Quarterly Activity Report: January – March 2026

Highlights:

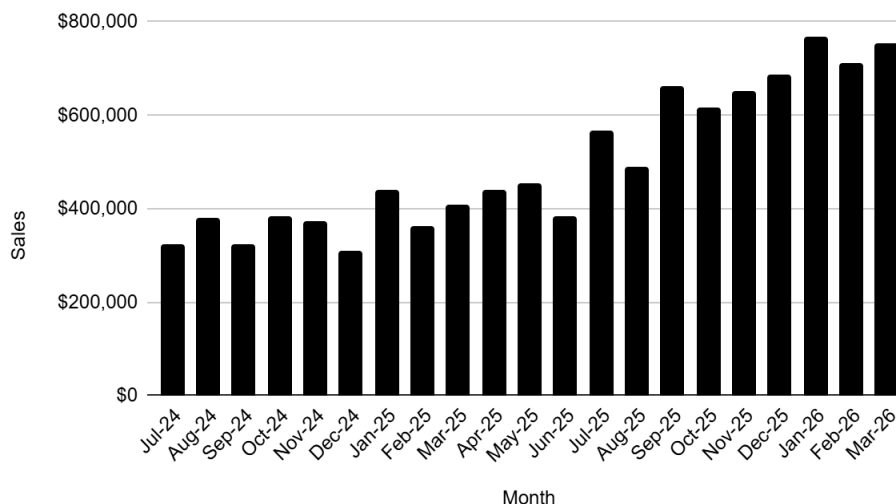

- Q3 FY26 sales of \$4.6M
- Q3 FY26 breakeven operating cash flow
- 9 months YTD positive operating cash flow of \$0.7M
- \$2.3M cash on hand
- \$3.7M of inventory on hand
- Refurbished tech division monthly sales now exceeding \$0.7M monthly

Pure-play online retailer Harris Technology Group Limited (ASX: HT8) (“Harris Technology” or the “Company”) is pleased to present its activity report for the March 2026 quarter (Q3 FY26).

Operations Update

Harris Technology generated sales revenue of \$4.6M in the March 2026 quarter. Sales growth continues to be driven by the Refurbished tech division with its monthly sales exceeding \$0.7M in each calendar month in the March quarter.

Refurbished Tech Monthly Sales

Following a strong six months which generated \$0.7M in positive operating cash in H1 FY26, Harris Technology increased its cash deployment towards sourcing pre-owned tech products in the March quarter, driven by lower inventory hold times and higher margins compared to new IT products.

Harris Technology is now refurbishing and selling more than 2,000 products per month - a mix of laptops, PCs, tablets, servers, monitors, routers and computer accessories.

Gross margin across the Group for the March quarter was 31.6% which included a segment of post-Christmas IT stock sold at clearance prices to optimise cash flow.

As of 31 March 2026, inventory on hand was \$3.7M, higher than \$3.0M reported at the end of December. This was reflective of increased sourcing of pre-owned tech products ripe for refurbishment with \$3.5M of inventory purchased in the March quarter, capitalising on greater purchasing power unlocked by improved vendor relationships and volume buying.

Harris Technology closed the quarter with \$2.3M of cash on hand with \$1.3M undrawn on its finance facility.

Trading results to the end of March 2026 indicate that for the year ended 30 June 2026, the Group is likely to return to a profitable position after tax. This compares with the loss for the full year ended 30 June 2025 of \$958K.

Harris Technology CEO, Garrison Huang, commented, "Rising sales for refurbished tech products shows that demand for refurbished tech is not slowing, and is in fact increasing as macroeconomic conditions highlight the value for cost-conscious customers by purchasing refurbished tech as an alternative to new.

"With monthly sales of refurbished tech now exceeding \$0.7M, Harris Technology has a clear pathway to consolidating profitability with capacity to refurbish 3,000 products per month."

Expenditure incurred during the quarter
