EG ACQUISITION FINAL REMEDY OFFER TO ADDRESS COMPETITION CONCERNS

On 22 April 2026, Ampol lodged a final remedy offer with the Australian Competition & Consumer Commission (ACCC) in connection with its proposed acquisition of EG Australia.

The final remedy offer includes four (4) additional sites to be divested, taking the total remedy offered by Ampol from 37 to 41 sites. This marks an important milestone in the process and follows further constructive engagement with the ACCC. Ampol has included these additional sites with a view to finalising the regulatory process expeditiously.

Ampol intends to divest the sites as a package and has identified, and materially progressed discussions with, potential buyers.

The Phase 2 ACCC determination is required to be made no later than 5 June 2026 (subject to an extension of up to 15 Business Days at the discretion of the ACCC). The transaction is targeted for completion in mid-2026 subject to receiving ACCC clearance and completing other conditions precedent.
