Important information

The information in this presentation is provided for general information regarding 29Metals Limited (the ‘**Company**’) and its subsidiaries (together with the Company, ‘**29Metals**’). Material information in this presentation has principally been derived from the Appendix 4D and Half-Year Financial Report for the six-months ended 30 June 2022, as released to the ASX announcements platform on 29 August 2022 (the ‘**HY22 Financial Results**’). This presentation should be read in conjunction with the HY22 Financial Results.

This presentation is not a recommendation to invest in 29Metals securities, and the information presented does not purport to include all of the information that a person may require in order to decide whether to invest in 29Metals securities. Prospective investors must seek their own legal or other professional advice.

NON-IFRS FINANCIAL INFORMATION METRICS USED IN THIS RELEASE

This presentation contains certain information, such as C1 Costs, AISC, Site Operating Costs, Royalties and Other Selling Costs, EBITDA, Adjusted NPAT, Adjusted EPS, Drawn Debt, Net Cash, Net Drawn Debt and Cu-eq, that is not recognised under Australian Accounting Standards and is classified as ‘non-IFRS financial information’ under ASIC Regulatory Guide 230 (Disclosing non-IFRS financial information).

Non-IFRS financial information metrics do not have standardised meanings under the Australian Accounting Standards and, as a result, may not be comparable to the corresponding metrics reported by other entities. The non-IFRS financial information metrics in this release are unaudited.

29Metals uses these non-IFRS financial information metrics to assess business performance and provide additional insights into the underlying performance of its assets.

The Appendix to this presentation sets out the definitions for non-IFRS financial information metrics used in this presentation, including a reconciliation of Adjusted NPAT to NPAT and EBITDA to NPAT.

Readers are cautioned not to place undue reliance on non-IFRS financial information cited in this presentation. Non-IFRS financial information should be considered in addition to, and not as a substitute for, financial information prepared in accordance with Australian Accounting Standards.

PRO FORMA FINANCIAL INFORMATION

This presentation also contains certain pro forma financial information regarding the six-months ended 30 June 2021 (the prior corresponding period). Pro forma financial information is non-IFRS financial information and is unaudited.

The pro forma financial information in this presentation has been included to provide investors with additional insights regarding the operating and financial performance of the Group. Information regarding the basis of preparation of the pro forma financial information included in this presentation is set out in the Operating Financial Review included in the HY22 Financial Results.

As above, readers are cautioned not to place undue reliance on non-IFRS financial information cited in this presentation. Non-IFRS financial information should be considered in addition to, and not as a substitute for, financial information prepared in accordance with Australian Accounting Standards.

PRESENTATION CURRENCY AND ROUNDING

29Metals functional currency is Australian dollars (‘\$’). Unless otherwise stated, all financial information in this presentation is in Australian dollars.

Financial information in this presentation is subject to rounding.

FORWARD LOOKING STATEMENTS

This presentation contains forward-looking statements and comments about future events, including statements in relation to 29Metals’ business plans and strategies, and future developments. Forward looking statements can generally be identified by the use of words such as, “*expect*”, “*anticipate*”, “*likely*”, “*intend*”, “*should*”, “*could*”, “*may*”, “*plan*”, “*propose*”, “*will*”, “*believe*”, “*forecast*”, “*estimate*”, “*target*” and similar expressions. Indications of, and guidance or outlook regarding, future performance are also forward-looking statements.

Forward looking statements involve inherent risks, assumptions and uncertainties, both general and specific, and there is a risk that predictions, forecasts, projections and other forward looking statements will not be achieved. A number of important factors could cause 29Metals’ actual results to differ materially from the plans, objectives, expectations, estimates, targets and intentions expressed in such forward looking statements, and many of these factors are beyond 29Metals’ control. Relevant statements may prove to be incorrect, and circumstances may change, and the contents of this presentation may become outdated as a result.

Forward looking statements are based on 29Metals’ good faith assumptions as to the financial, market, regulatory and other relevant environments that will exist and affect 29Metals’ business and operations in the future. There may be other factors that could cause actual results or events not to be as anticipated, many of which are beyond 29Metals’ reasonable control, and 29Metals does not give any assurance that the assumptions will prove to be correct.

Readers are cautioned not to place undue reliance on forward looking statements, particularly in the current economic climate with the significant volatility, uncertainty and disruption caused directly or indirectly by the COVID-19 pandemic. Except as required by applicable laws, 29Metals does not undertake any obligation to publicly update or revise any forward-looking statements, to advise of any change in assumptions on which any forward looking statements are based, or to publish forward looking statements in the future.

First dividend of 2cps, fully franked, delivering returns to shareholders

¹ Net Cash is a non-IFRS financial information metric. Refer to important information regarding the use of non-IFRS financial information at the beginning of this presentation.

Appendix

Definitions of Non-IFRS Financial Information Metrics

METRIC	DEFINITION
Adjusted EPS	is adjusted earnings per share, and is calculated using Adjusted NPAT divided by the weighted average number of ordinary shares outstanding for the period.
Adjusted NPAT	is NPAT for the year attributable to members adjusted for non-recurring items, application of IFRS accounting standards by Golden Grove, LP ('GGLP'), ¹ unrealised gains and losses on derivative financial instruments, and unrealised foreign exchange losses. A reconciliation of Adjusted NPAT to NPAT is set out on page 16 of this presentation.
AISC	is all-in sustaining costs, and is calculated as C1 Costs plus royalties cost, corporate costs, sustaining capital and capitalised development costs, but excludes growth capital and exploration. AISC is cited per pound of payable copper sold and in \$ million terms.
C1 Costs	is mining costs, processing costs, maintenance costs, site general & administrative costs, realisation costs including shipping and logistics costs), and treatment and refining charges, adjusted for stockpile movements and net of by-product credits (non-copper metal related). C1 Costs is cited per pound of payable copper sold and in \$ million terms.
Cu-eq	<p>is copper equivalent contained metal. Cu-eq converts zinc, gold, silver and lead metal produced (contained metal-in-concentrate) to copper equivalent metal on an economic basis. Cu-eq is calculated by applying metal prices and actual or assumed metallurgical recovery. Cu-eq calculations do not apply adjustments for payability or selling costs which differ between metals and between operating sites.</p> <p>Cu-eq metrics cited in this presentation apply actual metallurgical recovery for the period and the following commodity prices:</p> <ul style="list-style-type: none"> ▪ Cu: Mar-Qtr-21 US\$8,490/t, Jun-Qtr-21: US\$9,682/t, Mar-Qtr-22: US\$9,997/t, Jun-Qtr-22: US\$9,541/t ▪ Zn: Mar-Qtr-21 US\$2,749/t, Jun-Qtr-21: US\$2,913/t, Mar-Qtr-22: US\$3,753/t, Jun-Qtr-22: US\$3,933/t ▪ Au: Mar-Qtr-21 US\$1,794/oz, Jun-Qtr-21: US\$1,815/oz, Mar-Qtr-22: US\$1,878/oz, Jun-Qtr-22: US\$1,871/oz ▪ Ag: Mar-Qtr-21 US\$26.3/oz, Jun-Qtr-21: US\$26.6/oz, Mar-Qtr-22: US\$24.0/oz, Jun-Qtr-22: US\$22.7/oz ▪ Pb: Mar-Qtr-21 US\$2,017/t, Jun-Qtr-21: US\$2,123/t, Mar-Qtr-22: US\$2,336/t, Jun-Qtr-22: US\$2,206/t <p>(Source: FactSet)</p>
Drawn Debt	is amounts drawn under Group debt facilities, excluding bank guarantees issued under the Group bank guarantee facility, letters of credit ('LC') issued under the Group LC facility and insurance premium funding.
EBITDA	<p>is earnings before finance income, finance costs, any unrealised foreign exchange gains or losses, any realised and unrealised gains or losses on derivative financial instruments, income tax expense and D&A.</p> <p>Because EBITDA eliminates all gains and losses on forward commodity contracts (copper) and swaps (gold), the non-cash charges for D&A, and unrealised foreign exchange gain or losses, 29Metals considers that EBITDA is useful to help evaluate the operating performance of the business without the impact of those items, and before finance income and finance costs and tax charges, which are significantly affected by the capital structure and historical tax position of 29Metals.</p> <p>A reconciliation of EBITDA to NPAT is set out on page 16 of this presentation.</p>
Net Debt	<p>is total debt including lease liabilities, insurance premium funding, derivative financial assets and liabilities less cash and cash equivalents (excluding cash held as rental security deposit and EMR Capital IPO proceeds retained by 29Metals under cash backed indemnity arrangements described in section 10.6.12.3 of the 29Metals Prospectus²).</p> <p>29Metals uses this measure to understand its overall credit position. Investors should be aware that cash and cash equivalents may be required for purposes other than debt reduction.</p>
Net Cash / Net Drawn Debt	<p>is Drawn Debt less cash and cash equivalents excluding cash held as rental security deposit and EMR Capital IPO proceeds retained by 29Metals under cash backed indemnity arrangements described in section 10.6.12.3 of the 29Metals Prospectus.²</p> <p>29Metals uses this measure to understand its overall credit position. Investors should be aware that cash and cash equivalents may be required for purposes other than debt reduction.</p>
Royalties & Other Selling Costs	is the sum of government royalties and other production and selling costs, including freight.
Site Operating Costs	is the sum of mining costs, processing costs and site services costs.

¹ Refer to Note 34 to the Consolidated Financial Statements for the Group for the year ended 31 December 2021 for further information regarding the 2021 *Restructure and IPO Transactions*, including basis of preparation and the accounting treatment that resulted in Golden Grove, LP, being deemed the "acquirer" for statutory accounting purposes. 29Metals' Appendix 4E and Annual Financial Report was released to the ASX announcements platform on 23 February 2022 and is available on 29Metals' website at: <https://www.29metals.com/investors/reports-presentations>. ² 29Metals Prospectus dated 21 June 2021, a copy of which was released to the ASX announcements platform on 2 July 2021 and is available via 29Metals' website at: <https://www.29metals.com/investors/asx-announcements>.
