BSA Limited (“BSA” or the “Company”) (ASX: BSA) is pleased to announce the appointment of Mr David Geraghty as Non-Executive Chairman, effective immediately. Mr Geraghty brings more than 30 years of leadership experience in the resources and mining services sector. A qualified metallurgical engineer, he commenced his career with Rio Tinto in orebody evaluation before joining Mineral Resources Limited (ASX: MIN), where over 21 years he held senior executive positions across mining and services and was instrumental in helping scale the business into a multi-billion-dollar ASX success story.

During his tenure at **Mineral Resources**, Mr Geraghty played a key role in the company’s emergence as one of Australia’s most successful diversified mining services and commodities businesses, contributing to major project developments, disciplined capital allocation and operational execution across iron ore and lithium. Mineral Resources has grown into a multi-billion-dollar enterprise and is widely regarded as one of the ASX’s premier mining growth stories.

More recently, Mr Geraghty has served as Chairman of **Forrestania Resources Limited (ASX: FRS)**. Under his leadership, FRS transitioned from a junior explorer into an emerging gold producer with a clear pathway to production. FRS has established a defined resource base of approximately 0.6Moz gold and secured processing infrastructure to underpin near-term production. Over a short period, FRS experienced a substantial market re-rating, growing from micro-cap levels to a market capitalisation of approximately A\$700 million.

The Board believes Mr Geraghty’s proven track record in scaling businesses, driving operational discipline and unlocking shareholder value will be highly valuable as BSA enters its next phase of growth.

Commenting on his appointment, Mr Geraghty said: “BSA represents a compelling opportunity at an important point in its evolution. I am excited by the quality of the asset base and the strategic direction being set by the Board. Having been involved in building companies through periods of rapid transformation, I see clear parallels here.

“Our focus will be on disciplined execution, strengthening the balance sheet, and creating a platform capable of delivering sustainable growth and meaningful long-term returns for shareholders.”
