown of Australian superannuation sector participants by AUM is shown in the following chart.

Australian Superannuation Sector Participants

Source: APRA, Quarterly superannuation performance statistics, September 2025.

The superannuation sector is heavily concentrated within a number of funds, with the 22 largest funds (those having assets under management (**AUM**) greater than \$20 billion) comprising 93.2% of assets in the superannuation sector (excluding SMSFs).²⁶ Of the ten largest participants, six are industry super funds (with AustralianSuper and Australian Retirement Trust the largest and second largest of all funds by AUM), three are retail super funds/master trusts (Insignia Financial (3rd largest), Colonial First State (6th), and AMP (8th), and one is a public sector fund (Aware Super).

Industry funds have grown significantly over the last decade, aided by strong net inflows, extensive consolidation, scale advantages, and brand positioning around perceived lower fees (not for profit status) and member-first governance. Retail master trusts and employer plans remain important, but face competitive pressure from industry funds, SMSFs and platform-based super solutions.

Retail master trusts historically played a central role in corporate super strategies, but many employers now default new members into large industry funds, with retail providers competing for retained membership, choice products and roll-ins. Master trust providers offer:

- employer-sponsored plans and workplace solutions (i.e. workplace channel);
- adviser-originated super and pension products (i.e. adviser channel); and
- direct-to-consumer offerings (i.e. direct-to-customer channel).

Retirement income and decumulation

As the superannuation system further matures, there is increasing focus on the retirement income phase. Superannuation funds are developing comprehensive retirement income strategies that address longevity and sequencing risks. Market offerings include account-based pensions (the dominant decumulation product), annuity products, pooled and hybrid longevity solutions, as well as retirement-focused investment options and advice tools.²⁷

SMSFs and competitive alternatives

The SMSF sector represents a significant competitive alternative to master trusts. SMSFs appeal to engaged, higher-balance members seeking greater control, direct asset exposure (including property) and bespoke strategies.²⁸

Switching behaviour

Switching behaviour has increased as performance and fee information has become more transparent through APRA heatmaps, fund comparison tools, poor experiences and simplified roll-over processes.²⁹

As consumers are better able to compare funds and take action where outcomes are perceived to be sub-optimal, there is a need for continual investment by superannuation providers into better systems, quality of service, and cost management, to lessen inducements to switch.

7.2.4 Asset Management

The Australian asset management industry comprises domestic managers, global firms, and integrated wealth groups. Products span single asset (i.e. equities, fixed income, real assets, alternatives) and multi asset portfolios and diversified funds.

Asset managers distribute through platforms, superannuation funds, institutional mandates, SMSFs and direct retail channels.

Fee compression and product rationalisation

Asset managers face ongoing fee pressure, particularly in traditional active asset classes facing intense competition from indexed products and large global managers. This has contributed to:

- consolidation of product ranges;
- focusing on scale, particularly on larger mandates; and
- strategic emphasis on higher-value segments such as alternatives.

7.3 Regulatory environment

The Australian wealth management industry operates within a rigorous and evolving regulatory framework. Key elements include:

- ASIC and APRA oversight of advice, platforms, superannuation trustees and asset managers;
- FoFA, Royal Commission and QAR reforms, targeted at banning conflicted forms of remuneration, reinforcing the ‘best interests’ principles, and aiming to make advice more accessible, affordable and high quality;
- Design & Distribution Obligations, requiring target market determinations and monitoring of product governance;³⁰
- APRA’s ‘Your Future, Your Super’ performance test and heatmaps, influencing superannuation competition, product design and fee structures;
- prudential and operational risk standards, including CPS 234 (Information Security) and the proposed CPS 230 (Operational Risk Management), which drive investment in cyber, resilience and risk systems; and
- enhanced disclosure and transparency requirements for fees (including RG97), performance and insurance in superannuation.

These frameworks increase compliance complexity and cost for providers. However, they also support long term confidence in the system which contributes to the continued growth of Australia’s retirement and wealth management sector.

7.4 Industry drivers and outlook

The wealth management sector is subject to several structural themes that cut across all segments:

²⁹ ASFA, Under pressure, 30 March 2022; Investment Magazine, Members starting to switch due to poor experience, 15 August 2023.

³⁰ ASIC, Design and distribution obligations: Significant dealing notification requirements.

Annexure A – Independent Expert’s Report *continued*

- demographic change and intergenerational wealth transfer, increasing demand for retirement-focused products and services, as well as estate planning;
- fee compression across platforms, as consumers, advisers and regulators focus on net outcomes;
- regulatory uplift and scrutiny, increasing fixed costs and influencing business models and product design;
- growth in retirement and pension assets and products, supported by the Super Guarantee, rising account balances and an ageing population;
- shift toward low-cost indexed and simple solutions;
- rising adoption of managed accounts as a scalable advice and investment structure; and
- technology and data transformation, with major investment in platforms, advice productivity tools, analytics and cyber resilience.

Adverse factors, including market volatility, higher interest rates, geopolitical risks and slowing global growth, can affect asset values, flows and risk appetite, but tend to be short term in nature and do not alter the fundamental long term growth trajectory of retirement and investment assets.

7.4.1 Outlook

The outlook for the Australian wealth management industry is underpinned by the continued expansion and maturation of the superannuation system, which remains the largest single driver of funds available to advice, platforms and asset management.

Growth in system assets

Total superannuation assets reached approximately \$4.3 trillion as at 30 June 2025. Over the year to 30 June 2025, total contributions were \$210.2 billion, a 14.1% increase on the prior corresponding period (**pcp**), and total benefit payments were \$132.5 billion, a 12.8% increase, resulting in net contribution flows of \$70.5 billion or a 13.8% increase.³¹ This growth reflects the increase in the Superannuation Guarantee rate and that the superannuation system is still maturing in that contributions still materially exceed payments.

Multiple independent sources suggest that this pool of assets will continue to grow strongly over the next ten to 20 years:

- the Super Members Council (**SMC**) projects that the total superannuation system will grow from approximately \$4.0 trillion (at the time of its analysis in 2025), to around \$5.6 trillion in 2030, and to \$9.9 trillion in 2040. This implies CAGRs of 7.0% and 6.2%, respectively. In this respect, growth in the system will slow as Australia’s population ages and more super is progressively withdrawn to provide retirement incomes;³² and
- a publication by the Reserve Bank of Australia (**RBA**) cites multiple third-party estimates of the size of the super sector in 2035. Estimates made post-2020 include a Deloitte estimate of \$7.7 trillion and an ASFA estimate of \$8.1 trillion, implying CAGR of approximately 6.3% to 6.9% from 30 June 2025 asset balances, respectively.³³

Taken together, these projections point to superannuation remaining a structurally growing asset pool for many decades to come.

Shift from accumulation to retirement (pension) phase

At the same time, the system is transitioning from an accumulation dominated model, to an industry increasingly focused on retirement income and decumulation. Regulators estimate that around 1.5 million

Australians are already in the retirement phase with roughly \$575 billion in assets, and that a further 2.5 million people are expected to retire over the coming decade.³⁴

This shift implies that, over time, net cash inflows will become a smaller share of system growth, with investment earnings on a much larger asset base and retirement income product innovation playing a greater role in retirement outcomes. For wealth managers, this translates to increased demand for retirement-focused advice, investment solutions and drawdown strategies, as well as heightened scrutiny of fees, performance and member outcomes.

8 Profile of Insignia Financial

8.1 Background

Insignia Financial (formerly IOOF) was founded in 1846 as a friendly society providing financial and other support to members of the Independent Order of Odd Fellows during times of illness and unemployment prior to the existence of government welfare systems. Over time, IOOF expanded to become a modern financial services provider offering financial advice, platforms, superannuation services and asset management services.

Following the introduction of compulsory superannuation in Australia in 1992, IOOF shifted from a membership-based society to a customer-focused wealth manager. On 14 June 2002, IOOF demutualised following a member vote, issuing shares to members and valuing the organisation between \$135 million and \$158 million.³⁵ IOOF subsequently listed on the ASX on 5 December 2003.³⁶

A material expansion phase commenced in 2008 when IOOF merged with Australian Wealth Management Limited (**AWM**), broadening its advice network and increasing scale across its wealth platforms and asset management businesses. Post-merger, the combined entity managed \$88 billion in FUM and had a market capitalisation of approximately \$700 million.³⁷ This transaction marked the beginning of IOOF’s strategy to build a scaled, multi-brand wealth management business with an enlarged adviser network.

Following the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry of 2017 to 2019, Australian retail banks accelerated their exit from wealth management, creating an opportunity for IOOF to build scale in advice and wealth platforms through acquisitions. In February 2020, IOOF acquired ANZ’s OnePath P&I business for \$850 million,³⁸ followed by the acquisition of MLC Wealth from NAB for \$1.4 billion, increasing total FUMA to approximately \$510 billion.³⁹ Collectively, these acquisitions established IOOF as one of Australia’s largest integrated wealth managers with significantly greater scale, by both FUMA and adviser network.⁴⁰

However, the scale benefits from these transactions proved difficult to realise in the short term. The Company inherited multiple legacy platforms, brands and technology environments from ANZ and NAB, alongside its existing infrastructure. Integration and separation activities, including the separation of the OnePath P&I business from ANZ, separation of MLC systems from NAB, the consolidation of legacy wrap platforms, and rationalisation of overlapping superannuation offerings, were complex multi-year programs. In subsequent years, these activities contributed to elevated transformation and separation costs, operational complexity and adviser and member disruption, which weighed on reported earnings, net flows, and market perceptions on the benefits of the acquisitions for several years.⁴¹

Having achieved scale through these acquisitions, Insignia needed to successfully leverage the various platforms and infrastructure across multiple brands, which over the next few years it struggled to achieve.

In parallel, Insignia Financial addressed regulatory findings and remediation programs consistent with broader industry trends following the Royal Commission.

On 25 November 2021, IOOF rebranded to Insignia Financial, reflecting the consolidation of prior acquisitions and the establishment of a unified corporate identity.⁴²

As part of a subsequent multi-year transformation program, Insignia Financial rationalised its portfolio and platforms. In October 2022, Insignia Financial successfully completed the separation of the OnePath P&I business from ANZ. In 2022 and 2023, it divested Australian Executor Trustees Limited (**AET**) and the IOOF Investment Bond business, respectively, to simplify the Company and focus on core wealth management operations. In March 2024, Insignia Financial migrated MLC Wrap, MLC Navigator and related offerings onto its MLC Expand platform, consolidating multiple legacy systems into a single platform, MLC Expand became the third largest Wrap in the market with \$86.0 billion FUA and over 316,000 client accounts as at May 2024.

In July 2024, Insignia Financial announced a corporate restructuring intended to streamline operations and support long term growth. The business was reorganised into four operating segments: Advice, Wrap, Master Trust and Asset Management. As part of this restructure, the former ‘Platforms’ segment was separated into Master Trust and Wrap to improve operational clarity.⁴³

In November 2024, Insignia Financial announced its Vision 2030 strategy, focusing on further portfolio simplification, platform consolidation, adviser productivity and sustainable long-term growth (**Vision 2030**) (see Section 8.2 of this report for further details).

To lay the foundations for Vision 2030, Insignia Financial completed further separation activities in FY25. The Company separated itself from its self-employed advice licensee business, Rhombus Advisory, on 1 July 2024, retaining a 37.0% equity interest. In May 2025, Insignia Financial completed the final separation of the MLC Wealth systems inherited from NAB, migrating over 700,000 accounts and 55 systems. Insignia Financial described this as ‘one of the largest wealth management separations in Australian financial services history’,⁴⁴ and it marked a significant step towards running all operations on the Company’s own technology environment and achieving cost reduction and efficiency objectives. Further, as part of Vision 2030, Insignia signed an agreement in July 2025 with SS&C Technologies (**SS&C**) to outsource various administration and technology functions and streamline Master Trust.

8.2 Strategy

Insignia Financial’s 2030 vision is to become Australia’s leading and most efficient wealth management company by 2030, using its breadth and expertise to deliver innovative, quality outcomes for customers and drive earnings growth for shareholders.⁴⁵

As part of the strategy to achieve this vision, Vision 2030, the Company is shifting focus from acquisition-driven integration and separation, to scalable, sustainable growth, underpinned by customer obsession, technology and product innovation, continuous cost optimisation and business simplification.⁴⁶

Insignia Financial has also articulated a set of financial and operating aspirations to 2030. The strategy is centred on customer experience and branding, technology and product innovation, disciplined cost optimisation and a clearer, more streamlined operating model. It includes delivering double-digit EBITDA growth from FY26 to FY30, achieving a targeted net reduction of approximately \$200 million in base operating expenses by FY30, and moving towards top-quartile cost-to-serve and customer net promoter score (**NPS**) outcomes in its core businesses. As part of this plan, Insignia Financial expects to spend an average of approximately \$60 to \$80 million per annum of reinvestment spend captured within operating expense over FY26 to FY30 to fund the initiatives. The Company expects to fund the investment required to execute Vision 2030 primarily through operating cash flow and existing debt facilities.⁴⁷

⁴² IFL ASX Announcement, “IOOF rebrands as part of transformation”, 21 October 2021.

⁴⁷ IFL ASX Announcement, “Insignia Financial FY25 Investor Day”.

The key strategic priorities aimed at delivering Vision 2030 across its operating segments include:⁴⁸

- **Advice:** expanding the Shadforth and Bridges advice businesses to meet demand for quality financial advice, while improving adviser efficiency and tooling to enhance client engagement and profitability;
- **Wrap:** building on the strengths of the Expand platform through technology-led innovation, strengthening adviser relationships and service levels, and scaling the ClientFirst and AdviserFirst models to support growth in adviser numbers and FUMA;
- **Master Trust:** simplifying the value proposition, transforming administration through the SS&C partnership, growing the Workplace offering, leveraging the MLC brand to build a direct-to-customer channel, and developing innovative retirement-focused products and guidance; and
- **Asset Management:** strengthening active investment partnerships, delivering consistent investment performance, expanding its private equity and alternatives capability, and accelerating managed account penetration across the advice network.

Master Trust simplification

The Master Trust simplification is a central plank of the Vision 2030 agenda. The segment has historically operated through multiple legacy products and systems inherited from prior owners, contributing to higher cost-to-serve and complex administration. As part of Vision 2030, the Company is pursuing a multi-year transformation of the Master Trust business to improve member outcomes, reduce operating complexity and support the targeted net reduction of approximately \$200 million in base operating expenses by FY30.

A key element of the Master Trust simplification program is the partnership with SS&C. On 1 July 2025, Insignia Financial completed the transition of a range of administration and technology functions, as well as approximately 1,300 Master Trust support staff, to SS&C under a long term services agreement.⁴⁹

The partnership is expected to deliver benefits through specialist administration capabilities, enhanced digital tools and improved technological resilience, and allows Insignia Financial to focus on the product, brand and customer experience side of the business. In this respect, the Company is simplifying its Master Trust product and pricing architecture. Initiatives include pricing changes to improve customer retention in its flagship MasterKey product, and rationalisation of legacy products.

Taken together, the SS&C partnership, product and pricing simplification, and MLC brand strategy (refer to the following section) are intended to create a more scalable, lower-cost Master Trust platform with clearer value propositions for employers, advisers and direct consumers.

MLC brand strategy

As part of Vision 2030, Insignia Financial is repositioning MLC as its primary consumer-facing brand. During FY25, the Company commenced revitalisation of the MLC brand, including a new MLC brand campaign “A Lifetime in the Making” launched in October 2025, which features the iconic ‘golden egg’ logo and returns MLC to mainstream media after several years of absence.⁵⁰

Coinciding with the brand relaunch, Master Trust introduced a refreshed direct-to-consumer channel for MLC Super, including an updated website and digital experience designed to support members who prefer to engage directly rather than through an adviser. The Wrap segment launched additional MLC Expand enhancements in August 2025, which included MLC Retirement Boost and the Expand Essential+ investment menu.

The MLC brand strategy is intended to leverage MLC’s long heritage and recognition in the Australian market to support growth across Insignia Financial’s Master Trust and Wrap offerings, while providing a clearer and more unified customer proposition.

NAB separation and technology transition

Following the acquisition of MLC Wealth from NAB in 2021, Insignia Financial progressively separated the Master Trust business from legacy NAB systems and operational frameworks. This included the migration of the MLC MasterKey and Plum registries, along with associated applications, to Insignia Financial’s

technology environment, which was one of the largest wealth management separation programs in Australia’s financial services history.⁵¹

Insignia Financial announced the successful separation of MLC from NAB in November 2024.⁴⁴ This separation involved material one-off investment in technology and transition costs, which are reflected in Insignia Financial’s recent financial results (refer to Sections 8.4.1 and 8.7.4 of this report for further details).⁵²

8.3 Operations

8.3.1 Overview

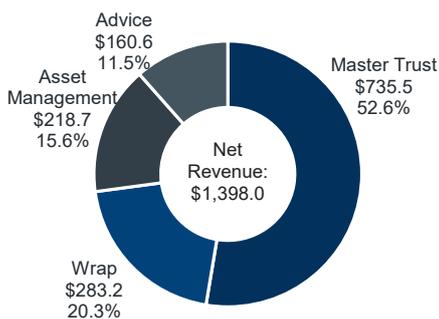

Insignia Financial is a diversified Australian wealth manager that provides financial advice, Master Trust (superannuation platform services), wrap platforms and asset management services to members, financial advisers and corporate employers.

Insignia’s operations are focused on the provision of wealth management products and services through four operating segments:

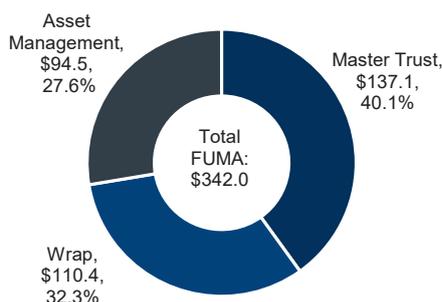

- **Advice:** provision of comprehensive financial advice to client through the employed advice businesses, Bridges and Shadforth;
- **Wrap:** a technology platform that enables investment administration and platform solutions for advisers and clients, including access to a broad range of investment options and consolidated reporting;
- **Master Trust:** provides superannuation and retirement products and solutions that are used by many of Australia’s largest employers and independent advisers; and
- **Asset Management:** offers multi-asset and single-asset investment solutions distributed both internally (through Insignia’s Advice, Wrap and Master Trust businesses) and externally.

The contribution by each of these segments to Insignia Financials’ net revenue in FY25 and FUMA as at 31 December 2025 is presented in the following charts.

Net Revenue by segment in FY25 (\$ millions)

FUMA by segment as at 31 December 2025 (\$ billions)

Source: Insignia FY25 Annual Report; 1Q26 Quarterly Business Update; Kroll analysis.

Note: Net revenue excludes ‘Corporate’ segment net revenue of \$6.7 million in FY25.

In FY25, the Master Trust segment was the largest contributor to Insignia Financial’s net revenue, generating \$735.5 million, or 52.6% of Company net revenue (excluding Corporate). Wrap contributed \$283.2 million (20.3%), Asset Management contributed \$218.7 million (15.6%) and Advice contributed \$160.6 million (11.5%).

⁵¹ IFL ASX Announcement, “MLC successfully separates from NAB”, 26 November 2024.

⁵² IFL ASX Announcement, “FY24 Annual Report”, 17 October 2024.

As at 31 December 2025, FUMA was also concentrated in the Master Trust and Wrap segments. Master Trust accounted for \$137.1 billion of FUMA (40.1%), Wrap accounted for \$110.4 billion (32.3%) and Asset Management accounted for \$94.5 billion (27.6%). The Advice segment does not report an associated FUMA balance and its revenue model is based on a combination of advice fees and asset-based fees.

Insignia’s total FUMA by segment from 30 June 2023 to 31 December 2025 is set out in the following figure.

Total FUMA at FY End (30 June 2023 to 30 June 2025) and 31 December 2025 (\$ billions)

Source: Insignia Financial Annual Reports, Kroll analysis.

Insignia’s FUMA increased by 5.5% in FY24 due to positive market growth, offsetting net outflows and pension payments. FUMA increased by a further 6.1% in FY25 due to a combination of market performance and net inflows, although partially offset by pension payments.

In 1H26, FUMA increased to \$342.0 billion, representing a 3.5% increase over the six months to 31 December 2025 and a 4.7% increase over the prior 12 months. Increases were primarily due to positive market movements of \$12.8 billion (a 3.9% increase) and net inflows during the period of \$915 million, partly offset by pension payments to customers of \$2.1 billion. Wrap attracted net inflows of \$2.8 billion during the period, while the Multi-Asset capability in Asset Management attracted net inflows of \$1.5 billion. These were partly offset by net outflows of \$1.5 billion from Master Trust, and net outflows of \$1.8 billion from Asset Management Direct Capabilities, primarily from the institutional channel.

An overview of the operations and performance for each of the Advice, Wrap, Master Trust and Asset Management segments is provided in the following sections.

8.3.2 Advice

Segment overview

The Advice segment is comprised of two separate, wholly owned businesses:

- **Bridges:** provides holistic financial advice, primarily for the mass affluent market (approximately \$300,000 to \$1 million in investable assets), offering one-off and ongoing advice relationships as well as stockbroking services to execute trades on the ASX on behalf of platform, retail, and institutional clients; and
- **Shadforth:** provides holistic and more sophisticated financial advice, primarily for high net worth (approximately \$1 million to \$5 million in investable assets) (**HNW**) and ultra-high net worth (greater than approximately \$5 million in investable assets) (**UHNW**) clients.⁵³ It operates on a full-service model including investment management, estate planning, philanthropy, insurance protection, and cash flow management.

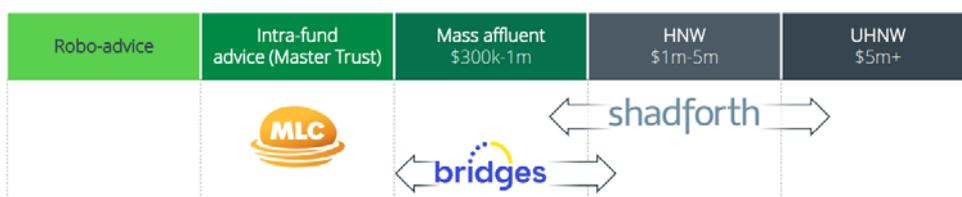

⁵³ Insignia Financial defined net worth classes.

The following diagram illustrates Insignia Financial’s advice propositions across the financial advice spectrum, from robo-advice (i.e. automated, generic financial advice) and intra-fund advice (via the Master Trust), through to Bridges’ focus on mass affluent clients and Shadforth’s focus on HNW and UHNW clients.

Delivery model

Advice is delivered through salaried advisers employed by Bridges and Shadforth operating under Australian Financial Services Licences (AFSL) held by Insignia Financial Group. The segment is supported by centralised technology platforms, governance and compliance functions, paraplanning, research and practice support programs.

Revenue model and integration to other segments

The Advice segment generates revenue predominantly from Adviser Service Fees (ASF), which are generally charged as fixed dollar fees for one-off or ongoing service arrangements. For some Shadforth clients, ASF are structured as a combination of fixed fees and asset-based fees. Other revenue includes insurance commissions, brokerage, and related service fees. The Advice segment is also an important distribution channel for Wrap and Master Trust offerings.

Rhombus Advisory separation

As part of Insignia Financial’s simplification agenda, on 1 July 2024 the self-employed adviser licensee channel (consisting of RI Advice Group, Consultum Financial Advisers, and TenFifty), was separated into a new entity, Rhombus Advisory. Under this partnership model, self-employed advisers and Rhombus Advisory management collectively hold a controlling interest in the business, while Insignia Financial retains a 37% minority stake.

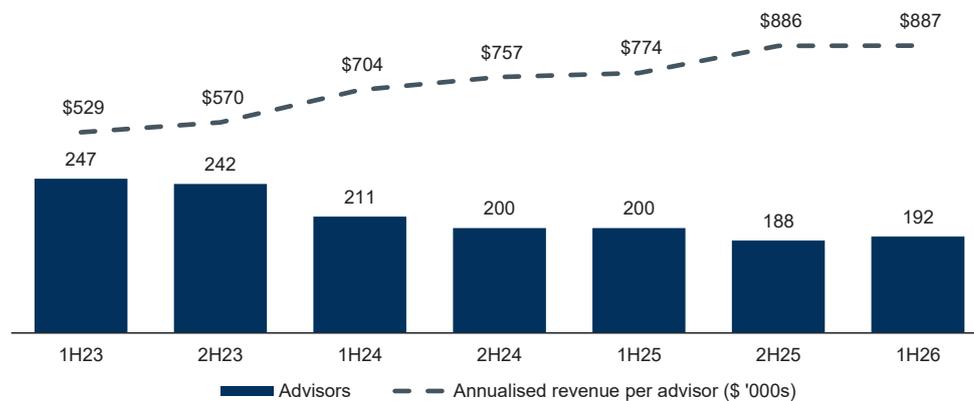

Rhombus Advisory now operates independently as an advice licensee for self-employed practices, whereas Insignia Financial’s Advice segment is focused on the wholly owned, salaried-adviser Bridges and Shadforth businesses. The new structure is intended to simplify Insignia Financial’s operations and capital requirements, while still maintaining an economic interest and strategic distribution relationship with the self-employed advice network.

Adviser network and productivity

The following chart presents the movement in the Advice segment’s number of advisers and revenue per adviser from 1H23 to 1H26.

Advice Number of Advisers (#) and Revenue per Adviser (\$'000s)

Source: Insignia Financial, Kroll analysis.

Note 1: Calculations are based on closing balances and advisers actively providing advice. FY23 and FY24 figures represent the ongoing business and excludes Rhombus Advisory.

From 1H23 to 1H26, the number of advisers declined from 247 to 192 (a 22.3% reduction). This reflects right-sizing and restructuring of adviser numbers as well as industry-wide pressures resulting from regulatory and legislative changes, increasing higher education standards for advisers and increased operating costs associated with compliance and administration, which have made expanding adviser headcount challenging.

In response, Advice has prioritised adviser productivity over network expansion. Clients per adviser has increased from 90 in FY24 to 96 in FY25, and annualised revenue per adviser grew by 67.7% from 1H23 (approximately \$529,000) to 1H26 (approximately \$887,000). These improvements reflect strategic initiatives such as re-engineering the advice review process and investing in technology (including AI-enabled tools) to simplify and automate workflows.

Cost-to-income

The following chart presents the cost-to-income for the Advice segment from FY23 to FY25 and 1H26.

Advice cost-to-income (%)

Source: Insignia Financial, Kroll analysis.

Note 1: FY24 cost to income is calculated on a pro forma basis, excluding the impact of Rhombus Advisory.

In FY23, the Advice segment was operating at a loss, with a cost-to-income ratios of 117.5%, exceeding 100.0% breakeven. Adviser efficiency has improved significantly since FY23 alongside the increase in clients per adviser and annualised revenue per adviser. The separation of self-employed licensees from the core Advice operations as part of the divestment of Rhombus Advisory has also simplified segment operations which has helped strengthen its financial performance. As a result, Advice segment cost-to-income has improved from 117.5% in FY23 to 65.0% in 1H26.

8.3.3 Wrap

Segment overview

The Wrap segment comprises Insignia Financial's investment platform business, centred on the MLC Expand platform. The wrap platforms provide advisers with administration and technology infrastructure to manage client portfolios across superannuation, pension and investment products, including custody, trading, investment selection, consolidated reporting, tax reporting, and cash management services. Wrap also includes related licensee, adviser and employer solutions through its Workplace channel and managed account offerings, which are primarily distributed through independent advisers and adviser groups.

In addition, Wrap includes a Platform Connect channel, which captures external white-label platform solutions that Insignia Financial distributes but does not operate and in-house white-label platform solutions that Insignia Financial operates but does not distribute.

MLC Expand

MLC Expand is Insignia Financial's contemporary superannuation, pensions, and investments wrap platform. It is the fifth largest wrap platform in the market and the largest by number of client accounts.⁵⁴

MLC Expand offers managed funds, listed shares, a range of other investment options in a full service arrangement, or a simple menu of lower cost options. More recent additions include a broad suite of SMAs, an enhanced investment menu, improved trading capability with real time tax estimates, an uplift in a number of client reports, live chat, and a full-featured client mobile app.

Platform migration and simplification

Insignia Financial has completed the migration of legacy MLC platforms (including MLC Wrap, MLC Navigator, and associated offers) onto its proprietary Expand platform, which is now marketed as MLC Expand. The migration, completed in March 2024, saw over 94,000 client accounts holding \$38.6 billion in

⁵⁴ IFL ASX Announcement, "Insignia Financial successfully completes \$38.6 billion migration to Expand", 2 May 2024.

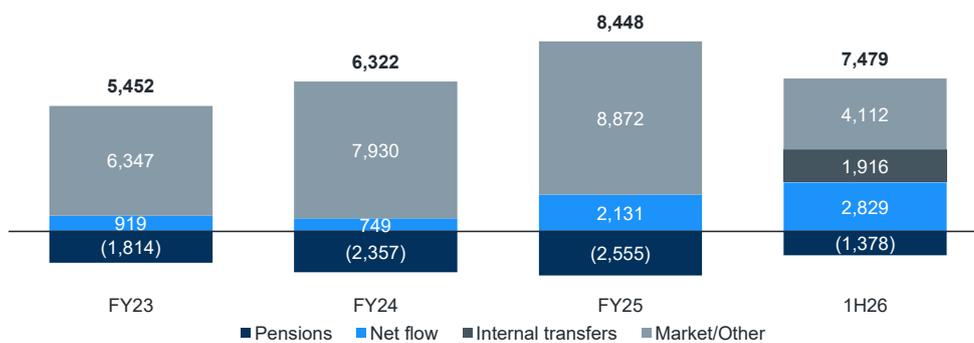

FUMA migrated to the platform, at the time the largest single wrap platform migration undertaken in the Australian financial services history.⁵⁵ As a result of the migration, approximately 98% of migrated clients benefitted from fee reductions in MLC Expand compared to their previous Wrap offering.

The migration to MLC Expand has delivered approximately \$20 million of net optimisation benefits, reducing Wrap’s unit cost to serve. In parallel, the Wrap product set has been simplified to deliver a more consistent and easier to use product for advisers and other clients, improving Wrap’s competitive position in the market.

Movements in FUA

The following chart presents movements in FUA for Wrap for FY23 to FY25 and 1H26.

Wrap Movements in FUA (\$ millions)

Source: Insignia Financial, Kroll analysis.

Note 1: Wrap products are distributed through the Workplace, Advised, and Platform Connect channels.

In FY24, net flows remained positive at \$749 million despite a 18.5% decrease from FY23 levels, reflecting a one-off increase in outflows ahead of the migration of accounts to MLC Expand, partially offset by \$1.8b transitioned into Insignia Financial’s private label in FY24. Net flows improved by \$1,382 million in FY25, totalling \$2,131 million, primarily due growth in MLC Expand following the MLC Wrap migration, reflecting increasing momentum, partially offset by the FY24 one-off private label transition.

Primarily driven by strong market performance, Wrap’s FUA increased by \$6,322 million in FY24 and a further \$8,448 million in FY25. This positive movement in FUA was offset by a 29.9% increase in Pension payments in FY24 relative to FY23 levels and a further 8.4% increase in FY25. Wrap FUA increased by \$7,479 million across 1H26 due to positive net flows driven by further growth in the MLC Expand suite of products, product migrations from Master Trust, as well as positive market movements, offset by pensions.

Wrap Net Revenue Margin and Cost to Serve (basis points (bps))

Source: Insignia Financial, Kroll analysis.

Note 1: FY24 figures are presented on a pro forma basis following Insignia Financial's operational restructure.

Prior to FY25, Wrap was reported under the 'Platform' segment which was subsequently separated into the Wrap and Master Trust segments. The restructure, implemented at the start of FY25, enabled Wrap to operate as a distinct entity with a clear market focus. While FY24 figures are on a pro forma basis, the true impact of the new operating model is evident in FY25, where cost to serve reduced to 15.6 bps and net revenue margin remained steady at 29 bps, aligning with Insignia Financials' FY30 strategy of improving cost efficiency. In 1H26, net revenue margin declined to 27.2 bps, while cost to income continued to improve, falling to 13.1 bps.

8.3.4 Master Trust

Segment overview

Insignia Financial is a leading provider of employer superannuation and is Australia’s sixth largest provider of Master Trust superannuation funds,⁵⁶ serving over 20% of S&P/ASX 50 Index companies. The Master Trust segment provides workplace, adviser-originated and direct superannuation products across four brands: Plum, MasterKey, SmartChoice, and OnePath.

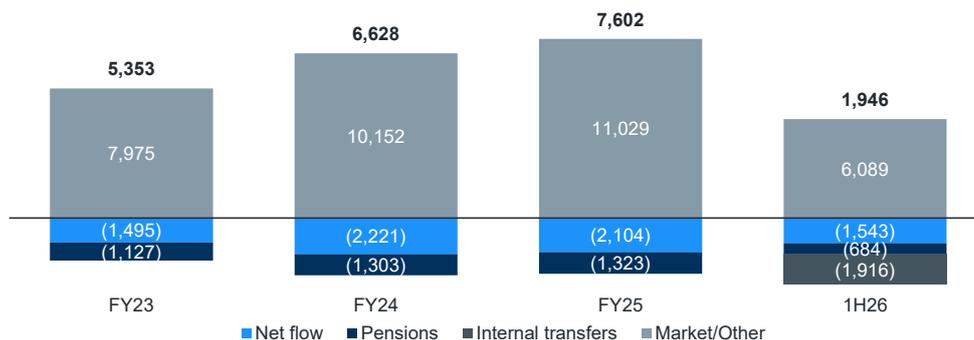

SS&C administration transition

A key component of the simplification and transformation of Master Trust is the outsourcing of superannuation administration and technology functions to SS&C. The arrangement is intended to enhance member experience, reduce unit administration costs and support a more scalable and modern administration platform. Refer to Section 8.2 of this report for further detail on the SS&C transition.

FUMA and flows

The following chart presents the movements in FUA for Master Trust for FY23 to FY25 and 1H26.

Master Trust FUA Movements (\$ millions)

Source: Insignia Financial, Kroll analysis.

Note 1: Master Trust products are distributed through the Workplace, Advised, and Direct channels.

From FY23 to FY25, increases in FUA were primarily driven by favourable market performance. Market movements accounted for increases in FUA of \$10,152 million and \$11,029 million in FY24 and FY25, respectively, offsetting the negative movements from net flows and pension payments.

Despite strong inflows in the Workplace offerings through business wins, member take-up and retention improvement, FY23 experienced a net outflow of \$1,495 million due to softer market conditions and competitive pressures in the Adviser channel. In FY24, net flows moderated, primarily reflecting softer Workplace inflows, while Workplace remaining positive overall.

In FY25, Pension payments remained stable while net outflows improved relative to FY24, driven by strong uplift in the Advised channel following price reductions across the MasterKey suite. This improvement partly offset Workplace flows that were impacted by \$285 million of bulk transfers after the loss of several corporate plans in FY24.

Master Trust FUA increased by \$1,946 million in 1H26 primarily due to strong market movements in 1Q26. A large portion of this movement was offset by pensions and continued net outflows of \$1,543 million in 1H26. Master Trust FUMA also declined \$1,916 million due to product migrations to the Wrap segment.

⁵⁶ APRA, Quarterly fund level statistics ended June 2025, excluding wrap superannuation products.

Note 1: FY24 figures are presented on a pro forma basis following Insignia Financial's operational restructure.

Cost to serve improved from 38.4 bps in FY24 to 32.0 bps in 1H26, while net revenue margin declined from 56.3 bps to 53.3 bps. Benefits from the SS&C transition and broader optimisation initiatives were evident in the lower cost to serve over the illustrated period. In 1H26, net revenue margins have continued to decline.

8.3.5 Asset Management

Segment overview

The Asset Management segment provides clients with access to multi-asset and single-asset investment solutions.

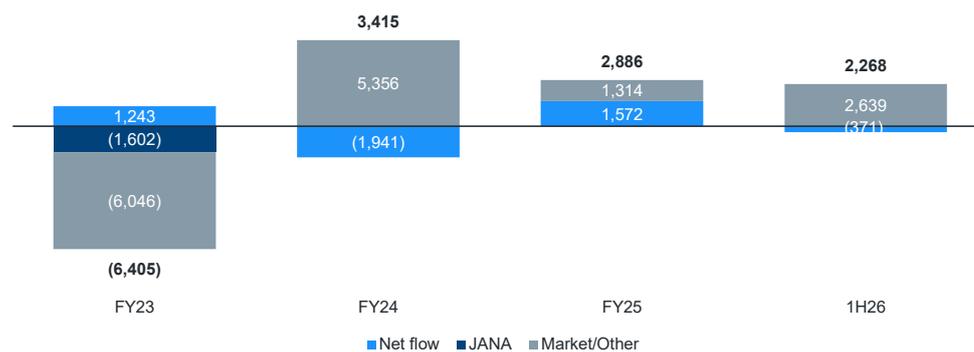

Under its multi-asset offerings, Insignia Financial constructs portfolios with strategic asset allocation and manager selection and delivers these through diversified funds and managed accounts. For single-asset offerings, Insignia Financial invests directly in specialist asset classes such as fixed income and equities.

Asset Management products are distributed both internally (through Insignia Financial’s superannuation, platforms, and advice channels) and externally to institutional clients.

FUMA and flows

The following chart presents the movements in FUM for Asset Management for FY23 to FY25, and 1H26.

Asset Management FUM Movements (\$ millions)

Source: Insignia Financial, Kroll analysis.

Note 1: Asset Management products are distributed through retail advised (via platform) and institutional channels.

In FY23, net flows were positive attributable to strong flows across both direct capabilities and multi-asset offerings. Within direct capabilities, Asset Management benefited from higher contributions from institutional clients, partially offset by outflows in fixed income capability as institutional clients rebalanced portfolios. The inflows into multi-asset offerings were driven by strong adviser take up for the managed accounts offering. Asset valuations were negatively impacted by macroeconomic headwinds and the inflationary environment, resulting in unfavourable market movements of \$6,046 million in FY23.

In FY23, Asset Management FUM also included multi-asset solutions implemented in partnership with JANA Investment Advisers (**JANA**). These portfolios were distributed primarily through institutional and multi-asset mandates and were reported within the Asset Management capability. In FY23, Insignia Financial sold its 45% shareholding in JANA, and as such flows were not separately highlighted in FUM disclosures in FY24 and FY25.⁵⁷

Due to continued rebalancing in Fixed Income and Global Equities by institutional clients, and also higher outflows in multi-asset managed funds from Wrap migration, there was an overall decline in net flow in FY24, despite a strong uptake of Managed Accounts. This was more than offset by a \$5,356 million increase in market movements, attributable to strong growth in both domestic and international equity markets.

FY25 net flow improved due to strong growth in the multi-asset capability from both managed accounts and traditional diversified funds, correlated to the improvement in wrap flows. Additionally, Direct Capability also improved following the funding of a large new institutional mandate within the fixed income capability. Continued positive investment market performance resulted in a \$1,314 million market movement.

⁵⁷ IFL ASX Announcement, “Insignia Financial 2Q23 Quarterly Business Update”, 25 January 2023.

Annexure A – Independent Expert’s Report *continued*

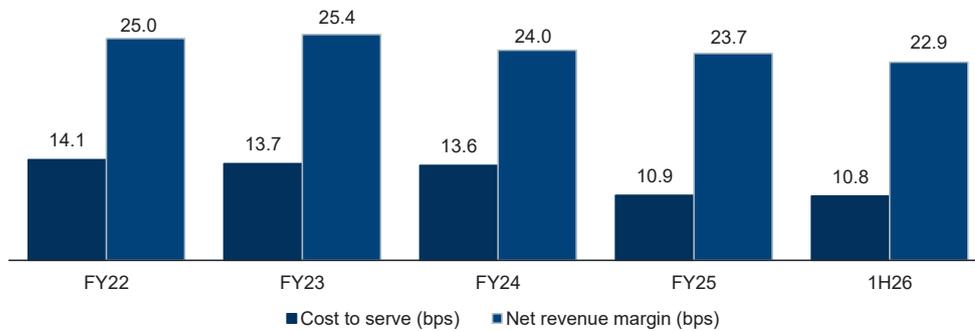

1H26 increase in FUM of \$2,268 million was primarily due to strong market performance, offset by \$371 million net outflows, primarily from \$1,708m of outflows in Institutional Direct Capabilities, largely due to client rebalancing, partially offset by \$1,475 million in retail net inflows into Multi-Asset due to growth in both MLC’s contemporary managed accounts and traditional diversified funds.

Net revenue margin and cost to serve

The following chart shows the historical trends in net revenue margin and cost to serve of Asset Management from FY22 to FY25, and 1H26.

Asset Management Net Revenue Margin and Cost to Serve (bps)

Source: Insignia Financial, Kroll analysis.

From FY22 through FY24, Asset Management’s net revenue margin remained broadly stable in the range of 24.0 to 25.4 bps, and cost to serve decreasing slightly from 14.1 bps to 13.6 bps. In FY25, cost to serve declined to 10.9 bps, reflecting efficiency gains including from simplifying the product and service offering in line with Insignia Financial’s FY30 strategy, whilst revenue margins remained relatively stable. Cost to serve improved slightly in 1H26, decreasing to 10.8 bps, while revenue margin further declined to 22.9 bps.

In relation to the financial performance of Insignia Financial, we note:

- revenues are primarily generated through management and service fee-based income across its Advice, Wrap, Master Trust, and Asset Management businesses, with the majority of revenue derived from administration and management fees linked to FUMA, supplemented by advice fees, administration charges, and other ancillary service revenues. Revenues are sensitive to a number of factors including the investment performance of FUMA, market performance, net inflow/outflow of FUMA, as well as changes in pricing policy, channel and product mix;
- a breakdown of management and service fee revenue is shown in the following table:

Annexure A – Independent Expert’s Report *continued*

Insignia Financial Management and Service Fee Revenue (\$ millions)

	FY24 Audited	FY25 Audited	1H26 Reviewed
Management and administration fees	1,199.4	1,183.6	608.0
Financial planning revenue	482.1	171.7	91.0

Total management and service fee revenue	1,864.4	1,534.7	801.3

Source: Insignia Financial Annual Reports and Results Presentations, Kroll analysis.

- total management and service fee revenue declined by 17.7% from \$1,864.4 million in FY24 to \$1,534.7 million in FY25. The decrease was primarily due to a 64.4% reduction in financial planning revenue, which declined from \$482.1 million in FY24 to \$171.7 million in FY25, reflecting the separation of Rhombus Advisory on 1 July 2024 and the impacts of advice divestments in FY24. Management and administration fees declined modestly by 1.3% despite growth in FUMA, reflecting strategic repricing decisions and migration of MLC Wrap to Expand. Management and service fees revenue increased by 3.3% in 1H26 relative to 1H25, including a 7.3% increase in financial planning revenue;
- other revenue increased from \$33.4 million in FY24 to \$66.9 million in FY25 due to higher sundry income, including conference income and various expense recoveries under service agreements, partially offset by \$12.8 million of gains on business divestments in FY24. Other revenue increased by 12.9% to \$22.7 million as compared to 1H25;
- share of profits of associates reflects profit earned by Insignia Financial’s equity interests in Intermede Investment Partners Limited (40.0% ownership interest), Fairview Equity Partners Pty Ltd (40.0%), and Rhombus Advisory (37.0%). In FY25, the share of profits of associates declined 36.4% to \$6.8 million. The share of profits from associates increased 48.6% to \$5.2 million in 1H26 relative to 1H25;
- service fees and other direct costs include payments to advisers, dealer groups and other suppliers in the course of operating the Company’s products and services, including, for example, adviser service fees, investment management fees, custodian fees, and client communication costs. Service fees and other direct costs declined by 60.5% in FY25 as adviser service fee expenses declined following the divestment of advice-related businesses. The total reduction in these costs exceeded the decline in management and service fee revenues, resulting in higher net revenues in FY25;
- net revenue increased by 0.9% in FY25, primarily driven by higher average FUMA, partially offset by the impacts of exited businesses, most notably the deconsolidation of Rhombus Advisory on 1 July 2024, and margin decline. Net revenue was 1.8% higher in 1H26 compared to 1H25;
- base operating expense primarily includes salaries and employee expenses, IT costs and administrative expenses. Base operating expenses declined by 2.3% in FY24 and 7.1% in FY25, reflecting ongoing delivery of cost optimisation programs, including the MLC integration, Wrap platform migration, and Advice Services partnership model transition (refer to Section 8.2 and 8.3 of this report for further detail on cost optimisation programs). These reductions offset cost inflation, operating expense investment, as well as early reinvestment in Vision 2030 initiatives of \$12.2 million in FY25;
- EBITDA grew by 18.9% in FY25, with the margin improving to 32.3% (up from 27.4% in FY24), driven by higher net revenue and lower base operating expense. EBITDA grew by 6.6% in 1H26 relative to 1H25, with the margin improving to 33.2%, driven by higher net revenue and lower base expenses, partially offset by \$3.08 million of reinvestment operating expenses;
- share-based payments expense approximately doubled in FY25. These expenses relate to equity-settled performance rights granted under Insignia Financial’s share-based payment plans to executives and eligible employees, subject to vesting conditions. Share-based payments expense increased by 112.5% in 1H26 relative to 1H25;
- in FY25, Insignia Financial recognised an impairment loss of \$0.8 million following the classification of its investment in Orchard Street Investment Management LLP (**OSIM**) as held for sale, which was subsequently recovered when the sale was completed in October 2025. In 1H26, Insignia Financial

recognised an impairment loss of \$17.5 million, driven by the impairment in value of one of its associates, Intermede Investment Partners Limited;

- net financing costs in FY25 increased by \$12.5 million or 41.3% to \$42.8 million. The increase reflects \$6.4 million of higher finance costs due to increased borrowings and rising interest rates on the syndicated facility agreement (**SFA**), along with a \$6.1 million reduction in interest income from lower cash and fixed income investment balances. Net financing costs were relatively stable in 1H26 relative to 1H25;
- in line with the EBITDA growth and margin improvement, UNPAT increased by 17.6% in FY25, with the margin improving to 18.1% (up from 15.6% in FY24). It was also 6.3% higher in 1H26 compared to 1H25. UNPAT is a metric used by management to monitor the underlying financial performance of the Company by reversing the impact on profit of certain, predominantly non-recurring items. The adjustments made to reconcile between UNPAT and statutory NPAT are summarised in the following table:

Source: Insignia Annual Reports and Results Presentations, Kroll analysis.

We note that the reduction in UNPAT adjustments in FY25 reflects primarily lower transformation, separation and remediation costs, as these programs broadly reached near completion:

- transformation and separation costs include expenses related to platform simplification, separation of the MLC businesses, MLC Wrap migration, cost optimisation programs and the transition to the Advice Services partnership model in FY24. These costs cover external activities, project labour, redundancy and termination costs, information technology and other consultancy fees. Transformation and separation costs declined in FY25 as the programs largely reached completion;
- remediation (expenses)/recoveries relate to Insignia Financial’s structured remediation provisions including customer compensation and associated costs. It includes recoveries under professional indemnity insurance. The increase in FY24 was due to additional provisions recognised for legacy remediation programs, with small recoveries booked in FY25 and 1H26 from insurance proceeds as remediation processes reached finalisation;
- legal settlement costs of \$41.3 million recognised in FY25 relate to historical class action matters. Legal settlement costs of \$2.4 million have been recognised in 1H26;
- transition costs in FY25 relate to transitioning services to SS&C, including \$7.2 million of impairment of right-of-use assets. In 1H26, transition costs of \$4.6 million relate to expenses incurred in relation to the proposed Scheme;
- penalties issued by APRA of \$10.7 million were recognised in FY24 for alleged breaches of the Superannuation Industry (Supervision) Act 1993. No further penalties relating to these matters are expected;

Annexure A – Independent Expert’s Report *continued*

- acquired intangibles are amortised over their useful lives. Amortisation expense of \$76.1 million, \$70.3 million and \$35.8 million was recognised in FY24, FY25 and 1H26, respectively. These items will continue to be UNPAT adjusted;
- net gain/(loss) on financial instruments includes revaluation movements in financial instruments. In FY25, this included a \$50.6 million financial loss on the embedded derivative associated with the subordinated loan notes; and
- income tax attributable represents the tax impact on UNPAT adjusted items;
- UNPAT adjustments in 1H26 were significantly lower, in line with Insignia Financial’s changed approach towards treatment of UNPAT adjustments. From FY26, reinvestment operating expense (within EBITDA) replaced below the line spend for several items, including transformation and separation costs.

8.4.2 Shareholder returns

Insignia Financials’ earnings per share and dividends paid from FY24 to 1H26 are as follows:

Earnings per share and Dividends

	FY24 Audited	FY25 Audited	1H26 Reviewed
Weighted average number of ordinary shares (millions)	664.5	668.0	668.3
UNPAT earnings per share (cents per share) ¹	32.6	38.1	19.9

Source: Insignia Financial Annual Reports and Results Presentations, Kroll analysis.

Notes:

1. UNPAT earnings per share is calculated as UNPAT divided by the weighted average number of ordinary shares on issue during the period.
2. Basic earnings per share is calculated as statutory NPAT divided by the weighted average number of ordinary shares on issue during the period.
3. Payout ratio is calculated as dividends paid as a percentage of UNPAT.

In relation to Insignia Financial’s earnings per share and dividends paid in FY24, FY25 and 1H26 as summarised above, we note:

- Insignia Financials’ dividend policy has historically targeted a payout ratio in the range of 60% to 90% of UNPAT. Consistent with this policy, the FY24 interim dividend of 9.3 cents per share reflected a payout ratio of approximately 65% based on 1H24 UNPAT;
- however, the FY24 final dividend was paused to enhance balance sheet flexibility, accelerate cost optimisation initiatives and support the Company’s strategic growth and remediation programs.⁵⁸ This resulted in a full-year payout ratio of 28.6%, with dividends remaining paused in FY25;
- 1H26 dividends remained paused in accordance with the SID.

8.4.3 Guidance

In conjunction with the release of its FY25 results on 21 August 2025, Insignia Financial provided the following FY26 guidance:⁵⁹

 - Master Trust: 51.0 bps to 52.0 bps;
 - Wrap segment: 27.5 bps to 28.5 bps;

⁵⁸ IFL ASX Announcement, “IFL FY24 Financial Results Investor Presentation”, 22 August 2024.

- Asset Management: 22.5 bps to 23.5 bps;
- net revenue of the Advice business segment to be approximately \$170 million;
- base operating expense to be in the range of \$880 million to \$890 million; and
- reinvestment operating expense to be approximately \$80 million.

As part of its 1H26 results release on 19 February 2026, Insignia Financial reiterated that there was no change to the FY26 group outlook and guidance provided at its FY25 results in August 2025.

8.4.4 Outlook

As far as Kroll is aware, Insignia Financial is followed by seven brokers, of which two are financial advisers on the Transaction and have, therefore, been excluded from our analysis. Of the remaining five brokers, two have published reports with financial forecasts following the release of Insignia Financial’s 2Q26 quarterly business update released on 22 January 2026. Kroll has considered the broker forecasts in order to provide an indication of the future financial performance of Insignia Financial. Further detail is provided in Appendix 4.

2. Adjustments relate to non-recurring items and amortisation of acquired intangibles.
3. Data presented are the median of the broker forecast.

With regard to the Insignia Financials broker consensus summarised above, we note:

- net revenue is expected to increase by 0.8% to \$1,415.3 million in FY26, before increasing by 1.3% to \$1,434.2 million in FY28. This reflects ongoing fee compression and the rationalisation of legacy products, partially offset by expected positive flows into Wrap platforms and enhancements in retirement income offerings that support average FUMA;
- operating expenses are forecast to increase by 1.3% from \$951.5 million in FY25 to \$963.6 million in FY26, reflecting continued investment in digital initiatives and integration-related costs. From FY26, operating expenses are expected to decline to \$906.2 million by FY28, supporting EBITDA margin expansion from 31.9% in FY26 to 36.8% in FY28. Brokers attribute this improvement to cost synergies from the ANZ/MLC integration, digital transformation programs, and the tapering of remediation costs despite ongoing investment in growth initiatives; and

Annexure A – Independent Expert’s Report *continued*

- EBITDA and underlying UNPAT are expected to modestly decline in FY26, with EBITDA 1.9% lower and UNPAT 0.3% lower. Brokers attribute this to one-off Wrap platform redemptions, continued outflows from legacy Master Trust products, and ongoing fee compression. Recovery is anticipated in FY27 and FY28, supported by positive Wrap net flows, greater adoption of multi-asset investment solutions, and disciplined cost management combined with integration benefits.

In relation to the financial position of Insignia Financial as at 31 December 2025, we note:

- Insignia Financial's net working capital position remained negative as at 30 June 2024 through 31 December 2025. This reflects the nature of the Company's operating model and recent operating history, where current liabilities predominantly comprise provisions including employee entitlement provisions, remediation provisions, and a legal settlement payable recognised in FY25 in relation to class actions. The working capital deficit narrowed from \$143.0 million as at 30 June 2025 to \$24.7 million in as at 31 December 2025, primarily due to a \$90.1 million reduction in current provisions as remediation programs continue to wind down. This improvement was assisted by the net movement in payables;
- net financial assets and liabilities totalled \$170.6 million as at 30 June 2025 and primarily comprise fixed income investments held to meet the Operational Risk Financial Requirement (**ORFR**) on behalf of superannuation funds. These assets are restricted for member protection purposes and are not available for general corporate use;
- Insignia Financial's investment in associates had a combined carrying value of \$45.7 million as at 31 December 2025. Details of the investment in associates are presented in the following table:

Insignia Financial Investment in Associates as at 31 December 2025 (\$ millions)

Associate	Country	Ownership interest	Carrying value
Intermede Investment Partners Limited	United Kingdom	40.0%	37.5
Fairview Equity Partners Pty Ltd	Australia	40.0%	2.5
Rhombus Advisory Pty Ltd	Australia	37.0%	5.7
Total			45.7

Source: Insignia Financial Annual Reports and Results Presentations, Kroll analysis.

The carrying values in the preceding table reflect Insignia Financial's share of net assets.

- the net defined benefit asset of \$19.8 million as at 31 December 2025 represents the surplus arising from the defined benefit obligation. This relates to Insignia's post-employment defined benefit plan, the Insignia Financial Super Plan, which entitles eligible employees to receive retirement benefits based on salary and years of service. Movements in the value of this asset reflects changes in actuarial assumptions, asset performance and plan contribution holiday during the year;
- net assets held for sale were nil as at 31 December 2025. Assets held for sale of \$4.1 million as at 30 June 2025 primarily relate to OSIM and a commercial property, which were subsequently sold in October 2025 and August 2025 respectively;
- intangible assets are the largest component of total assets, reflecting the scale of acquired businesses (primarily OnePath and MLC Wealth). As at 31 December 2025, intangible assets totalled approximately \$2.3 billion, comprising of goodwill (\$1.8 billion), customer relationships (\$349.1 million), brand names (\$160.0 million), software and IT development (\$16.2 million), and adviser relationships (\$26.1 million). The decrease in carrying value from 30 June 2025 reflects amortisation charges, partially offset by the acquisition of \$14.8 million of adviser books;
- net deferred tax assets totalled \$21.3 million as at 31 December 2025. The decrease since 30 June 2025 reflects the utilisation and remeasurement of deferred tax balances associated with lease liabilities, remediation provisions, legal settlements and the timing of deductible expenses;
- cash and cash equivalents were \$416.4 million as at 31 December 2025, compared to \$476.3 million as at 30 June 2025. The reduction reflects working capital movements, debt servicing and lease payments during 1H26, offset by operating cash flows;
- interest-bearing liabilities were \$784.1 million as at 31 December 2025. The reduction reflects net payments of \$102.2 million, partially offset by interest accruals;

Annexure A – Independent Expert’s Report *continued*

- lease liabilities increased slightly to \$237.4 million as at 31 December 2025;
- net debt (including lease liabilities) decreased from \$621.7 million as at 30 June 2025 to \$605.1 million as at 31 December 2025, reflecting the net effect of lower interest-bearing liabilities and movements in cash balances;
- net assets and total equity attributable to Insignia Financial Shareholders increased from \$2,065.6 million as at 30 June 2025 to \$2,133.9 million as at 31 December 2025. The increase was primarily driven by statutory profit for the half-year, partially offset by amortisation of intangible assets and movements in reserves. As a result, net assets per share increased to \$3.218 as at 31 December 2025 (30 June 2025 net assets per share was \$3.08);
- Insignia Financial’s current ratio was 1.1 times as at 31 December 2025, broadly consistent with 30 June 2025;
- Net tangible assets (**NTA**) per share remained negative as at 31 December 2025, consistent with the Company’s significant intangible asset base of approximately \$2.3 billion, primarily comprised of goodwill arising from historical acquisitions. As a result, NTA per share was negative \$0.09 per share as at 31 December 2025. This profile is consistent with wealth and fund managers with large, acquired customer books of FUM (for example, Perpetual Limited), where goodwill and customer relationship intangibles represent a significant portion of total assets.

8.5.1 Borrowings

Insignia Financial’s borrowings as at 31 December 2025 totalled \$784.1 million, comprising:

- Current borrowings comprised of SLNs of \$254.4 million, payable on 31 May 2026; and
- Non-current borrowings under the Syndicated Facility Agreement (**SFA**) of \$429.7 million.

Current borrowings represented 32.4% of total borrowings as at 31 December 2025.

Subordinated Loan Notes (SLN)

SLNs are unsecured subordinated debt issued as part of the MLC acquisition in May 2021.

On 3 March 2025, NAB submitted an early redemption request for \$200.0 million of SLNs. Insignia Financial chose to decline the early redemption, which triggered the equity-linked mechanism of the notes and resulted in an Additional Return Amount (**ARA**) of \$53.5 million.

Following the redemption request:

- the SLNs were reclassified as a single financial liability at amortised cost;
- the embedded derivative was derecognised; and
- the SLN interest rate stepped up from 1% to 4%, effective 2 April 2025.

Syndicated Facility Agreement (SFA)

The SFA is a multi-tranche facility provided by a syndicate of lenders. An overview of the facility is provided as follows.

Note 1: Utilisation of this tranche is in form of guarantees under commitments and contingencies.

As at 31 December 2025, \$567.0 million was drawn across the facility limits of \$1,055.0 million, leaving \$488.0 million undrawn. As the SFA is carried at amortised cost, after adjusting for Tranche D and applying accounting adjustments of (\$0.3) million, the carrying value of borrowings under the SFA was \$529.7 million as at 31 December 2025. Accounting adjustments of \$0.3 million represent capitalised borrowing costs offset by accrued interest.

Notes:

1. EBITDA is earnings profit before interest, tax, depreciation and amortisation, calculated as net revenue less operating expenses.
2. Adjustments to reconcile EBITDA with net cash receipts from operating activities.
3. The cash conversion ratio has been calculated as (Net cash flow from operating activities/ (NPAT-Depreciation)).
4. Represents not meaningful as cash flow from operating activities was negative during the period.

In relation to the cash flows of Insignia Financial, we note:

- operating cash flow improved significantly from negative \$53.3 million in FY24 to \$90.4 million in FY25, and \$84.5 million in 1H26. The movements were primarily driven by lower remediation and separation payments, reduced transformation spending, and working capital movements (in particular, lower provisions as remediation programs continued to wind down);
- working capital and adjustments remained a material component of operating cash flows, reflecting remediation and separation payments, transformation costs, and non-cash items including impairments, amortisation of acquired intangibles, and adjustments relating to restructuring and remediation provisions;

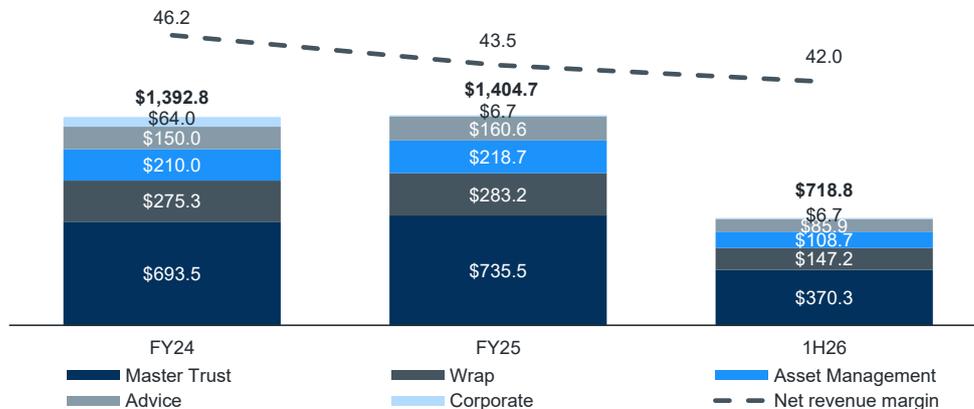

- free cash flow increased from \$46.1 million in FY24 to \$103.7 million in FY25, and \$70.5 million in 1H26, supported by improved operating cash conversion primarily as a result of lower remediation and transformation spend;
- in FY25, financing cash flows included \$158.0 million of drawdowns under the syndicated facility agreement, offset by principal repayments of \$135.0 million and interest and other costs of finance paid of \$52.5 million. In 1H26, financing cash flows were negative due to net repayment of borrowings;
- dividends paid in FY24 were \$103.6 million, primarily funded by existing cash reserves as operating and financing cash flows were negative. In FY25 and 1H26, no dividends were paid; and
- closing cash and cash equivalents increased from \$421.7 million as at 30 June 2024 to \$476.3 million as at 30 June 2025, reflecting significant improvement in operating cash flow as well as dividends not being paid for the period. In 1H26, the net decrease in cash broadly reflected net repayments of borrowings partially offset by positive operating cash flows.

8.7 Segment Financial Performance

8.7.1 Segment financial performance

The following chart summarises Insignia Financial’s net revenue by operating segment for FY24, FY25 and 1H26, together with the Company’s consolidated net revenue margin.

Insignia Financial Revenue by Segment (\$ millions) and Net Revenue Margin (bps)

Source: Insignia Financial Annual Reports and Results Presentations, Kroll analysis.

In relation to this chart, we note:

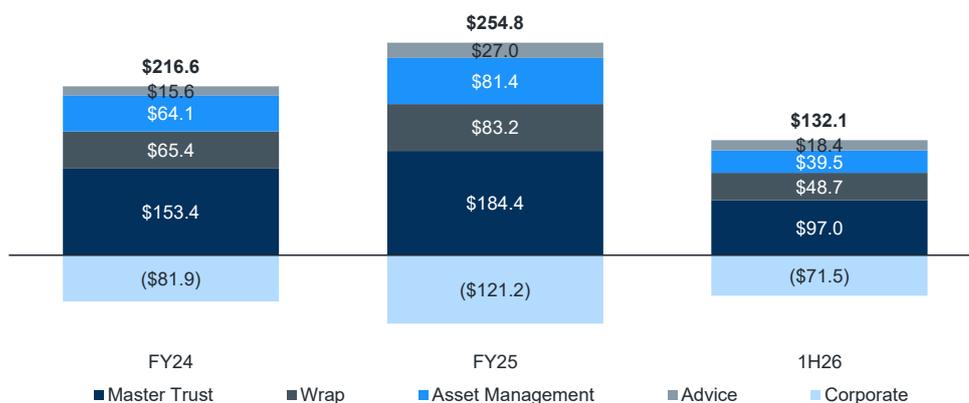

- net revenue increased from \$1,392.8 million in FY24 to \$1,404.7 million in FY25, supported by higher average FUMA, partially offset by the impacts of exited businesses;
- the overall net revenue mix primarily comprised the Master Trust and Wrap businesses, together accounting for approximately 69.7% of net revenue in FY24 and 72.5% in FY25. Master Trust increased its relative contribution, rising from 49.8% of net revenue in FY24 to 52.4% in FY25, reflecting higher average FUMA, while Wrap continued to be a broadly stable share of net revenue, representing 19.8% in FY25 and 20.2% in FY25;
- Asset Management remained steady, contributing 15.1% in FY24 and 15.6% in FY25;
- the Advice segment’s share increased modestly, from 10.8% in FY24 to 11.4% in FY25, reflecting strong client growth and higher asset-based fees; and
- net revenue margin declined from 46.2 bps to 42.0 bps in 1H26, due to the impacts of divested business (e.g. Rhombus Advisory) and consistent with the shift in revenue mix toward lower-margin platform management fees and away from higher-margin income streams, and the impact of strategic repricing decisions.

Insignia’s UNPAT by segment are illustrated as follows.

Insignia Financial UNPAT by Segment (\$ millions)

Source: Insignia Financial Annual Reports and Results Presentations, Kroll analysis.

In relation to this chart, we note:

- Master Trust, Wrap and Asset Management were the largest contributors to UNPAT in FY24 and FY25, with their relative shares broadly stable year on year, reflecting the consistency of the businesses;
- the Advice segment is the smallest contributor to UNPAT, with a slight increase in FY25 following the structural changes completed in FY24;
- corporate recorded a negative contribution in both years, reflecting central costs, BAU remediation and reinvestment expenses, offsetting segment profitability at the Company level;
- relative contributions to UNPAT by segment remained broadly consistent in 1H26, with relative contributions from Master Trust declining slightly as Advice increased.

1. FY24 restated pro forma.
2. EBITDA is earnings before interest, taxes, depreciation and amortisation, calculated as segment net revenue less segment operating expenses.
3. Cost to income is calculated as segment operating expense divided by net segment revenue.
4. "n.a." is not available. Due to the restructure in July 2024, like-for-like growth data for the Advice segment in FY24 is not available. Growth statistics in 1H26 are relative to 1H25 which is not shown.

In relation to the financial performance of Advice, we note:

- segment net revenue increased by 7.1% in FY25, supported by strong new client growth and a continued focus on higher-value advice clients in Shadforth. Net revenue growth was partially offset by lower insurance commissions. This contributed to an increase in revenue per adviser from \$0.75 million to \$0.85 million, driven by a focus on higher value clients and higher asset-based fee income from favourable market performance, alongside a reduction in adviser numbers mainly due to Bridges resizing. Net revenue from Advice increased by 10.1% in 1H26 relative to 1H25;
- operating expenses reduced 5.0% in FY25, due to the realisation of cost optimisation benefits from segment simplification post the Rhombus Advisory separation (refer to Section 8.3.2 of this report), partially offset by increases in salaries and incentives for advisers. As a result, the cost to income ratio improved from 80.0% in FY24 to 71.0% in FY25, reflecting efficiency gains from segment simplification alongside continued net revenue growth. Cost to income has fallen further to 64.8% in 1H26;
- EBITDA increased by 55.3% in FY25, driven primarily by improved adviser productivity, cost efficiencies, and the growth in retained advice operations. EBITDA growth was also strong in 1H26, at 44.5% relative to 1H25;
- lower UNPAT adjustments in FY25 primarily reflect that remediation expenses were nil, compared to \$59.9 million in FY24. As a result, the Advice segment moved from a statutory loss of \$44.6 million in FY24 to a profit of \$13.1 million in FY25. It was also profitable in 1H26 at \$12.2 million; and
- the improvement in operating metrics reflects the strategic shift toward a more efficient advice model with fewer advisers producing higher revenue per adviser.

5. "n.a." is not available. Due to the restructure in July 2024, like-for-like growth data for the Wrap segment in FY24 is not available. 1H26 growth is relative to 1H25 which is not shown.

In relation to the financial performance of Wrap, we note:

- net revenue increased by 2.9% in FY25, supported by a 9.2% increase in average FUA from \$90.5 billion to \$98.8 billion due to market performance and improved net flows. The uplift in FUA was partly offset by a decline in net revenue margin, which decreased 1.7 bps following the MLC Wrap migration to Expand. Net flows improved by \$1.4 billion in FY25, driven by strong growth in MLC Expand following the MLC Wrap migration, reflecting increasing momentum, partially offset by the FY24 one-off private label transition (refer to Section 8.3.3 of this report). Net revenue increased by 3.3% in 1H26 relative to 1H25;
- operating expenses declined 11.6% due to realisation of optimisation benefits post MLC Wrap migration to Expand, partially offset by cost inflation. The cost to serve ratio improved from 19.3 bps in FY24 to 15.6 bps in FY25, reflecting greater efficiency across the Wrap platform;
- net revenue growth and the decline in operating expenses contributed to greater operating leverage and a 27.8% increase in EBITDA, from \$101.0 million in FY24 to \$129.1 million in FY25. UNPAT growth for FY25 was broadly in line with EBITDA growth at 27.2%. In this respect, we note that although the net revenue margin declined slightly due to product migration, Wrap delivered meaningful margin expansion at the operating (EBITDA) level through realised cost efficiencies. EBITDA and UNPAT growth for 1H26 were also strong, at 23.3% and 22.7% relative to 1H25, respectively. This illustrates the high scalability of the wrap business; and
- UNPAT adjustments declined in FY25 primarily due to transformation costs in relation to the MLC Wrap to Expand migration reduced from \$60.7 million in FY24 to \$31.1 million in FY25 as the project finalised. In addition, there were provisions recognised for legacy remediation programs in FY24 of

\$24.7 million, with insurance recoveries of \$11.5 million booked in FY25 as remediation processes reached finalisation. Overall, lower transformation and remediation costs in FY25 allowed the Wrap segment to overcome a loss of \$13.6 million in FY24 and recognise a profit of \$55.8 million in FY25. UNPAT Adjustments were also lower in 1H26 relative to 1H25.

In relation to the financial performance of Master Trust, we note:

- average FUA increased from \$123.2 billion in FY24 to \$131.5 billion in FY25, supported by positive market performance resulting in higher average FUA throughout the period. This contributed to a 6.1% increase in net revenue, despite a slight decrease in net revenue margin (0.4 bps) due to pricing impacts from initiatives and increases in investment costs due to portfolio asset allocation changes. Average FUA increased further to \$137.9 billion in 1H26, driven by positive market performance, however, net revenue margin declined 2.6 bps primarily due to pricing impacts;
- net flows in FY25 were negative but improved relative to FY24, reflecting the positive impacts of pricing reductions, partially offset by lower net flows in Workplace impacted by transfers out of corporate plans in FY24. Net flows continued to be negative in 1H26;
- operating expenses decreased by 1.9% to \$463.9 million in FY25, largely driven by the realisation of optimisation benefits, partially offset by increased costs from software licences, brand and digital costs. The cost to serve decreased by 3.1 bps indicating efficiency gains across the segment. Cost to serve continued to decline to 32.0 bps in 1H26;

Annexure A – Independent Expert’s Report *continued*

- EBITDA increased from \$220.7 million to \$271.6 million, or 23.1%, with the EBITDA margin increasing from 27.7% to 32.6%. The stability of revenue margins combined with meaningful reductions in cost to serve have resulted in improved operating leverage across the segment in FY25. UNPAT increased 20.2% to be \$184.4 million in FY25. EBITDA growth in 1H26 was 10.4% relative to 1H25, with reductions in net revenue margin more than offset by decreasing cost to serve and growth in average FUA; and
- UNPAT adjustments declined in FY25 primarily due to a reduction in remediation, transformation and separation costs, partially offset by legal settlement expenses in relation to class actions. UNPAT adjustments were lower again in 1H26.

- net revenue margin remained broadly stable at approximately 24 bps, while the cost to serve ratio improved from 13.6 bps to 10.9 bps, reflecting lower operating expenses and continued delivery of cost optimisation initiatives. In 1H26, the net revenue margin declined to 22.9 bps while the cost to serve was broadly stable at 10.8 bps;
- operating expenses decreased by \$18.1 million or 15.3% to \$100.5 million in FY25, contributing to a 29.3% increase in EBITDA, with the EBITDA margin rising from 32.6% in FY24 to 40.0% in FY25. In 1H26, EBITDA declined by 6.4% relative to 1H25, with EBITDA margin also declining to 35.7%;

- UNPAT Adjustments declined by \$6.5 million or 24.6% in FY25 due to a reduction in transformation costs. Statutory NPAT increased by 63.1% to \$61.5 million in FY25. 1H26 UNPAT adjustments were higher than 1H25.

8.7.6 Corporate

- shared services supporting multiple business units, such as operations, customer service centres;
- transformation, simplification and separation costs that are not allocated to operating segments;
- group-level financing items; and
- in FY25 and FY24, includes the financial results from the Group’s divestment program

The Corporate segment typically reports a loss. In FY24, it reported losses of \$61.8 million in EBITDA and \$81.9 million in UNPAT, while in FY25 it reported losses of \$112.3 million in EBITDA and \$121.2 million in UNPAT. For 1H26, corporate recorded losses of \$73.2 million in EBITDA and \$71.5 million in UNPAT, broadly higher than 1H25 due to increases in reinvestment operating expenses.

8.9.1 Recent share market trading

Insignia’s share price performance and the volume of shares traded over the period from 1 July 2021 to 11 December 2024, the last trading day prior to media speculation surrounding the Initial Bain Capital Proposal, is illustrated as follows.

Insignia Share Price and Volume from 1 July 2021 to 11 December 2024

Source: S&P Capital IQ; Kroll analysis.

Since July 2021, Insignia Financial’s share price has exhibited pronounced movements, generally reflecting broader equity market conditions, changes in FUMA, the acquisition and integration of the acquired MLC Wealth business, and recurring updates to Insignia Financial’s simplification and transformation programs.

The completion of the MLC Wealth acquisition in August 2021 was followed by a short term uplift in the share price from approximately \$4.18 to \$5.08 (18.7%), reflecting the enlarged FUMA base and anticipation of material synergies and earnings per share accretion.⁶⁰ On 26 August 2021, the release of FY21 results led to significant intraday volatility, with the share price opening at \$5.33, trading to a high of \$5.39, before falling to a low of \$4.52 and closing at \$4.55, a decline of 10.4% relative to the previous close. The FY21 results included weaker than expected earnings (a full year loss), a decline in the full year dividend, significant remediation, restructuring and integration costs associated with the MLC acquisition, and warnings of further pressures on profit margins.

On 28 October 2021, the 1Q22 business update resulted in an 8.5% decline in the share price, as the market responded to negative net flows across core channels, continued adviser and practice attrition, market-driven reductions in FUMA, and ongoing remediation and transformation costs. By December 2021, the share price had briefly stabilised within the \$3.50 to \$3.80 range. During January 2022, the share price

⁶⁰ IFL ASX Announcement, “Investor Presentation - Acquisition of MLC”, 31 August 2020.

declined from \$3.72 to \$3.24 (a 10.8% decrease), broadly consistent with global market weakness linked to rising inflation, interest rate expectations and geopolitical tensions through the escalating tensions between Russia and Ukraine. A partial recovery followed through to April 2022, supported by the 2Q22 business update on 27 January 2022, which reported improved FUMA and progress on the Evolve platform migration.

From late April to 30 June 2022, the share price declined from \$3.42 to \$2.69 (down 21.3%), reflecting a softer 3Q22 business update, which included a 2.7% decline in FUMA, and broader market weakness. The decline partially reversed in the second half of 2022, with support from the 4Q22 business update, which reported \$592 million of positive net flows despite unfavourable market movements. The FY22 results in August 2022, which included UNPAT growth of 58.7% to \$234.5 million, supported a recovery in the share price to \$3.67 on 26 August 2022. The recovery in share price was however not sustained, with the share price declining to \$2.89 on 10 October 2022 (a 21.2% decline) following broader equity market weakness driven by rising interest rates and inflationary pressures, fuelling reductions in asset values. The share price subsequently recovered to \$3.74 on 18 January 2023 (an increase of 29.4%), supported by a rebound in equity markets and improving FUMA.

Between January and March 2023, the share price declined 27.0% from \$3.74 to \$2.73, following updates indicating declines in active advisers and practice numbers, lower FUA/FUM balances, and weak 1H23 financial results, with decreasing net revenue, EBITDA, UNPAT and dividends, compared to prior quarters. Between April and May 2023, the share price traded within a range of \$2.77 to \$3.02, supported by the 3Q23 business update which showed neutral flows and improving FUMA.

Between August and December 2023, the share price declined 27.8% from \$2.91 to \$2.10, following weaker FY23 results, reporting net revenue, EBITDA, UNPAT and dividends all down compared to FY22. Additionally, the Company announced in October 2023 that the CEO would step down in February 2024, contributing to additional uncertainty. Quarterly business updates also highlighted continued adviser and practice attrition, subdued net flows, and lower FUMA due to adverse market conditions, all of which weighed on earnings expectations. A partial recovery in the share price occurred in December 2023, rising 11.3% to close at \$2.34 on 29 December 2023, alongside broader market strength.

On 22 February 2024, the release of 1H24 results contributed to a 13.7% increase in the share price to \$2.57, although this was partially reversed as the share price trended downwards to \$2.19 during the remainder of 1H24, likely due to the continuation of significant transformation and separation costs. On 9 July 2024, the share price increased from \$2.19 to \$2.39, attributed to market speculation regarding private-equity takeover interest.⁶¹ The uplift proved temporary, and the share price declined 7.2% the following day after Insignia Financial clarified that no offers had been received.

The announcement of Scott Hartley’s appointment as CEO was made in February 2024 with effect 1 March 2024.

Following the FY24 financial results on 22 August 2024, which reported a statutory net loss of \$185.3 million, primarily due to \$232 million in remediation costs and \$243 million in transformation and separation expenses, the share price declined 20.5% over two days from \$2.93 to \$2.33. The Company also did not declare a final dividend for FY24.

From 2 September 2024 to 11 December 2024, the share price increased from \$2.38 to \$3.06, rising approximately 28.6% over the period following settlement of the OnePath Custodians Pty Ltd (**OPC**) class action, improved quarterly net flows of \$1.0 billion, and positive sentiment following the FY25 Investor Day and Vision 2030 strategy update.

On 12 December 2024, Insignia Financial received the Initial Bain Capital Proposal at \$4.00 per share, which marked the beginning of the subsequent comprehensive bid process.

Source: S&P Capital IQ; Insignia management; Kroll analysis.

Note 1: Share and index prices were re-based to 100 as at 1 July 2021, to show relative price movement.

We note that Insignia Financial generally underperformed relative to the S&P/ASX 200 Index over the period illustrated.

From July 2021 to November 2021, Insignia Financial’s share price movements were broadly consistent with the S&P/ASX 200 Index. The brief spike in August 2021 reflected optimism following the completion of the MLC Wealth acquisition and optimism around expected synergies, earnings accretion, and platform consolidation benefits, which was subsequently reversed when the FY21 results highlighted a statutory loss, a declined in the full year dividend, substantial remediation and integration costs, and indications of near-term margin pressures.

There was significant underperformance following the release of the 1Q22 business update on 28 October 2021, as the market responded to negative net flows across core channels, continued adviser and practice attrition, market-driven reductions in FUMA, and ongoing remediation and transformation costs. This weaker operating momentum continued through to July 2023, alongside rising inflation and interest rate expectations, despite brief periods of recovery around the 2Q22 business update, which reported stronger improved FUMA and positive net flows, as well as progress on the Evolve platform migration.

Between July 2022 and February 2023, Insignia Financial’s share price movements were broadly in line with the S&P/ASX 200, although the share price exhibited greater volatility, with larger declines during period of market weakness and sharper recoveries when sentiment improved.

Between February 2023 and October 2023, Insignia Financial’s share price materially underperformed the S&P/ASX 200 Index, which was broadly flat over the period. This period encompassed the release of the 1H23 and FY23 financial results, both of which reported declines in net revenue, EBITDA, UNPAT, and dividends declared relative to FY22. Quarterly business updates also highlighted continued adviser and practice attrition, subdued net flows and lower FUMA due to adverse market conditions, all of which weighed on earnings expectations. Remediation, integration and transformation programs continued to incur substantial costs for longer than previously anticipated, delaying the expected margin benefits from simplification initiatives. Underperformance intensified in October 2023 following the announcement that the CEO would step down in February 2024, adding further uncertainty.

From October 2023 to July 2024, the share price remained broadly flat and traded within a range and, overall, lagged the S&P ASX 200 Index, which strengthened meaningfully over this period. The muted relative performance reflected the lingering impact of weaker FY23 and 1H24 financial results, continued adviser and practice attrition, and the ongoing effects of remediation, integration and transformation programs, which continued to absorb capital and delay operating leverage. As equity markets strengthened

meaningfully, Insignia Financial did not participate in the rally as investors appeared cautious regarding the timing of earnings stabilisation and the realisation of benefits from the Company’s strategic initiatives.

From July 2024 to 11 December 2024, Insignia Financial’s relative performance was volatile. An initial sharp recovery in July and August of 2024 reflected media speculation of private-equity takeover interest (subsequently clarified by the Company as not having resulted in any firm offers), improving equity market conditions, more stable net flows and adviser metrics ahead of the FY24 results. Following the release of the FY24 results, which reported a statutory loss, elevated remediation and transformation costs and a pause on dividends with no final dividend paid, the share price sharply declined. After this adjustment, the share price steadily recovered into 11 December 2024, supported by improving quarterly net flows, settlement of the OnePath class action, and optimism surrounding the FY25 Investor Day and Vision 2030 strategy update.

The performance of Insignia Financial Shares relative to the selected peers, AMP, HUB24, Netwealth and Perpetual Limited (**Perpetual**), over the period from 1 July 2021 to 11 December 2024, the last trading day prior to media speculation surrounding the Initial Bain Capital Proposal, is illustrated as follows.

Note 1: Share and index prices were re-based to 100.0 as at 1 July 2021, to show relative price movement.

In relation to Insignia Financial’s performance relative to the selected peer set, we note:

- relative movements reflect the differences in business models, structural growth profiles, as well as sensitivity to market-linked revenues and adviser-driven earnings;
- specialist platform providers (HUB24 and Netwealth) have performed materially stronger than Insignia Financial and other peers over the period. Their technology-led, single-platform business models have generated superior sustained net inflows, scalable margins, and strong FUMA growth, with limited exposure to remediation or legacy product complexity;⁶³
- AMP generally outperformed Insignia Financial, reflecting the market’s response to AMP’s portfolio simplification initiatives, earlier progress on cost reduction programs, lower exposure to remediation costs due to the finalisation of accelerated remediation programs, and clearer separation of legacy businesses, which contributed to a more favourable earnings outlook relative to Insignia Financial over much of the period;⁶⁴ and

- Perpetual generally underperformed Insignia Financial, driven by earnings volatility and persistent net outflows in its Asset Management division, integration complexity from acquisitions, elevated costs and compressed margins (partially as a result of integration and restructuring expenses), uncertainty around strategic direction and corporate activity, as well as lower structural growth relative to peers.⁶⁵

9 Valuation of Insignia Financial

9.1 Overview

Kroll has assessed the value of the equity of Insignia Financial to be in the range of \$3,049.1 million to \$3,444.1 million, which is equivalent to a value per Insignia Financial Share of \$4.49 to \$5.08 on a fully diluted basis. Our range of assessed values reflects 100% ownership of Insignia Financial and, therefore, incorporates a control premium. As our valuation includes a control premium, our range of assessed values per share exceeds the price at which we expect Insignia Financial Shares would trade on the ASX in the absence of the Scheme.

The value of Insignia Financial’s equity has been determined by estimating the fair value of Insignia Financial’s operating business, together with an allowance for provisions, investments in associates, non-operating assets/(liabilities)(net) and net debt (including lease liabilities).

The valuation of Insignia Financial is summarised as follows.

Note 1: Maintainable EBITDA differs from Insignia Financial’s reported EBITDA. Refer to Section 9.3.2 of this report for details.

In assessing the value range of Insignia Financial’s operating business on a 100% basis, Kroll has adopted a market approach as the primary valuation methodology utilising multiples of EBITDA. In selecting an appropriate EBITDA multiple for Insignia Financial (on a 100% control basis), Kroll has had regard to the multiples implied by relevant Australian and international wealth management transactions, as well as the trading multiples of listed comparable companies operating as diversified wealth managers, or platform, advice and asset management specialists. This assessment has been cross-checked against broker target prices (refer to Section 9.8 of this report).

Our assessed value range of \$4.49 to \$5.08 per Insignia Financial Share reflects a significant premium over the closing price of Insignia Financial Shares as at market close on 11 December 2024, the last trading day prior to media speculation surrounding the Bain Capital Proposal, of between 46.9% and 65.9%. It also represents a premium to the one-month VWAP prior to the media speculation in the range of 42.2% and 60.6%, as well as significant premiums to VWAPs calculated over the 12-month period preceding the media speculation (refer to Section 3.4.1 of this report). This premium is considerably higher than the premiums typically observed in completed transactions, which are broadly in the range of 25% to 40% depending on the individual circumstances,⁶⁷ and likely reflects:

⁶⁷ 2025 FactSet Review. Range represents median premium from 2015 to 2024. Premiums are calculated based on the seller’s closing price five business days before the initial announcement. The calculations exclude negative premiums and premiums over 250%. Data includes publicly traded and privately owned companies where at least one of the parties is a United States entity. Includes all sector and industry classifications.

- that our valuation of Insignia Financial includes a control premium, rather than a valuation of a minority interest. We note, however, that synergies available to a pool of potential acquirers of Insignia Financial are expected to be limited due to the small pool of potential industry and strategic acquirers. Having regard to the fact that all of the competing takeover proposals were from financial buyers, and no other bidders have emerged since July 2025, we consider the most likely acquirer of Insignia Financial is a financial buyer. In these circumstances, the scope for synergies is typically more limited than for a strategic buyer, and is generally limited to public company cost savings (refer to Section 9.2.3 of this report);
- Kroll’s valuation of Insignia Financial has been undertaken at a point in time when the market has had the opportunity to consider and digest the Company’s articulated medium-term strategy, Vision 2030, which was presented at its investor day on 13 November 2024. This includes the opportunities, risks, and execution challenges associated with the strategy. Accordingly, our assessed value range reflects the market’s risk-adjusted view of the prospective earnings outcomes under Vision 2030, having regard to broker forecasts and other publicly available market information as at the valuation date; and
- in contrast, the period prior to media speculation surrounding the Bain Capital Proposal was characterised by significant remediation, integration, separation and transformation activity, which adversely affected statutory earnings and market sentiment towards Insignia Financial. Trading during this period likely reflected these factors as well as the uncertainty regarding the timing and extent of earnings normalisation as these programs progressed.

We note also that the Scheme provides the acquirer with the ability to direct, prioritise and potentially accelerate the execution of Vision 2030. This includes control over investment decisions, operating model design, and the delivery of targeted cost and efficiency initiatives. To the extent that the acquirer believes it can execute the transformation more effectively, more quickly, or with greater certainty than Insignia Financial in its current form, this provides a rational basis for the payment of a control premium above prevailing market prices.

9.2 Approach

9.2.1 Overview

Our valuation of Insignia Financial has been prepared on the basis of ‘fair value’. The generally accepted definition of fair value (and that applied by us in forming our opinion) is the value agreed in a hypothetical transaction between a knowledgeable, willing but not anxious buyer and a knowledgeable, willing but not anxious seller, acting at arm’s length.

Fair value excludes ‘special value’, being value over and above fair value that may be available to a particular buyer as a result of synergies or other benefits arising from ownership or control of the business.

In the absence of direct market evidence, fair value is commonly derived by applying one or more of the following valuation approaches:

- the market approach;
- income approach; or
- cost approach.

These approaches are discussed in further detail in Appendix 3. The decision as to which approach (or approaches) to adopt will depend on various factors, including the availability and quality of information, the characteristics of the asset or business, and the valuation practices typically adopted by purchasers for the type of asset or business involved. A secondary methodology is often used as a cross-check to assess the reasonableness of the outcome, with the valuation conclusion ultimately representing a judgement formed through an iterative process.

For profitable going-concern businesses, the market and income approaches are commonly applied, as they reflect the value of the business as an ongoing enterprise and typically incorporate an element of goodwill over and above the value of underlying net assets. For businesses that are either non-profitable, non-tradeable or asset rich (e.g. real estate investment trusts), a cost approach is typically adopted as there tends to be minimal goodwill, if any.

Annexure A – Independent Expert’s Report *continued*

9.2.2 Selection of methodology

A discussion of the rationale for the selection of the valuation methodologies is set out as follows.

Market approach

The market approach is based on comparing the asset or business to identical or comparable assets or businesses for which there is available information. Application of this approach involves capitalising an earnings or cash flow measure of the asset or business (for example, revenue, EBITDA, EBIT or NPAT) at a multiple that reflects both the risks of the asset or business and the expected growth prospects of those earnings.

The market approach is commonly adopted where:

- there are frequent and/or observable transactions in comparable assets or businesses from which transaction multiples can be derived (comparable transactions methodology);
- the asset or business, or similar assets or businesses, are actively publicly traded (market comparable methodology); and
- the subject asset or business has sufficient operating history and a consistent earnings trend.

In the case of Insignia Financial, Kroll considers that there is sufficient market evidence to inform the selection of an appropriate capitalisation multiple. This evidence includes the trading multiples of listed comparable Australian and international wealth management transactions, as well as the trading multiples of listed comparable companies operating as diversified wealth managers, or as platform, advice or asset management specialists. While we note that comparability across the peer set is not straightforward due to differences in business mix, scale and local market characteristics (regulatory context) when compared to Insignia Financial, the available evidence is sufficiently broad and informative to support a reasonable basis for judgement.

The earnings bases to which a multiple is commonly applied include revenue, EBITDA, EBIT, NPAT and book values. The choice will typically depend on the industry and characteristics of the subject asset or business. We note that the use of EBITDA and NPAT is common in valuing wealth management companies. EBITDA is often more useful for making comparisons as it is less affected by differences in capital structure and interest expense, tax positions, and acquisition and integration history, including amortisation of acquired intangibles and other non-cash accounting outcomes. When utilising earnings measures, careful consideration must be made to the differences in adjustment policies which can distort implied multiples if not assessed on a like-for-like basis. When calculating multiples, Kroll has sought to ensure like-for-like comparability across comparable transactions and comparable companies, including through consistent treatment of lease accounting (in accordance with Australian Accounting Standards Board 16 Leases (**AASB 16**) and International Financial Reporting Standard 16 Leases (**IFRS 16**)), share-based payments, non-recurring items (where disclosed and appropriate), and interests in associates and investments.

In addition, where appropriate and practicable, Kroll has sought to align the earnings measures used in applying multiples to a representative underlying earnings base. This has included adjusting reported earnings to exclude material items that are non-recurring, non-operational or are not considered representative of the sustainable earnings capacity of the business. These include remediation-related costs, legacy integration and transformation costs, and other significant one-off items, to the extent these are separately identified and sufficient information is available. These adjustments have been made consistently across the evidence set (where disclosure permits) to support like-for-like comparison. The effect of this is that the EBITDA we have adopted do not necessarily reflect those reported in the respective companies’ financial statements

In considering the appropriate earnings period from which to calculate multiples, factors include whether historical performance is representative of expected future operating performance, including the extent to which earnings are affected by remediation, reinvestment programs, integration activity, margin and flow dynamics, and market conditions. Having considered these factors, Kroll has placed emphasis on forward-looking earnings measures, derived from broker consensus forecasts or company guidance where available, as these more directly reflect investors’ expectations for the future earnings capacity of the business.

The analysis of transaction and share market evidence does not often result in a clear conclusion regarding the appropriate multiple or range of multiples that should apply. Multiples can vary significantly for a wide range of reasons, making the application of judgement an essential part of the process. Furthermore, it is important to consider the specific attributes of the business being valued to determine whether they justify a higher or lower multiple relative to peers. This evaluation is inherently a matter of professional judgement.

Rule-of-thumb valuation benchmarks are sometimes considered to be an application of the market approach. They generally should not be given substantial weight unless market participants place particular reliance on them. Kroll is not aware of any rules-of-thumb that are used in the valuation of wealth management companies.

Income approach

Under an income approach, the value of an asset or business is determined by converting expected future cash flows to a present value. It is commonly adopted when:

- the income producing ability of the asset or business is the critical determinant of value from a market participant perspective;
- future cash flows can be estimated on a reasonable basis; and
- the asset or business does not have a substantial operating history, exhibits variable cash flow patterns, or has a finite life.

The most common application of the income approach is the discounted cash flow (DCF) methodology, which allows for cash flows to reflect a range of risks and opportunities and allows for a range of scenarios to be modelled.

A DCF can be applied either to cash flows to the whole asset or business, or to cash flows available to equity holders. Cash flows to the whole asset or business are most commonly used, as an asset or business should theoretically have a single value that is independent of how it is financed or whether returns are distributed as dividends or reinvested. Applying a DCF requires forecasting cash flows over an explicit period and discounting those cash flows to their present value.

Insignia Financial has provided Kroll with a financial model incorporating profit and loss forecasts through to FY30, prepared in connection with the Company’s Vision 2030 strategic plan (**Model**). Kroll has undertaken enquiries in relation to the Model, including holding discussions with Insignia Financial management regarding the key assumptions underlying the Model, and has reviewed the key assumptions in the context of current economic and industry conditions.

Having regard to these enquiries and independent analysis, Kroll is of the view that the forward-looking information contained in the Model does not have a sufficiently reasonable basis to be used for our valuation. In forming this view, we have had regard to the following considerations:

- the Model was prepared primarily for strategic planning and communication purposes in connection with the Vision 2030 strategy, rather than for valuation or forecasting in the ordinary course of business and therefore does not necessarily represent a best estimate;
- the Model is not subject to regular review or update in the ordinary course of business, and the forecasts have not been refreshed to reflect more recent trading conditions;
- there is a range of forecast data, particularly concerning strategic initiatives under Vision 2030, which would require a range of specific adjustments and updates to accurately reflect current estimates for each of the segments on a reasonable basis; and
- a number of key assumptions underlying the Model are subject to material uncertainty and in some cases are outside management’s control, including market performance.

Cost approach

A cost-based approach is most appropriate for businesses where the value lies in the underlying assets and not the ongoing operations of the business (e.g. real estate holding companies). Diversified wealth management companies are not typically asset rich, and a significant portion of their asset value is generally related to intangible factors, such as intellectual property and goodwill. Accordingly, this approach does not generally capture the growth potential or internally generated intangible value associated with Insignia Financial and consequently, has not been adopted for the purposes of this valuation.

Annexure A – Independent Expert’s Report *continued*

9.2.3 Control premium

Consistent with the requirements of RG 111, we have assumed 100% ownership in valuing Insignia Financial and, therefore, our valuation is inclusive of a control premium. Successful transactions are commonly completed with an implied acquisition premium to the undisturbed equity price of the target in the order of 25% to 40% depending on the individual circumstances.⁶⁸ In considering the evidence provided by actual transactions, it is important to recognise that the observed premium for control is an outcome of the valuation process, not a determinant of value, and that each transaction will reflect to varying degrees the outcome of a unique combination of factors, including:

- the acquirer’s capacity to realise full control over the strategy and cash flows of the target entity;
- the magnitude of synergies available to all acquirers, for example, the rationalisation of costs related to duplicated functions, or the removal of costs;
- uncertainties related to the timing of full realisation of target synergies;
- the expected costs to migrate and integrate the business;
- the nature of the bidder (i.e. whether the acquirer is a financial investor or a trade participant);
- synergistic or special value that may be unique to a particular acquirer;
- the interest acquired with consideration to the bidder’s pre-existing shareholding in the target;
- the prevailing conditions of the economy and capital markets at the time of the transaction with consideration to the position in the overall market cycle;
- desire (or anxiety) for the acquirer to complete the transaction;
- whether the acquisition is competitive; and
- the extent the target company’s share price already reflects a degree of takeover speculation.

The premium ultimately applied must have regard to the circumstances of each case. In some situations, it may be appropriate to apply no premium for control as, for example, there are transactions where no corporate buyer is prepared to pay a price in excess of the prices paid by institutional investors through an initial public offering. Accordingly, an assessment of an appropriate control premium (if any) is a matter of judgement.

Multiples derived for listed comparable companies generally reflect prices at which portfolio interests (i.e. minority interests) are traded and therefore do not include a premium for control. They may also be impacted by the level of liquidity in trading of the particular security. Accordingly, when valuing a business as a whole (i.e. Insignia Financial on a 100% basis), or when valuing the main undertaking of a business, it is appropriate to reference the multiples achieved in comparable control transactions, where a control premium and breadth of purchaser interest are more directly reflected.

Having regard to the competing takeover proposals from financial buyers (including CC Capital, Bain Capital, and Brookfield Asset Management) between December 2024 and July 2025 (as outlined in Section 5.1 of this report), Kroll considers that the most likely acquirer of Insignia Financial is a financial buyer rather than a strategic buyer with an existing Australian wealth management platform of material scale. While there are a limited number of potential strategic acquirers in Australia, the capacity and strategic appetite of such parties to undertake a transaction of this scale is uncertain and would be subject to regulatory and competition scrutiny. In addition, Kroll is not aware of any international wealth managers with a material Australian footprint for whom Insignia Financial would represent interest, and potential strategic interest may be tempered by Insignia Financial’s recent and ongoing remediation activity as well as the complexity of its integration and transformation programs. Importantly, no bidder has emerged since July 2025 with a competing proposal. In these circumstances, the scope for synergies is typically more limited than for a

⁶⁸ Source: 2025 FactSet Review. Range represents median premium from 2015 to 2024. Premiums are calculated based on the seller’s closing price five business days before the initial announcement. The calculations exclude negative premiums and premiums over 250%. Data includes publicly traded and privately owned companies where at least one of the parties is a United States entity. Includes all sector and industry classifications.

strategic buyer, and is generally limited to public company cost savings. Kroll has had regard to this in forming its judgement as to an appropriate control premium.

We note that the Scheme provides the acquirer with the ability to direct, prioritise and potentially accelerate the execution of Vision 2030. This includes control over investment decisions, operating model design, and the delivery of targeted cost and efficiency initiatives. To the extent that the acquirer believes it can execute the transformation more effectively, more quickly, or with greater certainty than Insignia Financial in its current form, this provides a rational basis for the payment of a control premium above prevailing market prices.

9.3 Market approach

9.3.1 Summary

Kroll has assessed the value of Insignia Financial’s operating business to be in the range of \$3,655.0 million to \$4,050.0 million under the market approach. In assessing this value range, Kroll has had regard to the valuation outcomes derived by using multiples of forecast maintainable EBITDA.

Our range of assessed values for Insignia Financial’s operating business reflects 100% ownership of Insignia Financial and, therefore, incorporates a control premium. As our valuation includes a control premium, the resulting range of assessed multiples exceeds the multiples at which we expect Insignia Financial Shares would trade on the share market in the absence of the Scheme.

Our assessment of the value of Insignia Financial’s operating business requires consideration of an appropriate level of maintainable earnings (refer to Section 9.3.2 of this report) and capitalisation multiple (refer to Section 9.3.3 of this report). To inform this assessment, Kroll has had regard to the multiples implied by relevant Australian and international wealth management transactions, as well as the trading multiples of listed comparable companies operating as diversified wealth managers, or platform, advice and asset management specialists.

The results of this assessment are presented as follows.

Valuation of Insignia Financial’s Operating Business (\$ millions)

	Section Reference	Valuation Range	
		Low	High
Maintainable earnings (EBITDA) ¹	9.3.2	430.0	450.0
Capitalisation multiple (control basis)	9.3.3	8.5	9.0
Value of Insignia Financial operating business		3,655.0	4,050.0

Notes:

- Maintainable EBITDA differs from Insignia Financial’s reported EBITDA. Refer to Section 9.3.2 of this report for details.
- Figures may not add due to rounding.

9.3.2 Maintainable earnings

Maintainable earnings should reflect the earnings that can reasonably be achieved in the future for the business on an ongoing basis. It is an estimation of the earnings or cash flows that a hypothetical purchaser would utilise for valuation purposes, having regard to historical and forecast operating and financial performance, non-recurring items of income and expenditure, and other known factors that are likely to have an impact on the businesses operating and financial performance.

As discussed in Section 9.2.2 of this report, Kroll has adopted EBITDA as the earnings base for our valuation. In determining an appropriate level of maintainable EBITDA for Insignia Financial, we have had regard to the Company’s historical operating and financial performance, broker forecasts (following the release of 1H26 financial results) and Insignia Financial’s FY26 guidance.

We have considered whether adjustments to Insignia Financial’s reported earnings are appropriate in order to provide an indication of maintainable earnings. In this respect, we have adjusted Insignia Financial’s reported EBITDA to reflect impacts associated with the divestment of Rhombus Advisory and Advice, included share based payments expense (reflecting its recurring nature and for consistency with the

Annexure A – Independent Expert’s Report *continued*

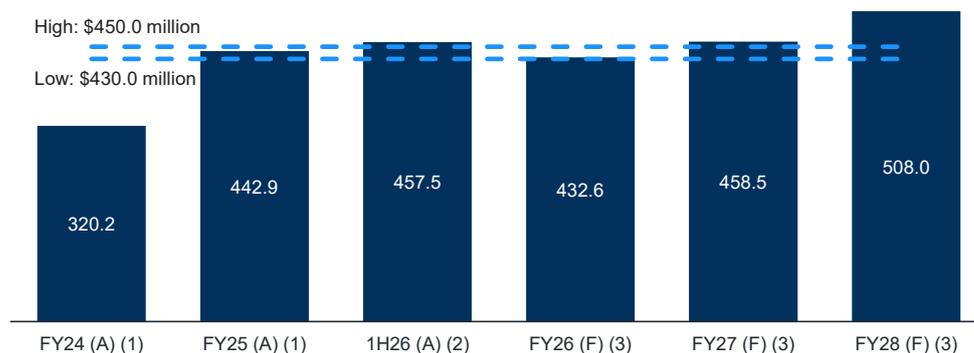

treatment adopted in comparable company analysis), and excluded the share of profits from associates in order to isolate the recurring earnings of the operating business.

Kroll notes that management has indicated that certain expenditures characterised as ‘reinvestment’ are expected to be incurred within operating expenses. Broker consensus forecasts for FY26 to FY28 operating expenses appear consistent with this treatment. Accordingly, Kroll has not separately deducted reinvestment expenditure from broker consensus forecast EBITDA in deriving maintainable EBITDA. In addition, Kroll has considered whether the reinvestment costs represent non-recurring items or reflect ongoing reinvestment required to maintain the competitiveness, resilience and compliance of the business. As reinvestment costs are expected to recur over the medium term, Kroll has treated such costs as part of maintainable earnings.

Kroll has selected a maintainable EBITDA for Insignia Financial in the range of \$430.0 million to \$450.0 million.

The following figure shows Insignia Financial’s maintainable EBITDA from FY24 to FY28 and Kroll’s selected maintainable EBITDA range.

Insignia Financial’s Maintainable EBITDA

Source: Insignia Financial Annual Reports and investor presentations, broker reports; Kroll analysis.

Notes:

1. FY24 and FY25 maintainable EBITDA is based on Insignia Financial reported EBITDA, adjusted to exclude the impacts of the Rhombus Advisory and Advice divestment (net revenue and gain on sale of (\$46.5) million in FY24 and \$4.3 million in FY25), exclude the share of profits from associates, and include share-based payments expense.
2. 1H26 maintainable EBITDA is based on annualised 1H26 reported EBITDA, excluding the annualised share of profits from associates and including 1H26 share-based payments expense.
3. FY26 to FY28 maintainable EBITDA reflects broker consensus EBITDA (refer to Section 8.4.4 of this report), adjusted to exclude the share of profits from associates (assumed to be equal to the FY25 actual of \$6.8 million), and include share based payments expense (broker median forecasts of \$12.4 million in FY26, \$12.8 million in FY27, and \$13.2 million in FY28).

In assessing maintainable EBITDA for Insignia Financial, the following has been considered:

- Kroll has adjusted Insignia Financial’s reported EBITDA to reflect impacts associated with the divestment of Rhombus Advisory and Advice, included share based payments expense (reflecting its recurring nature and for consistency with the treatment adopted in comparable company analysis), and excluded the share of profits from associates in order to isolate the recurring earnings of the operating business. As such, our calculation of maintainable EBITDA differs from the calculation of Insignia Financial’s reported EBITDA;
- Kroll considers that FY25 EBITDA provides a relevant reference point for maintainable earnings, as it reflects a full year of actual operating performance in a competitive operating environment. The reported FY25 EBITDA figure of \$453.2 million has been adjusted to remove the one-off impacts of the Rhombus & Advice divestment, exclude the share of profit from associates, and include share based compensation expense;

- Insignia Financial’s earnings are sensitive to market performance, net flow outcomes and net revenue margin trends across key segments, particularly Master Trust. These factors are inherently uncertain and may result in variability in earnings outcomes across the forecast period;
- we note that FY26 to FY28 broker consensus forecast earnings incorporate optimisation benefits associated with the implementation of Insignia Financial’s Vision 2030 strategy. The realisation of these benefits is subject to a high degree of execution and timing risk, as well as potential adverse market or competitive conditions;
- our maintainable EBITDA range also has regard to broker consensus EBITDA expectations for FY26, which are forecast to be 0.3% lower than FY25 (refer to Section 8.4.4 of this report). This reflects net outflows in the Master Trust and Asset Management segments, net revenue margin pressure across Master Trust, Wrap and Asset Management, and higher total operating expenditure due to additional reinvestment expenditure classified within EBITDA (approximately \$80 million). These impacts are partially offset by improved Wrap net flows, higher Advice net revenue and lower base operating expenditure resulting from realised optimisation benefits. We note that the broker consensus FY26 EBITDA forecast aligns closely with FY26 Guidance provided by the Company (refer to Sections 8.4.3 and 8.4.4 of this report);
- broker forecasts for FY27 and FY28 are subject to elevated uncertainty, including assumptions regarding the stabilisation of Master Trust net outflows and the net revenue margins, the extent of product migration from Master Trust to Wrap, delivery of operating expenditure optimisation benefits, and the timing and quantum of any remaining synergy or efficiency initiatives from other programs. Forecasts are also sensitive to the market performance assumptions embedded in broker forecasts, which typically reflect individual broker house views.

9.3.3 Capitalisation multiples

In determining an appropriate range of capitalisation multiples to apply to Insignia Financial’s maintainable earnings, we have considered the following:

- the specific attributes of Insignia Financial;
- multiples implied by recent transactions involving Australian and international precedent transactions that are directly relevant to diversified wealth management, platform and advice businesses (comparable transactions); and
- trading multiples of comparable Australian and international listed companies operating across the wealth management sector, including diversified wealth managers, as well as platform, advice and asset management specialists (comparable companies).

On balance, Kroll considers that a capitalisation multiple in the range of 8.5 times to 9.0 times EBITDA is appropriate for Insignia Financial’s operating business, on a controlling basis.

In forming our view as to the value of Insignia Financial’s operating business we have considered a series of factors, which include:

- Insignia Financial is a diversified Australian wealth management company with operations spanning master trust and superannuation administration, platform (wrap) administration, financial advice and asset management;
- it benefits from established and recognisable brands, including MLC, and material scale in the Master Trust segment, which represents the largest contributor to earnings and provides a recurring style revenue base linked to FUMA and market performance. It also has platform capability through the Wrap segment, which exhibits higher structural growth and benefits from strong net inflows, providing exposure to more scalable platform economics. In this respect, the Company benefits from wealth management sector tailwinds including the compulsory superannuation system, high household wealth, and increasing demand for financial advice, retirement products and investment platforms;
- despite these tailwinds, the sector is highly competitive. The Company’s near-term growth profile in FUMA is modest. Master Trust has experienced sustained net outflows over an extended period and remains sensitive to market performance and pension payment dynamics in order to grow FUMA. Asset Management has also recorded net outflows, while Wrap has generated net inflows but at a

Annexure A – Independent Expert’s Report *continued*

scale and margin insufficient to offset declines in other segments. As a result, overall earnings growth remains constrained in the near term;

- the market characterised by fee transparency, pricing pressure and sustained reinvestment requirements. Net revenue margins across all segments have been affected by competitive pricing, product migration and long-term structural fee compression. The Wrap segment, while higher growth, operates at lower margins than Master Trust and has faced significant competitive pressure from larger, faster-growing specialist platform providers;
- the multi-segment operating model increases organisational complexity relative to more focused peers. Financial advice remains more labour and compliance intensive, and no longer functions as a distribution channel into other parts of the business following the introduction of the ‘best interests’ duty. This results in materially different integration and distribution between segments when compared to international peers. The Company also carries corporate overheads associated with its scale and operating breadth;
- the Company has been burdened for several years by legacy remediation programs, historical operational issues and the need to integrate and transform acquired businesses that were relatively significant in scale. While remediation activity appears to be nearing completion, Insignia Financial continues to undertake significant transformation initiatives as part of the Vision 2030 strategy, requiring ongoing reinvestment. These initiatives introduce considerable execution risk and contribute to uncertainty around the timing and sustainability of forecast earnings improvements. In addition, as technology, regulatory and customer expectations continue to evolve across the sector, ongoing reinvestment in systems, digital capability and customer experience is likely to represent a recurring requirement rather than a one-off phase of expenditure;
- heightened regulatory scrutiny surrounding superannuation, platforms and advice, and the legacy impact of remediation continue to influence market perceptions of Insignia Financial; and
- available tax losses, however, recognising that the ability to use the losses is uncertain and a potential acquirer is unlikely to attribute significant value to them.

In considering evidence for an appropriate capitalisation multiple, Kroll has placed primary weight on precedent transactions involving diversified wealth management companies. In particular, the acquisitions of Brewin Dolphin Holdings plc (**Brewin Dolphin**), MLC Wealth and OnePath P&I are considered the most informative. These transactions reflect valuation outcomes for scaled, multi-segment wealth managers operating in mature and highly regulated markets, with forecast EBITDA multiples (including synergies) of 8.7 times, 8.9 times and 7.9 times, respectively. Having regard to differences in business mix, growth outlook and execution risk (particularly around the timing and achievement of synergies), the evidence supports the concluded capitalisation multiple range.

In relation to share market evidence, AMP is considered the closest listed reference point in terms of scale and market exposure, which trades at an FY+1 EBITDA multiple of 7.1 times. We consider that Insignia Financial would trade at a similar multiple to AMP on a minority basis (i.e. excluding a premium for control, in the absence of the transaction), however, it is difficult to draw definite comparisons between the two given differences in business mix, near term growth and margin profiles, transformation execution risks and reinvestment requirements. We note that during the period following the Hayne Royal Commission until the Bain Capital Proposal, Insignia Financial continually traded at a discount to AMP, although we also recognise that AMP’s share price has materially re-rated since the release of its FY25 results on 12 February 2026. Other relevant listed international peers, including Ameriprise Financial, Inc. (**Ameriprise**), IGM Financial Inc. (**IGM Financial**) and Rathbones Group plc (**Rathbones**), trade at FY+1 EBITDA multiples of 6.8 times, 7.4 times, and 6.9 times, respectively, consistent with diversified wealth management models with more modest growth and limited platform scalability. These trading multiples are observed on a minority interest basis and do not include a premium for control.

Taken together, we consider the transaction evidence and share market evidence support a capitalisation multiple range of 8.5 times to 9.0 times EBITDA, which appropriately reflects Insignia Financial’s scale, diversified operating model, modest near-term growth outlook, and ongoing strategic execution and reinvestment considerations. Our detailed reasons are set out in the remainder of this section.

Transaction evidence

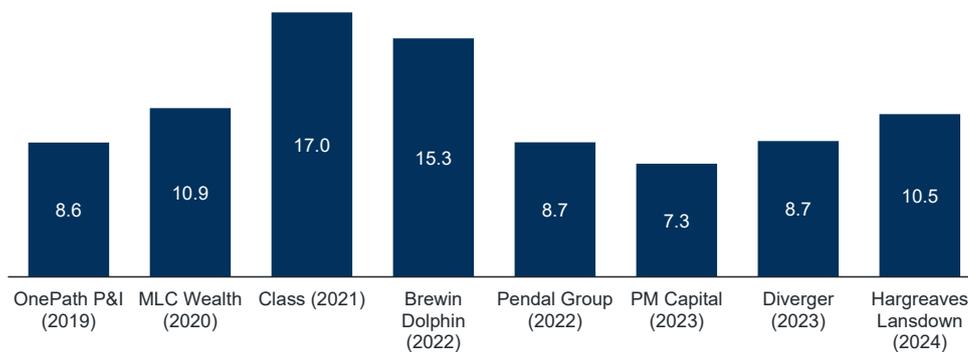

Kroll has considered a range of transactions involving wealth management companies in Australia and internationally. We have analysed a set of Australian precedent transactions that are directly relevant to wealth management, platform and advice businesses, together with selected UK transactions that provide a reference point for scaled wealth platforms and discretionary wealth managers operating in a jurisdiction with broadly comparable structural themes. These include ongoing industry consolidation, fee compression, heightened regulatory scrutiny (including UK Financial Conduct Authority (**UK CFA**) regulatory reforms and proposals) and changes to advice and platform distribution models, albeit within a different market structure.

Kroll has focused primarily on transactions announced or completed since 2020. This reflects the fact that the Australian wealth management sector has been materially affected over the last decade by regulatory reform, remediation programs, sustained fee pressure and structural shifts in advice and platform segments. Accordingly, we consider that transactions occurring prior to this period provide limited comparability to the valuation of Insignia Financial in the current operating and regulatory environment.

Further detail on each of these transactions is provided in Appendix 5 of this report.

The following charts summarise the historical and first forecast year trading multiples observed in these wealth management transactions.

Wealth Management Transactions Forecast EBITDA Multiples

Source: S&P Capital IQ, Public transaction documents, Company financial statements, Kroll analysis.

Note 1: Forecast EBITDA multiples are based on broker consensus forecasts or company earnings guidance.

The following factors are relevant to the evaluation of the comparable transaction EBITDA multiples:

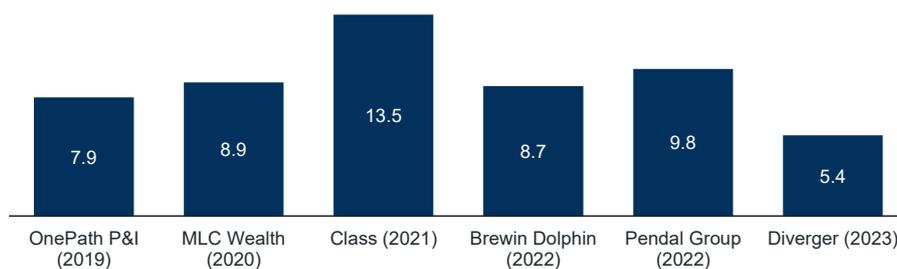

- historical EBITDA multiples for the comparable transactions analysed range from 7.3 times to 17.0 times historical EBITDA, while forecast EBITDA multiples range from 6.3 times to 14.5 times forecast EBITDA;
- the transaction multiples reflect the inclusion of a control premium;
- transactions that attracted higher EBITDA multiples typically exhibited one or more of the following characteristics:
 - **scale:** in general, larger businesses tend to operate and transact at higher multiples. Within the transaction set analysed, Hargreaves Lansdown plc (**Hargreaves Lansdown**) was the largest transaction by implied enterprise value (approximately \$9.3 billion), followed by Brewin Dolphin (\$2.6 billion), Pendal Group Limited (**Pendal Group**) (\$2.1 billion) and MLC Wealth (\$1.4 billion). These transactions typically attracted the higher forecast EBITDA multiples of the transaction set. By contrast, the two smallest transactions, Diverger Limited (**Diverger**) and PM Capital Limited (**PM Capital**), attracted the lowest forecast EBITDA multiples. However, it is also clear that scale is not determinative in isolation. For example, the acquisition of Class Pty Limited (**Class**), which was relatively small in enterprise value terms, attracted the highest multiples of the transaction set (17.0 times historical EBITDA and 14.5 times forecast EBITDA). This outcome likely reflects the target’s characteristics as a scalable platform software and technology services provider, rather than scale alone;
 - **business model:** given the breadth and diversity of business models represented across the peer set, ranging from product and service specialists to more diversified wealth management groups, business model characteristics appear to be one of the most important explanatory factors for multiple dispersion across both the comparable transaction and comparable trading company peer sets. A consistent and observable hierarchy emerges when interpreting wealth management sector multiples across these groups:
 - platform technology companies tend to attract the highest multiples, reflecting the scalability of earnings, strong operating leverage, superior earnings margins, higher-quality recurring revenues and longer perceived growth runways. This is most clearly illustrated by Class, which operates as a platform infrastructure and technology services provider to the wealth management ecosystem, attracting the highest transaction multiples in the transaction set;
 - scaled retail platforms with strong brand distribution typically attract upper-end multiples, although outcomes are influenced by growth prospects and investment requirements. Hargreaves Lansdown is representative of this category as a scaled UK retail investment platform with strong brand recognition and a large customer base leading to broker consensus forecasts of 3.9% average annual net inflows over the forecast three years. While its historical EBITDA multiple of 10.5 times is only modestly elevated relative to diversified

wealth managers, broker expectations at the time reflected more modest near-term earnings growth due to anticipated short-term pricing pressures in the UK platform segment;

- diversified wealth managers generally transact at mid-range multiples, with sensitivity to net flow dynamics, particularly where sustained net outflows place pressure on revenue stability. Multiples are also greatly influenced by the target’s cost base structure and integration opportunities, including the availability and quantum of synergies. Brewin Dolphin, MLC Wealth, Colonial First State and OnePath P&I are the most representative of Insignia Financial’s traditional wealth management business model. While transaction multiples for these companies can appear elevated on a standalone basis, they typically normalise once synergies, where applicable, are incorporated;
- asset managers can exhibit significant variability in multiples, reflecting exposure to market cycles, investment performance and net flow dynamics, which can distort near-term earnings and forecast multiples. Pandal Group provides a clear example of forecast multiples being influenced by a materially lower forecast earnings base at the time of the transaction;
- advice consolidators and adviser networks typically attract the lowest multiples, reflecting lower scalability, higher reliance on people-driven economics and structurally lower margins. Diverger is illustrative of this category, with transaction multiples in the high single digits reducing to mid-single digits on a synergy-adjusted basis;
- **expected synergies:** cost savings and efficiencies which are expected to be realised post-acquisition often support higher multiples as they support incremental growth in earnings. Revenue synergies can be more meaningful but are difficult to quantify and explicitly consider in an analysis of implied transaction multiples. Where synergies are described as being available, Kroll has adjusted forecast EBITDA multiples to include such synergies with the results as follows:

Wealth Management Transactions Forecast EBITDA Multiples (including Synergies)

Source: S&P Capital IQ, Public transaction documents, Company financial statements, Kroll analysis.
 Note 1: Forecast EBITDA (including synergies) is based on broker consensus for FY+1 adjusted EBITDA (including synergies), where available. Where not available or where brokers have not adjusted for synergies, forecast EBITDA is calculated based on broker consensus FY+1 adjusted EBITDA (excluding synergies) plus stated synergies from transaction announcements adjusted on a pro-rata basis to reflect the expected timing of realisation.

In relation to the forecast EBITDA multiples including synergies we note:

- the acquisition of OnePath P&I by Insignia Financial expected significant pre-tax synergies of \$65.0 million (initially, upgraded to \$68.0 million), representing approximately 7.6% of implied enterprise value. Incorporating the synergies into FY+1 forecast earnings on a pro-rata basis reduces the forecast EBITDA multiple from 9.4 times to 7.9 times;
- in the acquisition of MLC Wealth by Insignia Financial, substantial synergies of \$150.0 million pre-tax (\$105.0 million post-tax) were identified (representing approximately 10.4% of enterprise value), with realisation expected to be progressive and substantially achieved by

Annexure A – Independent Expert’s Report *continued*

the third full year of ownership. While the transaction occurred at 12.4 times broker forecast FY+1 EBITDA (excluding synergies), we note that when including broker forecast consensus synergies for FY+1 EBITDA, this implies a forecast EBITDA multiple (including synergies) of 8.9 times. We note that broker forecasts allowed for the phased timing of synergy realisation, as well as a degree of execution risk associated with synergy realisation;

- the synergies expected in the acquisition of Class were more modest, at approximately 6.1% of the cost base, reducing the forecast EBITDA multiple to 13.5 times;
- in the acquisition of Brewin Dolphin, Royal Bank of Canada (**RBC**) noted that it had identified (but did not quantify) that it expected meaningful cost synergies from overlapping functional and administrative areas, as well as listed company costs.⁶⁹ In addition, it expected to generate revenue synergies through cross-selling of products and services to a larger client base and broader distribution channels. Brokers noted the highly complementary nature of the businesses. While the transaction occurred at a forecast EBITDA multiple of 14.4 times, when allowing for cost synergies (which brokers quantified as approximately 20% of operating costs), the forecast EBITDA multiple declines to 8.7 times;
- delivering material synergies and value accretion was described as being central to the merger rationale between Pandal Group and Perpetual.⁷⁰ Inclusion of full expected annualised pre-tax cost synergies of \$60.0 million (approximately 14.9% of FY22 operating expenses) to forecast EBITDA reduces the implied forecast EBITDA multiple to 9.8 times;
- in the acquisition of Diverger by Count Limited (**Count**), Count indicated that it expects to generate pre-tax cost synergies of approximately \$3.0 million on a run-rate basis (approximately 9.8% of Diverger’s FY23 operating cost base), in the first full financial year post completion, largely attributable to the removal of duplicated corporate costs. Count also indicated that further revenue opportunities may be derived post integration. If synergies are included in earnings, the forecast EBITDA multiple declines from 7.2 times to 5.4 times;
- **EBITDA growth:** transaction EBITDA multiples are influenced by expectations regarding near-term earnings growth, although growth outcomes alone do not fully explain the dispersion of multiples observed across the transaction set. The acquisition of Class implies forecast EBITDA growth of approximately 17.3%, which is consistent with the higher EBITDA multiples attributed to that transaction relative to other precedents. This outcome reflects the acquirer’s assessment of Class as a higher-growth, technology-enabled platform business with scalable economics, rather than a traditional advice or diversified wealth management business. By contrast, the acquisitions of Pandal Group and OnePath P&I occurred at lower historical EBITDA multiples, alongside forecast EBITDA declines of 36.9% and 8.5%, respectively (excluding synergies). These transactions were undertaken during periods of sector headwinds, regulatory change, and earnings pressure, with transaction pricing reflecting lower near-term earnings expectations at the time. However, while earnings growth is a relevant consideration, it does not, in isolation, explain the differences in transaction multiples across the peer set. In particular, the dispersion in multiples observed appears to be more closely related to differences in business models and the presence of transaction-specific synergies, rather than forecast earnings growth alone;
- **brand strength:** brand strength can support higher valuation multiples where it translates into higher customer retention, lower customer acquisition costs, pricing power and strategic value to an acquirer seeking distribution. Among the selected transactions, Hargreaves Lansdown and Brewin Dolphin are the clearest examples where brand strength plausibly supported stronger transaction multiples, with both companies reporting high levels of client and AUM/advice retention. In these instances, transaction pricing reflects not only the acquisition of an earnings base, but also the value of established brands and scalable distribution models; and
- **other specific circumstances:** in the case of the Pandal Group transaction, transaction metrics are influenced by deal-specific circumstances. In particular, a renegotiation of the scheme consideration (involving a reduction in the cash component and increase in the scrip component)

⁶⁹ Source: “Royal Bank of Canada to Acquire Brewin Dolphin” investor presentation, 31 March 2022.

coincided with a short term increase in the share price of Perpetual following the receipt of an unsolicited takeover proposal from Regal Partners Limited (**Regal**), which was subsequently rejected. Transaction metrics for the Pental acquisition are calculated as at the renegotiation date (close of business 16 November 2022), when Perpetual was trading at \$31.58 per share. This price was materially higher than Perpetual’s share price at completion of the Pental transaction of \$25.26. Taking this price would imply a lower forecast EBITDA multiple of 11.5 times, or 8.2 times when including synergies.

Share market evidence

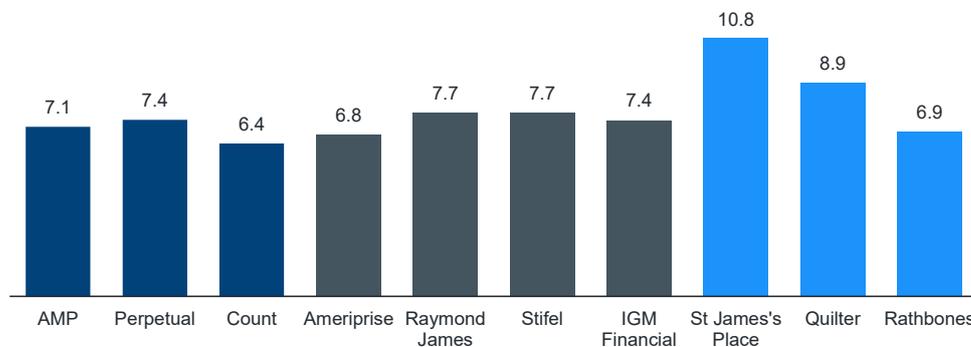

In assessing an appropriate capitalisation multiple to apply to Insignia Financial, Kroll has also considered Australian and international listed companies operating across the wealth management sector. This includes both diversified wealth managers and specialist providers operating in the advice, platform and asset management segments.

Kroll has focused its analysis on listed companies whose business mix and earnings profile are more representative of a diversified wealth manager with meaningful earnings across multiple segments, consistent with Insignia Financial’s operating profile. Notwithstanding, as contextual reference points, we have also considered specialist platform, advice and asset management companies. This approach reflects the analysis of transaction evidence discussed previously, which indicates that differences in business model and earnings mix are key drivers of valuation multiple dispersion across the sector.

Further detail on the selected comparable companies is set out in Appendix 5 of this report.

The following chart illustrates the FY+1 trading multiples for the selected comparable companies.

Australian and International Wealth Management Companies – FY+1 EBITDA Multiples

Source: S&P Capital IQ, Company financial statements; Kroll analysis.

Notes:

1. All company multiples are based on the closing share prices on 19 February 2026 and their most recent financial reporting and broker coverage.
2. All company earnings have been adjusted to exclude any income or losses from equity accounted investments, where possible. Similarly, enterprise values have been adjusted to exclude the book value of the equity accounted investments.
3. Multiples for ASX-listed peers are shown in dark blue, North American peers in grey, and UK peers in light blue.
4. Multiples for HUB24 and Netwealth are not shown due to limited comparability. Refer to Appendix 5 of this report for details.

The following factors are relevant to the consideration of the comparable company multiples:

- the multiples reflect trading of portfolio interests in the companies and do not include a premium for control;
- the selected wealth management companies have elements of comparability to Insignia Financial and are subject to broadly similar external influences, including macroeconomic conditions (such as equity market performance), demographic changes and broadly increasing investment balances, competitive dynamics (fee compression), evolving consumer and adviser preferences, and technology transformation. However, given Insignia Financial’s diversified earnings profile, operating

Annexure A – Independent Expert’s Report *continued*

geography and regulatory exposure, no single listed company provides a directly comparable or ‘perfect’ benchmark;

- the multiples at which the comparable companies are trading are influenced by a range of factors, including scale, business model, growth prospects, cost structure and the economics of services provided, competitive positioning and brand strength. This is consistent with the transaction evidence discussed previously, which indicates that differences in business model is a key driver of multiple dispersion across the sector;
- Kroll considers AMP to be the closest listed reference point to Insignia Financial, given AMP’s scaled Australian wealth operations with meaningful exposure to platform administration, superannuation and investment market dynamics. AMP trades at a forecast EBITDA multiple of 7.1 times;
- however, AMP remains meaningfully different to Insignia Financial across a number of dimensions that require careful consideration when using AMP’s trading multiples as a reference point:
 - **business mix and segment composition:** while AMP has material wealth operations, it also has a meaningful banking business (AMP Bank) that contributes earnings but also introduces balance sheet complexity and net interest margin (**NIM**) sensitivity, which limits its comparability to a more pure wealth manager such as Insignia Financial. In addition, AMP divested its advice business in late 2024, further reducing comparability given Insignia Financial’s continuing exposure to advice earnings;
 - **growth outlook and flow dynamics:** both companies are highly sensitive to net flow momentum, mix and retention. AMP’s FY25 disclosures show improved platform momentum, with Platforms net cashflows (excluding pension payments) up 85.2% to \$5.1 billion. This supports operating leverage and can be supportive of a higher multiple if sustained;
 - **revenue margin considerations:** the market typically prices the durability of margins (and the path of margin change) alongside flows. In its recent FY25 results, AMP’s improved flows occurred alongside margin compression, with Platforms AUM based revenue margin of 42 bps down from 45 bps in FY24, while the Superannuation & Investments AUM based revenue margin was 62 bps in FY25, down from 63 bps in FY24. AMP is guiding to further compression in FY26, with margins of 40 to 41 bps in Platforms, and 60 to 61 bps in Superannuation & Investments. Differences in product mix, pricing strategy, migration initiatives and competition can reasonably translate into different sustainable margin profiles and therefore different multiples. In this regard, we note that Insignia Financial has guided to FY26 net revenue margins of 40.5 to 41.5 bps, reflecting expected margin impacts in Master Trust from repricing initiatives;
 - **remediation:** both AMP and Insignia appear to be in a run-off phase on legacy remediation. Insignia has reduced its dedicated remediation provision to \$54.4 million⁷¹ as at 31 December 2025, with no net increase in FY25 or 1H26. AMP’s FY25 disclosures indicate further progress on reducing legacy uncertainty, including settling legacy matters and class action developments. To the extent that the market perceives either company to have greater residual remediation risk, that can justify a relative valuation discount;
 - **execution, simplification and reinvestment requirements:** both companies are undertaking simplification and reinvestment programs that affect near-term earnings and market sentiment. AMP is nearing the end of its program, flagging \$20 million of business simplification investment in FY26. Insignia Financial is executing a longer dated and more complex transformation program associated with recent acquisitions and major transitions, with disclosed reinvestment expenditure of approximately \$60 to \$80 million annually until FY30;
- having regard to these factors, Kroll considers that while AMP provides a useful listed reference point for assessing an appropriate capitalisation multiple, it is not a like-for-like proxy. Historically, AMP has typically traded at a premium EBITDA multiple to Insignia Financial, however, following

⁷¹ Remediation provisions include those relating to advice remediation (\$38.3 million), structured product remediation (\$8.5 million) and other product remediation (\$7.6 million).

AMP’s FY25 result (which highlighted ongoing free-margin compression, particularly in the Platforms segment, and a drag on earnings in its Bank segment) and the subsequent share price re-rate, the multiple gap between AMP and Insignia Financial has likely narrowed materially (if not closed). Any discount to AMP would most likely be driven by:

- higher perceived operational complexity arising from recent acquisitions and multi-segment integration, and longer dated transformation execution;
 - higher near-term execution risk and reinvestment requirements;
 - market sensitivity around further remediation and reinvestment requirements; and
 - greater sensitivity to ongoing net outflows and margin compression across key earnings segments, particularly Master Trust, which represents Insignia Financial’s largest earnings contribution;
- Kroll does not consider Australian high-growth platform specialists, such as HUB24 and Netwealth (not shown in chart, refer to Appendix 5 for details), to be directly comparable to Insignia Financial. These businesses trade at substantially higher forecast multiples than mature diversified wealth managers, reflecting features unique to their business models, including higher organic growth (net inflows), scalable platform economics, strong operating leverage, consistently high returns on invested capital and market expectations of sustained growth. For these reasons, the market commonly values these businesses more akin to technology-enabled platforms than diversified wealth management groups. While limited reference can be made to these companies in the context of Insignia Financial’s platform segment, as it contributed only 24.5% of 1H26 EBITDA (excluding Corporate) and has a lower margin profile and materially lower growth outlook, it does not support direct multiple comparison;
 - advice-led business such as Count tend to trade on lower forward EBITDA multiples (6.4 times), reflecting smaller scale and earnings that are more directly linked to the economics of advice distribution and practice services. These businesses typically exhibit lower margin structures and higher operational risk, including exposure to adviser recruitment and retention, licensee economics, and the fragmented and competitive nature of advice networks. While Count provides a useful contextual reference point for advice segment earnings (which contributed approximately 9.7% of Insignia Financial’s 1H26 EBITDA excluding Corporate), Kroll does not consider it to be a representative proxy for Insignia Financial’s broader diversified wealth management business;
 - Perpetual trades at a forward EBITDA multiple of 7.4 times. This is consistent with the trading multiples of other ASX-listed asset management companies, such as Janus Henderson Group plc, GQG Partners and Magellan Financial Group Limited, reflecting exposure to market cycles, investment performance and net flow dynamics. Similarities may be drawn to Insignia Financial’s Asset Management segment which contributed approximately 18.4% of 1H26 EBITDA (excluding Corporate);
 - given the limited number of highly comparable Australian listed peers, Kroll has also considered international listed diversified wealth managers:
 - Kroll notes that the international diversified wealth management peers are not perfect comparators, as differences exist across jurisdictions in terms of regulation, market structure, customer trends and behaviours, and product and services offered. They are all, however, relatively mature and diversified wealth management companies;
 - multiples for the North American peers are in the range of 6.8 to 7.7 times FY+1 EBITDA, while multiples for UK peers are in the range of 6.9 to 10.8 times FY+1 EBITDA. On a FY+2 basis, the range of multiples for all of the international peers narrows and lowers to 6.6 to 8.6 times. The multiples are based on minority interests (i.e. excluding a control premium);
 - within the peer set, the market generally attributes higher EBITDA multiples to businesses with higher forecast earnings growth:
 - this relationship is evident among the higher-multiple peers. Stifel Financial Corp. (**Stifel**) and Raymond James Financial, Inc. (**Raymond James**) exhibit forecast earnings growth at the higher end of the peer set, with forecast EBITDA CAGR of 13.4% and 9.7%, respectively, and both trade at the high end of multiples of the North American peers at 7.7 times FY+1

Annexure A – Independent Expert’s Report *continued*

EBITDA. Quilter plc (**Quilter**) also exhibits a relatively strong growth profile (forecast EBITDA CAGR of 7.8%) and trades at 8.9 times FY+1 EBITDA;

- notwithstanding the above, implied multiples can be materially influenced by timing. In this regard, St James’s Place plc (**St James’s Place**) trades at the highest forecast EBITDA multiple in the peer set of 10.8 times, with a strong forecast EBITDA CAGR of 11.9%, including a forecast decline in FY+1 EBITDA of 13.3% relative to FY25. This decline reflects the impact of its revised fee structure, under which FY+1 earnings are temporarily depressed due to the recognition of lower net management fees, while a significant portion of future earnings growth is expected to emerge from FY26 onwards as the historical fee-structure gestation⁷² unwinds. On this basis, forecast cash profit is expected to grow materially (approximately 22.8% per annum from FY26 to FY29). Adjusting FY+1 EBITDA to include this transitional effect would imply a materially lower multiple of approximately 5.9 times, which is more typical of its advice-led distribution model that primarily generates cash earnings from upfront and ongoing product charges linked to gross inflows and total FUM;
- by contrast, where forecast growth is more moderate, trading multiples are generally lower, even for highly profitable businesses. Ameriprise illustrates this dynamic, as despite being a large, scaled wealth manager with strong profitability metrics, it trades at 6.8 times FY+1 EBITDA, consistent with its more modest forecast EBITDA CAGR of 3.2%;
- a key driver of valuation dispersion across the international peers is the extent to which earnings are derived from scalable, recurring platform revenues, versus earnings generated through advice-led or product manufacturing⁷³ wealth management models that are more labour-intensive and sensitive to market conditions:
 - Quilter operates the UK’s largest adviser platform by AUM. The platform business has demonstrated relative strength in net flow terms compared to UK discretionary managers, with market leading 1H25 net flows supported by ongoing investment in platform capability, adviser productivity tools and client experience. This has contributed to a more favourable earnings growth outlook and supports its relatively high forecast EBITDA multiple of 8.9 times;
 - by contrast, advice-led and product-oriented wealth managers generally exhibit more limited scalability. Earnings growth in these models is more closely linked to adviser headcount, client acquisition and retention, and product margins, rather than technology-enabled operating leverage. Companies such as Ameriprise, IGM Financial and Rathbones are representative of this dynamic. While these companies generate a significant proportion of earnings from wealth management activities, they do not benefit from platform economics, and instead their multiples are highly sensitive to market movements, net flows and fee dynamics. As a result, these peers have more modest growth profiles, which is reflected in lower trading multiples relative to platform-oriented peers;
- peers with meaningful asset management exposure tend to trade at mid-to-low range multiples, reflecting greater sensitivity to market cycles, net flow and fee pressures. In this regard, IGM Financial’s asset management segment (which contributed 37.3% of adjusted net profit after tax) has experience structural net redemptions (outflows) in recent years, while Rathbones’ asset management activities (24.4% of earnings) are described by brokers as sub-scale and have also seen persistent net outflows. These factors weigh on growth expectations and contribute to lower valuation multiples;
- although Stifel and Raymond James derive the majority of earnings from wealth management activities, both also generate a material portion of earnings from capital markets, banking and lending services, and investment banking. These activities can be structurally more cyclical

⁷² Historically, St James’s Place would charge customers up to 6% up-front for pension and investment bond products, with customers then given a 1% per annum rebate deducted from their other ongoing charges for the next six years. This is referred to as “gestation” by the company. In effect, the company recognised some up-front income but also incurred an associated cash flow liability unwinding over six years.

⁷³ Product manufacturing in wealth management refers to the creation and management of investment products.

and/or lower margin than wealth management activities, and exhibit higher earnings volatility, which likely caps trading multiples; and

- operating complexity and execution risk can also influence multiples, particularly where businesses are undertaking material integration, transformation or restructuring programs. For example, Rathbones is executing a complex integration following the acquisition of Investec Wealth and Investment Limited, with brokers highlighting risks relating to client retention, staff turnover, synergy delivery and integration costs exceeding initial expectations. Such factors can drive more conservative valuation outcomes relative to peers with simpler operating models.

9.4 Provisions

Kroll has considered provisions that represent debt-like obligations (i.e. expected future cash outflows that are not reflected in the maintainable earnings base used for valuation). These items are treated as debt-like because they reduce the value available to shareholders in a manner similar to debt.

For the purposes of the valuation, provisions totalling \$64.1 million as at 31 December 2025 have been deducted to arrive at an enterprise value. These provisions relate to advice remediation, structured product remediation, other product remediation, and other provisions that represent legal settlements, make good provisions and other matters.

Kroll notes that where cash has been specifically restricted to meet these liabilities, we have not excluded the restricted cash in the net debt bridge. This is addressed in Section 9.7 of this report.

9.5 Investments in associates

Insignia Financial holds investments in associates that are not captured within the value of the operating business. Such investments are treated as non-operating assets and are added to enterprise value. Kroll has included investments in associates at their carrying value of \$45.7 million as at 31 December 2025. Refer to Section 8.5 of this report for further details.

9.6 Surplus assets and liabilities

Surplus assets and liabilities are those assets and liabilities not required to sustain the adopted level of maintainable earnings. Kroll has identified \$17.6 million of surplus assets based on the financial position as at 31 December 2025. These items include certain listed and unlisted investments, derivative assets and liabilities, and the net defined benefit position.

Insignia Financial management has provided details of certain contingent assets and liabilities. Kroll has considered this information in its valuation of Insignia Financial, noting that these items are contingent in nature are not assessed as sufficiently probable to warrant recognition in the Company’s financial statements, and in our opinion are not material to the valuation outcome.

Based on our analysis and discussions with Insignia Financial management, we are not aware of any other material surplus assets or liabilities that require consideration in our valuation of Insignia Financial.

9.7 Net debt

In order to arrive at the value of equity, it is necessary to deduct the net debt from the enterprise value of Insignia Financial. For the purposes of the valuation, Kroll has assessed Insignia Financial’s adjusted net debt (including right-of-use lease liabilities) to be \$605.1 million. This amount is based on Insignia Financial’s surplus cash balance, net borrowings and right-of-use lease liabilities as at 31 December 2025.

Kroll notes that certain cash balances are restricted for specific purposes, including amounts held to satisfy operational risk financial requirements (**ORFR**) and amounts earmarked for settlement of known liabilities. Where restricted cash corresponds to a recognised provision, the valuation has included the restricted cash within net debt and separately reflected the associated liability within provisions.

With regard to the broker target prices comparison, we note:

- as far as Kroll is aware, at the time of media speculation surrounding the Bain Capital Proposal on 12 December 2024, Insignia Financial was covered by nine brokers. Two brokers are financial advisers on the Scheme and have therefore been excluded from our analysis;
- the target prices of the remaining eight brokers represent the most recently published target prices immediately prior to the media speculation on 12 December 2024. All target prices were published between 13 November 2024 and 14 November 2024, following Insignia Financial’s FY25 Investor Day at which the Vision 2030 strategy was presented to the market. Accordingly, these target prices exclude any impact of the Scheme, and do not reflect company-specific and industry developments subsequent to 12 December 2024 (including FY25 and 1H26 results);
- notwithstanding the passage of time, Kroll has undertaken reasonableness checks to assess whether broker valuation expectations at that time remain informative. In particular:
 - Insignia Financial’s operating and financial performance has been broadly consistent with market expectations over the period. Relative to broker consensus EBITDA forecasts as at 12 December 2024, current broker consensus EBITDA forecasts for FY26 and FY27 are 2.6% and 2.8% higher, respectively;
 - broader market movements over the period have been mixed. Since 12 December 2024, the ASX 200 Index has increased by 9.1% and the S&P / ASX 200 Financials Index has increased by 14.5%. AMP shares have declined by 12.5% over the same period;
 - Kroll is not aware of any single company-specific event since 12 December 2024 that would, of itself, be expected to materially invalidate broker valuations at the time (for example, any major acquisition or divestment, a significant earnings restatement, or a change in regulation). We also note that Insignia Financial’s strategic narrative and key value drivers disclosed at the FY25 Investor Day remain consistent with subsequent disclosures;
- Kroll notes that the broker target prices range from \$2.68 to \$4.30, with an average broker target price of \$3.46 and a median of \$3.35. Kroll’s assessed value range of \$4.49 to \$5.08 sits materially higher than this range, which is appropriate since our assessed value range reflects 100% ownership of Insignia Financial and, therefore, includes a control premium, whereas broker target prices relate to prices at which minority interests are traded (i.e. the prices at which Insignia Financial Shares are traded on the ASX) and consequently, do not include a control premium. As noted in Section 9.2.3 of

this report, successful transactions are commonly completed with an implied acquisition premium to the pre-transaction equity price of the target in the order of 25% to 40% depending on the individual circumstances.⁷⁴ Kroll considers that while the likely acquirer of Insignia Financial is a financial buyer for which synergies would be limited to public company costs, there are other strategic benefits to acquiring Insignia Financial as it executes its Vision 2030 strategy.

Therefore, when compared to the average broker target price, our assessed value range incorporates a premium that is broadly in line with the premiums observed in completed transactions. However, we note that it is not possible to quantify the extent to which the premium is attributable to the control premium as opposed to any uncertainty reflected in the broker forecasts.

⁷⁴ Source: 2025 FactSet Review. Range represents median premium from 2015 to 2024. Premiums are calculated based on the seller’s closing price five business days before the initial announcement. The calculations exclude negative premiums and premiums over 250%. Data includes publicly traded and privately owned companies where at least one of the parties is a United States entity. Includes all sector and industry classifications.

Insignia Financial’s equity value (100% control basis)		\$3,049.1	\$3,444.1

2. No adjustments have been made to broker consensus forecasts.

The following chart sets out the implied forecast UNPAT multiples for Insignia Financial relative to those for the comparable transactions.

Notes:

1. Denotes multiple is inclusive of synergies. Forecast EBITDA multiples (excluding synergies) are based on broker consensus forecasts or company guidance. Forecast EBITDA (including synergies) is based on broker consensus for FY+1 adjusted EBITDA (including synergies), where available. Where not available or where brokers have not adjusted for synergies, forecast EBITDA is calculated based on broker consensus FY+1 adjusted EBITDA (excluding synergies) plus stated synergies from transaction announcements adjusted on a pro-rata basis to reflect the expected timing of realisation.
2. Financial information was not available for the acquisition of Colonial First State. Multiple presented is per deal announcement and relates to historical pro forma net profit after tax.
3. The acquisition of Class has been excluded from the chart as its forecast UNPAT multiple of 38.1 times (including synergies) is considered an outlier.

We note that the UNPAT multiples implied by Insignia Financial’s equity value of 12.2 to 13.8 times FY26 UNPAT are:

- within the range of multiples implied by the peer transactions of 6.8 to 17.2 times forecast UNPAT;
- consistent or above the multiples in transactions considered most relevant, being OnePath P&I (9.9 times), MLC Wealth (13.8 times) and Brewin Dolphin (12.4 times); and
- consistent with the median multiple of 13.1 times UNPAT.

Appendix 3 – Valuation methodologies

The purpose of the valuation methodology adopted is, in the absence of direct market evidence, to provide an estimate of value using methodologies that rely on other sources of evidence. Consistent with International Valuation Standards, valuation methodologies applicable to assets or businesses can be categorised under three approaches: market approach, income approach and cost approach.

These approaches have application in different circumstances. The decision as to which approach to adopt will depend on various factors including the availability and quality of information, the maturity of the business and the actual practice adopted by purchasers of the type of asset or business involved.

Market approach

The market approach is based on comparing the asset or business to identical or comparable assets or businesses for which there is available price information. It is commonly adopted where:

- the asset or business or similar assets or businesses are actively publicly traded (**market comparable methodology**);
- there are frequent and/or observable transactions in comparable assets or businesses (**comparable transactions methodology**); and
- there is substantial operating history and a consistent earnings trend.

The market comparable methodology indicates the value of a business by comparing it to publicly traded companies in similar lines of business. An analysis of the trading multiples of comparable companies yields insight into investor perceptions and, therefore, the value of the subject company. The multiples are evaluated and compared based on the relative growth potential and risk profile of the subject company vis-a-vis the publicly traded comparable companies. The multiples derived for comparable quoted companies are generally based on security prices reflective of the trades of small parcels of securities. As such, multiples are generally reflective of the prices at which portfolio interests change hands.

The comparable transaction methodology indicates value based on exchange prices in actual transactions. This process essentially involves the comparison and correlation of the subject company with other similar businesses recently sold or currently offered for sale. Considerations such as timeframe of transaction, premiums, and conditions of sale are analysed, and the observed transaction multiples are subjectively adjusted to indicate a value for the subject company.

A key step in both methods is determining the appropriate unit of comparison. In a business valuation common units of comparison include, revenue, EBITDA, EBIT, net profit after tax and book values. The choice will typically depend on the industry and characteristics of the subject asset.

Rule-of-thumb valuation benchmarks are sometimes considered to be an application of the market approach. They generally should not be given substantial weight unless market participants place particular reliance on them.

Income approach

Under an income approach the value of an asset is determined by converting future cash flows to a current value. It is commonly adopted when:

- the income producing ability is the critical element affecting value from a market participant perspective;
- future cash flows can be estimated on a reasonable basis; and
- there is not a substantial operating history or there is a variable pattern of cash flow or the asset has a finite life.

The most common methodology adopted is the discounted cash flow (**DCF**) methodology. It has a strong theoretical basis and benefits by explicitly estimating future cash flows, allowing it to be used in a variety of circumstances, whether that be a start-up or an established business. It also allows for various scenarios and/or sensitivities to be modelled. Under a DCF methodology, forecast cash flows are discounted back to the valuation date resulting in a present value for the asset. Where there is an explicit forecast period a terminal value will typically be included, representing the value of the asset at the end of this period, which is also discounted back to the valuation date to give an overall value for the business. The rate at which the future cash flows are discounted (the discount rate) should reflect not only the time value of money, but

Annexure A – Independent Expert’s Report *continued*

also the risk associated with the asset or business’ future operations. Whilst discount rates are generally determined from observable data, substantial judgement is required in their determination. Further, the cash flows themselves also require considerable judgement in their preparation, placing significant importance on the quality of the underlying cash flow forecasts and the determination of an appropriate discount rate in order for a DCF methodology to produce a sensible valuation figure.

DCF’s can also be extremely sensitive to what may be considered small changes in various assumptions and the longer the forecast period the more difficult it is in general to forecast cash flows with sufficient reliability. As such, it is important to adequately understand the basis and risks associated with the various assumptions used to derive the cash flow forecasts and recognise the impact it can have on resulting values including the value range. Notwithstanding, DCF methodologies are widely used and benefit from the rigour associated with the preparation of future cash flows.

Cost approach

Under a cost approach the value of an asset is determined having regard to the cost to replace or reproduce the asset. The most common methodologies include:

- the replacement cost;
- the reproduction cost method; and
- the summation method.

A cost based approach is most appropriate for businesses where the value lies in the underlying assets and not the ongoing operations of the business (e.g. real estate holding companies).

A premium is added, if appropriate, to the marked-to-market net asset value, reflecting the profitability, market position and the overall attractiveness of the business. The net asset value, including any premium, can be matched to the ‘book’ net asset value, to give a price to net assets, which can then be compared to that of similar transactions or quoted companies.

A net asset approach is also useful as a cross-check to assess the relative riskiness of the business (e.g. through measures such as levels of tangible asset backing).

1. Announcement date refers to the date on which the final transaction consideration was announced to the market. This corresponds to the initial announcement date, definitive agreement date, or (where applicable) a subsequent renegotiation date.
2. Enterprise Value is calculated as the equity value implied by the offer price, with adjustments for net debt, right-of-use lease liabilities, non-controlling interests, equity accounted investments, and non-operating assets/(liabilities) (net), as available. Enterprise values have been converted to A\$ at the prevailing exchange rate as at the Announcement Date.

Detailed transaction descriptions

Hargreaves Lansdown plc / Investor Group (2024)

Hargreaves Lansdown plc was acquired by a private equity-led consortium comprised of CVC Capital Partners Limited, Nordic Capital XI Delta, SCSp, and Platinum Ivy B 2018 RSC Limited, via a recommended cash offer announced in 2024 and completed in March 2025. Under the terms of the transaction, shareholders received 1,110 pence per share in cash, implying an equity value of approximately £5.4 billion. The transaction resulted in the delisting of Hargreaves Lansdown from the London Stock Exchange (LSE) and the acquisition of 100% of the issued share capital.

The offer followed a period of engagement between the company and the consortium, during which an initial proposal was rejected and a revised offer subsequently recommended by the board. Public disclosures indicated that the implied enterprise value reflected an EV/EBITDA multiple of approximately 11.0 times and a P/E multiple of 17.0 to 18.0 times, with near-term earnings impacted by strategic investment and pricing initiatives at the time of the offer.⁷⁵ No quantified synergy guidance was publicly disclosed; however, the transaction rationale emphasised the opportunity to execute strategic and operational initiatives under private ownership.

Hargreaves Lansdown is a leading UK retail investment platform with a strong consumer brand and a large direct-to-consumer client base. The business generated the majority of its earnings from recurring platform and asset-based fees linked to client assets, with additional income from related investment services. The earnings profile is characterised by high recurrence and scale, supported by a proprietary technology platform and a national distribution reach.

Diverger Limited / Count Limited (2023)

Count acquired Diverger Limited in mixed consideration (cash and scrip) transaction originally announced in September. The original consideration of 1.38 Count shares and \$0.367 cash per Diverger share implied an equity value of approximately \$45 million for Diverger. On 17 November 2023, the consideration was revised higher to 1.44 Count shares and \$0.40 cash per Diverger share, with flexibility for Diverger shareholders to receive maximum cash or maximum shares subject to scale-back. The acquisition formed part of Count’s strategy to consolidate advice and professional services capabilities.

Count disclosed expected integration and scale synergies, primarily from the rationalisation of duplicated corporate and support functions and the integration of service offerings of approximately \$3.0 million pre-tax from the first full financial year post completion. When assessed on a forecast, post-synergy basis, the implied effective valuation multiple was materially lower than the headline standalone multiple.

Diverger operates in financial advice, licensee services and related professional support. Earnings were primarily derived from advice-related fees and service income, with profitability more closely linked to adviser numbers, utilisation and integration execution than to scalable platform economics.

PM Capital Limited / Regal Partners Limited (2023)

Regal acquired PM Capital in a transaction announced in 2023. The consideration comprised a mix of cash and Regal scrip, with upfront consideration for the acquisition is AUD 20 million in cash, subject to net debt and working capital adjustments, with deferred, and largely conditional, consideration consisting of the issuance of approximately \$130 million of converting redeemable preference shares at an issue price of AUD 1.889 per security. The transaction resulted in PM Capital’s investment strategies being integrated into Regal’s multi-affiliate funds management platform.

Disclosures indicated modest expected synergies, primarily related to distribution, marketing and operational efficiencies, rather than material cost take-out, although these were not quantified.

PM Capital is an Australian funds management business focused on active global and domestic equity strategies. Earnings were derived predominantly from performance-sensitive management fees, with profitability influenced by funds under management, investment performance and market conditions.

Pendal Group Limited / Perpetual Limited (2022)

Pendal merged with Perpetual Limited via an all-scrip transaction originally announced in April 2022, with consideration of one Perpetual share for every 7.5 Pendal shares plus \$1.976 cash per Pendal share. The

⁷⁵ Source: ION Analytics, “Hargreaves Lansdown bid increase could be justified as CVC consortium mulls next move”, 29 May 2024.

Annexure A – Independent Expert’s Report *continued*

transaction terms were revised on 16 November 2023 to be one Perpetual share for every seven Pental shares plus \$1.65 cash per Pental share. The combined group created a larger diversified asset and wealth management business with expanded global distribution and investment capability.

Transaction disclosures highlighted significant expected cost synergies of \$60 million in pre-tax full run rate synergies per annum, to be achieved within two years post completion. These were arising primarily from the rationalisation of corporate and support functions, technology and operating platforms, and elimination of duplicated public company costs. These synergies were central to the merger rationale, and public analysis indicated that the implied forward valuation multiple compressed materially when assessed on a post-synergy earnings basis relative to a standalone view.⁷⁶

Pental is an international asset manager with operations across Australia, the UK and the United States, generating earnings primarily from asset-based management fees. Earnings were sensitive to market conditions, investment performance and net flows, with profitability influenced by scale and distribution reach rather than platform administration economics.

Brewin Dolphin Holdings PLC / Royal Bank of Canada (2022)

RBC acquired Brewin Dolphin by way of a recommended all-cash offer announced in March 2022. Under the terms of the transaction, Brewin Dolphin shareholders received 515 pence per share in cash, implying an equity value of approximately £1.6 billion. The transaction was completed in September 2022, with RBC acquiring 100% of the issued share capital of Brewin Dolphin and Brewin Dolphin delisting from the LSE. The acquisition marked RBC’s entry into the UK wealth management market through the purchase of an established discretionary wealth management franchise with national scale. At the time Brewin Dolphin had approximately £58 billion in AUM, with approximately 69.2% of revenue linked to fee-based income on AUM, approximately 19.7% from commission-based services (i.e. placing funds or investments with third-party institutions such as banks or life insurance companies), and 10.3% from financial advice and planning services.

RBC noted that it had identified (but did not quantify) that it expected meaningful cost synergies from overlapping functional and administrative areas, as well as listed company costs.⁷⁷ In addition, it expected to generate revenue synergies through cross-selling of products and services to a larger client base and broader distribution channels. Brokers also noted the highly complementary nature of the businesses. When assessed on a post-synergy basis, the implied multiples were materially lower than those calculated using Brewin Dolphin’s standalone earnings.

Brewin Dolphin is a leading UK discretionary wealth manager providing investment management and financial advice and planning services to private clients, charities and trusts. The company generated the majority of its earnings from recurring discretionary portfolio management fees linked to FUM, with additional income from financial planning and related client services. Brewin Dolphin was a national operator and managed a diversified client base, with earnings characterised by a high degree of recurrence but more limited operating leverage than platform-centric wealth management companies.

Class Pty Limited / HUB24 Limited (2021)

HUB24 acquired Class Limited by way of a scheme of arrangement announced in October 2021 and implemented in February 2022. Revised terms for the transaction were reached in December 2021, with Class shareholders receiving consideration based on a mix of cash and HUB24 scrip (\$0.125 cash, one HUB share for every 11 Class shares held).

Transaction materials disclosed limited quantified synergies (\$2.0 million pre-tax), with the strategic rationale focused primarily on the acquisition of a complementary software platform. Any integration benefits were expected to arise from the alignment of platform capability, product development and distribution reach, rather than material standalone cost reductions.

Class Limited operated a software platform servicing the SMSF, accounting and wealth ecosystem. The business generated earnings from highly recurring software subscription and administration fees, with strong operating leverage and limited capital intensity. The valuation reflected Class’s platform and technology characteristics rather than traditional wealth management economics.

MLC Wealth Management Limited / Insignia Financial Ltd (2020)

Insignia Financial (then IOOF Holdings Limited) acquired MLC Wealth from National Australia Bank Limited in a transaction announced in August 2020. The consideration comprised \$1.44 billion, including \$1.24 billion in cash and \$200 million in subordinated loan notes. The acquisition resulted in Insignia acquiring a large, integrated Australian wealth business with platform administration, advice and investment management activities.

Insignia disclosed material cost and operational synergies (\$150 million pre-tax), expected to be delivered progressively over approximately three years following completion. The synergies were primarily expected to arise from platform rationalisation, simplification of duplicated operating and support functions, technology consolidation, and procurement efficiencies. On this basis, the implied valuation multiple on a standalone earnings basis was materially higher than the effective multiple when assessed on a forecast, post-synergy earnings base, with synergies forming a central part of the transaction rationale.

MLC Wealth was a leading Australian wealth management business providing superannuation and investment platforms, financial advice services and asset management products, with very strong brand recognition and reputation. Earnings were predominantly derived from recurring administration and asset-based fees linked to funds under management and administration, supported by a national distribution footprint and established client base.

Colonial First State Investments Limited / KKR & Co. Inc. (2020)

In May 2020, the Commonwealth Bank of Australia (**CBA**) announced an agreement to sell a 55.0% interest in Colonial First State to KKR & Co. Inc., a global private equity firm, for approximately \$1.7 billion in cash, implying a 100% valuation of approximately \$3.3 billion. The sale was part of CBA’s strategy to focus on its core banking business, while KKR would support Colonial First State in becoming one of the leading superannuation and investment businesses.

Following the sale completion, Colonial First State confirmed it would look to invest more than \$430 million in its business over the next four years, with a key focus on modernising all core technology systems including digital channels and expanding its products and services.

Colonial First State is an Australian wealth management group providing investment, superannuation and retirement products to individual, corporate and superannuation fund investors. It also operates platform and administration services with significant FUMA, and its earnings are primarily derived from recurring asset-based and administration fees.

ANZ OnePath Pensions & Investments business / Insignia Financial Ltd (2019)

Australia and New Zealand Banking Group (**ANZ**) announced that Insignia Financial (then IOOF Holdings Ltd) had agreed to acquire the OnePath P&I business for A\$1.15 billion in cash. The transaction involved Insignia acquiring the full business of OnePath P&I, including its wealth management, platform and advice businesses, subject to regulatory approvals. The transaction consideration was subsequently revised down to \$850 million, being a \$125 million reduction from the original sale price announced in October 2017. The acquisition completed in March 2022 following receipt of all requisite regulatory and shareholder approvals.

Insignia’s acquisition of OnePath P&I formed part of its broader strategy to expand scale in the Australian wealth management and platform sector, leveraging OnePath P&I’s client base and distribution reach. The combination was expected to enhance Insignia’s position in the master trust and wrap markets and to realise operating and distribution synergies of \$68 million pre-tax from approximately three years from completion.

OnePath P&I was a significant Australian wealth management business providing superannuation, retirement, platform and advice services to retail and institutional clients. The business generated earnings predominantly from recurring administration and asset-linked fees on FUMA, supported by adviser network distribution and product capabilities.

General terms

1 Definitions and interpretation

1.1 Definitions

Unless the contrary intention appears, these meanings apply:

2030 Plan means the strategic plan as set out in Data Room document 01.01.01.

ACCC means the Australian Competition and Consumer Commission.

Adjusted EBITDA means, with respect to a period, the consolidated net income of the Insignia Financial Group calculated the same way as for “EBITDA” in the management accounts and consistent with the basis of preparation of the FY26 Plan (being Data Room document #06.01.01.10), subject to the further adjustments and exclusions agreed between the parties.

Where the Insignia Financial Group disposes of a business prior to the Second Court Date, Adjusted EBITDA and the Reference EBITDA will be varied to exclude the Adjusted EBITDA attributable to that business.

- (a) Subject to clause 4.3(b), Daintree BidCo agrees that Insignia Financial may, in its absolute discretion, at any time prior to the Effective Date (or in any event by no later than the last date permitted by the Listing Rules to declare that dividend such that the record date for the Permitted Dividend will be on the same day as the Record Date), announce, declare or determine to pay the Permitted Dividend.
- (b) Notwithstanding any other provision of this document, the Permitted Dividend will only be payable if the following conditions are satisfied:
 - (i) the Permitted Dividend is not in breach of section 203-25 of the Tax Act;

Annexure B – Scheme Implementation Deed *continued*

in their capacity as a director, including in respect of loss of office, remuneration or otherwise, and without prejudice to any rights they may have under any deed of indemnity, access and insurance or policy of directors and officers insurance, or equivalent), and cause the appointment of the nominees of Daintree BidCo to those boards,

in each case, in accordance with constitution of the relevant Insignia Financial Group Member, the Corporations Act and the Listing Rules.

7.6 Directors' and officers' insurance

Subject to the Scheme becoming Effective and the Corporations Act, Daintree BidCo undertakes in favour of Insignia Financial and each other person who is an Insignia Financial Indemnified Party that it will:

- (a) for a period of 7 years from the Implementation Date, ensure that the constitutions of Insignia Financial and each other Insignia Financial Group Member continue to contain the rules that are contained in those constitutions at the date of this document that provide for each company to indemnify each of its directors and officers against any liability incurred by that person in his or her capacity as a director or officer of the company to any person other than a Bidder Group Member; and
- (b) procure that Insignia Financial and each other Insignia Financial Group Member complies with any deeds of indemnity, access and insurance made by them in favour of their respective directors and officers from time to time and without limiting the foregoing, ensure that the directors' and officers' run-off insurance cover for those directors and officers is maintained, subject to clause 7.7, for a period of 7 years from the retirement date of each director and officer.

7.7 Period of undertaking

The undertakings contained in clause 7.6 are given until the earlier of the end of the relevant period specified in that clause or the relevant Insignia Financial Group Member ceasing to be part of Bidder Group.

7.8 Benefit of undertaking for the Insignia Financial Group

Insignia Financial acknowledges that it receives and holds the benefit of clause 7.6 to the extent it relates to each director and officer of an Insignia Financial Group Member on behalf of each of them.

7.9 Insurers' agreement to continue insurance policies in full effect

- (a) Insignia Financial must use reasonable endeavours to seek in principle agreement or endorsement in writing prior to the Implementation Date from the relevant insurer in respect of the following insurance policies that it maintains for its own benefit or the benefit of the Insignia Financial Group (or any joint venture entities), to the effect that the proposed change of control of Insignia Financial will not trigger the change of control (or similar) clauses in the following policies:
 - (i) professional indemnity and crime; and
 - (ii) cyber.
- (b) Insignia Financial must keep Daintree BidCo regularly informed of its progress in satisfying its obligation under clause 7.9(a).
- (c) A failure by an Insignia Financial Group Member to obtain any in principle agreement or endorsement by the relevant insurer in writing

prior to the Implementation Date as contemplated by clause 7.9(a) will not constitute a breach of this document by Insignia Financial.

7.10 Run-off policies

- (a) Insignia Financial must, prior to the Implementation Date:
- (i) enter into arrangements to secure directors' and officers' fully-paid, non-cancellable run-off insurance for up to seven years from the Implementation Date, provided that such run-off insurance is commercially available in the insurance market; and
 - (ii) in respect of any policies referred to in clause 7.9(a) where Insignia Financial is unable to have the relevant insurer of any such policy provide its in principle agreement or endorsement in writing prior to the Implementation Date as contemplated by clause 7.9(a), enter into arrangements to secure fully-paid, non-cancellable run-off insurance for a period of seven years on and from the Implementation Date with reputable insurers, provided that such run-off insurance is commercially available in the insurance market,

(each a **Relevant Run-off Policy**). Any actions to facilitate the insurance, or in connection with the insurance, in accordance with this clause 7.10 will not be an Insignia Financial Prescribed Event or a breach of any provision of this document, provided that:

- (iii) Insignia Financial must use reasonable endeavours to obtain the most attractive commercial terms (including as to premiums payable) for each Relevant Run-Off Policy from a reputable insurer;
 - (iv) Insignia Financial keeps Daintree BidCo regularly informed of progress in relation to each Relevant Run-off Policy, and provides Daintree BidCo with all information reasonably requested by Daintree BidCo in connection with the placing, or progress, of each Relevant Run-off Policy; and
 - (v) Insignia Financial must ensure the scope and amount of the cover of each Relevant Run-off Policy is, to the extent commercially available in the insurance market, on the same terms as, or terms that are no less favourable than, the existing insurance policies in relation to which Insignia Financial is providing run-off cover to its current directors and officers as at the date of this document. Nothing in this clause 7.10(a)(v) requires Insignia Financial to provide Daintree BidCo with copies any of those existing insurance policies.
- (b) If requested in writing by Daintree BidCo (and provided there is a reasonable period to obtain an alternative quote and place and enter into the Relevant Run-off Policy before the Implementation Date), Insignia Financial will, before placing or entering into a Proposed Relevant Run-off Policy (as defined below) obtain a quote from a reputable insurer nominated in writing by Daintree BidCo (**Alternative Insurer**), for a Relevant Run-off Policy sourced in accordance with (and which would comply with) clauses 7.10(a)(iii) to 7.10(a)(v) (**Alternative Relevant Run-off Policy**), which is on the same terms as, or terms that are no less favourable than, the Relevant Run-off Policy which is proposed to be entered into by Insignia Financial (**Proposed Relevant Run-off Policy**) (which was sourced in accordance with (and which would comply with) clauses 7.10(a)(iii) to 7.10(a)(v)) and if:

Annexure B – Scheme Implementation Deed *continued*

- (i) the estimated total costs under that Alternative Relevant Run-off Policy is equal to or greater than the estimated total costs under the Proposed Relevant Run-off Policy;
- (ii) the Alternative Insurer declines to participate or provide a quote; or
- (iii) the Alternative Insurer fails to provide a quote within a period of time that would allow the policy to be placed and entered into before the Implementation Date,

then Insignia Financial will proceed to place and enter into the Proposed Relevant Run-off Policy. However, if the estimated total costs under the Alternative Relevant Run-off Policy is less than the estimated total costs under the Proposed Relevant Run-off Policy and there is a reasonable period for Insignia Financial to place and enter into that Alternative Relevant Run-off Policy before the Implementation Date, Insignia Financial must place and enter into the Alternative Relevant Run-off Policy, unless Daintree BidCo otherwise agrees in writing.

9.5 Fiduciary carve out

Clauses 9.3 and 9.4 do not apply to the extent that they restrict Insignia Financial or the Insignia Financial Board from taking or refusing to take any action with respect to a genuine written Competing Proposal (in relation to which there has been no contravention of clause 9.2) provided that the Insignia Financial Board has determined, acting in good faith that:

- (a) after consultation with its external financial advisers and legal advisers, such a genuine written Competing Proposal is, or could reasonably be considered to become, a Superior Proposal; and

- (b) promptly provide to Daintree BidCo any non-public information provided to the person that has not already been provided to Daintree BidCo.

9.8 Notification obligations

- (f) Insignia Financial has given Daintree BidCo at least 5 Business Days after the date of the provision of the information referred to in clause 9.9(d) to provide a matching or superior proposal to the terms of the actual, proposed or potential Competing Proposal; and

9.10 Daintree BidCo counterproposal

If Daintree BidCo proposes to Insignia Financial, or announces amendments to the Scheme or a new proposal that constitute a matching or superior proposal to the terms of the actual, proposed or potential Competing Proposal ("**Bidder Counterproposal**") by the expiry of the 5 Business Day period referred to in clause 9.9(f), Insignia Financial must procure that the Insignia Financial Board considers the Bidder Counterproposal and if the Insignia Financial Board, acting reasonably and in good faith and having consulted its external financial and legal advisers, determines that the Bidder Counterproposal would provide an equivalent or superior outcome for Insignia Financial Shareholders as a whole compared with the Competing Proposal, taking into account matters including consideration, conditionality, funding, certainty, timing and all of the terms and conditions of the Bidder Counterproposal compared to the Competing Proposal, then:

- (a) Insignia Financial and Daintree BidCo must use their best endeavours to agree the amendments to this document and, if applicable, the Scheme and Deed Poll that are reasonably necessary to reflect the Bidder Counterproposal and to implement the Bidder Counterproposal, in each case as soon as reasonably practicable; and

(as modified by the Bidder Counterproposal) to Insignia Financial Shareholders.

9.11 Variations

For the purposes of clauses 9.8, 9.9 and 9.10, any material modification to a Competing Proposal shall be taken to make that proposal a new Competing Proposal in respect of which Insignia Financial must comply with its obligations under clauses 9.8, 9.9 and 9.10 (as applicable).

- (c) **(termination)** Daintree BidCo validly terminates this document in accordance with:
 - (i) clause 13.1(a)(i); or;

The aggregate sum payable shall not be increased to reflect the deduction of the Withholding Amount and the remission of the Withholding Amount to the Regulatory Authority shall be taken to discharge a commensurate part of the amount owing to the relevant Scheme Participants. Bidder must pay any Withholding Amount in the time required by law and, if requested in writing by the relevant Scheme Participant, provide a receipt or other appropriate evidence of such payment (or procure the provision of such receipt or other evidence) to the relevant Scheme Participant.

- (c) The obligations of Insignia Financial under clause 6.3(a) will be satisfied by Insignia Financial (in its absolute discretion) and despite any election referred to in clause 6.3(c)(i) or authority referred to in clause 6.3(c)(ii) made or given by the Scheme Participant:
- (i) paying, or procuring the payment of, the relevant amount in A\$ by electronic means to a bank account nominated by the Scheme Participant, where the Scheme Participant has made a valid election prior to the Record Date in accordance with the requirements of the Registry to receive dividend payments from Insignia Financial to that bank account;
 - (ii) paying, or procuring the payment of, the relevant amount in A\$ by electronic means to a bank account nominated by the Scheme Participant by an appropriate authority from the Scheme Participant to Insignia Financial; or
 - (iii) dispatching, or procuring the dispatch of, a cheque drawn on an Australian bank for the relevant amount in A\$ to each Scheme Participant by pre-paid ordinary post (or, if the address of the Scheme Participant in the Register is outside Australia, by pre-paid airmail post) to their address recorded in the Register on the Record Date, such cheque being drawn in the name of the Scheme Participant (or in the case of joint holders, in accordance with the procedures set out in clause 6.7).
- (d) If:
- (i) a Scheme Participant does not have a Registered Address and no account has been notified in accordance with clause 6.3(c)(i) or a deposit into such account is rejected or refunded; or
 - (ii) a cheque issued under this clause 6.3 has been cancelled in accordance with clause 6.4(a)(i),

Insignia Financial as the trustee for the Scheme Participants may credit the amount payable to the relevant Scheme Participant to a separate bank account of Insignia Financial ("**Separate Account**") to be held until the Scheme Participant claims the amount or the amount is dealt with under the Unclaimed Money Act. If the amount is not credited to a Separate Account, the amount will continue to be held in the Trust Account until the Scheme Participant claims the amount or the amount is dealt with under the Unclaimed Money Act. Until such time as the amount is dealt with under the Unclaimed Money Act, Insignia Financial must hold the amount on trust for the relevant Scheme Participant, but any interest or other benefit accruing from the amount will be to the benefit of Bidder. An amount credited to the Separate Account or Trust Account (as applicable) is to be treated as having been paid to the

Annexure C – Scheme of Arrangement *continued*

relevant Scheme Participant when credited to the Separate Account or Trust Account (as applicable). Insignia Financial must maintain records of the amounts paid, the people who are entitled to the amount and any transfers of the amounts.

- (e) If, following satisfaction of Insignia Financial's obligations under clause 6.3(d), there is a surplus in the amount held by Insignia Financial as trustee for the Scheme Participants in the Trust Account, that surplus must be paid by Insignia Financial to Bidder.
- (f) If this Scheme lapses after Bidder has provided some or all of the Scheme Consideration in accordance with clause 6.2, but prior to Bidder being entered into the Register as the holder of the Scheme Shares in accordance with clause 5.2(b), Insignia Financial must immediately refund (or procure the refund) to Bidder the amount deposited into the Trust Account in accordance with clause 6.2, together with any interest thereon (less bank fees and charges).

6.4 Unclaimed monies

- (a) Insignia Financial may cancel a cheque issued under clause 6.3 of this Scheme if the cheque:
 - (i) is returned to Insignia Financial; or
 - (ii) has not been presented for payment within 6 months after the date on which the cheque was sent.
- (b) During the period of 1 year commencing on the Implementation Date, on request from a Scheme Participant, Insignia Financial must reissue a cheque that was previously cancelled under this clause 6.4.
- (c) The Unclaimed Money Act will apply in relation to any Scheme Consideration which becomes "unclaimed money" (as defined in section 3 of the Unclaimed Money Act). Any interest or other benefit accruing from the unclaimed Scheme Consideration will be to the benefit of Bidder.

6.5 Fractional entitlements and splitting

Where the calculation of the Scheme Consideration to be issued to a particular Scheme Participant would result in the Scheme Participant becoming entitled to a fraction of a cent, the fractional entitlement will be rounded up or down (as applicable) to the nearest whole cent.

6.6 Orders of a court or Regulatory Authority

- (a) In the case of notice having been given to Insignia Financial (or the Registry) of an order or direction made by or a requirement of a court of competent jurisdiction or other Regulatory Authority:
 - (i) which requires payment to a third party of a sum in respect of Scheme Shares held by a particular Scheme Participant, which would otherwise be payable to that Scheme Participant in accordance with clause 6.3 of this Scheme, then Insignia Financial must procure that payment is made in accordance with that order, direction or otherwise by law; or
 - (ii) which would prevent Insignia Financial from dispatching payment to any particular Scheme Participant in accordance with clause 6.3 of this Scheme, or the payment is otherwise

prohibited by applicable law, Insignia Financial will retain an amount, in Australian dollars, equal to the number of Scheme Shares held by that Scheme Participant multiplied by the Scheme Consideration until such time as payment in accordance with clause 6.3 of this Scheme is permitted by that order or direction or otherwise by law.

- (b) To the extent that amounts are so deducted or withheld in accordance with clause 6.6(a), such deducted or withheld amounts will be treated for all purposes under this Scheme as having been paid to the person in respect of which such deduction or withholding was made.

6.7 Joint holders

In the case of Scheme Shares held in joint names:

- (a) any Scheme Consideration payable in respect of those Scheme Shares is payable to the joint holders and any bank cheque required to be paid to Scheme Participants by Bidder under this Scheme must be payable to the joint holders and be forwarded to the holder whose name appears first in the Register as at the Record Date; and
- (b) any other document required to be sent under this Scheme, will be forwarded to either, at the sole discretion of Insignia Financial, the holder whose name appears first in the Register as at the Record Date or to the joint holders.

7 Dealings in Scheme Shares

7.1 Determination of Scheme Participants

To establish the identity of the Scheme Participants, dealings in Scheme Shares will only be recognised by Insignia Financial if:

- (a) in the case of dealings of the type to be effected using CHESS, the transferee is registered in the Register as the holder of the relevant Scheme Shares on or before the Record Date; and
- (b) in all other cases, registrable transmission applications or transfers in registrable form in respect of those dealings are received on or before the Record Date at the place where the Register is kept.

7.2 Register

Insignia Financial must register any registrable transmission applications or transfers of the Scheme Shares received in accordance with clause 7.1(b) of this Scheme on or before the Record Date.

7.3 No disposals after Effective Date

- (a) If this Scheme becomes Effective, a holder of Scheme Shares (and any person claiming through that holder) must not dispose of or purport or agree to dispose of any Scheme Shares or any interest in them after the Effective Date in any way except as set out in this Scheme and any such disposal will be void and of no legal effect whatsoever.
- (b) Insignia Financial will not accept for registration or recognise for any purpose any transmission, application or transfer in respect of Scheme Shares received after the Record Date (except a transfer to Bidder

Annexure C – Scheme of Arrangement *continued*

pursuant to this Scheme and any subsequent transfer by Bidder or its successors in title).

7.4 Maintenance of Insignia Financial Register

For the purpose of determining entitlements to the Scheme Consideration, Insignia Financial will maintain the Register in accordance with the provisions of this clause 7.4 until the Scheme Consideration has been paid to the Scheme Participants and Bidder has been entered in the Register as the holder of all the Scheme Shares. The Register in this form will solely determine entitlements to the Scheme Consideration.

7.5 Effect of certificates and holding statements

Subject to provision of the Scheme Consideration and registration of the transfer to Bidder contemplated in clauses 5.2 and 7.4 of this Scheme, any statements of holding in respect of Scheme Shares will cease to have effect after the Record Date as documents of title in respect of those shares (other than statements of holding in favour of Bidder and its successors in title). After the Record Date, each entry current on the Register as at the Record Date (other than entries in respect of Bidder or its successors in title) will cease to have effect except as evidence of entitlement to the Scheme Consideration.

7.6 Details of Scheme Participants

Within 3 Business Days after the Record Date Insignia Financial will ensure that details of the names, Registered Addresses and holdings of Scheme Shares for each Scheme Participant, as shown in the Register at the Record Date are available to Bidder in such form as Bidder reasonably requires.

7.7 Quotation of Insignia Financial Shares

Insignia Financial must apply to ASX to suspend trading on ASX of Insignia Financial Shares with effect from the close of trading on the Effective Date.

- (b) to have itself removed from the official list of the ASX.

8 Appointment of Insignia Financial as attorney for implementation of Scheme

Each Scheme Participant, without the need for any further act by any Scheme Participant, irrevocably appoints Insignia Financial and each of its directors and secretaries (jointly and each of them individually) as its attorney and agent for the purpose of:

- (a) executing any document or doing or taking any other act necessary, desirable or expedient, or incidental, to give effect to this Scheme and the transactions contemplated by it including executing and delivering any Share Scheme Transfer;
- (b) on and from the Effective Date enforcing the Deed Poll against Bidder (and Insignia Financial undertakes in favour of each Scheme Participant

that it will enforce the Deed Poll against Bidder on behalf of, and as agent and attorney of, each Scheme Participant),

and Insignia Financial accepts such appointment. Insignia Financial, as attorney and agent of each Scheme Participant, may sub-delegate any of its functions, authorities or powers under this clause 8 to all or any of its directors or officers (jointly, individually or jointly and individually).

9 Appointment of Bidder as attorney in respect of Insignia Financial Shares

Immediately upon the provision of the Scheme Consideration to each Scheme Participant in the manner contemplated by clauses 6.2 and 6.3, until Bidder is registered as the holder of all Scheme Shares, each Scheme Participant:

- (a) irrevocably appoints Bidder as its agent and attorney (and irrevocably appoints Bidder in such capacity) to appoint any director or officer nominated by Bidder as its sole proxy, and where applicable corporate representative, to:

- (c) must take all other actions in the capacity of a registered holder of Scheme Shares as Bidder reasonably directs; and
- (d) acknowledges and agrees that in exercising the powers referred to in clause 9(a), Bidder and any director, officer or corporate representative nominated by Bidder under 5.7(a) may act in the sole interests of Bidder as the intended registered holder of the Scheme Shares.

General terms

1 Definitions and interpretation

1.1 Definitions

Unless the contrary intention appears, these meanings apply:

Authorised Officer means a director or secretary or other officer of a party or any other person nominated by a party to act as an Authorised Officer for the purposes of this document.

Scheme means the proposed scheme of arrangement between Insignia Financial and Scheme Participants under which all the Scheme Shares will be transferred to Bidder under Part 5.1 of the Corporations Act, substantially in the form of Annexure A to this deed poll, or as otherwise agreed by Bidder and Insignia Financial, subject to any amendments or conditions made or required by the Court pursuant to section 411(6) of the Corporations Act, to the extent they are approved in writing by Insignia Financial and Bidder.

Scheme Implementation Deed means the scheme implementation dated 22 July 2025 between Insignia Financial and Bidder under which, amongst other things, Insignia Financial has agreed to propose the Scheme to Insignia Financial Shareholders, and each of Bidder and Insignia Financial has agreed to take certain steps to give effect to the Scheme.

All other words and phrases used in this document have the same meaning as given to them in the Scheme.

1.2 General interpretation

Clause 1.2 of the Scheme applies to this document.

1.3 Nature of deed poll

Bidder acknowledges that:

- (a) this document may be relied on and enforced by any Scheme Participant in accordance with its terms even though the Scheme Participants are not a party to it; and
- (b) under the Scheme, each Scheme Participant irrevocably appoints Insignia Financial and each of its directors, officers and secretaries (jointly and individually) as its agent and attorney to enforce this deed and exercise all remedies available to the Scheme Participants against Bidder.

2 Conditions precedent and termination

2.1 Conditions precedent

Bidder's obligations under clause 4 are subject to the Scheme becoming Effective.

2.2 Termination

Bidder's obligations under this document will automatically terminate and the terms of this document will be of no further force or effect if:

- (a) the Scheme has not become Effective on or before the End Date; or
- (b) the Scheme Implementation Deed is terminated in accordance with its terms before the Scheme becomes Effective,

in each case, unless Insignia Financial and Bidder otherwise agree in writing.

2.3 Consequences of termination

If this document is terminated under clause 2.2, then, in addition and without prejudice to any other rights, powers or remedies available to Scheme Participants:

- (a) Bidder is released from its obligations to further perform this document except those obligations contained in clause 7.1 and any other obligations which by their nature survive termination; and
- (b) each Scheme Participant retains the rights, powers or remedies they have against Bidder in respect of any breach of this document which occurs before it is terminated.

3 Performance of obligations generally

- (a) Bidder must comply with its obligations under the Scheme Implementation Deed and do all acts and things necessary or desirable on its part to give full effect to the Scheme.
- (b) Subject to clause 2, Bidder covenants in favour of each Scheme Participant that it will be bound by the terms of the Scheme as if it were a party to the Scheme and undertakes to perform all obligations and other actions, including those obligations and actions which relate to the payment of the Scheme Consideration, and give each acknowledgement, representation and warranty (if any), attributed to it under the Scheme, subject to and in accordance with the terms of the Scheme Implementation Deed and the Scheme.

4 Scheme Consideration

Subject to clause 2, Bidder undertakes in favour of each Scheme Participant to observe and perform all obligations contemplated of Bidder under the Scheme to pay or procure the payment of the Scheme Consideration into the Trust Account, on behalf of each Scheme Participant, in accordance with the Scheme.

5 Representations and warranties

Bidder represents and warrants that:

- (a) **(status)** it has been incorporated or formed in accordance with the laws of its place of incorporation or formation, is validly existing under those laws and has power and authority to own its assets and carry on its business as it is now being conducted;

Annexure D – Deed Poll *continued*

- (b) **(power)** it has power to enter into this document, to comply with its obligations under it and exercise its rights under it;
- (c) **(no contravention)** the entry by it into, its compliance with its obligations and the exercise of its rights under, this document do not and will not conflict with:
 - (i) its constituent documents or cause a limitation on its powers or the powers of its directors to be exceeded;
 - (ii) any law binding on or applicable to it or its assets; or
 - (iii) any Encumbrance or material document binding on or applicable to it;
- (d) **(authorisations)** it has in full force and effect each authorisation necessary for it to enter into this document, to comply with its obligations and exercise its rights under it, and to allow them to be enforced;
- (e) **(validity of obligations)** its obligations under this document are valid and binding and are enforceable against it in accordance with its terms; and
- (f) **(solvency)** it is not Insolvent (as that term is defined in the Scheme Implementation Deed).

6 Continuing obligations

This document is irrevocable and, subject to clause 2, remains in full force and effect until:

- (a) Bidder has fully performed its obligations under this document; or
- (b) the earlier termination of this document under clause 2.2.

7 Costs

7.1 Stamp duty and registration fees

Bidder:

- (b) indemnifies each Scheme Participant against, and agrees to reimburse and compensate it, for any liability in respect of stamp duty under clause 7.1(a).

8 Notices and other communications

8.1 Form

Unless this document expressly states otherwise, all notices, demands, certificates, consents, approvals, waivers and other communications in

connection with this document must be in writing and signed by the sender (if an individual) or an Authorised Officer of the sender.

All communications (other than email communications) must also be marked for the attention of the person referred to in the Details (or, if the recipient has notified otherwise, then marked for attention in the way last notified).

Email communications must state the first and last name of the sender and are taken to be signed by the named sender.

8.2 Delivery

Communications must be:

- (a) left at the address referred to in the Details;
- (b) sent by regular ordinary post (airmail if appropriate) to the address referred to in the Details; or
- (c) sent by email to the address referred to in the Details.

If the intended recipient has notified changed contact details, then communications must be sent to the changed contact details.

8.3 When effective

Communications take effect from the time they are received or taken to be received under clause 8.4 (whichever happens first) unless a later time is specified in the communication.

8.4 When taken to be received

Communications are taken to be received:

- (a) if sent by post, 6 Business Days after posting (or 10 days after posting if sent from one country to another); or
- (b) if sent by email:
 - (i) when the sender receives an automated message confirming delivery; or

whichever happens first.

8.5 Receipt outside business hours

Despite anything else in this clause 8, if communications are received or taken to be received under clause 8.4 after 5.00pm on a Business Day or on a non-Business Day, they are taken to be received at 9.00am on the next Business Day. For the purposes of this clause, the place in the definition of Business Day is taken to be the place specified in the Details as the address of the recipient and the time of receipt is the time in that place.

Annexure D – Deed Poll *continued*

9 General

9.1 Variation

A provision of this document or any right created under it may not be varied, altered or otherwise amended unless:

- (a) if the variation occurs before the First Court Date (as that term is defined in the Scheme Implementation Deed) the variation is agreed to by Insignia Financial and Bidder in writing; and
- (b) if the variation occurs on or after the First Court Date (as that term is defined in the Scheme Implementation Deed), the variation is agreed to by Insignia Financial and Bidder in writing and the Court indicates (either at the hearing on the First Court Date, at an interlocutory hearing or the hearing on the Second Court Date) that the variation, alteration or amendment would not itself preclude approval of the Scheme,

in which event Bidder must enter into a further deed poll in favour of the Scheme Participants giving effect to the variation, alteration or amendment.

9.2 Partial exercising of rights

Unless this document expressly states otherwise, if Bidder does not exercise a right, power or remedy in connection with this document fully or at a given time, it may still exercise it later.

9.3 No waiver

A provision of this document, or any right, power or remedy created under it may not be varied or waived except in writing signed by the party to be bound.

No failure to exercise, nor any delay in exercising, any right, power or remedy by Bidder or by any Scheme Participant operates as a waiver. A waiver of any right, power or remedy on one or more occasions does not operate as a waiver of that right, power or remedy on any other occasion, or of any other right, power or remedy.

9.4 Remedies cumulative

The rights, powers and remedies in connection with this document are in addition to other rights, powers and remedies given by law independently of this document.

9.5 Assignment or other dealings

Bidder and each Scheme Participant may not assign or otherwise deal with its rights under this document or allow any interest in them to arise or be varied without the consent of Bidder and Insignia Financial. Any purported dealing in contravention of this clause 9.5 is invalid.

9.6 Further steps

Bidder agrees to do anything including executing all documents and do all things (on its own behalf or on behalf of each Scheme Participant) at its own expense necessary or expedient to give full effect to this document and the transactions contemplated by it.

9.7 Severability

If the whole or any part of a provision of this document is void, unenforceable or illegal in a jurisdiction it is severed for that jurisdiction. The remainder of this document has full force and effect and the validity or enforceability of that provision in any other jurisdiction is not affected. This clause has no effect if the severance alters the basic nature of this document or is contrary to public policy.

10 Governing law and jurisdiction**10.1 Governing law and jurisdiction**

The law in force in the place specified in the Details governs this document. Bidder submits to the non-exclusive jurisdiction of the courts of that place.

10.2 Serving documents

Without preventing any other method of service, any document in an action in connection with this document may be served on Bidder by being delivered or left at Bidder's address set out in the Details.

6.2 Satisfaction of obligations

Scheme Shares (the **Withholding Amount**), Bidder is permitted to deduct the Withholding Amount from the Scheme Consideration otherwise payable to those Scheme Participants and remit such amounts to the Regulatory Authority. The aggregate sum payable shall not be increased to reflect the deduction of the Withholding Amount and the remission of the Withholding Amount to the Regulatory Authority shall be taken to discharge a commensurate part of the amount owing to the relevant Scheme Participants. Bidder must pay any Withholding Amount in the time required by law and, if requested in writing by the relevant Scheme Participant, provide a receipt or other appropriate evidence of such payment (or procure the provision of such receipt or other evidence) to the relevant Scheme Participant.

- (c) The obligations of Insignia Financial under clause 6.3(a) will be satisfied by Insignia Financial (in its absolute discretion) and despite any election referred to in clause 6.3(c)(i) or authority referred to in clause 6.3(c)(ii) made or given by the Scheme Participant:
- (i) paying, or procuring the payment of, the relevant amount in A\$ by electronic means to a bank account nominated by the Scheme Participant, where the Scheme Participant has made a valid election prior to the Record Date in accordance with the requirements of the Registry to receive dividend payments from Insignia Financial to that bank account;

- (i) a Scheme Participant does not have a Registered Address and no account has been notified in accordance with clause 6.3(c)(i) or a deposit into such account is rejected or refunded; or

- (a) Insignia Financial may cancel a cheque issued under clause 6.3 of this Scheme if the cheque:
 - (i) is returned to Insignia Financial; or
 - (ii) has not been presented for payment within 6 months after the date on which the cheque was sent.
- (b) During the period of 1 year commencing on the Implementation Date, on request from a Scheme Participant, Insignia Financial must reissue a cheque that was previously cancelled under this clause 6.4.

- (b) To the extent that amounts are so deducted or withheld in accordance with clause 6.6(a), such deducted or withheld amounts will be treated for all purposes under this Scheme as having been paid to the person in respect of which such deduction or withholding was made.

6.7 Joint holders

In the case of Scheme Shares held in joint names:

- (a) any Scheme Consideration payable in respect of those Scheme Shares is payable to the joint holders and any bank cheque required to be paid to Scheme Participants by Bidder under this Scheme must be payable to the joint holders and be forwarded to the holder whose name appears first in the Register as at the Record Date; and
- (b) any other document required to be sent under this Scheme, will be forwarded to either, at the sole discretion of Insignia Financial, the holder whose name appears first in the Register as at the Record Date or to the joint holders.

The Register in this form will solely determine entitlements to the Scheme Consideration.

7.5 Effect of certificates and holding statements

Subject to provision of the Scheme Consideration and registration of the transfer to Bidder contemplated in clauses 5.2 and 7.4 of this Scheme, any statements of holding in respect of Scheme Shares will cease to have effect after the Record Date as documents of title in respect of those shares (other than statements of holding in favour of Bidder and its successors in title). After the Record Date, each entry current on the Register as at the Record Date (other than entries in respect of Bidder or its successors in title) will cease to have effect except as evidence of entitlement to the Scheme Consideration.

7.6 Details of Scheme Participants

Within 3 Business Days after the Record Date Insignia Financial will ensure that details of the names, Registered Addresses and holdings of Scheme Shares for each Scheme Participant, as shown in the Register at the Record Date are available to Bidder in such form as Bidder reasonably requires.

7.7 Quotation of Insignia Financial Shares

Insignia Financial must apply to ASX to suspend trading on ASX of Insignia Financial Shares with effect from the close of trading on the Effective Date.

7.8 Termination of quotation of Insignia Financial Shares

After the Scheme has been fully implemented, Insignia Financial will apply:

- (a) for termination of the official quotation of Insignia Financial Shares on ASX; and
- (b) to have itself removed from the official list of the ASX.

8 Appointment of Insignia Financial as attorney for implementation of Scheme

Each Scheme Participant, without the need for any further act by any Scheme Participant, irrevocably appoints Insignia Financial and each of its directors and secretaries (jointly and each of them individually) as its attorney and agent for the purpose of:

- (a) executing any document or doing or taking any other act necessary, desirable or expedient, or incidental, to give effect to this Scheme and the transactions contemplated by it including executing and delivering any Share Scheme Transfer;
- (b) on and from the Effective Date enforcing the Deed Poll against Bidder (and Insignia Financial undertakes in favour of each Scheme Participant

that it will enforce the Deed Poll against Bidder on behalf of, and as agent and attorney of, each Scheme Participant),

and Insignia Financial accepts such appointment. Insignia Financial, as attorney and agent of each Scheme Participant, may sub-delegate any of its functions, authorities or powers under this clause 8 to all or any of its directors or officers (jointly, individually or jointly and individually).

9 Appointment of Bidder as attorney in respect of Insignia Financial Shares

Immediately upon the provision of the Scheme Consideration to each Scheme Participant in the manner contemplated by clauses 6.2 and 6.3, until Bidder is registered as the holder of all Scheme Shares, each Scheme Participant:

- (a) irrevocably appoints Bidder as its agent and attorney (and irrevocably appoints Bidder in such capacity) to appoint any director or officer nominated by Bidder as its sole proxy, and where applicable corporate representative, to:
 - (i) attend Insignia Financial Shareholders' meetings;
 - (ii) exercise the votes attaching to Insignia Financial Shares registered in the name of the Scheme Participant; and
 - (iii) sign any Insignia Financial Shareholders' resolution;
- (b) must not attend or vote at any Insignia Financial Shareholders' meetings or sign any Insignia Financial Shareholders' resolution (whether in person, by proxy or by corporate representative) other than pursuant to clause 9(a)(ii); and
- (c) must take all other actions in the capacity of a registered holder of Scheme Shares as Bidder reasonably directs; and
- (d) acknowledges and agrees that in exercising the powers referred to in clause 9(a), Bidder and any director, officer or corporate representative nominated by Bidder under 5.7(a) may act in the sole interests of Bidder as the intended registered holder of the Scheme Shares.

Explanatory Notes:

These notes should be read in conjunction with this Notice of Scheme Meeting.

Terminology

Capitalised terms which are defined in section 10 of the Scheme Booklet which accompanies this Notice of Scheme Meeting have the same meaning when used in this notice (including these notes) unless the context requires otherwise.

Chair

The Court has directed that Allan Griffiths act as Chair of the Scheme Meeting or, failing him, Michelle Somerville (unless the members at the meeting elect some other person to act as Chair of the meeting) and has directed the Chair to report the result of the meeting to the Court.

Majority required

In accordance with section 411(4)(a)(ii) of the Corporations Act, the resolution contained in this Notice of Scheme Meeting must be passed by:

- a** a majority in number of those Insignia Financial Shareholders present and voting at the Scheme Meeting (either in person, by proxy or (in the case of corporate Insignia Financial Shareholders), by a corporate representative); and
- b** at least 75% of the votes cast on the resolution contained in this Notice of Scheme Meeting.

The vote will be conducted by poll.

Entitlement to vote

The Court has ordered that, for the purposes of the Scheme Meeting, Insignia Financial Shares will be taken to be held by the persons who are registered as Insignia Financial Shareholders at 10:00am on Saturday, 11 April 2026. Accordingly, registrable transmission applications or transfers registered after this time will be disregarded in determining entitlements to vote at the Scheme Meeting.

Voting at the Scheme Meeting

Insignia Financial Shareholders can attend, participate and vote at the virtual Scheme Meeting by attending and voting in person or by logging on to the Lumi Online Meeting Platform at: <https://meetings.lumiconnect.com/300-648-847-579>.

Insignia Financial Shareholders are also encouraged to submit questions in advance of the Scheme Meeting to Insignia Financial.

Questions must be submitted in writing to proxy@boardroomlimited.com.au at least 48 hours before the Scheme Meeting.

Full details of how to attend, participate and vote at the Scheme Meeting online through the Lumi Online Meeting Platform are included in the Online Meeting Guide set out at Annexure F.

Voting by proxy

Proxy appointment

- A Proxy Form is enclosed with this Scheme Booklet.
- A member entitled to attend and vote may appoint a proxy.
- A member entitled to cast 2 or more votes may appoint not more than 2 proxies.
- A proxy can be an individual or a body corporate and need not be a member.
- A corporation appointed as a proxy will need to appoint a corporate representative, in the same manner as outlined in this notice in relation to appointments by Insignia Financial Shareholders, to exercise its powers as proxy at the meeting.
- If the member appoints 2 proxies and the appointment does not specify the proportion or number of the member's votes, each proxy may exercise half of the votes.
- At least 48 hours before the meeting, Insignia Financial must receive:
 - the proxy's appointment; and
 - any authority under which the appointment was signed or a certified copy of the authority.
- The proxy appointment must be lodged with the Insignia Financial Share Registry in any of the following ways:
 - by post to GPO Box 3993 Sydney NSW 2001
 - by delivery at Level 8 210 George Street Sydney NSW 2000
 - by email to proxy@boardroomlimited.com.au
 - by facsimile at + 61 2 9290 9655
 - online at <https://www.votingonline.com.au/iflsm2026>

- Insignia Financial Shareholders are encouraged to direct their proxies how to vote on the resolution. An Insignia Financial Shareholder can provide such a direction by marking the appropriate box on the hard copy Proxy Form or selecting the appropriate option for that resolution online.
- If a proxy is not directed on how to vote on a resolution, the proxy may vote, or abstain from voting, as that person thinks fit (subject to the other provisions of these notes). If a proxy appointment does direct the relevant proxy how to vote on a resolution, then (subject to the other provisions of these notes):
 - if the proxy is the Chair of the Scheme Meeting, the proxy must vote in that capacity on a poll and must vote as directed; and
 - if the proxy is not the Chair of the Scheme Meeting, the proxy need not vote in that capacity on a poll but if the proxy does vote, the proxy must do so as directed.
- If the proxy is a member, the above does not affect the way that proxy votes in their capacity as a member.

If the Chair of the Scheme Meeting is a proxy, either by appointment or default, and the appointment does not provide any voting directions on the Proxy Form, by signing and returning the Proxy Form, the Insignia Financial Shareholder will be expressly authorising the Chair of the Scheme Meeting to cast their vote on the Scheme Resolution as the Chair of the Scheme Meeting sees fit.

The Chair of the Scheme Meeting intends to vote undirected proxies in favour of the Scheme Resolution.

Jointly held securities

If the Insignia Financial Shares are jointly held, only 1 of the joint Insignia Financial Shareholders is entitled to vote. If more than 1 joint Insignia Financial Shareholder votes, only the vote of the Insignia Financial Shareholder whose name appears first in the Register will be counted.

Voting by attorney

Insignia Financial Shareholders who wish to appoint an attorney to participate in the Scheme Meeting on their behalf must provide an original duly executed power of attorney (or a certified copy of that power of attorney) to the Insignia Financial Share Registry by 10:00am on Saturday, 11 April 2026.

Voting by corporate representative

A body corporate which is an Insignia Financial Shareholder, or which has been appointed as a proxy, is entitled to appoint a corporate representative to vote at the Scheme Meeting on its behalf and must provide a duly executed certificate of appointment (in accordance with sections 250D and 253B of the Corporations Act) prior to the Scheme Meeting.

A form of certificate may be downloaded via <https://boardroomlimited.com.au/wordpress/wp-content/uploads/2021/05/Appointment-of-Corporate-Representative.pdf> or obtained from the Insignia Financial Share Registry on 1300 737 760 (for callers within Australia) or + 61 2 9290 9600 (for callers outside Australia) between 9:00am and 5:00pm (Melbourne time), Monday to Friday (excluding public holidays) or by email to enquiries@boardroomlimited.com.au. The certificate of appointment may set out restrictions on the representative's powers. The certificate must be received by the Insignia Financial Share Registry prior to the Scheme Meeting. Insignia Financial Shareholders may submit the certificate:

- via email, by sending it to enquiries@boardroomlimited.com.au; or
- in any of the ways specified for proxy forms in this Notice of Scheme Meeting, except that a certificate of appointment of corporate representative cannot be lodged online.

Court approval

If the resolution contained in this Notice of Scheme Meeting is approved at the Scheme Meeting by the Requisite Majority, the implementation of the Scheme (with or without modification) will be subject to, among other things, the subsequent approval of the Court.
