QUARTERLY ACTIVITIES REPORT

FOR PERIOD ENDING 31 MARCH 2026

HIGHLIGHTS

West Arunta Tenure and Exploration Activities

- Progressed review of exploration opportunities within Agrimin's West Arunta tenure
- Completion of GSWA airborne magnetic and radiometric West Arunta survey with report expected to be available in the June 2026 quarter
- Ongoing evaluation of other project opportunities across Australia

Mackay Potash Project

- Full or partial surrender of several tenements as part of the Strategic Review actions
- Broader stakeholder engagement continued, with rehabilitation planning involving local community services

Corporate

- Continued project and corporate cost control measures implemented
- Cash balance of \$1.3 million as at 31 March 2026
- Investments: 40% shareholding in Niobium Holdings Pty Ltd (which owns approximately 11% of WA1 Resources Ltd (**ASX: WA1**)) and approximately 27% shareholding in Tali Resources Ltd (**ASX: TR2**)

Agrimin Limited (**ASX: AMN**) ("**Agrimin**" or "**the Company**") is pleased to report its activities for the quarter ending 31 March 2026.

West Arunta Tenure and Exploration Activities

The West Arunta region in Western Australia (“WA”) is rapidly gaining attention as a new frontier for mineral exploration, particularly due to its critical minerals potential, including rare earth elements, niobium, copper and gold.

Agrimin holds granted Exploration Licences and Mining Entry Permits over geological areas of interest and is evaluating the potential for future exploration of these. In addition, Agrimin has reviewed potential exploration opportunities and is advancing discussions in relation to acquiring exploration tenure in other regions across Australia.

The Geological Survey of Western Australia (“GSA”) airborne magnetic and radiometric geophysical surveys were completed across the broader West Arunta region at the end of 2025. The datasets and reports will be made available at no cost and are expected to significantly improve the quality of the available magnetic and provide uniform data coverage for the region.

The magnetic data will specifically assist with interpreting geological structures and, due to a far greater resolution than previous investigations, additional magnetic features and anomalies may be detected. The datasets are expected to be made available in the June 2026 quarter. Interpretation of the data will commence shortly thereafter.

Agrimin continues to evaluate a range of potential new exploration project opportunities located within Australia.

Mackay Potash Project Activities

Background

The Mackay Potash Project (“**the Project**”) is situated on Lake Mackay in WA. Lake Mackay hosts significant volumes of brine (hypersaline groundwater) containing dissolved potassium and sulphate which could produce high-grade, water-soluble organic sulphate of potash (“**SOP**”) fertiliser.

The closest community to the Project is Kiwirrkurra and a Native Title Agreement remains in place with Tjamu Tjamu (Aboriginal Corporation) RNTBC (“**Tjamu Tjamu**”) in relation to the Project.

A Strategic Review of the Project concluded in 2025. The Company has commenced a process of withdrawing from the Project.

Community Engagement and Rehabilitation

Planning for further rehabilitation of the Project area continued during the quarter. Rehabilitation activities are expected to take place in the drier months of the June and September quarters of 2026.

Tenement Management

Several Lake Mackay tenements were fully or partially surrendered during the quarter, prior to their anniversary dates and the associated rents due for the 2026/2027 period. Deferred rent payments relating to 2025/2026 were made prior to lodgement of the surrender applications. The surrender of the Lake Mackay tenements is related to the key outcomes of the Strategic Review, specifically to withdraw from the Exploration Licences which cover the majority of the brine-hosted potash minerals of the Project and to implement cost saving measures across the Company.

Corporate Activities

Niobium Holdings Pty Ltd

Agrimin holds a 40% interest in Niobium Holdings Pty Ltd (formerly Tali Resources Pty Ltd), which owns approximately 11% of WA1 Resources Ltd (**ASX: WA1**) ("**WA1**"). Niobium Holdings Pty Ltd does not have any other significant assets or any overhead costs other than limited compliance costs.

Tali Resources Ltd

Agrimin holds an approximate 27% interest in Tali Resources Ltd (**ASX: TR2**) ("**Tali**"), which has a significant tenure holding and mineral rights in the West Arunta region of WA. The shares held by Agrimin are classified as restricted securities and have been placed in escrow for 24 months following the ASX listing of Tali on 18 July 2025.

Corporate Overheads

During the quarter, Agrimin continued to implement cost reduction measures across project related and corporate activities supporting the Company's ongoing efforts to preserve cash and streamline operations.

Summary of Expenditure Incurred on Activities

The Company incurred expenditure on activities for the quarter of \$648,000, which for accounting purposes has been allocated to exploration and evaluation activities. No expenditure was allocated to development or production activities during the quarter. Exploration and evaluation expenditure during the quarter primarily related to tenement rents which is elevated due to deferred 2025 tenement rents of approximately \$595,000.

The financial information for the quarter is detailed in the accompanying Appendix 5B. Please note that exploration expenditures and a \$333,000 R&D grant (December 2025 quarter) have been reclassified from Operating to Investing activities to align with the Company's audited Half-Year Financial Statements and capitalisation policy under *AASB 6: Exploration for and Evaluation of Mineral Resources*.

Payments to Related Parties of the Entity

A description of and explanation for payments to related parties and their associates per Section 6.1 of the Appendix 5B for the quarter ending 31 March 2026 is set out below (**Table 1**).

8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.4
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: The Company does not expect to maintain the current level of net operating cash outflows. The elevated exploration and evaluation expenditure during the quarter primarily relates to non-recurring deferred tenement rent of approximately \$595,000. The associated tenements have since been surrendered or partially relinquished.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: During the March quarter, the Company surrendered three tenements and partially relinquished two tenements, resulting in an estimated annual cost saving of approximately \$580,000. The Company will consider funding initiatives as required, has a demonstrated track record of successfully raising capital when required, and considers it reasonably likely that further funding would be secured if required.	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company expects to continue its operations and meet its business objectives, supported by its reduced cost base and ongoing assessment of new opportunities. If required, the Company expects to be able to raise additional capital to support its activities.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
6. Exploration and evaluation expenditure previously reported as Operating Activities (Item 1.2a) in the preliminary December quarterly report has been reclassified to Investing Activities (Item 2.1d) in this quarter. This adjustment ensures consistency with the audited half-year financial statements finalised in March and the entity's policy of capitalising such costs under *AASB 6: Exploration for and Evaluation of Mineral Resources*.
7. Investing Activities (Item 2.5) includes a \$333,000 grant previously reported under Operating Activities (Item 1.7) in the preliminary December report. This reclassification has been made to align with the audited Statement of Cash Flows finalised in March, as the grant specifically relates to capitalised exploration and evaluation.
