Dear Securityholder,

Oneview Healthcare PLC (**Oneview** or the **Company**) is pleased to offer you the opportunity to participate in a security purchase plan (**SPP** or **SPP Offer**).

Eligible Securityholders, being those persons who are registered as holders of CHESS Depository Interests over fully paid ordinary shares in Oneview (**CDIs**) as at 7.00pm (Sydney, Australia time) on Friday, 13 March 2026 with an address in Australia, New Zealand or Ireland; and who are not in the United States and are not acting for the account or benefit of a person in the United States; and who meet certain other conditions as set out in the SPP Offer Booklet, will be entitled to subscribe for up to A\$30,000 of new CDIs (**New CDIs**).

On Monday, 16 March 2026, Oneview announced a two-tranche placement to eligible institutional and sophisticated investors to raise A\$19 million, representing 100 million New CDIs at an issue price of A\$0.19 per New CDIs (**Placement**). The Placement comprises two tranches:

- Tranche 1 to raise approximately A\$12 million via the issue of 63,157,895 new CDIs under the Company's existing ASX Listing Rule 7.1 placement capacity; and
- Tranche 2 to raise approximately A\$7 million via the issue of 36,842,105 new CDIs to be issued to the Company's largest shareholder, Manderrah Pty Ltd as trustee of the GJJ Family Trust, subject to shareholder approval at an extraordinary shareholders meeting expected to be held in May 2026.

The new CDIs issued under Tranche 1 were issued on Wednesday, 25 March 2026.

The non-underwritten SPP is capped at A\$30,000 per securityholder and up to approximately A\$2 million in aggregate. Oneview reserves the right to increase the size of the SPP or scale-back applications under the SPP at its sole discretion.

Oneview intends to apply the net proceeds of the capital raising to strengthen the balance sheet as deployments continue across new and existing customers, converting this signed pipeline into live, revenue-generating endpoints. Funds will also support the advancement of the new AI-powered virtual patient assistant, Ovie, as well as enabling the continued improvement of the AI software development life cycle and other automation and AI initiatives to drive business efficiency. Major US health systems place significant emphasis on balance sheet strength as part of their vendor evaluation process which is increasingly important as the Company scales in its core market.

The SPP Offer provides you with the ability to acquire New CDIs for a total subscription value of up to A\$30,000, the maximum amount permitted for this type of offer. Eligible Securityholders may apply to buy a parcel of New CDIs in Oneview valued at A\$1,000, A\$2,500, A\$5,000, A\$7,500, A\$10,000, A\$12,500, A\$15,000, A\$20,000, A\$25,000 or A\$30,000 at the issue price described below.

The issue price per New CDI under the SPP is A\$0.19, being the same price paid by investors under the Placement and represents a:

- 7% discount to the closing price of A\$0.205 on Friday, 13 March 2026 (being the last day of trading in CDIs before the Placement and SPP Offer were announced); and
- 12.4% discount to the volume weighted average trading price for the 5 business days at the close of trading on Friday, 13 March 2026 of A\$0.217.

No brokerage, commissions or other transaction costs will be payable in respect of the application for, and issue of, New CDIs under the SPP Offer.

This letter is to notify you that the SPP is now open and provide you with instructions as to how to access a copy of the SPP Offer Booklet and your personalised Application Form.

The terms and conditions of the SPP are provided in the SPP Offer Booklet. We urge you to read these materials in their entirety and seek your own financial and taxation advice in relation to the SPP, before you decide whether to participate.

If you are a resident in Ireland, you are recommended to consult immediately with your independent professional adviser who is authorised or exempted pursuant to the European Union (Markets in Financial Instruments) Regulations 2017 (as amended) of Ireland or the Investment Intermediaries Act 1995 (as amended) of Ireland.

Letter from the Chair

Wednesday, 25 March 2026

Dear Securityholder

On 16 March 2026, Oneview Healthcare PLC (**Oneview**) announced that it had received commitments for an institutional placement to raise A\$19 million, representing 100 million new CDIs (**Placement**). The Placement comprises two tranches:

- Tranche 1 to raise approximately A\$12 million via the issue of 63,157,895 new CDIs under the Company's existing ASX Listing Rule 7.1 placement capacity; and
- Tranche 2 to raise approximately A\$7 million via the issue of 36,842,105 new CDIs to be issued to the Company's largest shareholder, Manderrah Pty Ltd as trustee of the GJJ Family Trust, subject to shareholder approval at an extraordinary shareholders meeting expected to be held in May 2026.

The new CDIs issued under Tranche 1 were issued on Wednesday, 25 March 2026.

Oneview also announced that it would undertake a security purchase plan (**SPP** or **SPP Offer**) to raise up to approximately A\$2 million. The SPP is not underwritten and Oneview reserves the right to increase the size of the SPP or Scale-back applications under the SPP at its sole discretion.

The net proceeds of the capital raising are intended to be used to strengthen the balance sheet as deployments continue across new and existing customers, converting this signed pipeline into live, revenue-generating endpoints. Funds will also support the advancement of the new AI-powered virtual patient assistant, Ovie, as well as enabling the continued improvement of the AI software development life cycle and other automation and AI initiatives to drive business efficiency. Major US health systems place significant emphasis on balance sheet strength as part of their vendor evaluation process which is increasingly important as the Company scales in its core market.

On behalf of the board of directors of Oneview (**Board**), I am pleased to offer you the opportunity to participate in the SPP.

The SPP Offer provides you with the ability to acquire New CDIs for a total subscription value of up to A\$30,000, the maximum amount permitted for this type of offer. The SPP offers eligible CDI holders who were not able to participate in the Placement an opportunity to reduce dilutionary impacts of the Placement.

The issue price per New CDI under the SPP is A\$0.19, being the same price paid by investors under the Placement and represents a:

- 7% discount to the closing price of A\$0.205 on Friday, 13 March 2026 (being the last day of trading in CDIs before the Placement and SPP Offer were announced); and
- 12.4% discount to the volume weighted average trading price for the 5 business days at the close of trading on Friday, 13 March 2026 of A\$0.217.

No brokerage, commissions or other transaction costs will be payable in respect of the application for, and issue of, New CDIs under the SPP Offer.

The SPP Offer

The SPP Offer aims to raise up to approximately A\$2 million. The Board may decide to accept applications (in whole or in part) that result in the SPP Offer raising more or less than A\$2 million in its absolute sole discretion. If the aggregate amount applied for by all Eligible Securityholders exceeds Oneview's requirements, Oneview may Scale-back the number of New CDIs that will be issued under this SPP Offer. In the event that a Scale-back is applied, Oneview intends that the Scale-back policy applied would take into account the size of your application and/or the number of CDIs you held on the Record Date (subject to any minimum dollar allocation determined by Oneview in its absolute discretion), being 7.00pm (Sydney, Australia time) on Friday, 13 March 2026. However, Oneview is not required to conduct a Scale-back in this way and may Scale-back the number of New CDIs in any manner in its absolute discretion.

You may be allocated fewer New CDIs than the number for which you apply, in which case you will receive a corresponding refund of your application money without interest.

The SPP Offer provides Eligible Securityholders with an opportunity to apply to buy a parcel of New CDIs in Oneview valued at A\$1,000, A\$2,500, A\$5,000, A\$7,500, A\$10,000, A\$12,500, A\$15,000, A\$20,000, A\$25,000 or A\$30,000 at the issue price described above. The SPP Offer is not underwritten.

The SPP Offer is offered to all Eligible Securityholders, being registered holders on the Record Date with a registered address in Australia, New Zealand or Ireland, or certain other foreign jurisdictions determined by the Directors, and who are not in the United States or acting for the account or benefit of a person in the United States (or, in the event that any such holder is acting for the account or benefit of a person in the United States, it is not participating in the SPP in respect of that person) and who meet certain other conditions as set out in the Terms and Conditions. The SPP Offer is also open to Custodians who may participate on behalf of certain Eligible Beneficiaries on the Terms and Conditions set out in this SPP Offer Booklet. Your right to participate in the SPP is not transferrable.

The SPP Offer opens on Wednesday, 25 March 2026 and is expected to close at 5.00pm (Sydney, Australia time) on Friday, 10 April 2026. Oneview reserves the right to vary this date in its discretion, including by closing the SPP Offer early.

Participation in the SPP Offer is voluntary.

All New CDIs issued under the SPP Offer will rank equally with existing CDIs and will carry the same voting rights and entitlement to receive future distributions. The SPP Offer opens at 9.00am (Sydney, Australia time) on Wednesday, 25 March 2026 and is scheduled to close at 5.00pm (Sydney, Australia time) on Friday, 10 April 2026. Oneview reserves the right to change the Closing Date of the SPP Offer. No late applications will be accepted.

3. Eligible Securityholders

- (a) **(General)** You are eligible to participate in the SPP Offer (**Eligible Securityholder**) if you were a registered holder of CDIs in Oneview at the Record Date whose address in the Register of Oneview is in Australia, New Zealand or Ireland unless:
 - (i) you hold CDIs on behalf of another person who resides outside Australia, New Zealand or Ireland (in which case you are not able to participate on behalf of that person);

- (ii) you are in the United States or you are acting for the account or benefit of a person in the United States (in which case you are not able to participate on behalf of that person); or
- (iii) you are ineligible to participate in the SPP Offer because of the aggregate limit explained in section 4 below.

Oneview has determined that, because of foreign securities laws, it is not practical for holders of CDIs with registered addresses outside Australia, New Zealand or Ireland to participate in the SPP Offer, although reserves the right to do so in specific circumstances.

- (b) **(Single Holders)** If you are the only registered holder of CDIs, but you receive more than one offer under the SPP Offer (for example, due to multiple registered holdings), you may only apply for one maximum parcel of New CDIs up to the value of \$30,000.
- (c) **(Joint Holders)** If you are recorded with one or more other persons as the joint holder of CDIs, that joint holding is considered to be a single registered holding for the purposes of the SPP Offer and, subject to the conditions of eligibility set out in this section 3, the joint holders are entitled to participate in the SPP Offer in respect of that single holding only. Any agreement, certification or acknowledgement (including under section 12(e)) by one joint holder will be deemed to be given by each of the other joint holder(s). If the same joint holders receive more than one offer under the SPP Offer due to multiple registered holdings, the joint holders may only apply for New CDIs up to a maximum of \$30,000.
- (d) **(Custodians, Trustees and Nominees)** Subject to these Terms and Conditions, Eligible Securityholders who are Custodians may participate in the SPP on behalf of each Eligible Beneficiary on whose behalf the Custodian is holding CDIs. If you are a Custodian and you apply to acquire New CDIs on behalf of a Beneficiary, you must certify in writing to Oneview a number of matters relating to such Beneficiaries in the form of a Custodian Certificate.

If you are a Custodian, please contact the Registry to obtain the form of Custodian Certificate that you are required to submit.

If you hold CDIs as a trustee or nominee for another person, but are not a 'Custodian', you cannot participate for beneficiaries in the manner described above. In this case, the rules for multiple single holdings (above) apply.

Nominees and other trustees may not distribute any part of this document, and may not permit any beneficial securityholder to participate in the SPP, in any country outside Australia, New Zealand and Ireland, except, with the consent of Oneview, to beneficial securityholders resident in certain other countries where Oneview may determine it is lawful and practical to make the SPP available.

Nominees and other registered holders of CDIs must not take up any New CDIs on behalf of, or send any documents related to the SPP Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States or any other country outside Australia and New Zealand. In the event that a Custodian or nominee is acting for the account or benefit of a person in the United States or elsewhere outside Australia and New Zealand, it is not permitted to participate in the SPP in respect of that person without the consent of the Company. Failure to comply with these restrictions may result in violations of applicable securities laws.

- (e) **(Directors and employees of Oneview)** Directors and employees of Oneview who are Eligible Securityholders may participate in the SPP Offer.
- (f) **(Compliance with ASIC SPP Instrument)** A registered holder of CDIs will be ineligible to participate in the SPP Offer if their participation would be in breach of the ASIC SPP Instrument.

4. How much can you invest?

- (a) The minimum application amount under the SPP Offer is \$1,000. Applications under the SPP Offer may only be made for the following amounts:
 - (i) \$1,000;
 - (ii) \$2,500;
 - (iii) \$5,000;
 - (iv) \$7,500;
 - (v) \$10,000;
 - (vi) \$12,500;
 - (vii) \$15,000;

- (viii) \$20,000;
 - (ix) \$25,000; and
 - (x) \$30,000.
- (b) The SPP Offer must comply with the limit in the ASIC SPP Instrument. Under that instrument, Eligible Securityholders may only acquire a maximum of \$30,000 worth of CDIs under a security purchase plan in any 12 month period. This means that you are not permitted to acquire more than \$30,000 worth of CDIs in aggregate, even if you receive more than one Application Form or hold CDIs in more than one capacity (eg if you are both a sole and joint holder of CDIs).

5. Issue Price of New CDIs under the SPP Offer

- (a) The Issue Price will be \$0.19 per New CDI being the same price paid by investors under the Placement.
- (b) The Issue Price represents a 7% discount to the closing price of A\$0.205 on Friday, 13 March 2026 (being the last day of trading in CDIs before the Placement and SPP Offer were announced), and a 12.4% discount to the volume weighted average trading price for the 5 business days at the close of trading on Friday, 13 March 2026 of \$0.217.
- (c) The Issue Price may differ from the market price of CDIs on the day CDIs are issued or allotted to you.
- (d) The market price or value of CDIs is subject to market volatility. It may be higher or lower, at any time, than the Issue Price of the CDIs you receive.
- (e) If you apply to participate in the SPP Offer by making a valid application in accordance with these Terms and Conditions, your application is unconditional and you are accepting the risk that the market price of CDIs may change between the time you make your application and the date that the CDIs are allotted. This means it is possible that, up to or after the date when CDIs are issued or allotted to you under the SPP Offer, you may be able to buy CDIs on market at a lower price than the Issue Price. Oneview encourages you to seek your own financial advice regarding your participation in the SPP Offer.
- (f) The current CDI price can be obtained from the ASX website at www.asx.com.au (ASX code: ONE).
- (g) You agree to pay the Issue Price for each New CDI determined under section 6(d) or, if there is a Scale-back, the number of CDIs calculated under section 15.
- (h) You acknowledge that the market price of New CDIs may rise or fall between the date of this SPP Offer and the Issue Date, and that the effect of this is that the Issue Price you pay for the New CDIs may exceed the market price of CDIs on the Issue Date. If you apply to participate, your application may not be withdrawn even if the market price of CDIs is less than the Issue Price.

6. Applying for New CDIs

- (a) Eligible Securityholders may apply to purchase New CDIs in one of the following parcels: \$1,000, \$2,500, \$5,000, \$7,500, \$10,000, \$12,500, \$15,000, \$20,000, \$25,000 or \$30,000.
 - (i) if you are an Eligible Securityholder in Australia, visit the Oneview Offer Website at www.computersharecas.com.au/OneviewSPP.
 - You will need to enter your HIN/SRN and your postcode (or country if outside Australia)
 - Follow the onscreen instructions to access your unique BPAY® details
 - Make your payment of total Application Monies for the number of New CDIs that you wish to apply for based on the parcel amounts listed.
 - (ii) if you are an Eligible Securityholder in New Zealand or Ireland, and are unable to pay by BPAY®, visit www.computersharecas.com.au/OneviewSPP which contains instructions on how to pay via EFT.
- (b) If you are an Eligible Securityholder and wish to participate in the SPP Offer, you must follow the instructions on the Application Form and make a payment by BPAY® using your customer reference number (which is required to identify your holding) and the biller code, which are both on your personalised Application Form so that it is received by the Registry by 5.00pm (Sydney, Australia time) on the Closing Date.

If you are an Eligible Securityholder with a registered address in New Zealand or Ireland who is unable to make payment by BPAY, you can submit payment by EFT by following the instructions on your personalised online Application Form.

Payments must be denominated in Australian dollars only.

Your own financial institution may implement earlier cut off times for electronic payments and you should take this into consideration when paying by BPAY® or EFT. Your financial institution may have set a limit on the amount that you can pay by BPAY® or EFT.

- (c) Receipts for payment will not be issued.
- (d) If you apply for New CDIs under the SPP Offer, you will apply for a certain value, rather than a certain number, of New CDIs. Subject to section 6(f), Oneview will divide the parcel value you select by the Issue Price to determine the number of New CDIs for which you have applied (rounded down to the nearest whole number of New CDIs). Any balance of money sent by you that is remaining as a result of rounding will be refunded to you except where the amount is less than \$2.00 (or an amount advised by Oneview) in which instance it will be donated to charity (at Oneview's discretion).
- (e) You will not be charged brokerage, commission or other transaction costs on the acquisition of any New CDIs.
- (f) Eligible Securityholders who receive more than one offer under the SPP Offer (eg because they hold CDIs in more than one capacity) may apply by submitting separate payments for New CDIs but may not apply for New CDIs with an aggregate value of more than \$30,000.
- (g) If you are a Custodian, you may apply for up to \$30,000 worth of New CDIs for each underlying Eligible Beneficiary subject to you providing a Custodian Certificate for the total of your application addressed to Oneview with the following information:
 - (i) confirmation of either or both of the following:
 - (A) that you hold CDIs on behalf of one or more other persons (each a **Participating Beneficiary**) that are not Custodians provided that each Participating Beneficiary is not in the United States and is not acting for the account or benefit of a person in the United States; or
 - (B) that another Custodian (**Downstream Custodian**) holds beneficial interests in CDIs on behalf of a Participating Beneficiary, and you hold the CDIs to which those beneficial interests relate on behalf of the Downstream Custodian or another Custodian;
 - (ii) confirmation that each Participating Beneficiary has subsequently instructed:
 - (A) if section 6(g)(i)(A) applies – you, or
 - (B) if section 6(g)(i)(B) applies – the Downstream Custodian,to apply for New CDIs on their behalf under the SPP;
 - (iii) the number of Participating Beneficiaries and their names and addresses;
 - (iv) in respect of each Participating Beneficiary:
 - (A) if section 6(g)(i)(A) applies – the number of CDIs that you hold on their behalf; or
 - (B) if section 6(g)(i)(B) applies – the number of CDIs to which the beneficial interests relate;
 - (v) in respect of each Participating Beneficiary:
 - (A) if section 6(g)(i)(A) applies – the number or the dollar amount of the New CDIs they have instructed you to apply for on their behalf; or
 - (B) if section 6(g)(i)(B) applies – the number or the dollar amount of New CDIs they have instructed the Downstream Custodian to apply for on their behalf;
 - (vi) confirming that there are no Participating Beneficiaries in respect of which the total of the application value for the following exceeds \$30,000:
 - (A) the New CDIs applied for by you in accordance with the instructions referred to in section 6(g)(v)(A) above; and
 - (B) any other CDIs issued to you in the 12 months before the application as a result of an instruction given by them to you or the Downstream Custodian to apply for New CDIs on their behalf under an arrangement similar to the SPP;
 - (vii) confirmation that a copy of this SPP Offer Booklet was given to each Participating Beneficiary; and

- (viii) where section 6(g)(i)(A) applies – a Custodian Certificate including the name and address of each Custodian who holds beneficial interests in CDIs held by you in relation to each Participating Beneficiary.
- (h) If you hold CDIs as a trustee or nominee for another person, but are not a Custodian, you cannot participate for Beneficiaries in the manner described above. In this case, the rules in section 6(f) apply.
- (i) Custodians wishing to participate on behalf of a Beneficiary or Beneficiaries must provide the certifications required by the ASIC SPP Instrument and contact the Registry by emailing custodians@computershare.com.au to request a Custodian Certificate that contains these certifications and other details required to be provided by the Custodian.
- (j) Oneview may accept or reject your application for New CDIs, either in whole or in part, in its absolute discretion. For example, Oneview may reject your application in any of the following circumstances (among others):
 - (i) your application does not comply with the Terms and Conditions;
 - (ii) it appears that you are applying to purchase a number of New CDIs that will mean that your Aggregate SPP Participation will exceed \$30,000;
 - (iii) if the aggregate amount applied for by all Eligible Securityholders exceeds Oneview's requirements;
 - (iv) your Application Form is incorrectly completed, incomplete or otherwise determined by Oneview to be invalid;
 - (v) your Application Form or BPAY®/EFT payment is received after the Closing Date. Late or otherwise incomplete or invalid payments will be returned or refunded to you;
 - (vi) Oneview believes you are not an Eligible Securityholder (subject to compliance with any applicable ASIC or ASX requirements);
 - (vii) if you are a Custodian, your application is not accompanied by a duly completed Custodian Certificate;
 - (viii) your application might prejudice the effective operation of the SPP or give rise to a breach of any applicable law, ASX Listing Rule or regulation (including the ASIC SPP Instrument or any other legislative instrument);
 - (ix) payment of the application monies is not submitted in Australian currency; or
 - (x) the amount of your application payment is not equal to a valid parcel, in which event Oneview will:
 - (A) refund in full your application monies and not allot any New CDIs to you; or
 - (B) allot to you the number of New CDIs that would have been allotted had you applied for the highest designated amount that is less than the amount of your payment and refund to you the excess of your application monies.

7. Investment Risks

Subscription for New CDIs under the SPP Offer is a speculative investment and the market price may change between the date you apply for New CDIs and the issue of New CDIs to you. Accordingly, the value of New CDIs applied for is likely to rise or fall. Importantly, there is a risk that during the period between when you apply for New CDIs and when the New CDIs are issued to you, the price at which CDIs are traded on the ASX may be less than the Issue Price payable under this SPP Offer. If this occurs, the value of your investment in New CDIs will be less than the amount you invested. Accordingly, you should consider price movements of CDIs before applying for New CDIs under the SPP Offer.

This document is not a prospectus or product disclosure statement, and has not been lodged with ASIC. The lodgement of a prospectus or product disclosure statement is not required for the purposes of the SPP Offer. This document does not contain the types of disclosure required to be contained in a prospectus or product disclosure statement. You must rely on your own knowledge of Oneview, previous disclosures made by Oneview to the ASX (including disclosures regarding the risks of making an investment in Oneview) and, if necessary, consult your professional adviser when deciding whether or not to participate in the SPP Offer.

Section 23 of this document contains a summary of the potential risks associated with its business and an investment in Oneview. If any of the risks eventuate, they could have a material adverse effect on Oneview's business, financial condition, operating and financial performance and return to CDI holders. The risk factors set

out in that section are not exhaustive. Additional risks that Oneview is unaware of, or that Oneview currently considers to be immaterial, also have the potential to have a material adverse effect on Oneview's business, financial condition and operating and financial performance. Before making an investment decision, potential investors should thoroughly review and carefully consider all publicly available information (including this announcement and the risk factors set out within) concerning Oneview and carefully consider whether Oneview CDIs are suitable to acquire having regard to their own investment objectives and financial circumstances.

8. Number of New CDIs to be Issued

If you apply for New CDIs, you will apply for a certain value, rather than a certain number, of New CDIs.

If your application is accepted, Oneview will divide the value of your application monies by the Issue Price (as outlined in section 5) in order to determine the number of New CDIs which, subject to Scale-back, will be issued to you.

If this calculation produces a fractional number, the number of New CDIs you are issued will be rounded down to the nearest whole number of New CDIs (refer to section 15(d) for information on rounding in the event of a Scale-back).

9. Issue

New CDIs are expected to be issued on the Issue Date and will rank equally with existing CDIs as at the Issue Date.

Oneview will apply to ASX for the quotation of New CDIs. It is anticipated that the New CDIs will be quoted on ASX, and that trading of the New CDIs will commence, on Monday, 20 April 2026.

The Registry will send you a holding statement, confirming the issue of the New CDIs, on or around Wednesday, 22 April 2026.

11. Refunds

In the event of: (a) Scale-back in accordance with section 15; or (b) where the unallocated money of an individual application is greater than \$2.00 in accordance with section 6(d), the difference between the value of the New CDIs you are issued (calculated using the Issue Price) and the application money you paid will be refunded to you by Oneview, without interest, following issuance of the New CDIs.

14. Rights Attaching

The rights and obligations of the New CDIs are contained in the constitution of Oneview and are regulated by the Irish Companies Act, the ASX Listing Rules and general law. Any New CDIs under the SPP will be issued on the same terms as all other CDIs and Oneview will apply for those New CDIs to be quoted on the ASX.

15. Scale-back and oversubscriptions

- (a) Oneview may, in its absolute discretion, reduce the number of New CDIs issued to each applicant to the extent and in the manner that it sees fit, including if the aggregate amount applied for by all Eligible Securityholders exceeds Oneview's requirements (**Scale-back**). If undertaken, Oneview intends to take into account the application size of each applicant and the number of CDIs held on the Record Date (subject to any minimum dollar allocation determined by Oneview in its absolute discretion). However, Oneview is not required to conduct a Scale-back in this way and may Scale-back the number of New CDIs in any manner in its absolute discretion.
- (b) If there is a Scale-back, you may receive less than the parcel of New CDIs for which you have applied.
- (c) If there is a Scale-back, the difference between the application money received from you, and the number of New CDIs allocated to you multiplied by the Issue Price, will be refunded by Oneview, without interest, following issue.
- (d) If a Scale-back produces a fractional number of New CDIs when applied to your parcel, the number of New CDIs you will be issued will be rounded down to the nearest whole number of New CDIs.
- (e) Oneview reserves the right to accept oversubscriptions deemed appropriate but not exceeding the threshold of \$30,000 per Eligible Securityholder under the ASIC SPP Instrument and not exceeding the threshold of 30% of the CDIs on issue consistent with ASX Listing Rule 7.2, Exception 5.

16. Costs of Participation

No brokerage costs will be payable by Eligible Securityholders in respect of the application for, and issue of, New CDIs under the SPP Offer.

17. Privacy

23. Risk Factors

This section describes some of the potential key risks associated with Oneview's business and an investment in Oneview. The risks associated with Oneview's business and the general risks set out in the "2024 Annual Report to Shareholders" released on 6 March 2025 (Annual Report) still apply, as updated by the risks set out below. If any of these risks eventuate, they could have a material adverse effect on Oneview's business, financial condition, CDI price, operating and financial performance and return to CDI holders. The risk factors set out below and in the Annual Report are not exhaustive. In particular, there are risks associated generally with investing in securities, including that trading in CDIs may not be liquid and the price may fluctuate.

Strategic Risks

1. Failure to successfully implement its business strategy

There is a risk that Oneview's business strategy or any of its growth initiatives will not be successfully implemented, deliver the expected returns or ultimately be profitable. If Oneview's patient engagement solutions are not widely adopted, for example due to failure to demonstrate return on investment or a slower-than-expected expansion of the market, demand for the Oneview solution could be negatively impacted.

Should it not deliver its strategy, Oneview may be unable to meet operating expenditures as they become due and may not generate the financial returns it intends (noting that Oneview has operated at a loss since its incorporation, including in the financial year ended 31 December 2025). As an example, there is a risk that the VAR partnership agreement with Baxter International Inc. may not execute as planned or there may be delays in delivery of milestones under the Baxter VAR agreement which may result in unforeseen costs, failure to achieve anticipated revenue or failure to achieve intended outcomes.

There is also a risk that Oneview is unable to scale fast enough to secure and implement client contracts that may present to it in the future. Further, growth into new markets may be inhibited by unforeseen issues particular to a territory or sector, including the need to invest significant resources and management attention to the expansion, and the possibility that the desired level of return on its business will not be achieved.

2. Implementation, installation and hardware risk

Customers frequently require Oneview to contract with third party suppliers to source and install the appropriate hardware to operate the Oneview Connected Care Experience solutions at the customer's locations. There is a risk that Oneview is required to fund the hardware procurement costs where it is unable to negotiate preferential payment terms with its clients or alternatively encourage its clients to enter into direct contracts with third-party hardware providers. A requirement to fund hardware procurement costs has an initial negative cashflow impact and any interruptions in the timing for hardware installation can result in further delayed realisation of cash flows. Oneview's reliance on third parties to deliver and support its products also exposes it to risks where those third-party suppliers may not satisfy their obligations in accordance with their contract with Oneview. For example, where the product delivered and installed by a third-party hardware provider does not match contracted requirements or there are supply chain interruptions, this can lead to disruptions in the implementation process, operational or business delays or problems with the service delivered which may damage Oneview's reputation and may result in claims against Oneview by its clients and potential client disputes, potential breach or termination of contracts and/or may impact the renewal of existing contracts or Oneview's ability to win new contracts. Oneview's third-party technology supplier contracts may also not entitle the Company to recover all of the losses it may suffer. These events may have a material adverse effect on Oneview's business, operating and financial performance and position.

3. Competition and technology risk

Oneview's operating performance is influenced by several competitive factors, including the success and awareness of its brand, its sophisticated technology and its commitment to ongoing product innovation. The industry in which Oneview operates, including in Australia, the U.S., Europe and other markets, is subject to increasing domestic and global competition and any change in the foregoing competitive factors, or others, may impact Oneview's ability to execute its growth strategy. As such there is a risk that:

- Oneview may fail to anticipate and adapt to technology changes or client expectations at the same rate as its competitors, or may not have the available resources to deliver customer needs;
- Existing competitors could increase their competitive position through aggressive marketing, product innovation and/or price discounting (which could result in price reductions, reduced gross margins and loss of market share);

- Existing or new competitors could offer software at a more competitive price, which may affect Oneview's ability to sustain or increase prices (even where the Oneview solution has better functionality);
- Clients who currently utilise patient engagement solutions offered by existing competitors (including local operators in specific markets or those with a greater market share in certain markets) which have often been in place for a considerable period of time or have onerous termination clauses, may determine that it is prohibitively costly and/or time consuming to adopt the Oneview solution; and
- New competitors, including large global Electronic Health Record corporations or large software vendors operating in adjacent industries, may enter the market. These corporations may have well-recognised brands, longer operating histories or pre-existing contractual relationships, or greater financial and other resources to apply to R&D and sales and marketing, which may enable them to expand in the patient engagement solutions industry more aggressively than Oneview and/or may enable them to better withstand any downturns in the market.

In addition, competitors are broadening their capabilities in patient engagement and smart-room technologies. This trend towards full-stack platforms integrating virtual care and patient engagement could pose challenges to Oneview's differentiation strategy and potential market share, including because it may result in decreased demand for patient engagement platforms or the Company's products becoming redundant. The Company's ability to innovate at pace, deploy efficiently at scale, and maintain strong customer outcomes remains essential in sustaining competitive advantage and ensuring that Oneview's current and future technologies and products do not become obsolete or uncompetitive.

4. Product Development

Cost estimates for product development and improvement are based on assumptions and judgments which may prove inaccurate. There is a risk that significant unforeseen costs or delays may arise due to technical complexities, hardware cost increases or contractual constraints. If new features or products are not adopted by customers, or do not deliver anticipated outcomes, this could negatively impact Oneview's growth and profitability. There is also no certainty that Oneview will be able to develop new products to broaden its revenue channels. Management continues to invest in the product roadmap and has introduced an AI-enabled development lifecycle to drive greater efficiency and quality in product development. AI-enabled functionality within Oneview products may not perform as intended, which could result in customer complaints, remediation costs or reputational harm.

5. Inorganic Growth Ambitions

Oneview's growth ambitions include the evaluation of both organic and inorganic initiatives and opportunities, including potential mergers, acquisitions or strategic investments. Any such transaction carries inherent risks that could adversely impact Oneview's business, financial performance, or the value of its equity.

Potential transactions may not complete on acceptable terms—or at all—and could require significant management time, due-diligence costs, and advisory fees without any corresponding benefit. If completed, acquisitions may fail to deliver anticipated synergies, may integrate more slowly than expected, or may expose Oneview to unforeseen liabilities, operational challenges, or cultural misalignment. Integration risks include diversion of leadership attention, disruption to existing operations, challenges unifying technology platforms, and the potential loss of key employees or customers.

Inorganic growth may also require Oneview to incur debt, issue new equity, or deploy cash reserves. Equity issuance could dilute existing securityholders and exert downward pressure on the CDI price, while leverage may reduce financial flexibility. There can be no assurance that any inorganic initiative will enhance securityholder value. If an acquisition does not meet expectations or introduces unexpected costs, it could have a material adverse effect on Oneview's financial condition, growth trajectory, and returns to securityholders.

There can also be no guarantee that Oneview will identify any future acquisition opportunities or be able to complete future acquisition opportunities on acceptable terms or, if it does do so, that such acquisitions will be effectively integrated into the Company's business.

Operational Risks

6. Failure to retain existing customers and attract new business / contracts

Oneview's business is dependent on its ability to retain its existing clients, secure new clients and contracts and maintain business relationships. Oneview may not be able to attract new clients at the rate it currently expects or has experienced historically and there is a risk that existing Oneview clients terminate their contracts without cause and on short notice and without financial penalty or do not renew their contracts when the initial contract term comes to an end (generally 3 to 5 years after commencement). There is also a risk of delay or cancellation of projects that Oneview successfully tendered for and/or termination of client customer contracts that Oneview has entered into but not yet commenced implementing. There is also a risk that clients may adopt different strategies or priorities (including because they face budgetary constraints) which reduce the need or desire to

implement Oneview's solution. This could have a negative impact on Oneview's successful implementation of its business strategy, having an adverse impact on its business, financial performance and operations, particularly if this were to occur in relation to a number of different customer relationships.

7. Contract risk

Oneview's client contract tender processes often take 12-18 months to conclude. As a consequence, there is a timing risk: external factors may change the nature of these contracts and cause them to be cancelled or delayed, which will impact future revenue, earnings and cash flow.

8. Risk that the Oneview solution is disrupted, fails or ceases to function efficiently

Oneview depends on the performance and reliability of its technology platform. There is a risk that the Oneview solution contains defects or errors, which become evident when the software is implemented for new clients or new versions or enhancements are rolled out to existing clients. Internet-based services frequently contain undetected errors when they are introduced or when new versions or enhancements are released. In addition, Oneview may experience excessive downtime or performance issues with its technology platform. Such occurrences could harm Oneview's reputation, its financial position and performance, its ability to generate new business, its customer satisfaction and impact its customer renewals. Further, Oneview typically warrants its software for the life of the client contract, so defects in existing or future developed products and services may lead to warranty claims, which could have a material adverse effect on Oneview's business, financial performance and operations.

9. Information technology and cyber security

Oneview's business is dependent on the efficient operation of information technology systems to support its operations and to ensure security and privacy of information. Any system failure, virus, malicious codes, breach of data and IT security issues could result in business interruption, the loss of clients or contracts, damaged reputation and a weakening of Oneview's competitive market position, particularly where restorative/substitute technology systems are not available on acceptable terms. Furthermore, there is a risk that the Oneview solution is the subject of a cyber-attack which could compromise or even breach the technology, rendering the Oneview solution unavailable for a period until the software is restored and/or resulting in the theft, loss or corruption of sensitive data (including patient data, client or business data) and damage to Oneview's business prospects and reputation. End-of-life hardware deployed at certain customer sites may continue to be used despite no longer being supported by the hardware vendor, including the unavailability of security patches, which may increase exposure to security vulnerabilities. The effect of any such event could extend to compensation claims from patients, reputational damage, regulatory scrutiny and fines. Such circumstances could negatively impact upon Oneview's business, financial performance and operations.

10. Actual and potential disputes

Due to the contractual nature of Oneview's relationships, Oneview may in the future be subject to claims, disputes or proceedings in its ordinary course of business. Any dispute could be costly and damaging to Oneview's reputation, business relationships, operating and financial performance and position.

11. Significant unanticipated costs or delays might arise in relation to Oneview's business

Cost estimates are made in advance of undertaking a contract and are dependent upon assumptions, estimates and judgments, which may ultimately prove to be inaccurate or unreliable. There is a risk that significant unanticipated costs or delays may arise during the course of implementation due to (i) errors and omissions; (ii) unforeseen technical conditions or increases in hardware costs; or (iii) inadequate contractual arrangements. Significant unanticipated costs could have a material adverse impact on margins and, ultimately, Oneview's business, financial performance and operations. This risk can be amplified in a higher inflationary environment, where supply chain challenges and inflationary pressures may result in Oneview incurring increased material and component prices, labour rates and supplier costs which it is unable to pass through (either at all, or only in part) under its contractual arrangements.

12. Personnel risk

Oneview is reliant on the talent, effort, expertise, industry experience and contacts, and leadership of its management. Whilst Oneview has entered into employment contracts with all management personnel, their retention cannot be guaranteed and the loss of any of Oneview's senior members of management and the inability to recruit suitable replacements represents a material risk to Oneview which may have a material impact on its business, financial performance and operations. Competition for talent in software and technology development is intense, and the loss of key personnel or inability to recruit suitable replacements could constrain growth, reduce service quality and weaken Oneview's competitive position. There is also a risk that, as Oneview grows, it cannot attract and retain personnel with the necessary industry experience, expertise and ability to execute its strategy, such that its future growth may be restricted and the quality of its services and revenues reduced, with a corresponding adverse impact on its business, financial performance and operations.

13. Market adoption of Patient Engagement Solutions

If Oneview's patient engagement solutions are not widely accepted for use by healthcare providers, including as a result of Oneview's failure to prove return on investment, or if the market for patient engagement solutions (or Oneview's other products) in the healthcare industry fails to grow at the expected rate, demand for the Oneview solution could be negatively impacted and Oneview's ability to sustain and grow its business may be adversely affected.

14. Reliance on its core product and failure to develop new products

Oneview derives all of its revenue from the sale and associated installation of the Oneview solution as well as the recurring software license fees. It relies on its ability to develop new products, features and enhancements to the Oneview solution. There is a risk that upgrading the Oneview solution or introducing new products may result in unforeseen costs, may fail to achieve anticipated revenue or may not achieve intended outcomes. A failure by Oneview to develop successful new products, features and enhancements to the Oneview solution may have an adverse impact on its ability to develop client relationships and maintain current relationships.

15. Intellectual Property Risk

Oneview relies on its intellectual property rights and there is a risk that Oneview may fail to protect its rights for a number of reasons. Oneview has historically used a mixture of legal (e.g. confidentiality agreements and code of conduct agreements) and technical (e.g. data encryption) methods to protect its intellectual property. As Oneview grows and diversifies geographically, there is a risk that these actions may not be adequate and may not prevent the misappropriation of its intellectual property, prevent intellectual property from being subject to challenge or invalidation or deter independent development of similar products by others. There is also a risk that Oneview may be unable to detect the unauthorised use of its intellectual property rights in all instances. If Oneview fails to protect its intellectual property rights adequately, competitors may gain access to its technology, which would in turn harm its business, financial performance and operations.

16. Integration risk

Oneview depends on the performance and integration capability of the Oneview solution with clients' existing systems. The functionality and accessibility of the platform is important to customers and any disruption or issues with the integration could harm Oneview's reputation and its ability to generate revenue from existing customers or to win new business.

17. Foreign operations and sovereign risks

As the Company is incorporated in Ireland, certain provisions of the Australian Corporations Act 2001 (Cth) (Australian Corporations Act), including in relation to takeovers and substantial holdings do not apply. Similarly, the Company is not bound by the takeover rules under Irish law because they only apply to public companies incorporated in Ireland whose securities are, or have in the previous five years been, traded on certain exchanges (which do not include the ASX (Australian Securities Exchange)). The Company has therefore incorporated into its Constitution security holder protection provisions that are similar to the provisions of the Australian Corporations Act. In these circumstances, any claim against the Company for a breach of its Constitution would need to be brought in Ireland. Any such claim would be contractual in nature and may therefore not have the same level of enforceability as a claim under the Australian Corporations Act. As a result of the Company being incorporated in Ireland, it may also be difficult for investors to effect service of process upon the Company within Australia and/or to enforce any judgments obtained in a court other than the Irish courts against the Company.

18. Dependency on service providers

Oneview conducts a significant amount of its operations through a series of contractual relationships with third-party service providers. Such arrangements carry a risk that the third parties do not adequately or fully comply with their respective contractual rights and obligations. Such failure may lead to contractual termination and/or significant reputational damage to Oneview. Oneview relies on third-party hardware providers to support its products and services. Factors concerning performance of this hardware, the availability of spare parts and maintenance services which can only be completed externally, may affect the ability of Oneview to maintain its software and minimise interruptions to the continuous performance of its systems, which could impact existing customer retention and attraction of new customers and also cause reputational damage to Oneview.

Financial Risks

19. Funding requirements, including reduced access to funding

In the future, Oneview could be required to raise capital through public or private financing or other arrangements. Access to capital markets may be impacted by a variety of factors, including general changes in global capital markets. There is no certainty that such financing will be available on acceptable terms, or at all, and a failure to raise capital when required could harm Oneview's business. There is a risk that if Oneview

requires additional funding and cannot raise funds on acceptable terms, it may not be able to fund its operations, grow its business or respond to competitive pressures.

20. Working capital risk

Maintaining sufficient working capital is a fundamental requirement for Oneview to meet its financial obligations. Given the timing difference between accounts receivables and accounts payables falling due, Oneview may face temporary cash constraints, in particular, when Oneview has to make large advance payments for hardware procurement. The inability to maintain a strong balance sheet or to secure new capital or credit facilities (in the form of cash advance, overdraft and bonding facilities) could impact Oneview's opportunity to meet its ongoing liquidity needs, tender for new business or deliver under existing client contracts.

21. Inventory management

Oneview holds significant levels of new hardware inventory and any misalignment between inventory levels and customer demand could result in increased costs, write-downs or delayed deliveries. Holding excess hardware inventory or ineffective inventory management may lead to obsolescence or financial loss if significant deployments are not achieved over the coming years.

22. Absence of dividends

The Board has yet to establish a dividend policy and does not expect to pay dividends in the near term. While Oneview continues to expand its business operations, Oneview expects to continue to reinvest in its growth rather than distribute profits in the form of dividends. The ability of Oneview to pay any dividend in the future is dependent on many factors. The Directors do not give any assurance regarding the payment of dividends in the future.

23. Foreign Currency risk

Oneview's financial reports are prepared in Euros. However, revenue, expenditure and cashflows, and assets and liabilities from Oneview's operations are denominated in various other currencies. For example, its Australian, U.S., and Thailand operations are denominated in Australian dollars,

U.S. dollars and Thai Baht respectively. Oneview is therefore exposed to the risk of fluctuations in the value of currencies (for example fluctuations of the Euro against those currencies), and adverse fluctuations in exchange rates may negatively impact the translation of account balances and profitability from these offshore operations.

General Risks

24. Public healthcare funding and other changes to laws, regulations and policies

Oneview's business plan and strategy has been formulated based on the prevailing healthcare policy from the time of listing until the present in its focus markets (including the U.S. and Australia). It is possible that governments in Oneview's focus markets could implement healthcare policy changes that have an effect on Oneview's business and, whilst such changes can create opportunities for Oneview, there is also potential for these changes to favour competitor offerings, to require Oneview to re-engineer its products or incur additional cost or otherwise to be unfavourable to Oneview's business.

There is also a risk that government policy changes result in a reduction in healthcare funding, including specific funding for Healthcare Information Technologies "HCIT" initiatives. If funding is reduced or discontinued in the U.S. or in other target jurisdictions, this could influence the extent to which customers purchase the Oneview solution, which would have an unfavourable impact on Oneview's future business, financial performance and operations. Oneview must comply with the laws and governmental regulations in the markets in which it operates. These laws and regulations often provide broad discretion to the administering authorities. Additionally, all of these laws and regulations are subject to change, which may be retrospective. Such changes may cause Oneview to incur increased costs to ensure compliance with new applicable laws or regulations or otherwise negatively impact Oneview's business, financial performance and operations.

25. Economic and government risks

The future viability of Oneview is also dependent on a number of other factors affecting performance of all industries and not just the technology industry, including, but not limited to, the following:

- general economic conditions in jurisdictions in which Oneview operates;
- changes in government policies, taxation and other laws in jurisdictions in which Oneview and its customers operate;
- movement in, or outlook on, interest rates and inflation rates in jurisdictions in which Oneview and its customers operate; and
- natural disasters, social upheaval or war in jurisdictions in which Oneview and its customers operate.

A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have a materially adverse impact on Oneview's business

or financial condition. Changes to laws and regulations or accounting standards which apply to Oneview from time to time could adversely impact Oneview's earnings and financial performance.

26. International Trade Policies

Changes in trade policies, particularly in the U.S. and other key markets, may affect Oneview or its customers through tariffs, supply chain disruptions or increased regulatory complexity. These developments can raise costs, create uncertainty and impact both customer demand and expansion plans.

27. Global Events and Business Interruption

Geopolitical tensions, pandemics, natural disasters, industrial action and other large-scale events are beyond the Company's control yet may materially affect its operations. Such events may disrupt project implementation, reduce non-recurring revenue opportunities, affect recurring revenue growth, constrain liquidity and impair the Company's ability to meet regulatory and contractual obligations.

There are also other changes in the domestic and global macroeconomic environment associated with disruptions from global events that are beyond the control of Oneview and may be exacerbated in an economic recession or downturn. These include, but are not limited to:

- changes in inflation, interest rates and foreign currency exchange rates;
- changes in employment level and labour costs;
- changes in aggregate investment and economic output; and
- other changes in economic conditions which may affect the revenue or costs of Oneview.

28. AI-related incidents

As Oneview introduces AI-enabled features into its products, new risks emerge relating to potential misbehaviour or unintended responses from AI components, whether through deliberate misuse by users or through unexpected system behaviour. These incidents could lead to complaints or reputational damage. The Company has achieved ISO 42001 AIMS certification for responsible AI development and incorporates AI safety and ethical evaluations into its development processes; however, residual risk remains as AI usage expands.

29. Investment in equity capital markets

There are general risks associated with investments in equity capital. The trading price of CDIs in Oneview may fluctuate with movements in equity capital markets in Australia and internationally. Generally applicable factors which may affect the market price of CDIs include:

- general movements in Australian and international stock markets;
- the strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the technology sector;
- announcement of new technologies;
- geo-political instability, including international hostilities and acts of terrorism;
- demand for and supply of Oneview CDIs;
- announcements and results of competitors;
- analysts reports; and
- the financial and operating performance of Oneview.

None of Oneview, its board of directors or any other person guarantees the market performance of the CDIs or of Oneview. It is also possible that new risks may emerge as a result of Australian or global markets experiencing extreme stress or existing risks may manifest themselves in ways that are not currently foreseeable. The equity markets have in the past and may in the future be subject to significant volatility.

30. CDI liquidity risk

There can be no guarantee of an active market in the CDIs in Oneview or that the price of the CDIs will increase. There may be relatively few potential buyers or sellers of Oneview CDIs on the ASX at any time. This may increase the volatility of the market price of Oneview CDIs. It may also affect the prevailing market price at which securityholders are able to sell their CDIs in Oneview.

31. Sale by long term securityholders and directors

Any significant sale of CDIs, or the perception of a sale of CDIs, by a long term investor in the Company or the directors might have an adverse effect on the price of the CDIs or the perceived value of the Company.

32. Global conflicts

The war between Ukraine and Russia and Israel and Palestine, as well as the current expanded conflict in the Middle-East and other potential conflicts (together, Global Conflicts), have impacted and may continue to impact

global economic markets. The nature and extent of the effect of Global Conflicts on the performance of Oneview remains unknown. The Oneview's CDI price may be adversely affected in the short to medium term by the economic uncertainty caused by Global Conflicts.

Global Conflicts have potential secondary and tertiary macroeconomic impacts, including impacts on pricing of commodity and energy markets, effects on global supply chain and freight movements which would impact the supply of raw materials and delivery of finished goods and the potential of cyber activity impacting governmental or industry measures taken in response to Global Conflicts.
